# **OFFICIAL STATEMENT**

\$167,665,000

State of Nevada Highway Improvement Revenue (Motor Vehicle Fuel Tax) Bonds Series 2017

[THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK]

In the opinion of Sherman & Howard L.L.C., Bond Counsel for the Series 2017 Bonds, assuming continuous compliance with certain covenants described herein, interest on the Series 2017 Bonds is excluded from gross income under federal income tax laws pursuant to Section 103 of the Internal Revenue Code of 1986, as amended to the date of delivery of the Series 2017 Bonds (the "Tax Code"), and interest on the Series 2017 Bonds is excluded from alternative minimum taxable income as defined in Section 55(b)(2) of the Tax Code except that such interest is required to be included in calculating the "adjusted current earnings" adjustment applicable to corporations for purposes of computing the alternative minimum taxable income of corporations. See "TAX MATTERS — Federal Tax Matters" in Part I of this Official Statement.

#### \$167,665,000 State of Nevada Highway Improvement Revenue (Motor Vehicle Fuel Tax) Bonds Series 2017

DATED: Date of Delivery

DUE: December 1, on the dates shown on the inside cover

Interest on the above-captioned Series 2017 Bonds is payable on June 1 and December 1 of each year, commencing June 1, 2017. Series 2017 Bonds may be purchased in book-entry form only, in the principal amount of \$5,000 or any integral multiple thereof. See "APPENDIX C — BOOK-ENTRY ONLY SYSTEM" in Part I of this Official Statement.

The Series 2017 Bonds or portions thereof are subject to optional redemption prior to maturity on and after June 1, 2027, as set forth herein.

The Series 2017 Bonds are issued pursuant to a bond resolution of the State Board of Finance adopted on November 8, 2016 (the "Bond Resolution"). The Bond Resolution provides that the Series 2017 Bonds shall be payable from any federal aid eligible for the payment of the principal of and interest on the Series 2017 Bonds and from the proceeds of the motor vehicle fuel taxes imposed and collected pursuant to the Fuel Tax Act and credited to the State Highway Fund (the "Gross Pledged Revenues").

The Series 2017 Bonds are special obligations of the State, payable and collectible solely out of the Gross Pledged Revenues. Bondholders may not look to any general or other fund for payment except the special funds pledged under the Bond Resolution. The Series 2017 Bonds do not constitute an indebtedness or a debt within the meaning of any constitutional or statutory provision or limitation, and the Series 2017 Bonds shall not be considered or held to be general obligations of the State. The State does not pledge its full faith and credit for the payment of the Series 2017 Bonds. See "DESCRIPTION OF THE SERIES 2017 BONDS — Security for the Series 2017 Bonds" in Part I of this Official Statement.

For maturity dates, principal amounts, interest rates, yields and CUSIP numbers of the Series 2017 Bonds, see the inside cover of this Official Statement.

The Series 2017 Bonds are offered when, as and if issued by the State and accepted by the underwriter subject to the approval of legality and certain other legal matters by Sherman & Howard L.L.C., Bond Counsel and to certain other conditions. Certain legal matters will be passed upon by Nixon Peabody LLP, as Disclosure Counsel to the State. The Series 2017 Bonds are expected to be available for book-entry delivery on or about February 28, 2017.

This page contains certain information for quick reference only. It is not a summary of this issue. Investors must read the entire Official Statement to obtain information essential to the making of an informed investment decision.

Official Statement Dated: February 7, 2017.

#### SUMMARY

This summary is not a complete description of the Series 2017 Bonds and does not contain all of the information you should consider before making any investment decision with respect to the Series 2017 Bonds. Prospective purchasers of Series 2017 Bonds should read the more detailed information appearing in this Official Statement for a complete understanding about the offering and the terms of security and sources of payment for the Series 2017 Bonds.

# THE BONDS

| Bonds Offered          | State of Nevada Highway Improvement Revenue (Motor Vehicle Fuel Tax)<br>Bonds Series 2017 (the "Series 2017 Bonds")   |
|------------------------|---|
| Interest Payment Dates | June 1 and December 1, commencing June 1, 2017  |
| Redemption Provisions  | The Series 2017 Bonds, or portions thereof in Authorized Denominations (as defined under "DESCRIPTION OF THE SERIES 2017 BONDS" in Part I of this Official Statement) will be subject to optional redemption prior to their respective maturities, at the option of the State of Nevada (the "State"), on and after June 1, 2027, in whole or in part at any time, from any maturities selected by the State and by lot within a maturity, at a redemption price equal to 100% of the principal amount of each Series 2017 Bond, or portion thereof to be redeemed, plus accrued interest thereon to the redemption date. |

# PURPOSE

| Purpose | The Series 2017 Bonds are being issued by the State to fund State highway    |
|---------|--|
|         | construction projects and to pay costs of issuance of the Series 2017 Bonds. |

## SECURITY AND SOURCES OP PAYMENT FOR THE BONDS

Gross Pledged Revenues...... The Series 2017 Bonds are payable from and secured by Gross Pledged Revenues, which consist of the proceeds of State excise taxes on motor vehicle fuel and special fuel (defined as any combustible gas or liquid used for the generation of power for the propulsion of motor vehicles) credited or transferred to the State Highway Fund pursuant to the Fuel Tax Act (as defined in Part III of this Official Statement) and credited to the State Highway Fund and any federal aid eligible for the payment of the principal of and interest on the Series 2017 Bonds. The Bond Resolution excludes from Gross Pledged Revenues certain fuel tax proceeds not collected because of exempt sales and other exempt transactions, any tax proceeds not collected because of the dealers' collections and handling fee, tax proceeds for making refunds, motor vehicle fuel tax proceeds paid on fuel used in watercraft for recreational purposes, tax proceeds imposed and collected and required to be distributed to the counties in the State, tax proceeds derived from motor vehicle fuel used in aircraft, and fuel taxes in an amount required to pay the costs of administration for the collection of any excise tax on gasoline or other motor vehicle fuel, subject to the limitation of not exceeding 1% of the total proceeds so collected.

> The State also has other bonds secured on a parity with the Series 2017 Bonds outstanding and may issue additional parity bonds in the future.

> See "DESCRIPTION OF THE SERIES 2017 BONDS - Security for the Series 2017 Bonds" in Part I of this Official Statement for additional information regarding the security for the Series 2017 Bonds.

# OFFICIAL STATEMENT

#### OF THE STATE OF NEVADA

#### **RELATING TO THE ISSUE AND SALE OF**

# \$167,665,000 HIGHWAY IMPROVEMENT REVENUE (MOTOR VEHICLE FUEL TAX) BONDS SERIES 2017

# **INTRODUCTION**

#### General

This Official Statement of the State of Nevada (the "State"), including the cover page, the inside cover pages and appendices, is provided for the purpose of setting forth information in connection with the sale of the State's Highway Improvement Revenue (Motor Vehicle Fuel Tax) Bonds Series 2017 (the "Series 2017 Bonds").

This Official Statement consists of the cover pages and all prefatory material prior to this introduction, this introduction, and Part I (including all appendices thereto), Part II and Part III (including the appendices thereto).

#### Part I – The Series 2017 Bonds

Part I sets forth information concerning the Series 2017 Bonds, including the payment and redemption provisions, the basis of their authorization and their purposes, the security for the Series 2017 Bonds, the federal income tax treatment of the interest on the Series 2017 Bonds, and certain other matters.

# Part II – The State of Nevada

Part II sets forth certain information relating to the State, including certain financial information relating to the State, and certain economic and demographic information.

## Part III – State Department of Transportation and Pledged Revenues

Part III sets forth certain information relating to the State Department of Transportation (sometimes referred to herein as "NDOT"), the various revenue sources pledged as security for the Series 2017 Bonds, and related matters.

#### Miscellaneous

Potential investors should review this entire Official Statement. The Official Statement speaks only as of its date, and the information contained herein is subject to change. Brief descriptions of the State, the Series 2017 Bonds, the State Department of Transportation, and the State documents authorizing the Series 2017 Bonds (the "Bond Resolution") are included in this Official Statement. All references herein to the Series 2017 Bonds and the Bond Resolution and other documents referred to herein are qualified in their entirety by reference to such documents and all capitalized terms used herein, which are not defined, have the meanings given such terms as set forth in the Bond Resolution.

So far as any statements made in this Official Statement involve matters of opinion, assumptions, projections, anticipated events or estimates, whether or not expressly stated, they are set forth as such and not as presentations of fact, and actual results may differ substantially from those set forth herein. Neither this Official Statement nor any statement that may have been made verbally or in writing is to be construed as a contract with the purchasers or subsequent owners of the Series 2017 Bonds.

The summaries of certain provisions of the Series 2017 Bonds, the State statutes, the Bond Resolution and other documents referred to in this Official Statement do not purport to be complete and reference is made to each of them for a complete statement of their provisions.

A wide variety of other information, including financial information, concerning the State and the State Department of Transportation is available from State agencies, State agency publications and State agency websites. No such information is a part of or incorporated into this Official Statement.

# [THE BALANCE OF THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK]

## PART I

#### INFORMATION CONCERNING THE BONDS BEING OFFERED

#### **DESCRIPTION OF THE SERIES 2017 BONDS**

#### General

The Series 2017 Bonds will be dated the date of delivery and will mature on the dates and in the principal amounts set forth on the inside cover of this Official Statement. The Series 2017 Bonds will be registered in the name of Cede & Co., as nominee of The Depository Trust Company ("DTC"), which will act as securities depository for the Series 2017 Bonds. Beneficial interests in the Series 2017 Bonds may be purchased in book-entry form only, in denominations of \$5,000 or any integral multiple thereof ("Authorized Denominations"). Purchasers of Series 2017 Bonds will not receive certificates representing their ownership interest in the Series 2017 Bonds purchased. The record date for the payment of interest on the Series 2017 Bonds (the "Regular Record Date") is the close of business on the 15th day of the calendar month preceding an interest payment date. Interest will be paid by U.S. Bank National Association, Paying Agent and Registrar (the "Paying Agent" and "Registrar"), on the interest payment date (or if such day is not a business day, on the next succeeding business day) to DTC or its nominee as registered owner of the Series 2017 Bonds. Disbursement of interest, principal and redemption payments is the responsibility of DTC. So long as Cede & Co., as nominee of DTC, is the registered owner of the Series 2017 Bonds, references in this Official Statement to the registered owners of the Series 2017 Bonds will mean Cede & Co., and will not mean the beneficial owners. See "APPENDIX C — BOOK-ENTRY ONLY SYSTEM" in Part I of this Official Statement.

#### Interest

Interest on the Series 2017 Bonds is payable on the dates and at the interest rates shown on the inside cover page of this Official Statement calculated on the basis of a 360-day year of twelve 30-day months.

#### **Redemption of Series 2017 Bonds**

#### **Optional Redemption**

The Series 2017 Bonds, or portions thereof in Authorized Denominations, will be subject to optional redemption prior to their respective maturities, at the option of the State, on and after June 1, 2027, in whole or in part at any time, from any maturities selected by the State and by lot within a maturity, at a redemption price equal to 100% of the principal amount of each Series 2017 Bond, or portion thereof to be redeemed, plus accrued interest thereon to the redemption date.

#### Notice of Redemption

Notice of redemption of any Series 2017 Bonds will be given by the Registrar by electronic mail as long as Cede & Co. or a nominee of a successor depository is the owner of the Series 2017 Bonds, and otherwise by firstclass, postage prepaid mail, at least 30 days but not more than 60 days prior to the redemption date, to DTC, as the registered owner of the Series 2017 Bonds, and electronically to the Municipal Securities Rulemaking Board via its Electronic Municipal Market Access System ("MSRB"), and as otherwise provided in the Bond Resolution. The notice will identify the Series 2017 Bonds or portions thereof to be redeemed, specify the redemption date, and state that on the redemption date the principal amount thereof, accrued interest and premium, if any, thereon will become due and payable at the principal office of the Paying Agent, or such other office as may be designated by the Paying Agent, and that after the redemption date, no further interest will accrue on the principal of any Series 2017 Bond called for redemption. Failure to give such notice as described above to the MSRB or DTC, or any defect therein, shall not affect the validity of the proceedings for the redemption of any other Series 2017 Bond called for redemption. Any notice of redemption may contain a statement that the redemption is conditional upon the receipt by the Paying Agent of funds on or before the date fixed for redemption sufficient to pay the redemption price of the Series 2017 Bonds so called for redemption, and that if such funds are not available, such redemption shall be canceled by written notice to the owners of the Series 2017 Bonds called for redemption in the same manner as the original redemption notice was given.

## Authorization and Purpose of the Series 2017 Bonds

The Series 2017 Bonds are being issued by the State to fund State highway construction projects and to pay costs of issuance of the Series 2017 Bonds. The Series 2017 Bonds are being issued pursuant to the Constitution and laws of the State, including particularly Chapters 365 and 366, Nevada Revised Statutes (the "Fuel Tax Act"); Chapter 408, Nevada Revised Statutes (the "Project Act"); Sections 349.150 to 349.364, inclusive, Nevada Revised Statutes (the "State Securities Law"); and Chapter 348, Nevada Revised Statutes; and a Bond Resolution titled "2016 Highway Improvement Revenue Bond Resolution" adopted by the State of Nevada Board of Finance (the "Board") on November 8, 2016 (the "Bond Resolution"). A copy of the Bond Resolution is on file in the office of the secretary of the Board in Carson City, Nevada, for public inspection.

## Sources and Uses of Funds

The sources and uses of the proceeds of the Series 2017 Bonds are approximately as follows:

| SOURCES                               |                  |
|---------------------------------------|------------------|
| Principal Amount of Series 2017 Bonds | \$167,665,000.00 |
| Premium                               | 18,382,244.65    |
| TOTAL SOURCES                         | \$186,047,244.65 |
| USES                                  |                  |
| Construction Account                  | \$184,995,000.00 |
| Costs of Issuance <sup>(1)</sup>      | 1,052,244.65     |
| TOTAL USES                            | \$186,047,244.65 |

<sup>(1)</sup> Represents legal and financing fees, printing costs, rating fees, underwriter's discount and other miscellaneous expenses relating to the issuance of the Series 2017 Bonds.

## Security for the Series 2017 Bonds

#### Gross Pledged Revenues

The Bond Resolution provides that the Series 2017 Bonds shall be payable from any federal aid eligible for the payment of the principal of and interest on the Series 2017 Bonds and from the proceeds of the motor vehicle Fuel Taxes (as defined in Part III of this Official Statement) imposed and collected pursuant to the Fuel Tax Act and credited to the State Highway Fund (as defined in Part III of this Official Statement) for the payment of principal of and interest on the Series 2017 Bonds (the "Gross Pledged Revenues"). The Bond Resolution excludes from Gross Pledged Revenues certain fuel tax proceeds not collected because of exempt sales and other exempt transactions, any tax proceeds not collected because of the dealers' collections and handling fee, tax proceeds for making refunds, motor vehicle fuel tax proceeds paid on fuel used in watercraft for recreational purposes, tax proceeds imposed and collected and required to be distributed to the counties in the State, tax proceeds derived from motor vehicle fuel used in aircraft, and fuel taxes in an amount required to pay the costs of administration for the collection of any excise tax on gasoline or other motor vehicle fuel, subject to the limitation of not exceeding 1% of the total proceeds so collected (such exclusions being herein the "Direct Distributions and Other Exclusions"). For a more detailed summary of the Gross Pledged Revenues and the Direct Distributions and Other Exclusions, see "REVENUES PLEDGED TO SECURE SERIES 2017 BONDS AND PARITY SECURITIES" in Part III of this Official Statement. For a more detailed summary of the pledge created by the Bond Resolution, see "SUMMARY OF CERTAIN PROVISIONS OF THE BOND RESOLUTION" in this Part I of this Official Statement.

#### Limited Obligation of State

The Series 2017 Bonds are payable and collectible solely out of the Gross Pledged Revenues. The holders of Series 2017 Bonds may not look to any general or other fund for the payment of the Bond Requirements, except the Gross Pledged Revenues. The Series 2017 Bonds do not constitute an indebtedness or a debt within the meaning of any constitutional or statutory provision or limitation; and the Series 2017 Bonds are not general obligations of the State, but constitute its special obligations. The Series 2017 Bonds are not secured by an encumbrance, mortgage or other pledge of property of the State, except the Gross Pledged Revenues and any other moneys pledged for the payment of the Series 2017 Bonds.

## **Existing Parity Securities**

The State currently has five series of highway improvement revenue bonds outstanding in the aggregate principal amount of \$538,500,000, all of which are secured by the Gross Pledged Revenues (the "Existing Parity Securities"). Each series of Existing Parity Securities was authorized and issued pursuant to a bond resolution adopted by the Board that is substantially similar to the Bond Resolution authorizing the Series 2017 Bonds. Existing Parity Securities (and Additional Parity Securities, described below, if and when issued) are secured by the Gross Pledged Revenues on a parity with the Series 2017 Bonds, without priority or preference. For a summary of Existing Parity Securities issued and outstanding see Table 1 in this Part I of this Official Statement.

#### Additional Parity Securities

The Bond Resolution permits the issuance by the State of additional bonds or other additional securities ("Additional Parity Securities") payable from the Gross Pledged Revenues and constituting a lien thereon on a parity with, but not prior or superior to, the lien thereon of the Series 2017 Bonds and the Existing Parity Securities. Existing Parity Securities, the Series 2017 Bonds and Additional Parity Securities are referred to herein as "Parity Securities". The Bond Resolution also permits the issuance of bonds or other securities refunding all or a part of the Series 2017 Bonds, or that are subordinate to the Parity Securities.

The State currently anticipates issuing approximately \$179 million of Additional Parity Securities in 2018. The timing and amount of Additional Parity Securities may change.

Prior to the issuance of Additional Parity Securities (other than refunding securities, which are summarized below), the following conditions must be satisfied:

- <u>Absence of Default</u>. At the time of the adoption of the resolution authorizing the issuance of the Additional Parity Securities, the State shall not be in default in making any required payments with respect to any Parity Securities.
- (ii) <u>Historic Earnings Test</u>. The Gross Pledged Revenues (but excluding any federal aid included as Gross Pledged Revenues) derived for the last fiscal year for which audited Gross Pledged Revenues are available immediately preceding the date of the issuance of the Additional Parity Securities proposed to be issued shall have been sufficient to pay an amount at least equal to 300% of the combined maximum annual principal and interest requirements to be paid during any one Bond Year of the Outstanding Series 2017 Bonds, any Existing Parity Securities and the Additional Parity Securities proposed to be issued to be issued (excluding any reserves therefor), except as otherwise expressly provided in the Bond Resolution.
- (iii) <u>Adjustment of Gross Pledged Revenues</u>. In any computation of such earnings tests as to whether or not Additional Parity Securities may be issued as provided in the preceding paragraph, the amount of the Gross Pledged Revenues for the next preceding fiscal year shall be decreased and may be increased by the amount of loss or gain estimated by the Treasurer, the Controller or an Independent Accountant resulting from any change in the Fuel Tax proceeds and constituting all or a part of the Gross Pledged Revenues, whether a change in the amount periodically paid per gallon, or the portions of the collections thereof credited to the Gross Pledged Revenues, or

modifications to the Direct Distributions and Other Exclusions, or otherwise, during the next preceding fiscal year, as if the schedule of such modified Fuel Tax proceeds had been in effect during the entire next preceding fiscal year, if such change shall have been made by the State prior to such computation of the designated earnings test but made in the same fiscal year in which such computation is made or in the next preceding fiscal year.

(iv) <u>Reduction of Annual Requirements</u>. The respective annual Bond Requirements (including the amount of any prior redemption premiums due on any prior redemption date as of which the State shall have called or shall have obligated itself to call for prior redemption by a call of securities for payment if the securities are subject to call for prior redemption) shall be reduced to the extent such Bond Requirements are scheduled to be paid in each of the respective fiscal years with moneys held in trust or in escrow for that purpose by any trust bank within or without the State, including the known minimum yield from any investment in Federal Securities.

As used in the Bond Resolution, the following terms have the meanings set forth below:

"Bond Requirements" means the principal of, the interest on and any prior redemption premiums due in connection with the Series 2017 Bonds and any other additional bonds or other additional securities payable from the Gross Pledged Revenues, or such part of such other bonds or other securities pertaining to those revenues as may be designated, as such principal, any such premiums, and such interest become due.

"Direct Distributions and Other Exclusions" means the distributions and other exclusions of revenues from the Gross Pledged Proceeds resulting from exempt sales and other exempt transactions, allowances for the dealers' collections and handling fee, refunds, exemption of proceeds pertaining to fuel used in watercraft for recreational purposes or in aircraft, Fuel Taxes imposed and collected for the benefit of counties and certain political subdivisions therein, and administration costs of collecting certain Fuel Taxes, as more specifically delineated in the Bond Resolution.

"Federal Securities" means bills, certificates of indebtedness, notes, bonds or similar securities which are direct obligations of, or the principal and interest of which securities are unconditionally guaranteed by, the United States, or securities which are direct obligations of, or the principal and interest of which securities are conditionally or unconditionally guaranteed by the Federal Government, or other securities of the Federal Government, or other obligations the payment of which is fully secured by a pledge of any such securities.

## Issuance of Refunding Securities

Parity Securities (including the Series 2017 Bonds) may be refunded only if such Parity Securities at the time or times of their required surrender for their payment shall then mature or shall be then callable for prior redemption for the purpose of refunding them at the State's option upon proper call, unless the owner or owners of all Parity Securities of the issue consent to such surrender and payment, regardless of whether the priority of the lien for the payment of any refunding securities on the Gross Pledged Revenues is changed (except as otherwise provided in the Bond Resolution). If only a part of the Outstanding Parity Securities of any issue or issues payable from the Gross Pledged Revenues is refunded, then such securities must not be refunded without the consent of the owner or owners of the unrefunded portion of such securities unless:

- (i) <u>Requirements Not Increased</u>. The refunding bonds or other refunding securities do not increase for any Bond Year the aggregate principal and interest requirements evidenced by such refunding securities and by the Outstanding securities not refunded on and prior to the last maturity date or last Redemption Date, if any, whichever time is earlier, of such unrefunded securities, and unless the lien of any refunding bonds or other refunding securities on the Gross Pledged Revenues is not raised to a higher priority than the lien thereon of the Bonds or other securities thereby refunded; or
- (ii) <u>Subordinate Lien</u>. The lien on any Gross Pledged Revenues for the payment of the refunding securities is subordinate to each such lien for the payment of any securities not refunded; or

(iii) <u>Historic Earnings Test</u>. The refunding bonds are issued in compliance with the requirements summarized under the heading "Additional Parity Securities" above, but excluding from any computation thereunder the bonds or other securities to be refunded and redeemed and which shall forthwith upon the issuance of the refunding bonds be no longer Outstanding.

#### Subordinate Securities Permitted

The Bond Resolution permits the State to issue additional bonds or other additional securities payable from the Gross Pledged Revenues and having a lien on the Gross Pledged Revenues that is junior to the lien thereon securing the Series 2017 Bonds and other Parity Securities.

#### Priority of Application of Gross Pledged Revenues

As long as any of the Series 2017 Bonds remain Outstanding, the Bond Resolution requires that during each fiscal year the Gross Pledged Revenues shall be administered, the money pertaining thereto shall be applied in the order of priority, and payments shall be made from the Gross Pledged Revenues as follows:

<u>First</u>, from the Gross Pledged Revenues, there shall be credited to the Bond Fund and any bond funds created by resolutions authorizing the issuance of any Parity Securities, monthly, commencing on the first day of the month immediately succeeding the delivery of the Parity Securities, an amount in equal monthly installments necessary, together with any other money from time to time available therefor from whatever source, to pay the next maturing installments of principal and interest due on the Outstanding Parity Securities. The moneys credited to the Bond Fund shall be used to pay the Bond Requirements of the Outstanding Parity Securities.

<u>Second</u>, after payment of the amounts required to be made first as set forth above, amounts required to be transferred to the Rebate Account for purposes of compliance with the Internal Revenue Code shall be so transferred.

<u>Third</u>, after payment of the amounts required to be made first and second as set forth above, amounts may be used for payments required to be made with respect to subordinate securities payable from the Gross Pledged Revenues.

After the transfers described above are made, any remaining Gross Pledged Revenues may be used in any fiscal year for any one or any combination of lawful purposes, as the Board or the Director may from time to time determine.

## Pledge of the State

Pursuant to State law, the faith of the State is pledged that the Project Act, the Fuel Tax Act, the State Securities Law, any other law supplemental or otherwise pertaining to the Bond Act, and any other act concerning the Series 2017 Bonds or other State securities, Fuel Taxes or the Gross Pledged Revenues, or any combination of such securities, such taxes and such revenues, shall not be repealed nor amended or otherwise directly or indirectly modified in such manner as to impair adversely the Series 2017 Bonds or any other outstanding State securities, until all such securities have been discharged in full or provision for their payment and redemption has been fully made.

#### **State Make-Up for Reduction in Federal Fuel Tax**

Under current State law, if the tax collected by the Federal Government relating to motor vehicle fuel is reduced or discontinued in whole or in part, the State's motor vehicle fuel tax will increase in an amount equal to the amount by which the federal tax is reduced. This provision, if triggered by federal reductions in the fuel tax, would provide an additional source of revenues to the State Highway Fund comprising Gross Pledged Revenues securing the Series 2017 Bonds.

## **Continuing Disclosure Undertakings**

The State has agreed to certain covenants relating to compliance with Rule 15c2-12 promulgated by the Securities and Exchange Commission (the "SEC") pursuant to the Securities Exchange Act of 1934, as amended ("SEC Rule 15c2-12"). The State has designated Digital Assurance Certification, L.L.C. ("DAC") as its dissemination agent. See Appendix B of this Part I for the form of Disclosure Dissemination Agent Agreement to be entered into by the State with respect to the Bonds.

In connection with other bonds issued by the State, the State has entered into similar continuous disclosure undertakings pursuant to which the State agrees to provide and file annual financial information and notices of specified material events with respect to the applicable bonds. In addition, in connection with various current and advance refundings, the State has designated the applicable paying agent for the bonds to be defeased or redeemed as its representative for purposes of filing notices of defeasance or redemption with the MSRB.

The State became aware that an annual report filing for the fiscal year ended June 30, 2009, due by March 31, 2010, for Nevada Municipal Bond Bank Project Nos. 57-64 Series June 1, 1997B was not on file with the MSRB (the annual report filings for the prior and subsequent fiscal years were properly filed). The State made a supplemental filing to remedy the omission. The State believes that the omission of the filing in 2010 was due to either a clerical error in the filing process or the result of a change in CUSIP number that was not properly recorded.

The State generally offers multiple series of bonds through a single official statement and enters into continuing disclosure arrangements through a single agreement that is applicable to all series of bonds offered under the applicable official statement. In certain instances, one or more series of bonds is secured by revenues that are not available as security for the other series of bonds offered pursuant to the same offering document. It has come to the State's attention that in several financings a continuing disclosure obligation may be applicable to an issue of bonds for which it is not intended, and that is not secured by the revenues with respect to which continuing disclosure information is required. The State has become aware of a limited number of instances of failure to update certain tables, none of which the State believes to be material because the tables update revenue sources that are not available for payment of the issue of bonds for which an update was not provided.

With respect to the State's Motor Vehicle Fuel Tax Revenue Bonds, the State learned that while annual reports were filed for fiscal years ended June 30, 2008 and 2009, updates of certain tables<sup>1</sup> were omitted from the annual report. The affected bonds are no longer outstanding.

With respect to the State's General Obligation (Limited Tax) Bonds (Nevada Municipal Bond Bank Project Nos. R-9A, R-9B, R-9C, R-10, R-11 and R-12) Series 2005F and General Obligation (Limited Tax) (Revenue Supported) Water Refunding Bonds, Series 2005H, notices of redemption of bonds to occur on July 1, 2015 were not on file with the MSRB until June 24, 2015 and July 9, 2015, respectively.

The Office of the State Treasurer believes that, except as set forth above, during the past five years the State has complied in all material respects with any prior written continuing disclosure undertaking pursuant to SEC Rule 15c2-12.

<sup>&</sup>lt;sup>1</sup> These tables were regarding the Public Employees' Retirement System of Nevada ("PERS"). Such information is currently included in State general obligation bond offering documents, but not in offering documents for Highway Revenue (Motor Vehicle Fuel Tax) Bonds, which are not secured by a State general obligation pledge.

# PARITY SECURITIES, GROSS PLEDGED REVENUES AND DEBT SERVICE REQUIREMENTS

# **Existing Parity Securities**

As listed in Table 1 below, the State has five issues of Existing Parity Securities pursuant to the Fuel Tax Act.

# Table 1

# **Existing Parity Securities**

| Existing Parity Securities                                | Original Principal<br>Amount | Principal Balance<br>Outstanding* |
|---|------------------------------|-----------------------------------|
| State of Nevada, Highway Improvement Revenue (Motor       | \$129,970,000                | \$ 8,925,000                      |
| Vehicle Fuel Tax) Bonds, Series 2008                      |                              |                                   |
| State of Nevada, Highway Revenue (Motor Vehicle Fuel Tax) | 66,490,000                   | 39,295,000                        |

The following Table 3 reports Fuel Taxes included in Gross Pledged Revenues for the five fiscal years ended June 30, 2016, and debt service coverage on Existing Parity Securities Outstanding.

## Table 3

| <b>Fuel Taxes and Debt Service Coverage</b> <sup>(1)</sup><br>(000 omitted) |   |   |   |   |   |
|---|---|---|---|---|---|
|   | <u>2012</u>                             | 2013                                    | <u>2014</u>                             | <u>2015</u>                             | <u>2016</u>                             |
| Gas Tax<br>Special Fuel Tax<br>Total Fuel Taxes <sup>(2)(3)</sup>           | \$185,171<br><u>79,198</u><br>\$264,369 | \$185,651<br><u>80,913</u><br>\$266,564 | \$187,784<br><u>79,094</u><br>\$266,878 | \$193,392<br><u>81,120</u><br>\$274,512 | \$200,076<br><u>84,723</u><br>\$284,799 |
| Maximum Annual Debt<br>Service <sup>(4)</sup>                               | <u>\$80,254</u>                         | <u>\$62,657</u>                         | <u>\$68,782</u>                         | <u>\$68,782</u>                         | <u>\$72,264</u>                         |
| Coverage of Maximum<br>Annual Debt Service <sup>(5)</sup>                   | 3.29                                    | 4.25                                    | 3.88                                    | 3.99                                    | 3.94                                    |

(1) Calculated using Fuel Taxes only. Does not include any debt service coverage from federal aid funds discussed under "FEDERAL TRANSPORTATION FUNDING" in Part III of this Official Statement. Fuel Taxes are for fiscal years ended June 30.

<sup>(2)</sup> Fuel Taxes constituting Gross Pledged Revenues do not include "Direct Distributions and Other Exclusions" consisting of tax proceeds that are not collected because of exempt sales and other exempt transactions, dealers' collection and handling fees, tax proceeds to be used for refunds, motor vehicle fuel tax proceeds paid on fuel used in watercraft for recreational purposes, tax proceeds distributed to counties, tax proceeds derived from motor vehicle fuel used in aircraft; and the costs of administration for the collection of excise taxes on gasoline or other motor vehicle fuel (subject to a limitation of not exceeding 1% of the total proceeds so collected).

(3) Appendix A to Part III of this Official Statement consists of a State of Nevada History of State Highway Fund Revenues, Expenditures and Changes in Fund Balances for the five fiscal years ended June 30, 2016. The line item "Other Taxes" in that presentation includes the Fuel Taxes. "Other Taxes" also includes debits that reduce the total amounts reported as "Other Taxes" to amounts less than the amounts of Fuel Taxes reported in this table.

<sup>(4)</sup> Reflects Maximum Annual Debt Service based on bond years ending December 1, calculated as of the applicable Fiscal Year.

<sup>(5)</sup> Table 10 of the State of Nevada Comprehensive Annual Financial Report for Fiscal Year 2016 attached as Exhibit B to Part III of this Official Statement titled "Pledged Revenue Coverage" is an unaudited table which contains different coverage ratios because it includes actual debt service paid in the particular fiscal year, while this Table 3 includes Maximum Annual Debt Service. In addition, the coverage ratios for fiscal years 2012 and 2013 in Table 10 included amounts of refunded principal in 2012 and 2013. The State Controller's office has been notified of the discrepancy and believes including the amounts of refunded principal in 2012 and 2013 was done in error.

Source: NDOT.

Gross Pledged Revenues include federal aid eligible for the payment of the principal of and interest on the Parity Securities. Receipts by the State of federal aid revenues eligible for debt service from Fiscal Years 2012 through 2016 were as follows:

| Fiscal      | Federal Aid Eligible for |
|-------------|--------------------------|
| Year        | Debt Service             |
|             | (in millions)            |
|             |                          |
| 2012        | \$48.30                  |
| 2013        | 50.60                    |

| Source: NDO | Т.                       |

The amount of federal aid eligible for the payment of the principal of and interest on the Parity Securities is based on the annual principal debt service payment and the federal reimbursement percentage. The amount of federal aid eligible for the payment of the principal of and interest on the Parity Securities decreased in 2015 due to a lower principal debt service payment than the previous years. NDOT's federal participation percentage is typically 95% due to the high percentage of federally owned land in the State (i.e., more than 80% of the State).

It should be noted that the portion of federal aid revenues that is eligible to be used to pay debt service, while being included within Gross Pledged Revenues, is not included when performing the debt service coverage calculation required by the Bond Resolution as a condition of the issuance of Additional Parity Securities.

Gross Pledged Revenues consist of the proceeds of motor vehicle Fuel Taxes imposed and collected pursuant to the Fuel Tax Act and credited to the State Highway Fund and any federal aid eligible for the payment of the principal of and interest on the Series 2017 Bonds. The table below shows Gross Pledged Revenues for the five fiscal years ended June 30, 2016:

| Gross Pledged Revenues<br>(000 omitted)                      |                            |                            |                            |                            |                            |

# [THE BALANCE OF THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK]

# SUMMARY OF CERTAIN PROVISIONS OF THE BOND RESOLUTION

*The Bond Resolution.* The Bond Resolution includes the form, terms and conditions of the Series 2017 Bonds, the manner and terms of their issuance, the manner of their execution, the method of their payment, the security therefor and other matters.

*The Bond Fund.* The Board has created a separate account to be held in trust by the State and designated as the "State of Nevada, Highway Parity Revenue Bonds, Gross Pledged Revenues Interest and Bond Retirement Fund" (the "Bond Fund"). The Bond Resolution requires that monthly deposits be made to the Bond Fund from Gross Pledged Revenues in equal installments as necessary to pay the next maturing installments of principal and interest on the Series 2017 Bonds and any Parity Securities. Money in the Bond Fund is required to be transferred to the Paying Agent to pay debt service on the Series 2017 Bonds and any Parity Securities as debt service becomes due.

Gross Pledged Revenues each month in excess of the amounts required to be deposited in the Bond Fund that month are required by the Bond Resolution to be applied as described under the heading "DESCRIPTION OF THE SERIES 2017 BONDS — Security for the Series 2017 Bonds — *Priority of Application of Gross Pledged Revenues*" in Part I of this Official Statement.

Amounts held in the Bond Fund will be accounted for in the State Treasury as a separate trust account in one or more bank accounts as determined by the State Board of Finance or the State Treasurer. Any moneys therein not needed for immediate use may be invested by the State Treasurer in investments permitted under State law. Investment earnings on the Bond Fund will be credited to the State Highway Fund.

*Bonds Outstanding.* In the Bond Resolution, the term "Outstanding" means, when used with reference to the Series 2017 Bonds or any other designated securities and as of any particular date, all the Series 2017 Bonds or any such other securities payable from the Gross Pledged Revenues, in any manner theretofore and thereupon being executed and delivered:

- (i) <u>Except</u> any Series 2017 Bond or other security canceled by the State, or otherwise on the State's behalf, at or before such date;
- (ii) Except any Series 2017 Bond or other security for the payment or the redemption of which moneys at least equal to its Bond Requirements to the date of its maturity or any Redemption Date, whichever date is earlier, if any, shall have theretofore been deposited with a trust bank in escrow or in trust for that purpose, as provided in the Bond Resolution hereof or any similar section of the resolution pursuant to which such other securities were issued (see "Defeasance" below); and
- (iii) <u>Except</u> any Series 2017 Bond or other security in lieu of or in substitution for which another Series 2017 Bond or other security shall have been executed and delivered pursuant to the sections of the Bond Resolution relating to bond transfers.

*Covenants of the State; Amendment of the Bond Resolution.* The Bond Resolution sets forth covenants of the State, including a promise to impose and collect the Fuel Tax Proceeds and to preserve and protect the pledge of the Gross Pledged Revenues. The covenants also include a promise not to repeal or amend or modify Nevada law so as to impair adversely the Series 2017 Bonds.

Amendments to the Bond Resolution. The Bond Resolution can be amended with the written consent of the insurer of the Series 2017 Bonds, if any, or the owners of record of at least 66% in aggregate principal amount of the outstanding Series 2017 Bonds, but no amendment may, without the consent of all Series 2017 Bond owners of record adversely affected thereby, change Series 2017 Bond maturity or redemption provisions, reduce the principal amount of any Series 2017 Bond or the rate of interest thereon, create a lien upon or a pledge of revenues ranking prior to the lien of or to the pledge created by the Bond Resolution, reduce the bondholder consent requirements of the Bond Resolution, establish priorities as between Series 2017 Bonds or materially and prejudicially modify or

otherwise materially and prejudicially affect the rights or privileges of the record owners of less than all of the outstanding Series 2017 Bonds. Each bond resolution authorizing an issue of Existing Parity Securities has substantially the same amendment provisions, but applicable to the issue of Existing Parity Securities authorized and issued pursuant to such bond resolution.

Defeasance. When all Bond Requirements of a Series 2017 Bond or any other securities of any other issue payable from the Gross Pledged Revenues have been duly paid, the pledge and lien and all obligations under the Bond Resolution as to that Series 2017 Bond or other security shall thereby be discharged and the Series 2017 Bond or other security shall no longer be deemed to be Outstanding within the meaning of the Bond Resolution. There shall be deemed to be such due payment if the State, acting by and through the Board, has placed in escrow or in trust with a trust bank exercising trust powers, an amount sufficient (including the known minimum yield available for such purpose from Federal Securities in which such amount wholly or in part may be initially invested) to meet all Bond Requirements of the Series 2017 Bond or other security as such requirements become due to the fixed maturity of the Series 2017 Bond or other security or to any Redemption Date or Redemption Dates as of which the State shall have exercised or shall have obligated itself to exercise its prior redemption option by a call of the Series 2017 Bond or security for payment if the securities are subject to a call for prior redemption. The Federal Securities shall become due prior to the respective times on which the proceeds thereof shall be needed, in accordance with a schedule established and agreed upon between the State and such bank at the time of the creation of the escrow or trust, or the Federal Securities shall be subject to redemption at the option of the owner thereof to assure such availability as so needed to meet such schedule. If at any time the State has so placed in escrow or trust an amount sufficient to pay designated Bond Requirements of the Series 2017 Bond or security constituting less than all of the Bond Requirements of the Series 2017 Bond or security becoming due on and before their respective due dates, whether the fixed maturity dates of the Series 2017 Bonds or security or any such Redemption Date pertaining to the securities, such designated Bond Requirements shall be deemed paid and discharged under the Bond Resolution. The term "Federal Securities" shall include only bills, certificates of indebtedness, notes, bonds or similar securities which are direct obligations of, or the principal of and interest on which securities are unconditionally guaranteed by, the United States which are not callable at the option of the issuer thereof.

*Events of Default; Remedies.* The Bond Resolution includes various events of default, including nonpayment of debt service. No provision is made for acceleration of maturity of the Series 2017 Bonds upon default. Upon the happening and continuance of any of the events of default set forth in the Bond Resolution, the Owner or Owners of not less than 10% in aggregate principal amount of the Series 2017 Bonds then Outstanding, including, without limitation, a trustee or trustees therefor, may proceed against the State and its agents, officers and employees to protect and to enforce the rights of any Owner of Series 2017 Bonds under the Bond Resolution by mandamus or by other suit, action or special proceedings in equity or at law, in any court of competent jurisdiction, either for the appointment of a receiver or for the specific performance of any covenant or agreement set forth in the Bond Resolution or in an award of execution of any power granted in the Bond Resolution for the enforce their rights, or to enjoin any act or thing which may be unlawful or in violation of any right of any Owner of any Series 2017 Bond, or to require the State to act as if it were the trustee of an express trust, or any combination of such remedies. All such proceedings at law or in equity shall be instituted, had and maintained for the equal benefit of all Owners of the Series 2017 Bonds then Outstanding.

## **OPINION OF BOND COUNSEL**

The validity of the Series 2017 Bonds is to be approved by Bond Counsel, whose approving opinion will be delivered with the Series 2017 Bonds. A copy of the proposed text of the approving opinion of Bond Counsel is set forth in Appendix A to Part I of this Official Statement.

# LITIGATION RELATING TO THE SERIES 2017 BONDS

No litigation is pending against the State (with service of process on the State having been accomplished) in any federal or state court, nor is the State a party in any administrative proceeding pending before any administrative body, that seeks to restrain or enjoin the sale or delivery of the Series 2017 Bonds or challenges the constitutionality, validity or enforceability of any document or approval necessary to the issuance of the Series 2017 Bonds.

The staff attorneys of the Nevada Attorney General's Office reported that the State or its officers and employees were parties to numerous lawsuits. In view of the financial condition of the State and based on the information provided by the staff attorneys, the State Attorney General is of the opinion that the State's ability to pay the Series 2017 Bonds will not be materially affected by this litigation, based on information known at the time this Official Statement was prepared. See "STATE LITIGATION" in Part II of this Official Statement for additional information concerning litigation affecting the State.

## TAX MATTERS

## **Federal Tax Matters**

In the opinion of Bond Counsel, assuming continuous compliance with certain covenants described below, interest on the Series 2017 Bonds is excluded from gross income under federal income tax laws pursuant to Section 103 of the Internal Revenue Code of 1986, as amended to the date of delivery of the Series 2017 Bonds (the "Tax Code"), and such interest is excluded from alternative minimum taxable income as defined in Section 55(b)(2) of the Tax Code except that such interest on the Series 2017 Bonds is required to be included in calculating the "adjusted current earnings" adjustment applicable to corporations for purposes of computing the alternative minimum taxable income of corporations as described below.

The Tax Code imposes several requirements which must be met with respect to the Series 2017 Bonds in order for the interest thereon to be excluded from gross income and alternative minimum taxable income (except to the extent of the aforementioned adjustment applicable to corporations). Certain of these requirements must be met on a continuous basis throughout the term of the Series 2017 Bonds. These requirements include: (a) limitations as to the use of proceeds of the Series 2017 Bonds; (b) limitations on the extent to which proceeds of the Series 2017 Bonds may be invested in higher yielding investments; and (c) a provision, subject to certain limited exceptions, that requires all investment earnings on the proceeds of the Series 2017 Bonds above the yield on the Series 2017 Bonds to be paid to the United States Treasury. The State will covenant and represent that it will take all steps to comply with the requirements of the Tax Code to the extent necessary to maintain the exclusion of interest on the Series 2017 Bonds from gross income and alternative minimum taxable income (except to the extent of the aforementioned adjustment applicable to corporations) under such federal income tax laws in effect when the Series 2017 Bonds are delivered. Bond Counsel's opinion as to the exclusion of interest on the Series 2017 Bonds from gross income and alternative minimum taxable income (to the extent described above) is rendered in reliance on these covenants, and assumes continuous compliance therewith. The failure or inability of the State to comply with these requirements could cause such interest to be included in gross income, alternative minimum taxable income or both from the date of issuance. Bond Counsel's opinion also is rendered in reliance upon certifications of the State and other certifications furnished to Bond Counsel. Bond Counsel has not undertaken to verify such certifications by independent investigation.

Section 55 of the Tax Code contains a 20% alternative minimum tax on the alternative minimum taxable income of corporations. Under the Tax Code, 75% of the excess of a corporation's "adjusted current earnings" over the corporation's alternative minimum taxable income (determined without regard to this adjustment and the alternative minimum tax net operating loss deduction) is included in the corporation's alternative minimum taxable income for purposes of the alternative minimum tax applicable to the corporation. "Adjusted current earnings" includes interest on the Series 2017 Bonds.

The Tax Code contains numerous provisions which may affect an investor's decision to purchase the Series 2017 Bonds. Owners of the Series 2017 Bonds should be aware that the ownership of tax-exempt obligations by particular persons and entities, including, without limitation, financial institutions, insurance companies, recipients

of Social Security or Railroad Retirement benefits, taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations, foreign corporations doing business in the United States and certain "subchapter S" corporations may result in adverse federal and state tax consequences. Under Section 3406 of the Tax Code, backup withholding may be imposed on payments on the Series 2017 Bonds made to any owner who fails to provide certain required information, including an accurate taxpayer identification number, to certain persons required to collect such information pursuant to the Tax Code. Backup withholding may also be applied if the owner underreports "reportable payments" (including interest and dividends) as defined in Section 3406, or fails to provide a certificate that the owner is not subject to backup withholding in circumstances where such a certificate is required by the Tax Code. Certain of the Series 2017 Bonds may be sold at a premium, representing a difference between the original offering price of those bonds and the principal amount thereof payable at maturity. Under certain circumstances, an initial owner of such bonds (if any) may realize a taxable gain upon their disposition, even though such bonds are sold or redeemed for an amount equal to the owner's acquisition cost. Bond Counsel's opinion relates only to the exclusion of interest on the Series 2017 Bonds on the Series 2017 Bonds from gross income and alternative minimum taxable income as described above and will state that no opinion is expressed regarding other federal tax consequences arising from the receipt or accrual of interest on or ownership of the Series 2017 Bonds. Owners of the Series 2017 Bonds should consult their own tax advisors as to the applicability of these consequences.

The opinions expressed by Bond Counsel are based on existing law as of the delivery date of the Series 2017 Bonds. No opinion is expressed as of any subsequent date nor is any opinion expressed with respect to pending or proposed legislation. Amendments to the federal or state tax laws may be pending now or could be proposed in the future that, if enacted into law, could adversely affect the value of the Series 2017 Bonds, the exclusion of interest on the Series 2017 Bonds on the Series 2017 Bonds from gross income or alternative minimum taxable income or both from the date of issuance of the Series 2017 Bonds or any other date, or that could result in other adverse tax consequences. In addition, future court actions or regulatory decisions could affect the tax treatment or market value of the Series 2017 Bonds. Owners of the Series 2017 Bonds are advised to consult with their own tax advisors with respect to such matters.

The Internal Revenue Service (the "Service") has an ongoing program of auditing tax-exempt obligations to determine whether, in the view of the Service, interest on such tax-exempt obligations is includable in the gross income of the owners thereof for federal income tax purposes. No assurances can be given as to whether or not the Service will commence an audit of the Series 2017 Bonds. If an audit is commenced, the market value of the Series 2017 Bonds may be adversely affected. Under current audit procedures, the Service will treat the State as the taxpayer and the Series 2017 Bond owners may have no right to participate in such procedures. The State has covenanted not to take any action that would cause the interest on the Series 2017 Bonds to lose its exclusion from gross income for federal income tax purposes or lose its exclusion from alternative minimum taxable income except to the extent described above for the owners thereof for federal income tax purposes. None of the State, the financial advisors, any initial purchaser, Bond Counsel or Disclosure Counsel is responsible for paying or reimbursing any Series 2017 Bond owner with respect to any audit or litigation costs relating to the Series 2017 Bonds.

## **State Tax Exemption**

The Series 2017 Bonds, their transfer, and the income therefrom are free and exempt from taxation by the State or any subdivision thereof except for the tax on estates imposed pursuant to Chapter 375A of NRS and the tax on generation-skipping transfers imposed pursuant to Chapter 375B of NRS.

# FINANCIAL STATEMENTS

The Series 2017 Bonds are not general obligations of the State. The State financial information that is discussed in this paragraph is provided to investors solely as background information concerning the State. The Comprehensive Annual Financial Report of the State of Nevada for the fiscal year ended June 30, 2016 is included as Appendix B to Part III of this Official Statement. Eide Bailly, LLP, certified public accountants and independent auditors for the State, has consented to the inclusion of such Comprehensive Annual Financial Report in this Official Statement.

## RATINGS

Fitch Ratings, Inc., doing business as Fitch Ratings ("Fitch"), Moody's Investors Service, Inc. ("Moody's") and S&P Global Ratings ("S&P") have assigned ratings of "AA+," "Aa2," and "AAA," respectively, to the Series 2017 Bonds. An explanation of the significance of these ratings may be obtained from Fitch at One State Street Plaza, New York, New York 10004; from Moody's at 7 World Trade Center, 250 Greenwich Street, New York, New York 10007, and from S&P at 55 Water Street, New York, New York 10041. Such ratings reflect only the views of the rating agencies.

There is no assurance such ratings will continue for any given period of time or that such ratings will not be revised downward or withdrawn entirely by the rating agencies, if, in their opinion, circumstances so warrant. Any such downward revision or withdrawal of such ratings may have an adverse effect on the marketability and market price of the Series 2017 Bonds to which such ratings are applicable.

#### **UNDERWRITING**

The successful bidder for the Series 2017 Bonds was Merrill Lynch, Pierce, Fenner & Smith Incorporated. The aggregate purchase price of the Series 2017 Bonds is \$185,600,838.26, being the par amount of the Series 2017 Bonds plus a reoffering premium of \$18,382,244.65 and less underwriter's discount of \$446,406.39.

#### FINANCIAL ADVISORS

Hobbs, Ong & Associates, Inc. ("Hobbs, Ong") and Public Financial Management, Inc. ("PFM") are serving as financial advisors to the State in connection with the Series 2017 Bonds. PFM is acting as a subcontractor to Hobbs, Ong. The financial advisors have not audited, authenticated or otherwise verified the information set forth in this Official Statement, or any other related information available to the State, with respect to the accuracy and completeness of disclosure of such information, and no guaranty, warranty or other representation is made by the financial advisors respecting accuracy and completeness of this Official Statement or any other matter related to this Official Statement.

## [THE BALANCE OF THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK]

# AUTHORIZATION

This Official Statement and its use in connection with the offering and sale of the Series 2017 Bonds have been duly authorized by the State.

FORM OF APPROVING OPINION OF BOND COUNSEL

(THIS PAGE INTENTIONALLY LEFT BLANK)

# FORM OF APPROVING OPINION OF BOND COUNSEL

State of Nevada Capitol Building 101 N. Carson, No. 4 Carson City, Nevada 89701

> \$167,665,000 State of Nevada Highway Improvement Revenue (Motor Vehicle Fuel Tax) Bonds Series 2017

Ladies and Gentlemen:

We have acted as bond counsel to the State of Nevada (the "State") in connection with the issuance of its "State of Nevada, Highway Improvement Revenue (Motor Vehicle Fuel Tax) Bonds, Series 2017" in the aggregate principal amount of \$167,665,000 (the "Bonds") pursuant to an authorizing resolution adopted and approved by the State Board of Finance on November 8, 2016 (the "Bond Resolution"). In such capacity, we have examined the State's certified proceedings and such other documents and such law of the State and of the United States of America as we have deemed necessary to render this opinion letter. Capitalized terms not otherwise defined herein shall have the meanings ascribed to them in the Bond Resolution.

Regarding questions of fact material to our opinions, we have relied upon the State's certified proceedings and other representations and certifications of public officials and others furnished to us without undertaking to verify the same by independent investigation.

Based upon such examination, it is our opinion as bond counsel that:

1. The Bonds constitute valid and binding, special, limited obligations of the State payable solely from the Gross Pledged Revenues and from funds and accounts pledged therefor under the Bond Resolution.

2. The Bond Resolution creates a valid lien on the Gross Pledged Revenues and on the Bond Fund pledged therein for the security of the Bonds on a parity with the lien thereon of any Parity Securities heretofore and hereafter issued. Except as described in this paragraph, we express no opinion regarding the priority of the lien on the Gross Pledged Revenues or on the Bond Fund created by the Bond Resolution.

3. Interest on the Bonds is excluded from gross income under federal income tax laws pursuant to Section 103 of the Internal Revenue Code of 1986, as amended to the date hereof (the "Tax Code"), and interest on the Bonds is excluded from alternative minimum taxable income as defined in Section 55(b)(2) of the Tax Code except that such interest is required to be included in calculating the adjusted current earnings adjustment applicable to corporations for purposes of computing the alternative minimum taxable income of corporations. The opinions expressed in this paragraph assume continuous compliance with the covenants and continued accuracy of the representations contained in the State's certified proceedings and in certain other documents and certain other certifications furnished to us.

4. Under laws of the State in effect as of the date hereof, the Bonds, their transfer and the income therefrom are free and exempt from taxation by the State or any subdivision thereof, except for the tax on estates imposed pursuant to Chapter 375A of NRS and the tax on generation-skipping transfers imposed pursuant to Chapter 375B of NRS.

The opinions expressed in this opinion letter are subject to the following:

The obligations of the State pursuant to the Bonds and the Bond Resolution are subject to the application of equitable principles, to the reasonable exercise in the future by the State and its governmental bodies of the police power inherent in the sovereignty of the State and to the exercise by the United States of America of the powers delegated to it by the Federal Constitution, including without limitation, bankruptcy powers.

In this opinion letter rendered in our capacity as bond counsel, we are opining only upon those matters set forth herein, and we are not passing upon the accuracy, adequacy or completeness of the Official Statement or any other statements made in connection with any offer or sale of the Bonds or upon any federal or state tax consequences arising from the receipt or accrual of interest on or the ownership or disposition of the Bonds, except those specifically addressed herein.

This opinion letter is rendered as of the date hereof and we assume no obligation to revise or supplement this opinion letter to reflect any facts or circumstances that may hereafter come to our attention or any changes in law that may hereafter occur.

Respectfully submitted,

# **APPENDIX B**

# FORM OF DISCLOSURE DISSEMINATION AGENT AGREEMENT

(THIS PAGE INTENTIONALLY LEFT BLANK)

# FORM OF DISCLOSURE DISSEMINATION AGENT AGREEMENT

This Disclosure Dissemination Agent Agreement (this "Disclosure Agreement"), dated as of February 28, 2017, is executed and delivered by the State of Nevada (the "Issuer") and Digital Assurance Certification, L.L.C., as exclusive Disclosure Dissemination Agent (the "Disclosure Dissemination Agent" or "DAC") for the benefit of the Holders (hereinafter defined) of the Bonds (hereinafter defined) in order to provide certain continuing disclosure with respect to the Bonds in accordance with Rule 15c2-12 of the United States Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time (the "Rule").

The services provided under this Disclosure Agreement solely relate to the execution of instructions received from the Issuer through use of the DAC system and do not constitute "advice" within the meaning of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Act"). DAC will not provide any advice or recommendation to the Issuer or anyone on the Issuer's behalf regarding the "issuance of municipal securities" or any "municipal financial product" as defined in the Act and nothing in this Disclosure Agreement shall be interpreted to the contrary.

SECTION 1. <u>Definitions</u>. Capitalized terms not otherwise defined in this Disclosure Agreement shall have the meaning assigned in the Rule or, to the extent not in conflict with the Rule, in the Official Statement (hereinafter defined). The capitalized terms shall have the following meanings:

"Annual Filing Date" means the date, set in Section 2(a) and Section 2(f), by which the Annual Report is to be filed with the MSRB.

"Annual Financial Information" means annual financial information as such term is used in paragraph (b)(5)(i) of the Rule and specified in Section 3(a) of this Disclosure Agreement.

"Annual Report" means an Annual Report described in and consistent with Section 3 of this Disclosure Agreement.

"Audited Financial Statements" means the financial statements (if any) of the Issuer for the prior fiscal year, certified by an independent auditor as prepared in accordance with generally accepted accounting principles or otherwise, as such term is used in paragraph (b)(5)(i) of the Rule and specified in Section 3(b) of this Disclosure Agreement.

"Bonds" means the bonds as listed on the attached Exhibit A, with the CUSIP numbers relating thereto.

"Certification" means a written certification of compliance signed by the Disclosure Representative stating that the Annual Report, Audited Financial Statements, Notice Event notice, Failure to File Event notice, Voluntary Event Disclosure or Voluntary Financial Disclosure delivered to the Disclosure Dissemination Agent is the Annual Report, Audited Financial Statements, Notice Event notice, Failure to File Event notice required to be, or the Voluntary Event Disclosure or Voluntary Financial Disclosure elected by the Issuer to be, submitted to the MSRB under this Disclosure Agreement. A Certification shall accompany each such document submitted to the Disclosure Dissemination Agent by the Issuer and include the full name of the Bonds and the CUSIP numbers for all Bonds to which the document applies.

"CUSIP number" means, with respect to any Bonds, the 9-character CUSIP number (the nine characters comprising a combination of digits and letters) relating to such Bonds.

"Disclosure Dissemination Agent" means Digital Assurance Certification, L.L.C, acting in its capacity as Disclosure Dissemination Agent hereunder, or any successor Disclosure Dissemination Agent designated in writing by the Issuer pursuant to Section 9 hereof.

"Disclosure Representative" means the Treasurer of the Issuer or his or her designee, or such other person as the Issuer shall designate in writing to the Disclosure Dissemination Agent from time to time as the person responsible for providing Information to the Disclosure Dissemination Agent.

"Failure to File Event" means the Issuer's failure to file an Annual Report on or before the Annual Filing Date.

"Force Majeure Event" means: (i) acts of God, war, or terrorist action; (ii) failure or shut-down of the Electronic Municipal Market Access system maintained by the MSRB; or (iii) to the extent beyond the Disclosure Dissemination Agent's reasonable control, interruptions in telecommunications or utilities services, failure, malfunction or error of any telecommunications, computer or other electrical, mechanical or technological application, service or system, computer virus, interruptions in Internet service or telephone service (including due to a virus, electrical delivery problem or similar occurrence) that affect Internet users generally, or in the local area in which the Disclosure Dissemination Agent or the MSRB is located, or acts of any government, regulatory or any other competent authority the effect of which is to prohibit the Disclosure Dissemination Agent from performance of its obligations under this Disclosure Agreement.

"Holder" means any person (i) having the power, directly or indirectly, to vote or consent with respect to, or to dispose of ownership of, any Bonds (including persons holding Bonds through nominees, depositories or other intermediaries) or (ii) treated as the owner of any Bonds for federal income tax purposes.

"Information" means, collectively, the Annual Reports, the Audited Financial Statements (if any), the Notice Event notices, the Failure to File Event notices, the Voluntary Event Disclosures and the Voluntary Financial Disclosures.

"MSRB" means the Municipal Securities Rulemaking Board established pursuant to Section 15B(b)(1) of the Securities Exchange Act of 1934.

"Notice Event" means any of the events enumerated in paragraph (b)(5)(i)(C) of the Rule and listed in Section 4(a) of this Disclosure Agreement.

"Obligated Person" means any person, including the Issuer, who is either generally or through an enterprise, fund, or account of such person committed by contract or other arrangement to support payment of all, or part of the obligations on the Bonds (other than providers of municipal bond insurance, letters of credit, or other liquidity facilities) and who, if other than the Issuer, is identified in this Disclosure Agreement as an Obligated Person.

"Official Statement" means that Official Statement prepared by the Issuer in connection with the Bonds listed on Exhibit A.

"Paying Agent" means the paying agent for the Bonds designated by the Issuer, and its successors and assigns.

"Voluntary Event Disclosure" means information of the category specified in any of subsections (e)(vi)(1) through (e)(vi)(11) of Section 2 of this Disclosure Agreement that is accompanied by a Certification of the Disclosure Representative containing the information prescribed by Section 7(a) of this Disclosure Agreement.

"Voluntary Financial Disclosure" means information of the category specified in any of subsections (e)(vii)(1) through (e)(vii)(9) of Section 2 of this Disclosure Agreement that is accompanied by a Certification of the Disclosure Representative containing the information prescribed by Section 7(b) of this Disclosure Agreement.

### SECTION 2. Provision of Annual Reports and Other Disclosures.

(a) The Issuer shall provide, annually, an electronic copy of the Annual Report and Certification to the Disclosure Dissemination Agent not later than the Annual Filing Date. Promptly upon receipt of an electronic copy of the Annual Report and the Certification, the Disclosure Dissemination Agent shall provide an Annual Report to the MSRB not later than March 31 after the end of each fiscal year of the Issuer, commencing with the fiscal year ending June 30, 2017. Such date and each anniversary thereof is the Annual Filing Date. The Annual Report may be submitted as a single document or as separate documents comprising a package, and may cross-reference other information as provided in Section 3 of this Disclosure Agreement.

(b) If on the fifteenth (15th) day prior to the Annual Filing Date, the Disclosure Dissemination Agent has not received a copy of the Annual Report and Certification, the Disclosure Dissemination Agent shall contact the Disclosure Representative by telephone and in writing (which may be by e-mail) to remind the Issuer of its undertaking to provide the Annual Report pursuant to Section 2(a). Upon such reminder, the Disclosure Representative shall either (i) provide the Disclosure Dissemination Agent with an electronic copy of the Annual Report and the Certification no later than two (2) business days prior to the Annual Filing Date, or (ii) instruct the Disclosure Dissemination Agent in writing that the Issuer will not be able to file the Annual Report within the time required under this Disclosure Agreement, state the date by which the Annual Report for such year will be provided and instruct the Disclosure Dissemination Agent that a Failure to File Event has occurred and to immediately send a notice to the MSRB in substantially the form attached as Exhibit B (with the appropriate CUSIP numbers for the affected Bonds).

(c) If the Disclosure Dissemination Agent has not received an Annual Report and Certification by 3:00 p.m. Pacific time on the Annual Filing Date (or, if such Annual Filing Date falls on a Saturday, Sunday or holiday, then the first business day thereafter) for the Annual Report, a Failure to File Event shall have occurred and the Issuer irrevocably directs the Disclosure Dissemination Agent to immediately send a notice to the MSRB in substantially the form attached as Exhibit B (with the appropriate CUSIP numbers for the affected Bonds), without reference to the anticipated filing date for the Annual Report.

(d) If Audited Financial Statements of the Issuer are prepared but not available prior to the Annual Filing Date, the Issuer shall, when the Audited Financial Statements are available, provide in a timely manner an electronic copy to the Disclosure Dissemination Agent, accompanied by a Certification, together with a copy for the Trustee, for filing with the MSRB.

- (e) The Disclosure Dissemination Agent shall:
  - (i) verify the filing specifications of the MSRB each year prior to the Annual Filing Date;
  - (ii) upon receipt, promptly file each Annual Report received under Sections 2(a) and 2(b) with the MSRB;
  - (iii) upon receipt, promptly file each Audited Financial Statement received under Section 2(d) with the MSRB;
  - (iv) upon receipt, promptly file the text of each Notice Event received under Sections 4(a) and 4(b)(ii) with the MSRB, identifying the Notice Event as instructed by the Issuer pursuant to Section 4(a) or 4(b)(ii) (being any of the categories set forth below) when filing pursuant to Section 4(c) of this Disclosure Agreement:
    - 1. "Principal and interest payment delinquencies;"
    - 2. "Non-Payment related defaults, if material;"
    - 3. "Unscheduled draws on debt service reserves reflecting financial difficulties;"

- 4. "Unscheduled draws on credit enhancements reflecting financial difficulties;"
- 5. "Substitution of credit or liquidity providers, or their failure to perform;"
- 6. "Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the Bonds, or other material events affecting the tax status of the Bonds."
- 7. "Modifications to rights of securities holders, if material;"
- 8. "Bond calls, if material;"
- 9. "Defeasances;"
- 10. "Release, substitution, or sale of property securing repayment of the securities, if material;"
- 11. "Rating changes;"
- 12. "Tender offers;"
- 13. "Bankruptcy, insolvency, receivership or similar event of an Obligated Person;"
- 14. "Merger, consolidation, or acquisition of an Obligated Person, if material;" and
- 15. "Appointment of a successor or additional trustee, or the change of name of a trustee, if material;"
- (v) upon receipt (or irrevocable direction pursuant to Section 2(c) of this Disclosure Agreement, as applicable), promptly file a completed copy of Exhibit B to this Disclosure Agreement (with the appropriate CUSIP numbers for the affected Bonds) with the MSRB, identifying the filing as "Failure to provide annual financial information as required" when filing pursuant to Section 2(b)(ii) or Section 2(c) of this Disclosure Agreement;
- (vi) upon receipt, promptly file the text of each Voluntary Event Disclosure received under Section 7(a) with the MSRB, identifying the Voluntary Event Disclosure as instructed by the Issuer pursuant to Section 7(a) (being any of the categories set forth below) when filing pursuant to Section 7(a) of this Disclosure Agreement:
  - 1. "amendment to continuing disclosure undertaking;"
  - 2. "change in Obligated Person;"
  - 3. "notice to investors pursuant to bond documents;"
  - 4. "certain communications from the Internal Revenue Service;"
  - 5. "secondary market purchases;"
  - 6. "bid for auction rate or other securities;"
  - 7. "capital or other financing plan;"

- 8. "litigation/enforcement action;"
- 9. "change of tender agent, remarketing agent, or other on-going party;"
- 10. "derivative or other similar transaction;" and
- 11. "other event-based disclosures;"
- (vii) upon receipt, promptly file the text of each Voluntary Financial Disclosure received under Section 7(b) with the MSRB, identifying the Voluntary Financial Disclosure as instructed by the Issuer pursuant to Section 7(b) (being any of the categories set forth below) when filing pursuant to Section 7(b) of this Disclosure Agreement:
  - 1. "quarterly/monthly financial information;"
  - 2. "change in fiscal year/timing of annual disclosure;"
  - 3. "change in accounting standard;"
  - 4. "interim/additional financial information/operating data;"
  - 5. "budget;"
  - 6. "investment/debt/financial policy;"
  - 7. "information provided to rating agency, credit/liquidity provider or other third party;"
  - 8. "consultant reports;" and
  - 9. "other financial/operating data."
- (viii) provide the Issuer evidence of the filings of each of the above when made, which shall be by means of the DAC system, for so long as DAC is the Disclosure Dissemination Agent under this Disclosure Agreement.

(f) The Issuer may adjust the Annual Filing Date upon change of its fiscal year by providing written notice of such change and the new Annual Filing Date to the Disclosure Dissemination Agent, Trustee (if any) and the MSRB, provided that the period between the existing Annual Filing Date and new Annual Filing Date shall not exceed one year.

(g) Any Information received by the Disclosure Dissemination Agent before 6:00 p.m. Eastern time on any business day that it is required to file with the MSRB pursuant to the terms of this Disclosure Agreement and that is accompanied by a Certification and all other information required by the terms of this Disclosure Agreement will be filed by the Disclosure Dissemination Agent with the MSRB no later than 11:59 p.m. Eastern time on the same business day; provided, however, the Disclosure Dissemination Agent shall have no liability for any delay in filing with the MSRB if such delay is caused by a Force Majeure Event provided that the Disclosure Dissemination Agent uses reasonable efforts to make any such filing as soon as possible.

(h) The Paying Agent may deliver notices of redemption or defeasance of Bonds to the Disclosure Dissemination Agent on behalf of the Issuer for filing pursuant to Section 4. Upon receipt of any such notice, the Disclosure Dissemination Agent shall promptly file the text of such notice with the MSRB in accordance with this Disclosure Agreement.

# SECTION 3. Content of Annual Reports.

(a) Each Annual Report shall contain Annual Financial Information with respect to the Issuer, including Audited Financial Statements, if available, and information of the type included in the tables marked with an asterisk in the lists of tables set forth in the Table of Contents pages of the Official Statement.

(b) Audited Financial Statements shall be prepared in accordance with generally accepted accounting principles ("GAAP"). If audited financial statements are not available, then, unaudited financial statements, prepared in accordance with GAAP as described in the Official Statement will be included in the Annual Report. Audited Financial Statements (if any) will be provided pursuant to Section 2(d).

Any or all of the items listed above may be included by specific reference to other documents, including official statements of debt issues with respect to which the Issuer is an Obligated Person, which have been previously filed with the Securities and Exchange Commission or available to the public on the MSRB Internet website. If the document incorporated by reference is a final official statement, it must be available from the MSRB. The Issuer will clearly identify each such document so incorporated by reference.

Any Annual Financial Information containing modified operating data or financial information is required to explain, in narrative form, the reasons for the modification and the impact of the change in the type of operating data or financial information being provided.

# SECTION 4. <u>Reporting of Notice Events</u>.

(a) The occurrence of any of the following events with respect to the Bonds constitutes a Notice Event:

- 1. Principal and interest payment delinquencies;
- 2. Non-payment related defaults, if material;
- 3. Unscheduled draws on debt service reserves reflecting financial difficulties;
- 4. Unscheduled draws on credit enhancements reflecting financial difficulties;
- 5. Substitution of credit or liquidity providers, or their failure to perform;
- 6. Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the Bonds, or other material events affecting the tax status of the Bonds;
- 7. Modifications to rights of Bond holders, if material;
- 8. Bond calls, if material, and tender offers;
- 9. Defeasances;
- 10. Release, substitution, or sale of property securing repayment of the Bonds, if material;
- 11. Rating changes;
- 12. Bankruptcy, insolvency, receivership or similar event of the Obligated Person;

Note to subsection (a)(12) of this Section 4: For the purposes of the event described in subsection (a)(12) of this Section 4, the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for an Obligated Person in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the Obligated Person, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the Obligated Person.

- 13. The consummation of a merger, consolidation, or acquisition involving an Obligated Person or the sale of all or substantially all of the assets of the Obligated Person, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; and
- 14. Appointment of a successor or additional trustee or the change of name of a trustee, if material.

The Issuer (or the Paying Agent on behalf of the Issuer pursuant to Section 2(h)) shall, in a timely manner not in excess of ten business days after its occurrence, notify the Disclosure Dissemination Agent in writing of the occurrence of a Notice Event. Such notice shall instruct the Disclosure Dissemination Agent to report the occurrence pursuant to subsection (c) and shall be accompanied by a Certification. Such notice or Certification shall identify the Notice Event that has occurred (which shall be any of the categories set forth in Section 2(e)(iv) of this Disclosure Agreement), include the text of the disclosure that the Issuer desires to make, contain the written authorization of the Issuer for the Disclosure Dissemination Agent to disseminate such information, and identify the date the Issuer desires for the Disclosure Dissemination Agent to disseminate the information (provided that such date is not later than the tenth business day after the occurrence of the Notice Event).

(b) The Disclosure Dissemination Agent is under no obligation to notify the Issuer or the Disclosure Representative of an event that may constitute a Notice Event. In the event the Disclosure Dissemination Agent so notifies the Disclosure Representative, the Disclosure Representative will within two business days of receipt of such notice (but in any event not later than the tenth business day after the occurrence of the Notice Event, if the Issuer determines that a Notice Event has occurred), instruct the Disclosure Dissemination Agent that (i) a Notice Event has not occurred and no filing is to be made or (ii) a Notice Event has occurred and the Disclosure Dissemination Agent is to report the occurrence pursuant to subsection (c) of this Section 4, together with a Certification. Such Certification shall identify the Notice Event that has occurred (which shall be any of the categories set forth in Section 2(e)(iv) of this Disclosure Agreement), include the text of the disclosure that the Issuer desires to make, contain the written authorization of the Issuer for the Disclosure Dissemination Agent to disseminate such information, and identify the date the Issuer desires for the Disclosure Dissemination Agent to disseminate the information (provided that such date is not later than the tenth business day after the occurrence of the Notice Event).

(c) If the Disclosure Dissemination Agent has been instructed by the Issuer (or by the Paying Agent on behalf of the Issuer pursuant to Section 2(h)) as prescribed in subsection (a) or (b)(ii) of this Section 4 to report the occurrence of a Notice Event, the Disclosure Dissemination Agent shall promptly file a notice of such occurrence with the MSRB in accordance with Section 2(e)(iv) hereof. The Disclosure Dissemination Agent shall promptly deliver to the Disclosure Representative (and Paying Agent with respect to notices filed at the Paying Agent's direction pursuant to Section 2(h)) evidence of confirmation of such filing with the MSRB. SECTION 5. <u>CUSIP Numbers</u>. Whenever providing information to the Disclosure Dissemination Agent, including but not limited to Annual Reports, documents incorporated by reference to the Annual Reports, Audited Financial Statements, Notice Event notices, Failure to File Event notices, Voluntary Event Disclosures and Voluntary Financial Disclosures, the Issuer shall indicate the full name of the Bonds and the CUSIP numbers for the Bonds as to which the provided information relates.

SECTION 6. <u>Additional Disclosure Obligations</u>. The Issuer acknowledges and understands that other state and federal laws, including but not limited to the Securities Act of 1933 and Rule 10b-5 promulgated under the Securities Exchange Act of 1934, may apply to the Issuer, and that the failure of the Disclosure Dissemination Agent to so advise the Issuer shall not constitute a breach by the Disclosure Dissemination Agent of any of its duties and responsibilities under this Disclosure Agreement. The Issuer acknowledges and understands that the duties of the Disclosure Dissemination Agent relate exclusively to execution of the mechanical tasks of disseminating information as described in this Disclosure Agreement.

### SECTION 7. Voluntary Filings.

(a) The Issuer may instruct the Disclosure Dissemination Agent to file a Voluntary Event Disclosure with the MSRB from time to time pursuant to a Certification of the Disclosure Representative. Such Certification shall identify the Voluntary Event Disclosure (which shall be any of the categories set forth in Section 2(e)(vi) of this Disclosure Agreement), include the text of the disclosure that the Issuer desires to make, contain the written authorization of the Issuer for the Disclosure Dissemination Agent to disseminate such information, and identify the date the Issuer desires for the Disclosure Dissemination Agent to disseminate the information. If the Disclosure Dissemination Agent has been instructed by the Issuer as prescribed in this Section 7(a) to file a Voluntary Event Disclosure, the Disclosure Dissemination Agent shall promptly file such Voluntary Event Disclosure with the MSRB in accordance with Section 2(e)(vi) hereof.

(b) The Issuer may instruct the Disclosure Dissemination Agent to file a Voluntary Financial Disclosure with the MSRB from time to time pursuant to a Certification of the Disclosure Representative. Such Certification shall identify the Voluntary Financial Disclosure (which shall be any of the categories set forth in Section 2(e)(vii) of this Disclosure Agreement), include the text of the disclosure that the Issuer desires to make, contain the written authorization of the Issuer for the Disclosure Dissemination Agent to disseminate such information, and identify the date the Issuer desires for the Disclosure Dissemination Agent to disseminate the information. If the Disclosure Dissemination Agent has been instructed by the Issuer as prescribed in this Section 7(b) to file a Voluntary Financial Disclosure, the Disclosure Dissemination Agent shall promptly file such Voluntary Financial Disclosure with the MSRB in accordance with Section 2(e)(vii) hereof.

(c) The parties hereto acknowledge that the Issuer is not obligated pursuant to the terms of this Disclosure Agreement to file any Voluntary Event Disclosure pursuant to Section 7(a) hereof or any Voluntary Financial Disclosure pursuant to Section 7(b) hereof.

(d) Nothing in this Disclosure Agreement shall be deemed to prevent the Issuer from disseminating any other information through the Disclosure Dissemination Agent using the means of dissemination set forth in this Disclosure Agreement or including any other information in any Annual Report, Audited Financial Statements, Notice Event notice, Failure to File Event notice, Voluntary Event Disclosure or Voluntary Financial Disclosure, in addition to that required by this Disclosure Agreement. If the Issuer chooses to include any information in any Annual Report, Audited Financial Statements, Notice Event notice, Failure to File Event notice, Voluntary Event Disclosure or Voluntary Financial Disclosure in addition to that which is specifically required by this Disclosure Agreement, the Issuer shall have no obligation under this Disclosure Agreement to update such information or include it in any future Annual Report, Audited Financial Statements, Notice Event notice, Failure to File Event notice, Failure to File Event notice, Voluntary Event Disclosure or Voluntary Financial Disclosure agreement, the Issuer shall have no obligation under this Disclosure Agreement to update such information or include it in any future Annual Report, Audited Financial Statements, Notice Event notice, Failure to File Event notice, Failure to File Event notice, Voluntary Event Disclosure or Voluntary Financial Disclosure.

SECTION 8. <u>Termination of Reporting Obligation</u>. The obligations of the Issuer and the Disclosure Dissemination Agent under this Disclosure Agreement shall terminate with respect to an issue of the Bonds upon the legal defeasance, prior redemption or payment in full of all of the Bonds of such issue, when the Issuer is no longer an Obligated Person, or upon delivery by the Disclosure Representative to the Disclosure Dissemination Agent of an opinion of nationally recognized bond counsel to the effect that continuing disclosure is no longer required.

SECTION 9. <u>Disclosure Dissemination Agent</u>. The Issuer has appointed Digital Assurance Certification, L.L.C. as exclusive Disclosure Dissemination Agent under this Disclosure Agreement. The Issuer may, upon thirty days written notice to the Disclosure Dissemination Agent and the Trustee, replace or appoint a successor Disclosure Dissemination Agent. Upon termination of DAC's services as Disclosure Dissemination Agent, whether by notice of the Issuer or DAC, the Issuer agrees to appoint a successor Disclosure Dissemination Agent of the Issuer of DAC, the Issuer agrees to appoint a successor Disclosure Dissemination Agent or, alternately, agrees to assume all responsibilities of Disclosure Dissemination Agent under this Disclosure Agreement for the benefit of the Holders of the Bonds. Notwithstanding any replacement or appointment of a successor, the Issuer shall remain liable, until payment in full, for any and all sums owed and payable to the Disclosure Dissemination Agent. The Disclosure Dissemination Agent may resign at any time by providing thirty days' prior written notice to the Issuer.

SECTION 10. <u>Remedies in Event of Default</u>. In the event of a failure of the Issuer or the Disclosure Dissemination Agent to comply with any provision of this Disclosure Agreement, the Holders' rights to enforce the provisions of this Disclosure Agreement shall be limited solely to a right, by action in mandamus or for specific performance, to compel performance of the parties' obligation under this Disclosure Agreement. Any failure by a party to perform in accordance with this Disclosure Agreement shall not constitute a default on the Bonds or under any other document relating to the Bonds, and all rights and remedies shall be limited to those expressly stated herein.

# SECTION 11. Duties, Immunities and Liabilities of Disclosure Dissemination Agent.

(a) The Disclosure Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Agreement. The Disclosure Dissemination Agent's obligation to deliver the information at the times and with the contents described herein shall be limited to the extent the Issuer has provided such information Agent shall have no duty with respect to the content of any disclosures or notice made pursuant to the terms hereof. The Disclosure Dissemination Agent shall have no duty or obligation to review or verify any Information or any other information, disclosures or notices provided to it by the Issuer and shall not be deemed to be acting in any fiduciary capacity for the Issuer's failure to report to the Disclosure Dissemination Agent a Notice Event or a duty to determine the materiality thereof. The Disclosure Dissemination Agent shall have no duty to determine, whether the Issuer has complied with this Disclosure Agreement. The Disclosure Disconsure Dissemination Agent and the Bonds or any other party. The Disclosure Dissemination Agent shall have no figure to report to the Disclosure Dissemination Agent a Notice Event or a duty to determine the materiality thereof. The Disclosure Dissemination Agent shall have no duty to determine, or liability for failing to determine, whether the Issuer has complied with this Disclosure Agreement. The Disclosure Dissemination Agent may conclusively rely upon certifications of the Issuer at all times.

The obligations of the Issuer under this Section shall survive resignation or removal of the Disclosure Dissemination Agent and defeasance, redemption or payment of the Bonds.

(b) The Disclosure Dissemination Agent may, from time to time, consult with legal counsel (either inhouse or external) of its own choosing in the event of any disagreement or controversy, or question or doubt as to the construction of any of the provisions hereof or its respective duties hereunder, and shall not incur any liability and shall be fully protected in acting in good faith upon the advice of such legal counsel. The reasonable fees and expenses of such counsel shall be payable by the Issuer.

(c) All documents, reports, notices, statements, information and other materials provided to the MSRB under this Disclosure Agreement shall be provided in an electronic format and accompanied by identifying information as prescribed by the MSRB.

SECTION 12. <u>Amendment; Waiver</u>. Notwithstanding any other provision of this Disclosure Agreement, the Issuer and the Disclosure Dissemination Agent may amend this Disclosure Agreement and any provision of this Disclosure Agreement may be waived, if such amendment or waiver is supported by an opinion of counsel expert in federal securities laws acceptable to both the Issuer and the Disclosure Dissemination Agent to the effect that such amendment or waiver does not materially impair the interests of Holders of the Bonds and would not, in and of itself, cause the undertakings herein to violate the Rule if such amendment or waiver had been effective on the date hereof but taking into account any subsequent change in or official interpretation of the Rule; provided neither the Issuer nor the Disclosure Dissemination Agent shall be obligated to agree to any amendment modifying their respective duties or obligations without their consent thereto. Notwithstanding the preceding paragraph, the Disclosure Dissemination Agent shall have the right to adopt amendments to this Disclosure Agreement necessary to comply with modifications to and interpretations of the provisions of the Rule as announced by the Securities and Exchange Commission from time to time by giving not less than 20 days prior written notice of the intent to do so together with a copy of the proposed amendment to the Issuer. No such amendment shall become effective if the Issuer shall, within 10 days following the giving of such notice, send a notice to the Disclosure Dissemination Agent in writing that it objects to such amendment.

SECTION 13. <u>Beneficiaries</u>. This Disclosure Agreement shall inure solely to the benefit of the Issuer, the Trustee of the Bonds, the Disclosure Dissemination Agent, the underwriter, and the Holders from time to time of the Bonds, and shall create no rights in any other person or entity.

SECTION 14. <u>Governing Law</u>. This Disclosure Agreement and the rights and obligations of the parties hereto shall be governed by, and construed according to, the laws of the State of Nevada. The Disclosure Dissemination Agent consents to the jurisdiction of the Nevada district courts for enforcement of this Disclosure Agreement.

SECTION 15. <u>Counterparts</u>. This Disclosure Agreement may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

[Signature page follows]

The Disclosure Dissemination Agent and the Issuer have caused this Disclosure Dissemination Agent Agreement to be executed, on the date first written above, by their respective officers duly authorized.

Issuer:

State of Nevada

Name of Bond Issue:

Highway Improvement Revenue (Motor Vehicle Fuel Tax) Bonds Series 2017

Date of Issuance:

February 28, 2017

NOTICE IS HEREBY GIVEN that the Issuer has not provided an Annual Report with respect to the abovenamed Bonds as required by the Disclosure Dissemination Agent Agreement between the Issuer and Digital Assurance Certification, L.L.C., as Disclosure Dissemination Agent. The Issuer has notified the Disclosure Dissemination Agent that it anticipates that the Annual Report will be filed by \_\_\_\_\_\_.

Dated:

Digital Assurance Certification, L.L.C., as Disclosure Dissemination Agent, on behalf of the Issuer

cc: Issuer Obligated Person (THIS PAGE INTENTIONALLY LEFT BLANK)

### **APPENDIX C**

### **BOOK-ENTRY ONLY SYSTEM**

### The information contained in this Appendix has been extracted from a document prepared by DTC, entitled "SAMPLE OFFERING DOCUMENT LANGUAGE DESCRIBING BOOK-ENTRY-ONLY ISSUANCE."

The Depository Trust Company ("DTC"), New York, NY, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered Bonds registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond certificate will be issued for each maturity of each series of Bonds, in the aggregate principal amount thereof, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized bookentry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in the Bonds to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the State as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal, interest and redemption proceeds on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the State or the Paying Agent, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC nor its nominee, the Paying Agent, or the State, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, interest or redemption proceeds to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the State or the Paying Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the State or the Paying Agent. Under such circumstances, in the event that a successor depository is not obtained, Bonds are required to be printed and delivered.

The State may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Bonds will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the State believes to be reliable, but the State takes no responsibility for the accuracy thereof. The information contained in the website referred to in the preceding material or in any other website referred to therein is not incorporated by reference in this Official Statement.

# PART II

### INFORMATION CONCERNING THE STATE OF NEVADA

Part II of this Official Statement contains information concerning the State, and supplements the information contained in the other parts of this Official Statement. This Official Statement, including the cover, the inside cover pages, Part I and the appendices thereto, this Part II, Part III and the appendices thereto, and any financial statements expressly incorporated herein by reference, should be read in its entirety.

# **GOVERNMENT STRUCTURE**

Nevada's Constitution was approved in 1864 and has been amended from time to time. The Constitution provides for three branches of government: legislative, executive and judicial. The legislative branch is made up of a Senate and an Assembly. State Senators are elected for four-year terms, and members of the State Assembly are elected for two-year terms.

The State Legislature convenes biennially in odd-numbered years. The most recent regular (78<sup>th</sup>) biennial legislative session convened on February 2, 2015 and adjourned on June 1, 2015. Special sessions of the State Legislature may be convened by the Governor by proclamation or by the State Legislature by a petition specifying the business to be transacted in the session and signed by two-thirds of the legislators of each house. Most recently, the State Legislature held a special session from October 10 - 14, 2016. The 79<sup>th</sup> session of the State Legislature will begin on February 6, 2017.

There are 21 Senators and 42 members of the Assembly. Nevada's elected Constitutional officers are the Governor, Lieutenant Governor, Secretary of State, Treasurer, Controller, and Attorney General, all of whom are elected for four-year terms. All Constitutional officers are limited to two terms. Supreme Court justices are elected on a non-partisan ballot for six-year terms.

Following are the State's Constitutional officers:

| Office              | Name                | Political Party<br><u>Affiliation</u> | Term First<br><u>Commenced</u> | Term<br><u>Expires</u> |
|---------------------|---------------------|---------------------------------------|--------------------------------|------------------------|
| Governor            | Brian Sandoval      | Republican                            | 2011                           | 2019                   |
| Lieutenant Governor | Mark Hutchison      | Republican                            | 2015                           | 2019                   |
| Secretary of State  | Barbara K. Cegavske | Republican                            | 2015                           | 2019                   |
| Treasurer           | Daniel M. Schwartz  | Republican                            | 2015                           | 2019                   |
| Controller          | Ronald L. Knecht    | Republican                            | 2015                           | 2019                   |
| Attorney General    | Adam Paul Laxalt    | Republican                            | 2015                           | 2019                   |

The Board of Finance, consisting of the Governor, the Treasurer, the Controller, and two additional members appointed by the Governor, may issue and redeem securities on behalf of the State, when authorized by law, as provided in NRS Sections 349.150 through 349.364.

County governments in Nevada are managed by boards of county commissioners or the equivalent. There are 17 counties in the State. Cities are governed by general acts, and 13 of the cities are also governed by special charters granted by the State Legislature.

Representation in the United States Congress is by two Senators and four Representatives.

As of December 1, 2016, there were approximately 17,837 permanent and non-permanent (emergency, provisional and temporary) full-time equivalent State employees excluding employees of the Nevada System of Higher Education, courts and legislature. The State does not have collective bargaining agreements with employee unions. As of January 1, 2016, approximately 3,174 State employees were members of voluntary employee/labor organizations that represent the interests of their members. The State considers its relations with its employees to be satisfactory.

### ECONOMIC AND DEMOGRAPHIC INFORMATION

### General

This portion of Part II of this Official Statement contains general information concerning the economic and demographic conditions in the State. It is provided so that prospective investors will be aware of factors that may affect future development and growth within the State. The information presented was obtained from the sources indicated, and the State does not guarantee or make any representation as to the accuracy or completeness of the data presented.

### **Population and Age Distribution**

Nevada's population increased from 1,201,833 residents in 1990 to 1,998,257 residents in 2000 and to 2,724,634 residents in 2010, an increase of approximately 66% between 1990 and 2000 and approximately 127% between 1990 and 2010. In 2015, Nevada's population increased by 1.9% from the previous year. Historical and estimated State population figures, by county, are shown in the following table:

|              | 1990      | 2000      | 2010      | 2012      | 2013      | 2014      | 2015      |
|--------------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|
| Carson City  | 40,443    | 52,457    | 55,850    | 55,441    | 54,668    | 53,969    | 54,273    |

### Sales and Use Tax

Aggregate sales and use taxes imposed in Nevada's counties currently range from 6.85% to 8.15% (Elko County and Clark County respectively). Effective April 1, 2017 Clark County's sales and use tax rate will increase to 8.25% and Washoe County's will increase to 8.265%. The State General Fund's share (2%) is a major source of revenue for the State's General Fund. Clark County and Washoe County are the major sources of taxable sales revenue in the State. The following table presents a record of taxable sales in the State:

| Fiscal Year         | Taxable           | Percentage |
|---------------------|-------------------|------------|
| Ended June 30       | Sales             | Change     |
| 2012                | \$ 42,954,750,131 |            |
| 2013                | 45,203,408,413    | 5.23%      |
| 2014                | 47,440,345,167    | 4.95       |
| 2015                | 50,347,535,951    | 6.13       |
| 2016                | 52,788,295,421    | 4.85       |
| Jul 2015 – Oct 2015 | 17,267,720,332    |            |
| Jul 2016 – Oct 2016 | 18,279,288,705    | 5.86%      |

### **Gaming and Tourism**

The economy of Nevada is largely dependent upon a tourism industry based upon legalized gaming and related forms of entertainment. The industry represents a significant source of revenues to the State, county and local jurisdictions in which gaming companies operate. For three of the past five fiscal years (2012 to 2016), gross taxable gaming revenue has increased. During prior fiscal years, the increases in gaming win have been driven primarily by increased convention attendance and visitation on the Las Vegas Strip in addition to record win amounts in baccarat. However, in Fiscal Years 2015 and 2016, the increases in gaming win were driven by markets outside of the Las Vegas Strip. Although gaming collections from all sources have increased during three of the past five fiscal years (2012 to 2016), during the past two fiscal years (2015 and 2016), state gaming collections from all sources have experienced decreases. It should be noted that the primary reason for the decrease in gaming collections during Fiscal Year 2016 was \$24.7 million in tax credits applied against Percentage Fees. Furthermore, legislative changes made during the 2015 session to the Live Entertainment Tax further reduced collections during Fiscal Year 2016. The following table represents a record of gross taxable gaming revenues in the State and total State gaming taxes and fees collected.

 Table 10<sup>(1)</sup>

 Gross Taxable Gaming Revenues and Total Gaming Taxes

| Fiscal Year     | I Year Gross Taxable Gaming Revenue <sup>(2)</sup> |          | State Gaming   | State Gaming Collection <sup>(3)</sup> |  |
|-----------------|--|----------|----------------|--|--|
| Ended June 30   | State Total  | % Change | State Total    | % Change                               |  |
| 2012            | \$ 9,764,332,506                                   |          | \$ 864,621,791 |  |  |
| 2013            | 10,208,528,371                                     | 4.49%    | 892,106,457    | 3.18%                                  |  |
| 2014            | 10,208,211,093                                     | -0.003   | 912,371,316    | 2.27                                   |  |
| 2015            | 10,511,527,575                                     | 2.97     | 909,857,085    | -0.28                                  |  |
| 2016            | 10,612,567,883                                     | 0.96     | 876,040,147    | -3.72                                  |  |

| Jul 16 – Nov 16 | 4,551,279,380                                      | 5.34%    | 338,700,233    | 1.71%                                  |  |

<sup>(1)</sup> The figures shown are subject to adjustments due to amended tax filings, fines and penalties.

<sup>(2)</sup> The total of all sums received as winnings less only the total of all sums paid out as losses (before operating expenses).

(3) Based upon the taxable revenues generated in the previous month. Cash receipts of the State from all sources relating to gaming (General Fund and other revenues) including percentage license fees, quarterly flat license fees, annual license fees, casino entertainment taxes, annual slot machine taxes, penalties, advance fees, and miscellaneous collections. A portion of collections is deposited to the State funds other than the State's General Fund.

Source: State of Nevada - Gaming Control Board.

*Gaming Is a Highly Regulated Industry*. The five-member Nevada Gaming Commission and the threemember Nevada Gaming Control Board, both appointed by the Governor, investigate and approve all licenses, establish operating rules, monitor the activities of licensed establishments and collect State gaming fees and taxes. In addition to the State, local governments also license, levy taxes and regulate gaming establishments and licensees. The laws, regulations and ordinances of both state and local governments regulate the licensing, operations and financial stability of the businesses as well as the background and character of the owners, managers, and persons with financial interests in the gaming.

*The Gaming Industry Is Highly Competitive*. Prior to the 1980s, Nevada was the only state with legalized casino gaming, although some forms of gaming, such as pari-mutuel horse, dog and jai alai betting, existed in other states. A significant proliferation of casino and other forms of gaming has occurred outside of Nevada, both nationally and internationally, in recent years. According to the American Gaming Association, there are currently 43 states with some form of legalized commercial or tribal gaming, including land-based casinos, riverboats, racetrack casinos ("racinos") and electronic gaming devices at bars, restaurants or other licensed establishments. In many of these states, there are multiple forms of gaming in operation. Overall, 24 states have commercial (land-based or riverboat) casinos, including 14 with racetrack casinos; 28 states have tribal casinos; and seven states have legal electronic gaming devices in non-casino/racino locations. While Nevada continues to be the largest commercial casino market in the U.S., California generates the most gaming revenue at Indian gaming facilities.

Gaming continues to expand in foreign countries as well. Nevada no longer enjoys a near-monopoly on the United States gaming market as it did historically. Competition from casino gaming, state-run lotteries and other forms of gaming will likely continue to increase in the future. The impact of such expansion and proliferation upon Nevada's gaming economy is uncertain.

Information relating to the occupancy rates of hotels is not available on a state-wide basis. This information is generally only available for Clark County (Las Vegas) and for Washoe County (Reno and Sparks) as provided in the following tables:

### Transportation

Las Vegas and Reno, the State's two major population centers, are 400 miles apart. Both cities have airports designated as international ports of entry and are served by scheduled airlines and supplemental charter carriers.

McCarran International Airport in Las Vegas reported having a total of 45.38 million commercial and charter passengers enplaned and deplaned in 2015, making the year the third busiest year in the airport's 67-year history. This reflects an increase from 42.86 million in 2014, an increase of 2.51 million passengers, or 5.9 percent, over the period.

The Reno/Tahoe International Airport reported having a total of 3.43 million commercial and charter passengers enplaned and deplaned in 2015, an increase from 3.30 million in 2014. This reflects an increase of approximately 127,500 passengers or 3.9 percent over the period.

Two major railroads cross Nevada, while short lines serve as feeders. Several national bus lines and trucking lines serve the State.

There are nine federal highways in Nevada, three of which are part of the interstate system. Interstate 15, connecting Salt Lake City and San Diego, passes through Las Vegas and provides convenient access to the Los Angeles area. Interstate 80 connects with the San Francisco Bay area and the Reno-Sparks area. Interstate 580 connects Reno and Carson City. NDOT is partnering with Arizona Department of Transportation to plan an interstate (Interstate 11) link between Las Vegas and Phoenix, with the potential of extending north to Canada and south to Mexico. For more information regarding Interstate 11, see "SUPPORT FOR STATE HIGHWAY SYSTEM – Federal Aid Highway System" in Part III of this Official Statement.

U.S. Highways 95 and 93 are major routes north from Las Vegas, through Fallon and Ely, Nevada, respectively. South of Las Vegas, U.S. 95 extends to the Mexican border, generally following the Colorado River, and U.S. 93 crosses into Arizona.

Nevada is less than one day's drive to more than 40 million consumers and five major U.S. ports serving the Pacific Rim. Northern Nevada is at the center of the western region, with 11 states and 53 million people only one day's drive away. Southern Nevada is just hours away from the Southern California markets and within 2-day delivery of nearly every state west of the Mississippi River.

### **Economic Development**

The Nevada Governor's Office of Economic Development ("GOED") promotes a robust, diversified and prosperous economy in Nevada, stimulates business expansion and retention, encourages entrepreneurial enterprise, attracts new businesses, and facilitates community development. GOED is assisted by Regional Development Authorities across the State when a business chooses to locate or expand within their respective region.

GOED has seven industry focal areas:

- Aerospace & Defense
- Health & Medical Services
- Information Technology
- Manufacturing & Logistics
- Mining
- Natural Resource Technologies
- Tourism, Hospitality & Gaming

Additionally, GOED is advancing the development of emerging industry clusters that center on water technology, unmanned aerial systems, and advanced manufacturing. Nevada's ability to grow its industries is dependent upon a trained workforce, and GOED plays an important role in ensuring that industry demand is matched with an educated, skilled, and available workforce.

GOED is able to offer incentives to qualifying companies, following GOED Board approval, to create jobs and alleviate some costs associated with expanding or relocating in the State. GOED's incentives include: Sales and Use Tax Abatement; Modified Business Tax Abatement; Personal Property Tax Abatement; Real Property Tax Abatement for Recycling; Data Center Abatement and Aviation Parts Abatement.

GOED's International Trade Division facilitates export growth, increases foreign direct investment, recruits foreign expansion, and expands higher education partnerships. Nevada has established high-level partnerships with government officials and industry associations in the People's Republic of China, the Republic of Korea, Mexico, Brazil, Canada, Israel, Poland, Germany, United Kingdom, Ireland, Italy, and Australia.

The Nevada Film Office is also housed within GOED and provides assistance to the local and national television and film production community.

The Procurement Technical Assistance Center Procurement Outreach Program is a division of GOED and works to simplify the process of contracting with all levels of government.

The Nevada Local Emerging Small Business Certification is administered by GOED and seeks to assist small businesses in obtaining work with state and local government agencies.

The Rural Community and Economic Development Division in GOED promotes and facilitates community development throughout rural Nevada. The Division administers the State and Small Cities Community Development Block Grant Program which aids in the development of suitable living conditions, increases the supply of decent housing, and helps create economic opportunities in the rural parts of the State.

In 2014, the State's economic development efforts resulted in approximately \$12 billion of recently or anticipated business investment in the State, 14,200 new jobs, and the arrival or expansion of 94 companies. Among the most noteworthy of these is the Tesla Gigafactory.

The Tesla Gigafactory is currently under construction, at a cost of approximately \$5 billion. The factory is being built to construct the lithium-ion batteries that are used to power Tesla electric motor cars at reduced

production costs. Employment is estimated to reach approximately 6,500 employees when the facility is in full operation.

Notable economic development activity in 2015 includes the Switch Data Center. Switch is a developer and operator of colocation data centers, most of which are located in the State. Switch has committed to invest approximately \$3 billion in constructing a new 3 million square foot data center campus on approximately 1,000 acres of land near Reno. This facility is part of an expanding data center presence in the State that includes Rackspace, eBay and Apple.

Faraday Future is a next-generation electric car manufacturing company that has committed to build a \$1.4 billion, 3 million square foot manufacturing plant in North Las Vegas. This facility is expected to result in 4,500 full-time jobs when fully built-out and employ 3,000 construction and installation workers until that time.

Among its other economic development activities, GOED created and also oversees the Battle Born Growth Escalator, Nevada's State venture capital program (under the auspices of State Small Business Credit Initiative). This program invests in early stage, high-growth Nevada enterprises in the following sectors: aerospace and defense, agriculture, energy, health care, IT, logistics and operations, manufacturing, mining, tourism and gaming and water.

The State was selected by the FAA as one of six test site locations for flying Unmanned Aerial Systems.

### **Federal Activities**

Operations and facilities of the federal government in the State have been significant, beginning with Hoover Dam in the 1930s, an Army Air Force gunnery school (which later became Nellis Air Force Base) during World War II, and the subsequent creation of the Nevada National Security Site (formerly the Nevada Test Site). Currently, the following major federal activities are located in the State.

*Hoover Dam*. Hoover Dam, operated by the Bureau of Reclamation, is a multiple-purpose development. The dam controls floods and stores water for irrigation, municipal and industrial uses, hydroelectric power generation, and recreation. Hoover Dam is one of the world's largest hydroelectric installations with a capacity of more than 2,000 megawatts. Hoover Dam also is a major tourist attraction in Clark County.

*Nellis Air Force Base.* Nellis Air Force Base, a part of the U.S. Air Force Air Combat Command, is located adjacent to the City of North Las Vegas. The base itself covers more than 14,000 acres of land, while the total land area occupied by Nellis Air Force Base and its ranges is over three million acres. The base hosts numerous military programs as well as civilian workers. It is the home base of the "Thunderbirds," the world famous air demonstration squadron.

*Nevada National Security Site*. The Nevada National Security Site ("NNSS") was established in 1950 as the nation's proving ground for nuclear weapons testing. In recent years, under the direction of the Nevada Site Office of the U.S. Department of Energy ("DOE"), NNSS use has diversified into many other areas such as hazardous chemical spill testing, emergency response training, conventional weapons testing, and waste management projects that can best be conducted in this remote desert area. NNSS has been designated as an Environmental Research Park where scientists and students can conduct research on environmental issues. Located 65 miles north of Las Vegas, the NNSS is a massive outdoor laboratory and national experimental center. NNSS comprises approximately 1,350 square miles, surrounded by thousands of additional acres of land withdrawn from the public domain for use as a protected wildlife range and for a military gunnery range, creating an unpopulated area of approximately 5,470 square miles. Federal employees and independent contractors are employed at NNSS.

*Yucca Mountain*. The federal government formerly planned to use Yucca Mountain (located approximately 90 miles northwest of Las Vegas in Nye County) as a national nuclear repository for high-level waste and spent fuel from nuclear power plants around the country. The U.S. Department of Energy submitted in 2008 a license application to the U.S. Nuclear Regulatory Commission (the "NRC") seeking authorization to construct the nuclear waste and spent fuel repository, but the NRC suspended its review. Following various challenges, in 2013

the D.C. Circuit Court of Appeals ordered the NRC to resume the statutory license review process unless Congress declares otherwise through legislation or until appropriated funds are depleted. While NRC review of the Yucca Mountain application continues, there are significant hurdles to its approval, strong opposition to the project, and lack of federal funding. The status of the proposed nuclear repository at Yucca Mountain remains uncertain.

### Mining

Nevada is called the "Silver State" because of the vast quantities of silver mined from the Comstock Lode in the 19th Century. Today, Nevada's mining industry production consists of metals, industrial minerals, oil and gas, and geothermal energy. The total value of mineral production (excluding oil, gas and geothermal) in Nevada reached \$7.1 billion in 2015. Gold is the primary source of mining revenue which reached \$6.2 billion in 2015. Nevada leads the nation in gold production and has the only operating lithium mine in the U.S.

Oil and natural gas exploration activity continues in Nevada. During 2015, the total net oil produced was 281,382 barrels. There are no commercial sales of natural gas in Nevada; however, small quantities are produced and used to fuel oil production facilities on leased sites.

Gross geothermal energy production totaled 3.1 million megawatt-hours in 2015 from 24 electrical generating plants.

According to the Department of Employment, Training and Rehabilitation, in 2015, there was an average of 14,196 people employed in the mining industry at an average annual salary of \$92,077.

According to the Division of Minerals, gold and silver currently account for 88% of total value of metal and non-metal mine production in the Nevada mining industry. The following table compares the calculated value of mineral production for the periods indicated:

| Calendar    | Millions of |          |
|-------------|-------------|----------|
| Year Ending | Dollars     | % Change |
| 2011        | \$ 9,600    |          |
| 2012        | 10,244      | 6.7      |
| 2013        | 8,820       | -13.7    |
| 2014        | 7,126       | -19.2    |
| 2015        | 7,118       | -0.1     |

Source: State of Nevada - Commission on Mineral Resources-Division of Minerals.

In September 2015, the U.S. Bureau of Land Management ("BLM") and the U.S. Forest Service ("USFS") finalized land use plan amendments ("LUPs") to provide further protection to the greater sage-grouse habitat in the Western United States, including creating three new habitat management areas in Nevada. Certain Nevada counties and mining companies filed a lawsuit, which the Nevada Attorney General later joined, seeking judicial review of BLM and USFS actions. The plaintiffs contend that the LUPs will negatively impact, among other things, the mining industry in the State. Coincident with the issuance of the LUPs, the Department of the Interior published a notice for a proposal to withdraw 10 million acres of federal lands, within Sagebrush Focal Areas, from location and entry under the Mining Law of 1872, subject to valid exiting rights. The Notice also segregated the land from mineral entry for a two-year period. The segregation and proposed withdrawal includes 2.7 million acres in northern Nevada. An Environmental Impact Statement is being prepared and a final decision by the Secretary of the Interior on the proposed action is due by September 24, 2017. At this time, the State cannot predict the effects of the LUPs, segregation, and proposed mineral withdrawal on mining or other matters in the State.

### **Electric Utilities**

NV Energy, Inc. ("NV Energy"), formerly Sierra Pacific Resources, was acquired by Berkshire Hathaway Energy in 2013. Through its subsidiaries, which include Sierra Pacific Power Company and Nevada Power Company (each doing business as NV Energy), NV Energy supplies electric service to Las Vegas and surrounding Clark County, and to northern Nevada. NV Energy through its subsidiaries provides electric and natural gas services to a range of over one million residential, commercial, industrial and public sector customers.

#### Water

Nevada is one of the eight mountain states, bordered by California, Oregon, Idaho, Utah, and Arizona. The State lies in the Great Basin, an arid region east of the Sierra Nevada Mountains, where annual rainfall averages less than ten inches. The availability of water is important to continued growth and development in the State, particularly in its two most populous counties, Clark County and Washoe County. The water providers for those two counties are briefly discussed below.

On January 16, 2014, the U.S. Department of Agriculture ("USDA") announced the designation of nine counties in Nevada, including Clark County and Washoe County, as primary natural disaster areas due to ongoing drought conditions. Qualified farm operators in these areas and certain contiguous areas may be eligible for low-interest emergency loans from the USDA. The State cannot predict the duration of the drought or the effects of the drought on the State.

*Clark County.* The major water purveyors in Clark County are the Big Bend Water District; the cities of Boulder City, Henderson, and North Las Vegas; the Las Vegas Valley Water District ("LVVWD"); and Nellis Air Force Base. The LVVWD provides water service to the City of Las Vegas, the unincorporated urban areas of Clark County, Jean, Kyle Canyon, Blue Diamond, and Searchlight. The Big Bend Water District, operated by the LVVWD, serves the Town of Laughlin, and the Coyote Springs Water Resources District, operated by the LVVWD, serves the community within the Coyote Spring valley. In addition, the Virgin Valley Water District serves the City of Mesquite and surrounding area, and the Moapa Valley Water District serves Logandale, Overton, Moapa and Glendale.

The Southern Nevada Water Authority ("SNWA") was established to address water issues on a regional basis rather than an individual purveyor basis. The members of the SNWA include the cities of Boulder City, Henderson, Las Vegas, North Las Vegas, the Big Bend Water District, Clark County Water Reclamation District, and the LVVWD. The SNWA works collaboratively with its member agencies to manage regional water facilities; address water resource management and water conservation on a regional basis; manage and develop additional water supplies for Southern Nevada; and expand and enhance regional treatment and delivery capabilities. The LVVWD provides the management and staff for the SNWA.

In addition to aggressive water conservation measures, the SNWA developed and maintains a comprehensive Water Resource Plan to manage current and future resources available to Southern Nevada. The plan, which was first adopted in 1996, is reviewed annually and updated as needed. The Water Resource Plan provides a demand projection for Southern Nevada and outlines a portfolio of water resource options to meet

projected water demands over a 50-year planning horizon. This portfolio approach enables the SNWA to quickly respond to changing conditions. The portfolio of resources as described in the SNWA Water Resource Plan includes Nevada's 300,000 acre-foot per year ("AFY") Colorado River apportionment and associated return-flow credits; Las Vegas Valley and in-state groundwater; flood control, domestic and intentionally created surplus water is divided into five categories: tributary, imported, system efficiency, extraordinary conservation, and Bi-National); water resources banked in the Las Vegas Valley and the states of Arizona and California; wastewater reuse; and other current and future supplies.

While the Colorado River Basin continues to experience drought conditions, the SNWA has acquired and is developing new water resources that will be managed in tandem with Colorado River supplies. These resources, paired with expected conservation gains, are designated to enable the SNWA to meet current and projected water demands over the long-term planning horizon. In 2015, the SNWA updated its Water Resource Plan to outline the SNWA's approach to meeting demands during declared shortages in light of new rules and agreements. Response measures include the use of Intentionally Created Surplus, banked resources, shortage-sharing agreements and heightened conservation measures. The SNWA also continues to work with the other Colorado River Basin states to identify and explore options for long-term augmentation of Colorado River resources.

*Washoe County.* The primary source of water for Washoe County is the Truckee River, which flows from Lake Tahoe to Pyramid Lake (approximately 120 miles). Underground water and individual private wells augment the river water supply, particularly in the unincorporated areas of Washoe County.

Regional planning of water resources in certain portions of Washoe County is the responsibility of the Northern Nevada Water Planning Commission (the "Planning Commission") and the Western Regional Water Commission (the "Regional Commission"). The Regional Commission is governed by a Board of Trustees comprising representatives of the City of Reno, the City of Sparks, Washoe County, the Truckee Meadows Water Authority, the Truckee Meadows Water Reclamation Facility, and the Sun Valley General Improvement District. The Planning Commission is comprised of members from Public Works for the City of Reno, Public Works for the City of Sparks, Community Services Department for Washoe County, Truckee Meadows Water Reclamation Facility, Pyramid Lake Paiute Tribe, The Nature Conservancy and Truckee Meadows Flood Management, the General Manager of the Sun Valley General Improvement District, two representatives from the Truckee Meadows Water Authority, and various other members.

On January 14, 2011, the Regional Commission adopted the 2011-2030 Comprehensive Regional Water Management Plan (the "Comprehensive Plan") developed by the Planning Commission for the relevant planning area, covering such matters as supply of municipal and industrial water; quality of water; sanitary sewerage; treatment of sewage; drainage of storm waters and control of floods. The Comprehensive Plan addresses such matters as the problems and needs of the planning area; the providers of service; alternatives to reduce demand or increase water supply; identifying and providing for existing and future sources of water needed to meet present and future needs; priorities and general location for additional major facilities needed to provide services; programs to mitigate drought, conserve water and otherwise manage water; and other matters related to water supply, planning and conservation. Any facility of "regional significance" associated with water supply, wastewater treatment and stormwater drainage must be recognized in the Comprehensive Plan or presented for review by the Planning Commission and possible amendment to the Comprehensive Plan by approval of the Regional Commission.

The Truckee Meadows Water Authority ("TMWA"), a joint powers authority composed of the City of Reno, the City of Sparks and Washoe County, provides water service to the cities of Reno and Sparks, and Washoe County. On January 1, 2015, TMWA merged with the Washoe County water utility and the South Truckee Meadows General Improvement District ("STMGID"). Total services increased from approximately 94,000 to 120,000 water services. Portions of Washoe County are served either by special districts, private companies and/or private wells. TMWA has developed a Water Resource Plan through 2035 and Water Facility Plan to address the water needs of its service area through 2030. TMWA is in the process of updating the Water Facility Plan through 2035.

# STATE LITIGATION

The staff attorneys of the State Attorney General's Office reported that the State or its officers and employees were parties to numerous lawsuits, in addition to those described below. In view of the financial condition of the State and based on the information provided by the staff attorneys, the State Attorney General is of the opinion that the State's ability to pay the Series 2017 Bonds will not be materially affected by this litigation, based on information known at the time this Official Statement was prepared.

Several of the actions pending against the State are based upon the State's (or its agents') negligence or tort liability in which the State must be named as a party defendant. However, there is a statutory limit to the State's liability of \$50,000 per claim for causes of action arising before October 1, 2007, which has increased to \$75,000 per claim effective for causes of action arising on or after October 1, 2007 and to \$100,000 for causes of action arising on or after October 1, 2011. Buildings and contents are self-insured to \$100,000 for property loss with commercial insurance purchased to cover excess above this amount.

The State and/or its officers and employees are parties to a number of lawsuits that have been filed under the federal civil rights statutes. The State is statutorily required to indemnify its officers and employees held liable for damages for acts or omissions on the part of its officers and employees occurring in the course of their public employment. Several causes of action may be filed against the State based on alleged civil rights violations by its officers and employees. The statutory limit of tort liability (discussed above) does not apply in federal civil rights, federal discrimination and certain employment cases. Accordingly, the potential liability of the State is unascertainable at the present time.

2003 Non-Participating Manufacturers Adjustment arbitration proceeding relating to nationwide Tobacco Master Settlement Agreement (MSA). The State is involved in a nationwide arbitration with a group of tobacco companies, the Participating Manufacturers, over the tobacco Master Settlement Agreement ("MSA"), which the State signed along with 46 other states in 1998. The Participating Manufacturers have alleged that the State has failed to diligently enforce the provisions of NRS 370A (Qualifying Statute) as contemplated by the MSA. As a result, in January 2009, the Nevada Supreme Court ordered the State to arbitrate its dispute with the Participating Manufacturers. The State's potential liability is up to the total amount of the MSA payment for calendar year 2003 which is approximately \$44 million. Additional arbitrations for the succeeding calendar years were anticipated with a similar dollar amount at risk. The State entered into a settlement with the Participating Manufacturers, reflected in an agreed term sheet, in December 2012. The agreement has not yet been finalized in a formal settlement agreement, but it is anticipated that the settlement will be duly formalized. The settlement resolves the dispute for calendar 2003 and reaches subsequent years through 2014. Although not yet finalized in a formal agreement, the settlement has resulted in a release of funds by the Participating Manufacturers that increased revenue received by the state under the MSA for 2013. The settlement terms will reduce revenue from the MSA for years 2014 through 2018.

*K-Kel, Inc., dba Spearmint Rhino Gentlemen's Club, et al. v. Dept. of Taxation, et al.,* Case No. A648894, is a State district court action, through a petition for judicial review, challenging application of the statute imposing Nevada's Live Entertainment statute on grounds of constitutionality and seeking a refund of taxes paid, plus interest. In prior proceedings, the Nevada Supreme Court affirmed district court's rulings finding Nevada's Live Entertainment Tax facially valid and determining that an as-applied challenge could only be brought through a petition for judicial review. Taxpayers' petition for certiorari to the United States Supreme Court was denied. What remains is Taxpayers' petition for judicial review of the denial of its as-applied challenge by the Nevada Tax Commission. That petition was denied by the Eighth Judicial District Court of the State of Nevada and is currently on appeal to the Nevada Supreme Court, where it is in the briefing stage. That challenge contends the Live Entertainment Tax is unconstitutional as it is applied to the particular Taxpayers. It is estimated that, if Taxpayers prevail, the refund claim alone could exceed \$87 million.

Southern California Edison v. State, Department of Taxation. Southern California Edison sought a \$36 million refund of use taxes paid arguing that coal used to produce electricity was not taxable. The issue in this matter is similar to an earlier proceeding involving another utility, Sierra Pacific Power, which was resolved in the State's favor. Since the initial request, the refund sought in this matter, including interest has increased to in excess of \$111 million. At the hearing that was held in late 2008, Southern California Edison's refund request was denied by the

Nevada Tax Commission. Trial de novo was held in the First Judicial District on January 21-31, 2014. On December 15, 2014, based on the Nevada Supreme Court's decision in Sierra Pacific Power, 338 P.3d 1244, the District Court determined that Southern California Edison was not entitled to a refund. The District Court's Decision has been appealed to the Nevada Supreme Court. The appeal has been fully briefed, was argued on June 7, 2016, and is under submission for decision.

*Village League v. State Board, CV-03-06922.* Pursuant to an order of the Nevada Supreme Court that the State Board of Equalization provide taxpayers statewide the opportunity to testify regarding equalization, the State Board has made a decision denying certain Incline Village residential property owners' request that values for the properties receive a rollback to 2002 values for tax years 2003-2004, 2004-2005 and 2005-2006, ordering instead that the Washoe County Assessor reappraise said properties without using certain disapproved methodologies. The property owners sought and were denied judicial review and have appealed to the Nevada Supreme Court. If the property owners were to prevail on appeal, it would be anticipated that they would be granted a refund in excess of \$10 million. The case is fully briefed and submitted for decision.

*Nassiri, Fred, adv. NDOT.* NDOT previously settled an eminent domain action with Nassiri. Settlement included transfer by NDOT of other property to Nassiri. Nassiri has filed an action asserting inverse condemnation, breach of contract, breach of the implied covenant of good faith and fair dealing, and rescission, based on actions (subsequently taken) by NDOT, specifically development of an overpass that blocked view of the property from the freeway, thereby allegedly impairing the property. The inverse condemnation claim has been dismissed. Nassiri's claim is in excess of \$40 million.

*Wykoff Newberg Corp., adv. State of Nevada (NDOT).* The State, through NDOT, brought a condemnation proceeding against Wykoff to acquire property for widening I-15 between Tropicana and Blue Diamond. NDOT initially valued compensation due Wykoff at \$1,290,000, but Wykoff demanded \$10 million. By e-mail, the parties reached a putative settlement for the amount of \$2,990,000 (NDOT's initial valuation plus \$1,700,000), but after approval of the agreement by the Board of Examiners, Wykoff rejected NDOT's proposed written terms, which it considered a repudiation of the settlement. NDOT then filed a motion to enforce the settlement agreement. The motion was denied by the District Court, and NDOT petitioned the Nevada Supreme Court for mandamus to compel recognition of the settlement. Oral argument on the petition was held on December 5, 2016, and the matter awaits the Nevada Supreme Court's decision.

*Morrison v. Quest et al.* The widow of deceased former boxer Tommy Morrison is suing the Nevada State Athletic Commission, the former Executive Director Marc Ratner and the former Chairman of the Medical Advisory Board, Dr. Margaret Goodman (along with a lab and its director who are represented by a private attorney) for \$110 million for alleged negligence surrounding a lab test performed in order for him to participate in a 1996 bout, and alleged statements made in 2007. This matter was filed in July 2014 in the Federal District Court in Las Vegas, Nevada. An initial motion to dismiss was granted in part and denied in part. Plaintiff then filed an amended complaint. The State moved to dismiss and then filed a motion for summary judgment, the latter on statute of limitations grounds. Summary judgment has been granted, and Plaintiff has appealed.

*Walden et al. v. Nevada Department of Corrections* (United States District Court, District of Nevada). This is a class and Fair Labor Standards Act collective action on behalf of all State of Nevada Department of Corrections' correctional officers alleging the Department of Corrections failed to pay overtime for the officers' preliminary and postliminary duties. It also includes a contract and Nevada Constitution claim for the same. The preliminary and postliminary activities alleged to be non-compensated include checking in with the shift supervisor, obtaining keys or handcuffs, walking to the post within the prison, relieving the employee already at the post including exchange of pertinent information, and then the reverse at the end of the shift. The collective class has been conditionally certified, with approximately 3,075 eligible members, and approximately 502 joining the lawsuit. As of March 2016, Plaintiffs calculate their damages to be approximately \$58,345,050 not including interest, costs, and attorneys' fees. Plaintiffs estimate costs to be approximately \$90,000. The litigation is currently stayed pending the court's decision on the Nevada Department of Corrections' motion for judgment on the pleadings.

*Custom Landco LL (Walker Furniture) adv. State of Nevada (NDOT).* The State, through NDOT, brought a condemnation proceeding against the landowner to acquire property for Project NEON. This is a partial taking of 1.87 acres from a 10.22 acre parcel that was improved with various buildings comprising the Walker Furniture

campus. The acquisition required the demolition of the business's 52,000 sf warehouse. The Department's expert opined that the just compensation owed for the taking and any damages totaled \$5,136,900. Walker claimed over \$75,000,000 was owed as just compensation based upon an assumption that the taking would result in the closure of the business. NDOT has finalized a settlement with the Walker entities in connection with eminent domain property acquisition for Project NEON in the amount of \$18,656,000, \$7,156,000 of which was previously paid to Plaintiff. Settlement funds are included in the overall project budget and a significant portion of those funds are eligible for federal reimbursement.

*Little Valley Fire – Nevada Div. of Forestry.* The Nevada Division of Forestry performed a controlled burn from October 4-7, 2016. A fire erupted on October 14, 2016, destroying more than twenty homes in the Franktown Road area. There has been no lawsuit yet, but the Nevada Division of Forestry has been contacted by a law firm representing several insurance carriers who assert they may have subrogation claims based on the allegation that the controlled burn caused the subsequent fire. An estimate puts total damage at more than \$80 million. While the State of Nevada has a tort damage cap of \$100,000 per claim, it is expected that the insurance carriers may pursue a theory of liability that is exempt from the cap.

There are a number of other actions affecting the State, but the State estimates that its potential liability for any single action not described above will not exceed \$10 million.

(THIS PAGE INTENTIONALLY LEFT BLANK)

### PART III

# INFORMATION CONCERNING THE STATE DEPARTMENT OF TRANSPORTATION, REVENUES PLEDGED TO SECURE THE BONDS AND RELATED MATTERS

Part III of this Official Statement contains information concerning the State Department of Transportation, revenues pledged to secure the Series 2017 Bonds, Parity Securities issued and outstanding, and related information. This Part III supplements the information contained in the other parts of this Official Statement. This Official Statement, including the cover, the inside cover pages, Part I and the schedules and appendices thereto, Part II, this Part III and the appendices hereto, and any financial statements expressly incorporated herein by reference, should be read in its entirety.

#### NEVADA DEPARTMENT OF TRANSPORTATION

#### **NDOT Responsibilities**

The Nevada Department of Transportation ("NDOT") supervises the planning, construction, improvement and maintenance of the State's highway system. NDOT is responsible for the planning, construction, operation and maintenance of approximately 5,400 miles of highway and over 1,100 bridges.

#### **NDOT Governance**

NDOT is administered by a seven-member Board of Directors (the "State Transportation Board"), consisting of the Governor, the Lieutenant Governor and the State Controller, each of whom serves ex officio, and four members who are appointed by the Governor. The appointed members serve four-year terms. The Governor serves as Chairman of the State Transportation Board. NDOT is headed by a Director who is appointed by the State Transportation Board. NDOT is headed by a Director who is appointed by the State Transportation Board. NDOT currently has an annual operating budget of approximately \$800 million and manages approximately 1,750 employees.

#### **NDOT Staff**

The State Transportation Board appoints the Director of NDOT. The Director in turn appoints subordinate officers and employees of NDOT. Following are the key executives of NDOT:

**Rudy Malfabon, P.E.** is the Director of NDOT. He has worked for NDOT for more than 27 years. As Director, he is responsible for the daily operations of NDOT. Previously, Mr. Malfabon was NDOT's Deputy Director for Southern Nevada. Mr. Malfabon is a graduate civil engineer from the University of Nevada, Reno, and is a registered professional engineer in the states of Nevada and Washington.

**Bill Hoffman, P.E.** is the Deputy Director of NDOT. He is responsible for assisting the Director in the daily operations of NDOT. Mr. Hoffman began his employment with NDOT in 1991 as an Engineering Technician in District 2. Since then, he has served in a variety of positions within NDOT, including the roles of Chief of the Maintenance and Operations Division and Assistant Director, Engineering. Mr. Hoffman holds a bachelor's degree in sports marketing from the University of Wyoming and a bachelor's degree in civil engineering from the University of Nevada, Reno and is a registered professional engineer in the State.

*Tracy Larkin-Thomason* is the Deputy Director for Southern Nevada. Ms. Larkin-Thomason has more than 26 years of transportation experience and has held positions in the areas of planning, operations, maintenance engineering, traffic engineering, structural design, and roadway civil engineering. As Deputy Director for Southern Nevada, Ms. Larkin-Thomason seeks to improve communication, coordination and customer service with local agency partners, elected officials and the general public. Ms. Larkin-Thomason has a Bachelor of Science degree in civil engineering from the University of Nevada, Reno, and is a licensed civil engineer in the State. She is also certified as an ITE Professional Traffic Operations Engineer and a Nevada Certified Public Manager.

**David Gaskin, P.E.** is the Deputy Director of NDOT's statewide Stormwater Management Program. Mr. Gaskin oversees environmental programs, including policy, regulatory and education efforts to manage stormwater involving state roads and transportation facilities in accordance with state and federal laws. He also works closely with other agencies to help preserve clarity and reduce pollution in the stormwater and other water runoff from roads and road projects. Mr. Gaskin has more than 22 years of experience managing environmental programs at the Nevada Division of Environmental Protection. He also worked to construct and operate large solar power plants in the Mojave Desert and was an officer in the U.S. Navy. Mr. Gaskin is a registered professional mechanical engineer and holds a degree in astronautics from the Massachusetts Institute of Technology (MIT).

John Terry, P.E. is the Assistant Director of Engineering/Chief Engineer. He is in charge of NDOT's preconstruction engineering sections including Project Management, Design, Bridge, Environmental, Location, and Right-of-Way. Mr. Terry supervises six groups within NDOT, representing more than 300 engineering and right-ofway professionals responsible for developing all engineering work necessary in delivering design plans and specifications used in the construction of NDOT projects. He worked for NDOT in Carson City in the Roadway Design, Structures, Hydraulics, and Traffic Divisions. After 12 years in the private sector, Mr. Terry returned to NDOT in 2002 as a senior project manager and assistant chief project manager. He has a Bachelor of Science degree in civil engineering from Union College and is a registered professional engineer in the State.

**Reid Kaiser, P.E.** is the Assistant Director of Operations and is responsible for the Construction, Materials, Equipment, Traffic Operations and Maintenance and Asset Management divisions. He is responsible for administering the construction program, implementing strategies for pavement preservation, keeping the NDOT fleet mobile and managing traffic operations. Mr. Kaiser holds a Bachelor's degree in Construction Engineering Management from Oregon State University and is a registered professional engineer in Nevada and California. He began his career with NDOT as a rotational engineer and has served as Assistant Resident Engineer, Resident Engineer, Assistant District Engineer, Assistant Chief Construction Engineer and Chief Materials Engineer. Having worked 25 years in construction and materials at Headquarters and District 2, Mr. Kaiser has constructed over \$100 million in construction projects, implemented asphalt pavement specifications for NDOT, and served on AASHTO's sub-committee on Materials.

*Sondra Rosenberg, PTP* is the Assistant Director of Planning and is responsible for the Program Development, Multimodal Planning, Performance Analysis, Research, Roadway Systems, Safety Engineering, Traffic Information and Southern Nevada Planning Divisions within NDOT. Ms. Rosenberg has a Bachelor's of Science degree in Physics from the University of Rochester and a Master of Science degree in Transportation Technology and Policy from the University of California, Davis. She is a certified Professional Transportation Planner and is active in the Northern Nevada Section of the American Planning Association. Ms. Rosenberg has worked at NDOT since 2008 and prior to that she was a transportation planner for Fehr & Peers, a consulting firm. As the Federal Programs Manager in NDOT Planning, Sondra managed the 1-15 Mobility Alliance and the 1-11 & Intermountain West Corridor Study. She effectively built coalitions that consisted of neighboring state DOTs Metropolitan Planning Organizations, economic development councils, chambers of commerce, businesses and various other stakeholders.

**Robert Nellis** is the Assistant Director of Administration and is responsible for the Financial Management, Accounting, Administrative Services and Information Services Divisions within NDOT. Mr. Nellis has 20 years of experience in private sector real estate development, business management, public land management, and energy program management. He has been with the State since 2004 and was head of the State Land Office in the Division of State Lands for five years.

#### THE STATE HIGHWAY SYSTEM

#### Overview

The State highway system consists of approximately 5,400 centerline miles, which includes the federal-aid highway system and other improved roads. The federal-aid highway system is more fully described below under the heading "SUPPORT FOR STATE HIGHWAY SYSTEM — Federal Aid Highway System" in this Part III. A well-functioning State highway system is key to the State's economy, and improvements to the system will be needed to support future economic development and diversification efforts. The State's population increased from 1,201,833 residents in 1990 to 1,998,257 residents in 2000 and to 2,724,634 residents in 2010, an increase of approximately 66% between 1990 and 2000 and approximately 127% between 1990 and 2010. This growth has resulted in significantly increased highway usage during that period. The State's location results in a large proportion of commercial truck use, including high usage by trucks having an origin and destination outside the State. NDOT projects significant growth in both commercial and non-commercial road usage.

#### **NDOT-Maintained Roads**

NDOT is responsible for constructing, operating and maintaining approximately 20 percent of all roads (measured in miles) in the State. These roads are referred to herein as the state-maintained system (the "State-Maintained System"). The State-Maintained System carries approximately 51 percent of the total vehicle miles of travel. The remaining 49 percent of vehicle miles traveled is on systems maintained by county, city or other

governmental agencies. While the State-Maintained System represents only 20 percent of total road miles, the State-Maintained System also carries approximately 70 percent of all truck traffic and 68 percent of the heavy truck traffic. Vehicle miles of travel on all roads in the State increased from 14 billion in 1995 to 25 billion in 2015.

Table 1 illustrates the number of miles of improved roads in the State by county, within and outside the State-Maintained System, based on the most recent data available (2015).

#### SUPPORT FOR STATE HIGHWAY SYSTEM

#### Federal Aid Highway System

The federal-aid highway system is classified as the National Highway System (the "NHS") routes and the Surface Transportation Program (the "STP") roads. The NHS within the State consists of all interstate routes, most principal arterials, the defense strategic highway network, and strategic connectors, including 589 miles of interstate highways (I-15 and I-80) and 1,824 miles of other NHS routes (US 95, US 50, US 395, US 6, US 93, McCarran Boulevard in Reno and Tropicana Avenue in Las Vegas). The STP within the State consists of 2,437 miles of roads that are functionally classified as principal arterials, minor arterials, major collectors, and urban collectors. See "FEDERAL TRANSPORTATION FUNDING" in this Part III for a discussion of various programs of federal assistance for highways in general, and "REVENUES AND EXPENDITURES OF STATE HIGHWAY ACTIVITIES" in this Part III for amounts of federal assistance for the State Highway Fund.

NDOT is partnering with Arizona Department of Transportation to plan an interstate (Interstate 11) link between Las Vegas and Phoenix, with the potential of extending north to Canada and south to Mexico. NDOT and the Regional Transportation Commission of Southern Nevada (RTC) are constructing portions of Interstate 11 near Boulder City known as the Boulder City Bypass. The construction of the Boulder City Bypass is expected to be complete in 2018. In November of 2013, NDOT was made aware of the potential presence of naturally occurring asbestos in the area of the Boulder City Bypass. In order to reduce exposure to naturally occurring asbestos during construction, specific mitigation measures have been developed to minimize the naturally occurring asbestos from becoming airborne during construction.

#### **Other Improved Roads**

There are 547 miles of other improved roads on the State highway system, including local and rural collectors, access frontage and state park roads. Other improved roads that are not part of the NHS or STP are classified mainly as local or rural minor collectors. These roads serve as access roads to the NHS and STP and do not qualify for federal aid but receive support from the State's gas tax distribution. Responsibility for maintaining these roads is divided among NDOT, cities and counties.

#### **Unimproved Roads**

The balance of the roads in the State is classified as unimproved roads. Unimproved roads are local roads and are not regularly maintained. Unimproved roads do not qualify for federal aid, are not maintained by NDOT, and are not entitled to receive gas tax receipts to fund costs of their construction, operation or maintenance.

The following table sets forth the aggregate mileage of highways in the State by responsibility for maintaining and eligibility for federal funding.

|                 | NDOT         | Locally    | Statewide |
|-----------------|--------------|------------|-----------|
|                 | Maintained   | Maintained | Total     |
| Federal Aid     |              |            |           |
| NHS             | 2,413        | 147        | 2,560     |
| STP             | <u>2,437</u> | 7,972      | 10,409    |
| Subtotal        | 4,850        | 8,119      | 12,969    |
| Non-Federal Aid |              |            |           |
| Other Improved  | 547          | 14,271     | 14,818    |
| Unimproved      | 0            | 14,861     | 14,861    |
| Subtotal        | 547          | 29,132     | 29,679    |
| Total           | 5,397        | 37,251     | 42,648    |

Table 4State Highway System Mileage

Source: NDOT.

#### NDOT PLANNING AND CURRENT PROGRAMS

#### Statewide Transportation Planning (Annual Work Program)

The Annual Work Program ("AWP") is a compilation of NDOT's short range (two to three years) and long range (four to ten years) elements of various transportation projects and includes projects pursued during each fiscal year. Pursuant to Nevada Revised Statutes ("NRS") Section 408.203, the Director of NDOT is required to submit a comprehensive report of highway construction and maintenance projects for the next ten years to the State Legislative Counsel Bureau, a projects report for the next three years to the Legislative Counsel Bureau in every even-numbered year, and a progress report regarding NDOT's 12-year plan for highway resurfacing to the State Legislature in every odd-numbered year.

#### **Statewide Transportation Improvement Program**

The Statewide Transportation Improvement Program (the "STIP") consists of capital and non-capital transportation projects supported by United States Code Title 23 (Highways) and the Federal Transit Act funding. The STIP is administered by NDOT. Annually, NDOT develops a STIP, including a four-year list of federally funded and regionally significant non-federally funded transportation projects and programs consistent with the goals and strategies of the statewide transportation plan. Projects in non-attainment areas must conform with the State Implementation Plan prior to being included in a STIP.

The STIP is developed in cooperation with the State's Metropolitan Planning Organizations (the "MPO") and local government agencies. An MPO is designated for each urbanized area with a population of more than 50,000. The Regional Transportation Commission (the "RTC") of Southern Nevada, the RTC of Washoe County, the Carson Area MPO (each designated by the US Census Bureau) and the Tahoe MPO (designated through Congressional actions) are the State's MPOs. The STIP also includes all regionally significant transportation projects in the Transportation Management Areas (the "TMAs") regardless of funding sources. TMAs are urbanized areas with a population of more than 200,000 and are certified at least once every three years.

#### Highway Safety Improvement Program (the "HSIP")

The HSIP was established in fiscal year 2006 as a core program with separate funding to significantly reduce traffic fatalities and serious injuries on all public roads. Each year NDOT utilizes a percentage of the Federal Safety Program funding to upgrade and maintain the statewide crash database, develop and implement safety management systems, develop strategic plans, evaluate safety engineering software and receive training in new and effective methods of traffic safety engineering. Up to \$21 million annually is allocated for HSIP programs.

For information regarding the effects of the FAST Act (as defined below) on the HSIP, see "FEDERAL TRANSPORTATION FUNDING – MAP-21 and the FAST Act" in this Part III.

#### State Highway Preservation

NDOT maintains approximately 5,400 miles of highways, which carry approximately 70 percent of the State's truck traffic and 68 percent of the heavy trucks. NDOT's goal is to continue to maintain the State's interstate system and high volume roads at a high level of serviceability by applying timely overlays and reconstructing inferior segments; continue to maintain the State's non-interstate principal arterials, minor arterials, and other moderate volume roads at a modest to high level of serviceability by applying timely overlays and reconstructing inferior segments; and improve low volume roads and maintain them at a limited, but acceptable, level of serviceability. In Fiscal Year 2015, NDOT spent \$116 million on maintenance and preservation.

#### Interstate Maintenance Program

The Interstate Maintenance Program was initiated to ensure that the Interstate Highway System is maintained on an ongoing basis. The purpose of the program is to maintain a reasonably high level of serviceability on the roads, while optimizing available funding and minimizing risks to the traveling public. Unobligated Interstate Construction authorization balances are used to fund these projects.

#### Nevada Bridge Program

In 2012, President Obama signed into law the Moving Ahead for Progress in the 21st Century Act ("MAP-21"). MAP-21 eliminated the Federal Highway Bridge Program (HBP) funding category. Without a specific funding category for bridges, NDOT has targeted \$10,000,000 annually in funding for the Nevada Bridge Program. Bridge Inspection operations cost about \$2,000,000 annually and MAP-21 requires NDOT to allocate \$2.1 million to replacement and rehabilitation for bridges on locally maintained roads.

On December 4, 2015, President Obama signed into law the Fixing Americas Surface Transportation Act (the "FAST Act"). The FAST Act increases overall funding for the STP, which has been converted to a block grant

program known as the Surface Transportation Block Grant Program ("STBGP"). While the FAST Act also expands funding for bridges off of the NHS, NDOT has not yet determined the impact of the FAST Act on the Nevada Bridge Program.

For more information regarding MAP-21 and the FAST Act, see "FEDERAL TRANSPORTATION FUNDING – MAP-21 and the FAST Act" in this Part III.

#### Transportation Enhancement Program

The Transportation Enhancement Program (the "TEP") was established by Congress as part of the International Surface Transportation Efficiency Act of 1991 ("ISTEA") and was continued under the Transportation Equity Act for the 21<sup>st</sup> Century Act ("TEA-21"). In 2005, TEP was included in the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users ("SAFETEA-LU"). MAP-21 created the Transportation Alternatives program encompassing most activities funded under the TEP. The TEP includes projects such as pedestrian and bicycle facilities, landscaping and other scenic beautification, historic preservation, and rehabilitation and operation of historic transportation structures. FAST Act modifications to the TEP include changing how the TEP will be funded from a percentage of annual apportionments to a set annual amount. The FAST Act also expands eligible recipients for funds to include nonprofits responsible for administration of local transportation safety programs and requires annual reports from state and local planning organizations on the number of project applications and awards.

For more information regarding MAP-21 and the FAST Act, see "FEDERAL TRANSPORTATION FUNDING – MAP-21 and the FAST Act" in this Part III.

#### **Pioneer Program**

A modern transportation system is essential to the State's ability to attract visitors, move people and goods, improve quality of life for its residents, and provide beneficial family-wage jobs. The State is committed to searching for innovative delivery and funding strategies to keep up with the transportation needs of the State's expanded population. In 2011, the State Transportation Board authorized NDOT to explore innovative financing and construction methods to help solve the State's growing transportation and congestion problems. In response, NDOT created the Pioneer Program to assess and implement public-private partnerships designed to ensure prompt delivery of needed projects and to provide a more efficient transportation system.

Public-private partnerships allow the state to leverage limited public funds and utilize private capital to finance, design, build, operate, and/or maintain needed transportation improvements that could not otherwise be funded. These partnerships usually include the greater assumption of risk by the private partner, rather than taxpayers, along with specified responsibilities, performance and quality assurances to the taxpayer. While each entity shares in the risks and rewards, the involved government partner maintains control and ownership of the project and sets the standards under which the private partner must build, maintain and possibly operate the facility.

The goals of the Pioneer Program are as follows: (1) keep the State competitive and moving; (2) enhance the State's standard of living and economic vitality by increasing mobility for commuters, visitors, transit, and economic commerce; (3) reduce congestion on heavily-traveled State transportation corridors; (4) deliver projects faster and with greater cost certainty throughout the state, thus promoting rural economies and job-boosting development; (5) improve safety by unlocking gridlocked roadways; (6) improve air quality by reducing the number of idling vehicles stuck in traffic; (7) enhance express transit, vanpool, and rideshare opportunities in applicable areas; and (8) generate revenue and leverage limited public funds to potentially fund other needed transportation improvements in the State.

#### **Project NEON**

Project NEON is a significant project in Las Vegas consisting of improving the capacity, operations and safety of a section of Interstate 15 (I-15) and major street connections from south of the Sahara Avenue/I-15 interchange to the I-15/US 95/I-515 interchange known as the Spaghetti Bowl. NDOT began preliminary studies in

2003 and received federal environmental approval in late 2010. Preliminary engineering advanced thereafter, with NDOT commencing right-of-way acquisition in 2011.

Project NEON is underway and is expected to be completed by summer 2019. NDOT elected to procure the construction of Project NEON pursuant to a Design Build Contract with Kiewit Infrastructure West Co. Project Neon is being financed in part with the proceeds of Parity Securities and the Series 2017 Bonds. The Series 2017 Bonds are being issued primarily for this purpose. The State anticipates issuing approximately \$179 million of Additional Parity Securities in 2018, to fund, among other projects, the completion of Project NEON. The timing and amount of Additional Parity Securities may change.

#### **OVERVIEW OF FUNDING FOR STATE HIGHWAYS**

State highways maintained by NDOT are financed with dedicated highway-user revenue and federal funds. No State General Fund (general tax) revenue is normally used. Under the State's Constitution, the proceeds from the imposition of any license or registration fee and other charges with respect to the operation of any motor vehicle upon any public highway in the State and the proceeds from the imposition of any excise tax on gasoline or other vehicle fuel shall, except costs of administration, be used exclusively for the construction, maintenance, and repair of the public highways of the State. The provisions of that section of the State Constitution do not apply to the proceeds of any tax imposed upon motor vehicles by the State Legislature in lieu of an ad valorem tax.

#### **State Highway Fund**

The State Highway Fund was created by State law as a special revenue fund to account for the receipt and expenditure of dedicated highway-user revenues. State law requires that, subject to certain exceptions, the proceeds from the imposition of any (1) license or registration fee and other charges with respect to the operation of any motor vehicle upon any public highway or city, town or county road in the State and (2) excise tax on gasoline or other motor vehicle fuel must be deposited in the State Highway Fund. Amounts in the State Highway Fund must be used, except for costs of administering the collection thereof, exclusively for the administration, construction, reconstruction, improvement and maintenance of the highways provided for under State law. Cost of administration for the collection of the excise tax on gasoline or other motor vehicle fuel may not exceed 1% of the proceeds collected. Costs of administration for the collection of license or registration fees for motor vehicles may not exceed 22% of the proceeds collected. The cap on costs of administration was modified with the passage of Senate Bill 502 during the 2015 legislative session. This bill temporarily modifies the cap to 27% during the implementation, upgrade, and maintenance of a new information technology platform used by the Department of Motor Vehicles ("DMV") through fiscal year 2020. The impact of this change is estimated to be approximately \$13 million per fiscal year in terms of revenues available for NDOT use. Amounts received by the State from the federal government for acquiring, constructing, repairing or improving any highway in the State are also deposited in the State Highway Fund.

#### **Transportation Funding in General**

Funding for highways within the State is derived from a number of sources, including federal, state and local sources. State and federal highway funds are derived from motor vehicle license and registration fees, drivers' license fees, and motor vehicle fuel taxes, which are deposited in the State Highway Fund. NDOT is the major recipient of amounts in the State Highway Fund. See Appendix A to this Part III for historical financial information about the State Highway Fund. The bonds described in this Official Statement are payable out of Gross Pledged Revenues that are accounted for in the State Highway Fund. See "DESCRIPTION OF THE SERIES 2017 BONDS — Security for the Series 2017 Bonds — *Gross Pledged Revenues*" in Part I of this Official Statement.

#### Federal Highway Funding in General

A significant amount of funding for State highway purposes is received from the federal government. Federal highway funds are derived from fuel tax and highway-user fees and are allocated by Congress to the states under federal transportation statutes enacted from time to time and annual appropriations bills. Federal funds are available only for reimbursement of expenditures on approved projects and are normally paid to the State weekly.

Federal aid is not available for routine maintenance, administration, or other non-project related costs. To be eligible for federal funds, the State must, among other requirements, pay five to twenty-five percent of the project's costs. Federal funds received by the State for highway projects are required to be deposited in the State Highway Fund and a portion of such funds are included in Gross Pledged Revenues available to be transferred to the Bond Fund. See "DESCRIPTION OF THE SERIES 2017 BONDS — Security for the Series 2017 Bonds — *Gross Pledged Revenues*" and "PARITY SECURITIES, GROSS PLEDGED REVENUES AND DEBT SERVICE REQUIREMENTS – Debt Service Requirements" in Part I of this Official Statement.

Federal funding for State surface transportation programs is currently authorized by the FAST Act, which provides authorization for federal funding of the surface transportation programs through September 30, 2020. See "FEDERAL TRANSPORTATION FUNDING — MAP-21 and the FAST Act" in this Part III. There is no authorization beyond September 30, 2020. No assurances can be made that the level of future federal funding will be maintained at levels of historical federal funding, or that the State will be eligible to receive all of those funds that have been appropriated by Congress and are available for the State. Federal highway funds that have been allocated to states but have not been obligated by a state, and which are subject to lapse in the current federal fiscal year, are available for redistribution to other states. NDOT has consistently obligated all of the Federal Highway Funds that have been allocated to it in each federal fiscal year, and become eligible for and received additional federal funds through this reallocation process. See "DESCRIPTION OF THE SERIES 2017 BONDS — Security for the Series 2017 Bonds — *Gross Pledged Revenues*" in Part I of this Official Statement.

#### **State Transportation Funding in General**

Under State law, the proceeds from the imposition of any license or registration fee and other charges with respect to the operation of any motor vehicle upon any public highway in the State and the proceeds from the imposition of any excise tax on gasoline or other vehicle fuel shall, except costs of administration, be deposited in the State Highway Fund and be used exclusively for the construction, maintenance, and repair of the public highways of the State. For summaries of the various fuel taxes and other fees and charges that are collected and deposited in the State Highway Fund, see "STATE FUNDING — Fuel Taxes" and "STATE FUNDING — Other Taxes and Fees" in this Part III.

#### **State Make-Up for Reduction in Federal Fuel Tax**

Under current State law, if the tax collected by the federal government relating to motor vehicle fuel is reduced or discontinued in whole or in part, the State's motor vehicle fuel tax will increase in an amount equal to the amount by which the federal tax is reduced.

#### STATE FUNDING

#### **Fuel Taxes**

The primary source of funds to pay the Parity Securities, including the Series 2017 Bonds, is State excise taxes on motor vehicle fuel and special fuel (defined as any combustible gas or liquid used for the generation of power for the propulsion of motor vehicles) credited or transferred to the State Highway Fund (collectively, the "Fuel Taxes") pursuant to various State statutes imposing such taxes (the "Fuel Tax Act"). The State Board of Finance has determined in the Bond Resolution that the net proceeds of the Fuel Taxes are sufficient to pay debt service on the Series 2017 Bonds.

The State's Fuel Taxes are imposed pursuant to various sections of State law. A portion of the receipts from the Fuel Taxes are earmarked for NDOT purposes, and certain receipts are earmarked for apportionment to the counties and for other purposes. The Statewide (State and county mandatory) tax on gasoline is 24.75 cents per gallon (not including the 0.055 cents per gallon tax on imported gasoline). Receipts from these Fuel Taxes are allocated as follows:

(1) 17.65 cents per gallon is deposited to the State Highway Fund for NDOT purposes;

- (2) 6.35 cents per gallon is allocated to the counties; and
- (3) 0.75 cents is deposited in the Cleaning Up Petroleum Discharges Fund.

In addition to the foregoing, the State imposes a 0.055 cents per gallon inspection fee for imported gasoline, which is deposited in the General Fund.

The State imposes a diesel fuel tax of 27.0 cents per gallon (not including the 0.75 cents allocated for petroleum clean-up). Fuel taxes are also imposed on compressed natural gas, liquefied petroleum gas and water-phased hydrocarbon fuel for motor vehicles, but nearly all of the State's Fuel Tax proceeds are derived from the taxes on gasoline and diesel fuel. The following table sets forth the tax distribution for diesel fuel and for propane gas and methane gas used as motor fuels.

Table 5 Special Fuel Tax Distribution

| (Cents per Gallon)           |                          |                       |  |  |

| Diesel<br>Propane<br>Methane | 27.0<br>22.0<br>21.0     | 0.75                  |  |  |

#### Source: NDOT.

State law specifies that additional Fuel Taxes will be imposed to the extent federal taxes on these motor vehicle fuels are reduced or discontinued in whole or in part. See "OVERVIEW OF FUNDING FOR STATE HIGHWAYS — State Make-Up for Reduction in Federal Fuel Tax" in this Part III.

Counties are permitted by State law to impose an additional fuel tax up to a maximum of 9.0 cents per gallon. These amounts are permitted to be indexed for inflation. This discretionary tax has been imposed at the rate of 9.0 cents per gallon by the counties of Carson City, Churchill, Clark, Douglas, Elko, Eureka, Humboldt, Lander, Lyon, Mineral, Nye, Pershing, Washoe and White Pine; and at the rate of 4.0 cents per gallon by the counties of Esmeralda, Lincoln and Storey. The 2015 State Legislature approved AB 191 allowing counties to index fuel tax to inflation. Each county, except Washoe, asked its voters to decide at the November 2016 election whether to impose indexing in their county. Only the voters of Clark County approved indexing. If indexing is imposed by Clark County, NDOT will receive additional revenue to fund highway projects in that county. However, any additional revenue is not included in Gross Pledged Revenues.

Dealers are required by State law to collect the Fuel Taxes and report and pay at the end of the calendar month the tax liability incurred on fuel sales during the preceding calendar month.

[THE BALANCE OF THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK]

The following table sets forth the State fuel tax revenues by source for the fiscal years ending June 30, 2012 through 2016.

|        | (Millions of Dollars) |            |                   |          |          |           |                      |                      |

# Table 6 State Gasoline Tax Revenue (Administered by the Department of Motor Vehicles) (Millions of Dollars)

<sup>(1)</sup> Includes Petroleum Inspection Fees, Aviation Fuel Tax, and other Gasoline Tax distributions.

<sup>(2)</sup> Totals may not add up due to rounding.

#### Source: NDOT and DMV.

Factors over which the State has no control which might adversely affect Fuel Tax receipts include, but are not limited to, reduction in supplies of motor vehicle fuels, government restrictions on the sale or use of motor vehicle fuels, voluntary conservation, increased cost, reduced fuel consumption of certain vehicles, utilization of vehicles not propelled by such fuels (including, but limited to, electric vehicles), restrictions on the use of motor vehicles because of environmental concerns and societal changes regarding car ownership and use.

#### **Other Taxes and Fees**

The State Highway Fund receives revenues from a number of other State sources, which are summarized below. These revenues are not included in Gross Pledged Revenues, but are generally available for NDOT purposes.

#### Governmental Services Tax

A governmental services tax is imposed on motorists for the privilege of operating any vehicle on the public highways of the State. Such tax is imposed in lieu of all taxes based on value and levied for state or local purpose on such vehicles. The annual amount of the basic governmental services tax throughout the State is 4.0 cents on each \$1 of valuation of the vehicle as determined by the DMV. An optional supplemental rate of 1% of a vehicle's depreciated assessed valuation is taxed in Clark, Churchill, and White Pine counties.

The distribution of the governmental services tax is dependent on where the taxes are paid or collected. For vehicles registered at a DMV office, 94% is distributed to local governments and 6% to the State Highway Fund as a collection commission. For vehicles registered at a County Assessor's office, 99% is distributed to local governments and the State Highway Fund receives 1%. Local governments use the funds primarily for schools and current debt service. Supplemental Government Services Tax is an additional fee for vehicles in Clark, Churchill and White Pine counties. The funds are returned to those counties to be used for road construction and other governmental functions of such county.

As a result of passage of SB483 by the 2015 State Legislature, the State Highway Fund will be receiving an additional tax on the registration of vehicles. This tax is expected to bring an additional \$30 million into the State Highway Fund in Fiscal Year 2017 and an additional \$61 million per year thereafter.

#### Driver's License Fees

Driver's licenses issued by the State are renewable every four years. The current rates for obtaining a driver's license are as follows: \$23.50 for operating passenger cars; \$18.50 for persons 65 years old or older; \$5.50 for a motorcycle endorsement; and \$108.00 for operating commercial vehicles.

#### Title Fees

The State charges a one-time title fee of \$29.25 for all vehicles (new title).

#### [THE BALANCE OF THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK]

#### Vehicle Registration

The following table shows the current annual registration rates for vehicles by type and weight.

| Type of Vehicle   | <b>Registration Cost</b> |
|---|--------------------------|
| Automobiles, RV's and Motor Homes   | \$33                     |
| Motorcycles   | \$39                     |
| Travel Trailers   | \$27                     |
| Trucks, Truck Tractors, or Buses less than 6,000 lbs. DGVW*   | \$33                     |
| Trucks, Truck Tractors, or Buses between 6,000 and 8,499 lbs. DGVW*   | \$38                     |
| Trucks, Truck Tractors, or Buses between 8,500 and 10,000 lbs. DGVW*  | \$48                     |
| Per 1,000 lbs. for units between 10,001 and 26,000 lbs. DGVW*   | \$12                     |
| Per 1,000 lbs. for motor-carrier units between 26,001 and 80,000 lbs. DGVW <sup>*</sup> (maximum fee is \$1,360). Interstate motor-carriers prorate this fee and pay only on the percentage of miles driven in the State. | s \$17                   |

#### Additional Excise Tax

The 2015 State Legislature approved AB 175 imposing an excise tax on the use of a digital network or software application to connect a passenger with a driver. The first \$5 million collected each biennium will be credited to the State Highway Fund.

#### [THE BALANCE OF THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK]

#### **Revenue Source Derived From Counties**

Prior to the adoption of Assembly Bill 595 ("A.B. 595") during the 2007 Legislative Session, counties were permitted to impose, in addition to other permissible property taxes, an ad valorem tax on all taxable property in the county at a rate not to exceed 5.0 cents per \$100 of the assessed valuation of the county. A.B. 595 requires, within counties with a population of 100,000 or more, that proceeds of this tax be distributed among the county, cities and towns based on a specified formula, with a portion of this tax allocated to and deposited in the State Highway Fund. This provides a dedicated source of funding for the State Highway Fund which was not available prior to Fiscal Year 2009. A.B. 595 allocates the proceeds of the tax among the county, cities and towns and the State Highway Fund as follows:

| <u>Fiscal Year</u> | Portion Retained by<br><u>County, Cities, and Towns</u> | Portion Deposited in<br>State Highway Fund<br><u>for Projects within the County</u> |
|--------------------|---|---|
| 2009               | 88%   | 12%   |
| 2010               | 76  | 24  |
| 2011               | 64  | 36  |
| 2012               | 52  | 48  |
| 2013 and           | 40  | 60  |
| thereafter         |   |   |

Source: NDOT.

Actual revenues received by NDOT related to ad valorem tax on property are as follows:

| Fiscal Year | Washoe Co.   | Clark Co.    | Total         |
|-------------|--------------|--------------|---------------|
|             |              |              |               |
| 2009        | \$ 885,000   | \$ 3,882,000 | \$ 4,767,000  |
| 2010        | 1,745,000    | 10,090,000   | 11,835,000    |
| 2011        | 2,368,000    | 10,953,000   | 13,321,000    |
| 2012        | 2,888,000    | 10,651,000   | 13,539,000    |
| 2013        | 3,424,000    | 16,057,000   | 19,481,000    |
| 2014        | 3,632,000    | 15,379,000   | 19,011,000    |
| 2015        | 3,693,000    | 16,449,000   | 20,142,000    |
| 2016        | 3,947,000    | 16,317,000   | 20,264,000    |
| _           | \$22,582,000 | \$99,778,000 | \$122,360,000 |

Source: NDOT.

Proceeds of this tax from a county deposited in the State Highway Fund must be used exclusively for projects within that county, and may not be used to reduce or supplant the amount or percentage of money that would otherwise be available from the State Highway Fund for projects in that county. Receipts from this tax are not included in Gross Pledged Revenues.

#### FEDERAL TRANSPORTATION FUNDING

Fuel taxes and other highway-user revenues collected by the federal government are placed in the Federal Highway Trust Fund. Congress allocates these funds to the states pursuant to provisions in multi-year highway funding authorization acts. The State receives approximately \$1.00 in federal highway funds (as a combination of both apportioned funds and earmarked funds) for every dollar contributed to the Federal Highway Trust Fund. In recent years, fuel taxes and other highway user revenues have not been sufficient to provide funding to states at authorized levels and Congress has appropriated other funds to cover the shortfall. There can be no guarantee that any future Congress will continue to fund any shortfalls.

#### MAP-21 and the FAST Act

#### MAP-21

On July 6, 2012, President Obama signed into law the Moving Ahead for Progress in the 21<sup>st</sup> Century Act ("MAP-21"). At the time of its enactment, MAP-21 was the first long-term highway authorization enacted since 2005. MAP-21 established authorization for federal funding of surface transportation programs and allocation of such funding among the states and territories for the federal fiscal years ending September 30, 2013 and 2014.

Funding levels under MAP-21 were generally maintained at FY 2012 levels, with minor adjustments for inflation. MAP-21 also extended the imposition of fuel taxes and other highway-user taxes, generally at the rates that were in place when the legislation was enacted, through September 30, 2016.

More information regarding MAP-21 can be found at: http://www.fhwa.dot.gov/map21/summaryinfo.cfm. Information on this website is not incorporated by reference in this Official Statement.

#### FAST Act

The FAST Act provides \$305 billion of transportation funding through September 30, 2020, extends fuel taxes and other highway user taxes through September 30, 2022 and provides additional funding for the Highway Trust Fund to address shortfalls in the Highway Trust Fund. The FAST Act provided every state a 5.1 percent increase in formula funds in Federal Fiscal Year 2016. This is followed by annual increases ranging from 2.1 percent in Federal Fiscal Year 2017 to 2.4 percent in Federal Fiscal Year 2020, increases that are anticipated to approximately offset the effect of projected inflation during such years. The FAST Act allocates \$1.9 billion to the State for transportation projects over five years, or roughly \$385 million annually. For the five year period, this is a \$170 million total increase above prior funding levels to the State.

The FAST Act retains the highway program structure created pursuant to MAP-21 with some major additions or changes.

#### National Highway Performance Program (NHPP)

The FAST Act adds two permissible uses for NHPP funds: (1) to pay subsidy and administrative costs for Transportation Infrastructure Finance and Innovation Act (TIFIA) program projects and (2) for improvements to bridges that are not on the NHS. `

#### Surface Transportation

The FAST Act rewrites the list of uses eligible for STP funds and increases the ways that STP funds can be used for local roads and rural minor collectors. The STBGP still requires that a fraction of program funds be distributed within each state on the basis of population, and the fraction subject to this requirement grows from 50 percent in 2015 under the existing STP program to 55 percent in FY 2020 and FY 2021. See "NDOT PLANNING AND CURRENT PROGRAMS – Statewide Transportation Improvement Program – *Nevada Bridge Program*" in this Part III for information relating to FAST Act changes to the STP.

#### Congestion Mitigation & Air Quality (CMAQ) Program

The CMAQ program provides a flexible funding source to state and local governments for transportation projects and programs to help meet the requirements of the Clean Air Act. The FAST Act makes only a few changes to the CMAQ program: CMAQ funds can be used not only for attainment of ambient air quality standards, but also to maintain standards in an attainment area; the diesel retrofit program is expanded to include port-related off-road equipment and vehicles; and it provides for certain exemptions for low-population-density states. The CMAQ program receives the same share of formula funds as applied under MAP-21.

#### Highway Safety Improvement Program (HSIP)

The FAST Act ends the ability of states to shift funds designated for infrastructure safety projects to behavioral or educational activities, which is supposed to ensure resources remain in construction-related programs. The FAST Act also designates several new safety improvements eligible for funding, including vehicle-to-infrastructure communication and roadway improvements that provide separation between pedestrians and motor vehicles.

#### Transportation Alternatives

See "NDOT PLANNING AND CURRENT PROGRAMS – Statewide Transportation Improvement Program – *Transportation Enhancement Program*" in this Part III for information relating to FAST Act changes to the Transportation Alternatives Program.

The FAST Act's two new initiatives are the National Freight Program, which funds freight-related highway improvements, and the Nationally Significant Freight and Highway Projects Program, which funds projects intended to improve the movement of both freight and people, increase competitiveness, reduce bottlenecks, and improve intermodal connectivity.

More information regarding the FAST Act can be found at: https://www.transportation.gov/fastact. Information on this website is not incorporated by reference in this Official Statement.

#### Federal Aid to Pay the Bonds

Federal law pertaining to highway systems (23 United States Code Annotated Section 122) permits the United States Secretary of Transportation to reimburse the State for the retirement of a portion of the principal of, interest on, costs of issuance, costs of insurance and any other costs incidental to the sale of the Series 2017 Bonds if bond proceeds are used for an "eligible project." Reimbursement for the Series 2017 Bonds may be sought by the State from the federal government to the extent the Series 2017 Bond proceeds are used for an eligible project. Any funds received as reimbursement will be Gross Pledged Revenues and credited to the State Highway Fund and, if necessary, transferred to the Bond Fund and applied as described under the heading "DESCRIPTION OF THE SERIES 2017 BONDS — Security for the Series 2017 Bonds — *Priority of Application of Gross Pledged Revenues*" in Part I of this Official Statement. No assurance can be given that federal reimbursement will occur because reimbursement is dependent upon both the appropriation of funds by Congress and the completion of the eligible project in accordance with federal requirements. Information about federal aid included in Gross Pledged Revenues in the last five fiscal years is included under the heading "PARITY SECURITIES, GROSS PLEDGED REVENUES AND DEBT SERVICE REQUIREMENTS – Debt Service Requirements" in Part I of this Official Statement.

Federal law provides that the eligibility of the Series 2017 Bonds for reimbursement shall not constitute a commitment, guarantee or obligation on the part of the United States to provide for payment of debt service on the Series 2017 Bonds or create any right of a bondholder or other third party against the United States for payment of the Series 2017 Bonds.

#### **REVENUES PLEDGED TO SECURE SERIES 2017 BONDS AND PARITY SECURITIES**

The State Constitution (Article 9, Section 5) provides that the proceeds from the imposition of any excise tax on gasoline or other motor vehicle fuel shall, except costs of administration, be used exclusively for the construction, maintenance, and repair of the public highways of the State. The State has determined that the use of Fuel Taxes to pay the Parity Securities is permitted by this provision.

The foregoing constitutional provision further provides that, excluding administrative costs, revenues received from taxes levied on any gasoline or other vehicle fuel, license or registration fee shall be used exclusively for the construction of, maintenance, and repair of the public highways of the State. Accordingly, the majority of the State Highway Fund, which derives its funds from Article 9, Section 5 numerated sources, finances the activities of NDOT. However, the DMV and the Department of Public Safety are also partially funded by appropriations from the State Highway Fund. Other appropriations or transfers from the Highway Fund for administrative services provided to NDOT include the Department of Administration, the Attorney General's Office, the Public Works Board, and the Transportation Services Authority.

The Bond Resolution provides that State laws concerning the Fuel Taxes or the Gross Pledged Revenues may not be repealed or amended or otherwise directly or indirectly modified in such manner as to impair adversely the Series 2017 Bonds or any other Outstanding State securities until all such securities have been discharged in full or provision for their payment and redemption has been fully made.

#### **Gross Pledged Revenues**

The Bond Resolution provides that the Series 2017 Bonds shall be payable from any federal aid eligible for the payment of the principal of and interest on the Series 2017 Bonds and from the proceeds of the motor vehicle fuel taxes imposed and collected pursuant to the Fuel Tax Act and credited to the State Highway Fund for the payment of principal of and interest on the Series 2017 Bonds (the "Gross Pledged Revenues"). Gross Pledged Revenues includes the fuel taxes and special fuel taxes described under the headings "STATE FUNDING — Fuel Taxes", "STATE FUNDING — Other Taxes and Fees" and a portion of the federal aid discussed under "FEDERAL TRANSPORTATION FUNDING — Federal Aid to Pay the Bonds" in this Part III. Historic amounts of federal aid eligible for debt service are included under "PARITY SECURITIES, GROSS PLEDGED REVENUES AND DEBT SERVICE REQUIREMENTS – Debt Service Requirements" in Part I of this Official Statement. Gross Pledged Revenues does not include the Direct Distributions and Other Exclusions described below.

#### **Direct Distributions and Other Exclusions**

The Bond Resolution excludes from Gross Pledged Revenues certain fuel tax proceeds not collected because of exempt sales and other exempt transactions; any tax proceeds not collected because of the dealers' collection and handling fee; tax proceeds for making refunds; motor vehicle fuel tax proceeds paid on fuel used in watercraft for recreational purposes; tax proceeds imposed and collected and required to be distributed to the counties in the State; tax proceeds derived from motor vehicle fuel used in aircraft; and fuel taxes in an amount required to pay the costs of administration for the collection of any excise tax on gasoline or other motor vehicle fuel, subject to the limitation of not exceeding 1% of the total proceeds so collected (such exclusions being herein the "Direct Distributions and Other Exclusions").

#### **Highway Improvement Revenue Bonds**

Pursuant to NRS 408.273 (the "Project Act") chapter 365 and chapter 366 of the NRS (collectively, the "Fuel Tax Act") and the Bond Resolution adopted by State Board of Finance, the State, acting by and through the State Board of Finance, is authorized to issue highway improvement revenue bonds known as "Highway Improvement Revenue Bonds." As such, pursuant to the Project Act and the request submitted by the State Transportation Board, the State Board of Finance is authorized to issue revenue bonds to provide funds to pay for the cost of construction, maintenance and repair of public highways of the State. The State has issued \$706 million in bonds since 2008 primarily for the construction of six "Super Projects": US-95 widening in Las Vegas, I-515/Beltway Interchange in Henderson, Hoover Dam Bypass, I-580 Reno to Carson Freeway, Carson City Freeway, and Project NEON. Currently, the State has approximately \$539 million of highway revenue bonds (referred to herein as Existing Parity Securities) outstanding. The State anticipates issuing approximately \$179 million of Additional Parity Securities in 2018. The timing and amount of Additional Parity Securities may change. See "DESCRIPTION OF THE SERIES 2017 BONDS – Security for the Series 2017 Bonds – Existing Parity Securities" and "PARITY SECURITIES, GROSS PLEDGED REVENUES AND DEBT SERVICE REQUIREMENTS – Existing Parity Securities" in Part I of this Official Statement.

#### STATE OF NEVADA COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR FISCAL YEAR 2016

(THIS PAGE INTENTIONALLY LEFT BLANK)

# STATE OF NEVADA Comprehensive Annual Financial Report

for the Fiscal Year Ended June 30, 2016

# Ron Knecht, MS, JD, PE(CA) State Controller

# RON KNECHT, MS, JD & DE(CA) STATE CONTROLLER

Ron Knecht, an economist, financial and policy analyst, Professional Mechanical Engineer (registered in California), and law-school graduate, became Controller January 5, 2015. As Controller, he also serves on Nevada's Board of Finance, Executive Branch Audit Committee and Department of Transportation Board of Directors.

In his first full fiscal year as Controller, Ron and his management team saved taxpayers 13% of the funds that had been appropriated to the Controller's Office by the Legislature and Governor, based on requests by his predecessor. While returning over \$1 million

to the State Treasury, Ron and his staff have improved state services to Nevadans, especially in the area of accountability information.

Before being elected Controller, he divided 44 working years between public service and entrepreneurial small business, all in managerial and senior professional positions. He's been a founder, executive or director for 12 firms, charities, community-service and public-interest groups.

In previous jobs, he testified extensively as an expert witness. In 2012-14, 1986-2001 and 1976-78, he was a consultant and business executive. In 2001-12, he was a senior economist at Nevada's Public Utilities Commission. He held principal economics, finance, technology and policy positions in 1978-86 at California's Energy and Public Utilities Commissions. In 2009-13 he co-taught about ten two-day seminars for SNL Financial on utility finance, cost of capital, and economic and policy issues for regulators, professionals, managers, executives and securities analysts. In 1973-77, he was a Research Associate and Research Engineer at the University of Illinois. In 1972-73 he was Assistant City Engineer in Urbana, Illinois.

Ron was elected to the Board of Regents of the Nevada System of Higher Education in 2006 and re-elected in 2012. For two years, he chaired the Budget & Finance Committee and was Vice-chair another year; he chaired the Audit Committee for two years; and for seven years he was very active on the Investment and Major Projects Committee, which oversees \$1-billion of endowment and operating funds. He served on four other committees and on institutional presidential selection and performance-review committees, chairing two of them. Ron was elected to the Nevada Assembly for 2002-04, representing Carson City and Washoe City.

With some scholarship support, he worked his way through undergraduate and early graduate studies at the University of Illinois (BA, Liberal Arts & Sciences; mathematics major; physics & chemistry minor; 1971). Spending most of his working career in San Francisco and Silicon Valley, he paid his way at Stanford University (MS, Engineering Economic Systems; 1989) and the University of San Francisco (JD; 1995) by working full time. He's been a columnist for various print and on-line papers, and has taught part-time at two colleges.

The most important things in Ron's life are his wife, Kathy, their teenage daughter Karyn, and Ron and Kathy's mothers and families. Raised in a small Midwestern town, he was always active in a wide range of athletics and outdoor activities -- a competitive distance runner in high school and college. He enjoys ballet, modern dance, symphony, opera, rock & roll, country & western, theater and film, and he collects baseball cards and pursues other hobbies.

# **COMPLIANCE SECTION**

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters. 172

RON KNECHT, MS, JD, PE(CA) State Controller

#### **STATE OF NEVADA**

JAMES W. SMACK Chief Deputy Controller

GEOFFREY LAWRENCE Assistant Controller

#### OFFICE OF THE STATE CONTROLLER

#### December 21, 2016

To the Citizens, Governor and Legislators of the State of Nevada:

In accordance with Nevada Revised Statutes (NRS) 227.110 and the State Accounting Procedures Law (NRS 353.291 through 353.3245), I am pleased to present the State of Nevada Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2016. The objective of this Report is to provide a clear picture of the government as a single, unified entity, in addition to traditional fund-based financial statements.

## **Introduction to the Report**

**Responsibility:** The Controller's Office prepares the State of Nevada CAFR and is responsible for the accuracy, completeness, and fairness of the presentation, including disclosures. To the best of our knowledge and belief, the information contained in the State of Nevada CAFR is accurate in all material respects and is reported in a manner that fairly presents the financial position and results of operations of the State's primary government and the component units for which it is financially accountable. Additionally, this report includes all disclosures necessary to enable the reader to gain a reasonable understanding of Nevada's financial activities.

**Generally Accepted Accounting Principles:** As required by State Accounting Procedures Law, this report has been prepared in accordance with generally accepted accounting principles (GAAP), applicable to State and Local Governments as established by the Governmental Accounting Standards Board (GASB). The State also voluntarily follows the recommendations of the Government Finance Officers Association (GFOA) for the contents of government financial reports and participates in the GFOA's review program for the Certificate of Achievement for Excellence in Financial Reporting.

**Internal Control Structure:** The State of Nevada has established a comprehensive internal control framework designed to both safeguard the government's assets against loss from unauthorized use or theft, and to properly record and adequately document transactions. As a result, the transactions can be compiled into the presentation of the State's financial statements in conformity with GAAP. Since the cost of internal controls should not outweigh their benefits, the State's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement.

Many of our essential control features are decentralized. Hence, the State relies upon the controls in place within its various departments and agencies. NRS 353A.025 requires the heads of agencies to review their internal controls on a periodic basis to determine if the agency is in compliance with the Uniform System of Internal Accounting and Administrative Controls adopted pursuant to NRS 353A.020. On or prior to fiscal year end of even-numbered years, agencies are required to report the status of their internal controls to the Department of Administration.

**Independent Auditors:** The independent accounting firm of Eide Bailly LLP has audited the accompanying financial statements in accordance with generally accepted governmental auditing standards. Their opinion appears in the Financial Section of this publication. The goal of the independent audit is to provide reasonable assurance that the financial statements of the State of Nevada are free of material misstatement. We received an unqualified opinion on the basic financial statements for this fiscal year. The independent audit of the financial statements of the

State of Nevada is part of a broader, federally mandated Single Audit designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the financial statements. This report can be found in the Compliance Section of the CAFR, and in the State of Nevada's separately issued Single Audit Report.

**Management's Discussion and Analysis:** GAAP requires management to provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. However, as is the normal course of business, the audit by Eide Bailly LLP does not extend to or cover this transmittal letter or its addendum.

# **Profile of Government**

**Background:** The Nevada Territory was carved out of the Utah Territory by Congress in 1861 and its boundaries were subsequently expanded eastward in 1862 and eastward and southward in 1866. In 1864, Nevada was granted statehood after transmitting its newly ratified constitution to Congress in the longest and costliest transmission by telegraph in history. This allowed statehood to be conferred on October 31, just days ahead of the November 8 presidential election at a time President Lincoln thought he might need Nevada's electoral votes to secure reelection.

The Great Basin Desert dominates the Nevada landscape, with the Sierra Nevada Mountains to the west and the Rocky Mountains to the east. Federal agencies own and control more than 80 percent of Nevada's 70,264,320 acres, meaning most of Nevada's land area is restricted from use and development by private citizens. Local governments are also unable to collect property taxes on these lands to sustain vital public services, although they do receive less valuable Payments in Lieu of Taxes from the federal government. Due greatly to the shortage of land available for citizens, more than 90% of our 2.8 million residents are squeezed into one of two distinct population centers: the Reno/Sparks/Carson City area near Lake Tahoe and Clark County at the southeast tip, separated by 450 miles.

Nevadans enjoy the absence of a personal income tax but labor under a variety of indirect taxes that are assessed on businesses and thus passed onto consumers in the form of higher prices and to workers in the form of suppressed wage and employment growth. Nevada has offered a continuous legal market for gaming since 1935, allowing that industry to thrive in the state while also financing a significant share of public services. The State operates under a constitution that provides for a full range of services, including education, health and social services, highway maintenance and construction, law enforcement, public safety, business regulation, and resource development.

**Reporting Entity:** The State of Nevada, as the reporting entity, conforms to the requirements of GASB Statement No. 14 and No. 34 as amended by GASB Statement No. 61. The accounting and reporting principles reflected in these statements are based primarily upon the fundamental concept that publicly elected officials are accountable to their constituents, and to distinguish between the primary government and its component units. The State's legally separate component units include the Nevada System of Higher Education, Colorado River Commission, and Nevada Capital Investment Corporation. In addition, the Nevada Real Property Corporation is reported as a blended component unit. The State also includes the presentation of its trust and agency funds. The State Legislature sets statutorily the parameters within which all these entities operate.

# **Financial Information**

**Debt Management:** The State Constitution limits the aggregate principal amount of the general obligation debt to two percent of the total reported assessed property value of the State. Additional disclosures regarding the State's long-term obligations are provided in the notes to the basic financial statements.

**Long-Term Financial Planning and Financial Policies:** State law (NRS 353.205) requires a balanced budget. The Governor must submit a proposed budget for the Executive Branch to the State Legislature before each regular session, which convenes every odd-numbered year. Spending levels under this Executive Budget proposal may not

exceed the amounts that existed during the biennial budget period that began July 1, 1975, adjusted for population growth and inflation. However, the Legislature enacts the budget through passage of the General Appropriations Act and the Authorized Expenditures Act and the legislatively approved budget is not constrained by this growth limitation. Once passed and signed, the budget becomes the State's financial plan for the next two fiscal years.

In accordance with State statute, The Economic Forum, comprised of private economic and financial experts appointed by the Legislature and the Governor, sets the General Fund revenue forecasts which are binding on the budget. If revenues fall below those originally anticipated during the course of the fiscal year, the Governor must revise the budget to ensure that State appropriations do not exceed revenues. If the revisions exceed thresholds specified in NRS 353.220, they must be submitted to the Legislative Interim Finance Committee for approval.

# **Major State Initiatives**

Nevada is beginning work on major transportation projects expected to be completed in coming years, including the massive Project Neon in Las Vegas and the USA Parkway in northwestern Nevada. These will be followed by the I-11 corridor developments between these two areas, and the state is developing a comprehensive freight plan. NDOT project schedules are contingent on the availability of funding, which is likely to be aided significantly by recent passage of the federal FAST Act. In addition, Nevada has awarded substantial packages of cash grants, tax abatements, and other incentives to a few select private firms, including Amazon, Tesla Motors, Faraday Future, and the Oakland Raiders.

# Awards and Acknowledgments

**GFOA Certificate of Achievement:** The GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Nevada for its CAFR for the fiscal year ended June 30, 2015. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR that satisfies both GAAP and applicable legal requirements. A copy of the GFOA Certificate of Achievement is included in the Introductory Section of the CAFR. A Certificate of Achievement is valid for only a one-year period. We believe that this current CAFR continues to meet the requirements of Certificate of Achievement Program, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments and Conclusion: This report would not have been possible without the hard work, dedication and professionalism of my staff and the cooperation and assistance from all State agencies, Executive, Legislature and Judiciary. I sincerely appreciate the efforts of all the individuals involved, especially the Controller's Office staff. We are committed to advancing accountability, continuity and efficiency in the State's financial operations.

In the following 23 pages, we present the Controller's Analysis and Economic Outlook addendum to this Transmittal Letter to provide additional and essential context for users of these statements. It provides a detailed overview of Nevada's performance in specific functional areas, a summary of financial results for the past year and an Economic Outlook for the foreseeable future.

Sincerely,

Ronald Lnecht

Ronald L. Knecht, MS, JD & PE(CA) Nevada State Controller

## **Controller's Analysis and Economic Outlook** HIGHLIGHTS AND TABLE OF CONTENTS

- <u>State Spending</u> (pages v-vi) Over the long term and in the last fiscal year, state spending has grown faster than Nevada's economy, thus imposing an ever larger real burden on Nevada families and businesses, whose incomes have fallen significantly over the last decade. Rapid increases in spending on Health and Social Services (HSS) and K-12 education are driving state spending growth. HSS and education (K-12 and higher) accounted for 82% of total state spending of \$10.9 billion in FY16 while all other state spending in total declined significantly in real and nominal terms over the past decade.
- II. <u>State Revenues</u> (pages vii-ix) Non-tax revenues grants and contributions to the State, charges for services and contract revenues, have grown very rapidly (48% faster than the growth of Nevada's economy) to comprise 57% of total state FY16 revenues of \$12.5 billion. Total tax revenues grew with the state economy, and they provide the other 43%. Gaming tax revenues fell sharply in real terms while taxes on other businesses (including unemployment assessments) rose greatly. Ignoring the pass-through effects of increases in business taxes, the burden carried directly by consumers and residents almost tracked their incomes.
- III. <u>Health and Social Services</u> (pages ix-xi) A large amount of non-tax revenues result from federal HSS grants that are restricted for spending for those purposes and thus cannot be redirected to other areas. HSS spending is not only the largest category of state spending, but it has grown fastest, driven mainly by federal mandates. Medicaid accounts for 63% of the HSS total and has accelerated recently due to Nevada's decision to embrace provisions of the federal Affordable Cost Act of 2010; Nevada Medicaid spending will balloon in coming years and its future is uncertain, even as it delivers poor health care results. The doubling in the last 25 years of the fraction of national income that goes into health care spending is due to the increasing socialization of health care and insurance.
- IV. <u>Education</u> (pages xi-xii) State funding of K-12 has increased rapidly over the long term and last year, especially due to the unprecedented spending increases authorized by the 2015 legislature. Research has continuously demonstrated little correlation between student achievement and spending; so, it is unsurprising that the quality of Nevada education has remained low despite these increases, and it is likely that the massive 2015 spending increases will also yield little improvement.
- V. <u>Public Employee Compensation PERS</u> (pages xiii-xiv) Total compensation of state employees is overall at market levels but is higher for lower-level positions and lower for top-end jobs. Nevada local government compensation is among the highest in the nation and continues to require increases in taxes that are already very high. PERS contributions required of state employees and taxpayers continue to rise in real terms. PERS coverage of local government employees is almost completely paid by taxpayers and is metastasizing to unsustainable levels. PERS relies on very high estimates of future investment returns to hide a growing under-funding problem that threatens financial disaster for Nevada. We propose a correct level, 5%, based on expected returns. By contrast, PERS is leading the nation in managing its investment portfolio, having moved to full indexing in all areas that can be indexed.
- VI. <u>Economic Outlook</u> (pages xiv-xxvi) We identify four secular trends that have suppressed the US economic growth rate the last decade thus explaining the "new normal" of long-term slow economic growth. The first trend is the continuing growth of government relative to the economy reflected in public spending, taxes, deficits, debt, regulation of all kinds, and other government interventions. Until the new millennium, this growing deadweight loss was offset by three growth-inducing factors: 1) demographic and other trends that improved labor-force participation; 2) the growth of financial leveraging (debt); and 3) rapid growth in emerging economies, plus globalization of firms, increasing trade and foreign direct investment. Turnarounds in recent years in all three trends mean they too now create an ever greater drag on the economy and produce slow real economic

growth of 2% or less annually (1% per-person). We also address innovation, technological progress and productivity; cost disease; income and wealth distribution; and the fact that state-specific data show Nevada is not an exception to national trends.

VII. <u>Policy Prescriptions</u> (page xxvi) – Public policy should serve the wellbeing of the people of Nevada and the broad public interest. This means maximizing economic growth, because growth determines aggregate human wellbeing and the policies that maximize it are also those that are fair to all. Thus, for a long time to come, Nevada needs to rein in the size, scope and reach of government to get it back within optimal levels. We also need to adopt policies that help reverse the other three long-term adverse secular trends and that move Nevada away from cronyism toward true entrepreneurship and economic dynamism.

This analysis is designed to provide Nevada citizens, officials and others a short summary of key facts, data, analysis and issues on the State's fiscal condition and challenges. The State Controller has a statutory charge to recommend plans for support of public credit, promoting frugality and economy, and better management and understanding of the fiscal affairs of the State. This addendum first summarizes and analyzes state spending and revenue sources over the last decade. Then it presents the economic outlook for Nevada, focusing especially on the long term, which for reasons explained below, is necessarily based mainly on the national outlook. It ends with some policy prescriptions for better serving the public interest.

### I. STATE SPENDING: How Does Nevada Spend Your Tax and Fee Dollars?

Table 1 below analyzes Nevada state spending by category. Key conclusions follow.

| State Spending by Category                   | \$      | FY2016<br>Figures in<br>Iillions (1) | \$<br>FY2006<br>Figures in<br>illions (1) | Percent<br>of FY16<br>Spending | Growth<br>Rate %<br>2006-16 | 2006-16<br>Real Per<br>Person %<br>Growth | % Growth in<br>Tax & Fee<br>Payers' Real<br>Burdens (2) |

(1) Data are taken from CAFR and CAFR workpapers. For consistency, Cultural Affairs spending is reported both years under General Government, where it is now classified; before 2014, the CAFR included it under Education. Also, for consistency, Nutritional Education Programs are classified both years under K-12, as they were before 2014, although they are now classified as Regulation of Business for CAFR reporting.

(2) These percentage changes are not due to inflation, population growth, increase in student or HSS client head counts, etc. They are the changes in the Nevada taxand fee-payers' burdens in addition to increases in those burdens to cover inflation, population, etc. These percentages are computed based on personal income; if they were computed based on GSP, the increase in burden would be greater because GSP grew slower over the 2006-16 decade than personal income (17% versus 27%).

(3) Real Per-person Growth Rates computed based on state population figures for all categories except K-12 and Higher Education, which are based on student headcounts. **1. Health and Social Services (HSS) and education accounted for 83% of State Total Spending of \$10.9 billion in FY 2016.** Their growth also exceeds growth in State Total Spending from 2006 to 2016. In 2016, HSS consumed 47% (\$5.1 billion), with Primary and Secondary (K-12) Education taking 20% (\$2.1 billion) and Higher Education another 16% (\$1.7 billion). All other activities – Law, Justice and Public Safety, Transportation, Unemployment Insurance, General Government, Regulation, etc. – total merely 18% (\$1.9 billion), as shown in the All Other Government line.

**2. HSS and K-12 spending grew rapidly while All Other Government spending, the Nevada economy and the wellbeing of Nevadans declined significantly.** Chart 1 below displays the annual state spending growth by major category in real per-capita terms over the last decade. Table 1 shows the ten-year totals: increases in HSS (66%) and K-12 (16%) drove up State Total Spending (12%), despite a small decrease in Higher Education (-5%) and a large decrease in All Other Government spending (-37%). Meanwhile, Personal Income of Nevadans (-9%) and Gross State Product (-16%) also contracted substantially.

**3.** Most importantly, the burden of state spending on Nevada families and businesses, driven by HSS and education, was 24% higher relative to their incomes in 2016 than in 2006. The right-hand column of Table 1 shows the growth in spending on each category as compared to incomes of Nevadans. The growth in burden from HSS spending was 83%. For K-12, it was 34% and for higher education, 4%. As shown in the All Other State line, the total of All Other State spending grew 31% slower than incomes. These burden figures mean that, besides covering spending increases due to inflation and growth in HSS client and student headcounts, rising HSS and K-12 spending required families and businesses to pay taxes and fees 24% higher in 2016 than in 2006.

The following points also are noteworthy:

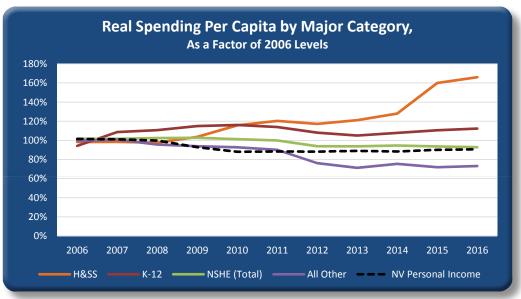

• More than \$3.2 billion (63%) of HSS monies was spent on Nevada Medicaid. This spending will likely continue to rise in coming years due to the state's decision to expand eligibility pursuant to the federal Affordable Care Act (Obamacare). However, federal contributions toward this spending will decrease beginning in 2017, requiring additional state dollars.

• Nearly \$1.5 billion (70%) of K-12 monies was paid from the Distributive School Account to local school districts to supplement their local revenues. By various measures, Nevada K-12 education continues to deliver poor results, despite rapid increases over the last decade in state K-12 spending. Despite the well-known lack of statistically significant correlation between spending and student achievement, in 2015 the Legislature and Governor increased K-12 budgets by hundreds of millions of dollars for the current biennium.

• Total Higher Education Spending rose 32% over the decade, but the state-funded portion rose only 5%. Large increases in tuition and fees, grants and contracts, and self-supporting operations (meal plans, housing, ticket sales, etc.) shifted significant portions of the cost burden from taxpayers to students and their families, who get most of the benefit of the services.

• Transportation spending rose from \$509 million in 2006 to \$802 million in 2012 before falling a net 65% to \$177 million in 2016.

• Unemployment Insurance costs rose nearly ten-fold from \$239 million in 2006 to \$2.233 billion in 2012, before falling to \$342 million in 2016. The 43% growth rate in spending in 2006-2016 for UI is only a small part of the state growth total, and it was driven mainly by the Great Recession, poor recovery and federal UI policy.

## II. STATE REVENUES: Where Did the State Get the Money?

Table 2 below presents the State's comprehensive revenue analysis. Revenues are classified either as Program Revenues, which include charges for services and grants and contributions received by the State, or as General Revenues, which include mainly taxes and also smaller miscellaneous items.

Both Program and General Revenues come from governmental activities, business-type activities of the State, and three entities that file separate accounting reports in addition to the state reports covering primary government spending. These entities are called Discretely Presented Component Units, and the Nevada System of Higher Education (NSHE) accounts for over 96% of their total.

## Table 2: Nevada State Revenue Analysis

| Total Program & General Revenues                   | \$ 12,519               | \$ 7,812                | 100                  | 60               | 14                   | 26                        |

(1) Data are taken from CAFR and CAFR workpapers. Data for Discretely Presented Units covers NSHE, (by far the largest component) CRC and NCIC.

(2) These percentage changes are not due to inflation, population growth, increase in student or HSS client head counts, etc. They are the changes in the Nevada tax- and fee-payers' burdens in addition to increases in those burdens to cover inflation, population, etc. These percentages are computed based on personal income; if they were computed based on GSP, the increase in burden would be greater because GSP grew slower over the 2006-16 decade than personal income (17% versus 27%).

The following points emerge from Table 2 nearby.

**1.** Government Grants and Contributions account for 38% of total state revenues of \$12.5 billion in 2016, and they grew much faster than other revenues in 2006-2016. Program revenues from government grants and contributions (operating and capital) totaled \$4.8 billion in 2016. This revenue increased more than \$2.9 billion from 2006, and it accounted for 62% of growth in total state revenues. These revenues are mainly comprised of federal government funding for Medicaid, Supplemental Nutritional Assistance (food stamps) and Temporary Assistance for Needy Families (TANF), and they are the revenue side of much of the increase in state HSS spending discussed above. That is, much of this spending is driven by federal mandate and also funded by the federal government and its taxpayers. A notable risk is that federal funding is sometimes diminished, but federal mandates rarely are. In coming years, Nevada faces just such a problem with Medicaid revenues and spending.

**2.** Charges for services and grants and contracts for higher education comprise 10% of total state revenues, and they also grew rapidly. Program revenues totaled \$1.2 billion for NSHE in 2016, an increase of 33% (\$0.3 billion) over the last decade.

**3. Other program revenues amount to 8.5% of total state revenues, and they grew very slowly.** Other program revenues of \$1.1 billion grew only 10% (\$0.1 billion) since 2006, much less than the 27% nominal growth in incomes.

**4.** In sum, increases in program revenues, driven mainly by HSS and, to a lesser extent by higher education receipts, grew rapidly while tax revenues grew only moderately. In 2006, most state revenues came from taxes. But over the last decade, program revenues grew 89%, becoming 57% (\$7.1 billion) of total state revenues. General revenues, which mostly consist of taxes grew only 34% (\$1.4 billion) and now account for only 43% (\$5.4 billion) of the state total (\$12.5 billion). Although past spending growth was supported mainly by increasing grants and contributions, the 2015 tax increases will place much of the burden of future spending growth on taxpaying families and businesses.

Table 3 presents analysis of state taxes by source. There is no definitive source for the right level of taxes relative to incomes and the economy. However, as discussed in the section below on the economic outlook, the overall level of state and local taxes in the US is already well above public-interest levels, yet still rising. In Nevada, local-government taxes are the really big problem (due to high spending and pay), and state taxes have been a lesser problem. Turning to trends, Table 3 shows the points stated below:

|                                  |       |           |       |           |             |         | 2006-16  | % Growth in  |

(1) Data are taken from CAFR and CAFR workpapers.

(2) These percentage changes are not due to inflation, population growth, increase in student or HSS client head counts, etc. They are the changes in the Nevada tax- and fee-payers' burdens in addition to increases in those burdens to cover inflation, population, etc. These percentages are computed based on personal income; if they were computed based on GSP, the increase in burden would be greater because GSP grew slower over the 2006-16 decade than personal income (17% versus 27%).

(3) Modified business taxes were increased significantly in 2010 and new motor vehicle and short-term-vehicle rental and transient-lodging taxes were alsc added in that year. These changes affect growth and burden rates.

**1.** The burdens on consumption and on persons of state taxes declined in the last decade. Revenues from the following key taxes fell significantly relative to the growth in incomes: sales and use, gaming, property, motor and special fuels, liquor and tobacco, and other minor items. The incidence of these declining tax revenues lies greatly with consumption, not with savings, investment and employment; and on persons, not businesses.

**2.** To compensate for this decline, the State added new levies and increased taxes mainly on savings, investment and employment and on business. It did so via the modified business tax (that mainly taxes employment) and unemployment assessments; and also partly via levies on auto leasing, lodging and motor vehicles. The largest rise, which was for unemployment assessments, was driven mostly by federal mandate. The upshot is that the growth of total tax burden is trending down, but that trend masks a shift of burden from consumption to savings, investment and employment; and from persons to business.

**3.** The shift in tax burden from consumption to investment and employment and from persons to business diminishes tax neutrality. Neutrality is important because maximizing economic growth and fairness requires that taxes influence as little as possible the spending-versus-savings, investment and employment choices people and firms would make without them. The choices they would make in markets without taxes would maximize economic growth and also maximize aggregate human wellbeing and fairness, the fundamental public policy goals. Since individuals overwhelmingly use their dollars for consumption versus savings and investment, and businesses also spend much of their revenue on goods and services, taxes should fall mainly on consumption of goods and services, and less on savings, investment and employment.

**4.** The shift in tax burden from consumption to investment and employment and from persons to business also diminishes transparency. Transparency is fostered by taxing people, not business; as economists note, businesses don't so much pay taxes in the sense of actually absorbing their economic burden as they collect them for the government from consumers and from employees by lower employment and compensation. Hence, taxing people directly increases transparency, accountability and economic growth by reducing distortions, economic inefficiency and reductions in investment and employment caused by using businesses as the tax middlemen.

5. With eleven taxes accounting for 3% to 24% of general revenues in Table 3 and considering their incidence mainly on persons and consumption, Nevada's tax base can be called reasonably well diversified. Such diversity is important for the optimal balance between stability of public revenues and the revenue constraints that government needs to make it operate efficiently and not grow unduly large. Diversity also keeps rates generally low and the base broad, but in Nevada that benefit is offset by limiting the range of goods and services to which the largest tax revenue source, sales and use taxes, applies. So, no strong conclusion can be pronounced on this criterion.

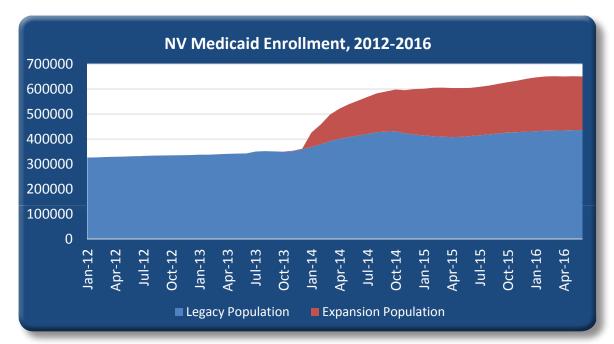

## III. HEALTH AND SOCIAL SERVICES

Health and social services has been the fastest growing category of expenditures over the past ten years in Nevada, and this growth continued in FY2016. In total, Nevada spent \$5,111 million on these services in 2016, up from \$2,199 million in 2006. Much of this spending is financed through federal grants to support programs like Medicaid, food stamps and other welfare programs. At present, as Nevada spends money on these programs, the state becomes entitled to reimbursement from their federal sponsors. However, federal reimbursements do not compensate Nevada fully for all expenditures, and certain programs such as Medicaid require a matching state commitment.

**1. Medicaid is Nevada's largest single expenditure for health and social services, and accounts for 63% of the categorical total.** Federal operating grants to support this program fluctuate each year according to a formula based on the per capita income in each state. States with lower incomes are entitled to have a larger proportion of Medicaid costs reimbursed, but in no case does the federal reimbursement rate fall below 50% of eligible costs. For 2016, the reimbursement rate to Nevada was 65%, up from 54% percent in 2006. A prolonged decline in Nevada per capita incomes relative to the nation drove this increase in federal Medicaid financing. However, this also means that any prospective recovery in Nevada incomes will cause state taxpayer spending for Medicaid to rise even more rapidly.

2. The long-term rise in Medicaid spending has been accentuated by a rapid escalation within the past few years due to the expansion of eligibility parameters. Historically, states that elected to participate in Medicaid were required to cover only certain highly vulnerable populations including the elderly, disabled and children below the poverty level. The federal Affordable Care Act of 2010 (ACA), however, encouraged states to expand eligibility rules to cover all individuals with incomes up to 138% of the federal poverty level including single, childless, working-age adults with no disabilities. The ACA offered full reimbursement of eligible state expenditures for this expansion population through 2016. Federal reimbursements then fall to 95% in 2017, 94% in 2018, 93% in 2019 and 90% by 2020 and beyond. There remains some question as to whether these enhanced reimbursement rates will continue under a Republican Congress and president, especially given the long-running projections of federal deficits.

Gov. Brian Sandoval and Nevada lawmakers chose to expand Medicaid eligibility along the guidelines outlined in the ACA during the 2013 Legislature. Since that time, Nevada's Medicaid enrollment has nearly doubled, growing from 350,234 at the beginning of 2014 to 650,213 at the close of 2016. A portion of this increase is attributable to growth of the legacy population, which grew by 85,837 persons over the period. Although many of these individuals had been previously eligible, new federal tax penalties for failing to acquire nominal health insurance prompted enrollment, which they had previously spurned. This legacy population is subject to the standard federal reimbursement rate, whereas the 241,142 persons who enrolled as part of the expansion population are subject to the enhanced rate.

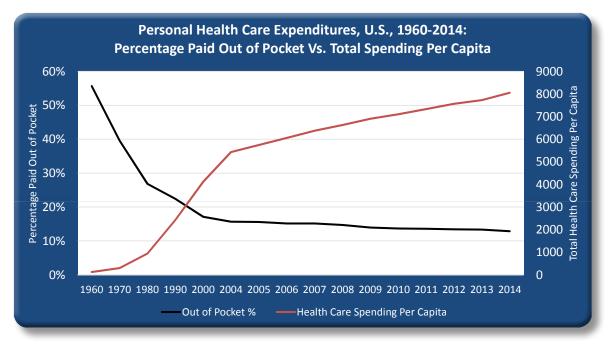

**3. Expanded availability of publicly funded health care benefits has occurred alongside a decline in rates of private insurance coverage and other private spending.** In 2008, 68.6% of Nevadans held private insurance coverage. That rate remained steady through the end of the Great Recession in 2009 but fell to just 61.5% by 2012 before rebounding partially to 64.5% in 2015. One explanation is that the mandates included in the ACA led to the closure of many private insurance plans and temporarily left policyholders without coverage until some purchased new, ACA-compliant plans. But the concurrent enrollment growth in Medicaid and other public health plans suggest that greater availability of these plans has displaced many consumers who previously could afford private insurance. In 2015, 33.5% of Nevadans were enrolled in some form of public health plan, up from just 20.6% in 2008.

4. There is evidence to suggest that expanding Medicaid to additional populations does not improve objective health outcomes and only further endangers the most vulnerable populations. Medical reviews reveal that outcomes are better for holders of private insurance policies than for beneficiaries of public health plans. Mortality rates for surgical procedures are nearly three times higher for Medicaid beneficiaries than for private insurance holders and even higher than for uninsured individuals.

Policymakers have historically squeezed provider reimbursement rates as a cost-control method for Medicaid, while expanding Medicaid eligibility rules. One outcome of this approach is that many health care providers, including the most talented, refuse to accept Medicaid patients. The result is growing demand for Medicaid services as eligibility rules have widened while the supply of providers within the network contracts. This shortage of supply has fueled widespread reports of Nevadans who nominally have coverage through Medicaid but who cannot get care. Thus, the increased competition for care wrought by eligibility expansion harms the most vulnerable populations who were previously eligible and who now face reduced access to care.

5. Whether public or private, most health care plans today are more accurately described as third-party payer plans than insurance. Insurance implies a pooling of risks to hedge against unforeseen events, but public and private health care plans offer payment for routine and foreseeable treatment, as distinguished from risk outcomes. These arrangements encourage individual participants to seek superfluous amounts of care because the cost of additional care is socialized among the group. This perverse incentive, called "moral hazard" by economists, leads to rapidly escalating premiums for private plans and taxes to finance public plans.

Decades ago, a majority of personal health expenditures were financed out-of-pocket by individuals in lieu of any third-party payer arrangement. Wage controls imposed nationally during World War II inspired employers to offer non-wage benefits, including all-inclusive health care packages to attract talented workers. As this system of employer-sponsored third-party payers has grown alongside public health programs, the costs of health care have skyrocketed. The chart below reveals the near-perfect inverse relationship between the percentage of care financed by individuals' out-of-pocket spending and the nationwide cost of health care per capita.

## **IV.** Primary, Secondary and Higher Education

Primary and secondary education programs have been the second fastest growing category of state expenditures over the past decade, growing from \$1.26 billion in 2006 to \$2.15 billion in 2016. On a per-student basis, and without considering local funding, state spending for K-12 education increased from \$3,227 to \$4,531 over this period. Meanwhile, Nevada's ranking against other states in terms of student achievement has failed to improve significantly. In 2007, Nevada eighth graders ranked 44<sup>th</sup> nationally in their performance on the federally administered National Assessment of Educational Progress reading and math evaluations. By 2015, those rankings remained at 43<sup>rd</sup> in reading and 41<sup>st</sup> in math.

These diverging trends make clear that Nevada has failed to translate higher spending for education into improved results. That's also true for the rest of the nation. Among member countries to the Organization for Economic Cooperation and Development (OECD), the United States spends the fourth highest levels per student but has below average academic performance. South Korea, the highest achieving nation, spends only 59.5% as much as the US per child.

|                  | er-pupil Spending<br>Its of the OECD's |           |           |           |           |           |                     |          |

| 20 OECD average  | \$83,382                               | 494       | 496       | 501       | 1492      | \$55.90   | 1.00                | 17       |
| 22 United States | \$115,961                              | 481       | 498       | 497       | 1476      | \$78.55   | 1.41                | 4        |

1. To improve the effectiveness of its education spending, Nevada must allocate that spending toward programs that have been demonstrated to boost student achievement. Factors beyond the direct influence of education policies, including the household income levels of students, can greatly influence student achievement. But these factors are largely beyond the ability of schools to change and must be addressed through economic policies that encourage growth, entrepreneurship and dynamism. Education policy must focus on the school-controlled variables that lead to improvements in student achievement in a cost-effective manner. The academic literature shows no school-controlled variable has a greater influence on student achievement than the quality of the teacher. Peer-reviewed statistical studies show that students lucky enough to have a top teacher make 1.5 times as much testable progress in a school year as those with average teachers. Harvard scholars have found that the best teachers are able to deliver effective instruction regardless of class size. Therefore, Nevada's educational priority should remain the recruitment and retention of highly talented educators. Nevada must relax its current restrictions on who can receive a teaching license so that schools can recruit from a wider array of professionals. Schools must also be freed to offer attractive compensation packages to attract the most talented professionals. Strict, formulaic salary schedules, especially those that reward job longevity instead of excellence, give insufficient flexibility to administrators looking to recruit top talent. Current pay arrangements for teachers also award a disproportionate share of compensation as benefits, as opposed to salary, even though many teachers would prefer greater salary to benefits. So, these strictures must also be relaxed.

**2.** Families are the consumers of public education and each individual family is most familiar with its specific needs. Therefore, the allocation of education dollars among many alternatives, all subject to economic scarcity, is most efficient when consuming families are free to exercise choices over various educational offerings in the marketplace, just as with other consumer goods and services. Schools of choice, including both private and public charter schools, frequently operate at lower cost than traditional public schools and produce higher student achievement. Of the 12 random-assignment studies to date on school choice, six have determined that all student groups benefit from participation in choice programs, five have found some groups benefit and one found no visible impact. No study has found that choice negatively impacts student performance.

Nevada took a major step toward introducing consumer choice into the education marketplace when the 2015 Legislature created a system of universal Education Savings Accounts. These publicly funded, but privately held accounts promised to separate the public responsibility of financing education from the physical administration of schools. There is near universal agreement that the public should provide basic education to citizens. However, this can be accomplished through means other than government administration of regional school monopolies, and experience has shown this arrangement leads to curricular politicization and fiscal bloat. Unfortunately, the Nevada Supreme Court has upheld an injunction on the program until the legislature can approve an alternative financing mechanism that does not divert funds first appropriated to the state Distributive School Account.

**3.** Strong evidence exists that technology-assisted learning leads to better student outcomes while also easing the workload on classroom teachers so they can more easily manage larger classes. A major 2010 study by the US Department of Education found that "on average, students in online learning conditions performed better than those receiving face-to-face instruction." Students enrolled in online classes tend to spend more time on task and are able to move at their own pace, improving the effectiveness of class time. Further, online learning can lower the facilities and transportation costs faced by schools and parents and bring more students from remote locations into contact with the best educators from across the globe.

A major initiative by the 2015 legislature sought to modernize Nevada public schools by appropriating \$48 million to provide electronic devices for students. However, the initiative failed to recognize the cost reductions and productivity enhancements that should result from technology-assisted learning. Instead, the initiative was a single component of a larger package that continued to increase spending on the same cost items for which digital devices should reduce needs.

4. The 2015 Legislature was hailed by leaders as "The Education Session," but only a subset of the new programs enacted are associated in the academic literature with improved student performance. The others appear designed to instead appease special-interest political constituencies, by spending hundreds of millions of dollars to create new positions at existing public schools. Those programs most clearly supported by academic research include Education Savings Accounts, the creation of an Achievement School District to transform failing public schools into successful charter schools and a Charter School Harbor Master Fund to attract highly successful charter school operators into the state. Others, including the provision of digital devices to students and a policy that students be literate before exiting third grade, were implemented in ways that ignored their cost-saving potential, while still more new initiatives needlessly inflated the costs of the public education bureaucracy.

**5.** Nevada has significantly increased revenues extracted from higher education students and their families to reduce general revenue spending for higher education in real terms. It has also greatly favored the universities over community colleges. As does all of US higher education, it suffers from administrative bloat and excessive salaries and preoccupation with trivia such as micro-aggressions and safe spaces. Future Controller's Office reports will address these issues.

## **V. EMPLOYEE COMPENSATION AND BENEFITS**

Previous sections of this letter have addressed Nevada spending by its purposes, but here we address the overall level of public-employee compensation, and especially the portion of that compensation managed by the Public Employee Retirement System (PERS). Both total compensation and retirement funding have long presented serious challenges to governments around the world, particularly for US state and local governments. The good news is that, while Nevada also faces these challenges, it is doing some key things right and is in a better position than most states to meet its challenges.

1. Current Compensation Levels: Annual compensation, excluding benefits, for Nevada state employees is comparable to private-sector levels in our state and well below average for public-employee compensation of other states as a group. Public employee compensation, excluding benefits, paid by Nevada local governments is greatly higher than that for Nevada state employees and employees in the private sector. In fact, Nevada local government compensation is among the highest in the nation, especially when benefits are recognized, because the benefits are also extremely generous. This analysis does not address local-government fiscal matters, but we note that the extreme practices of local governments redound to the disbenefit of the State and to state employees and taxpayers. So, reforms would not only be more fair to state employees and taxpayers, but also help the State manage its fiscal problems. The state payscale is also flatter than those in private enterprise, with entry-level jobs paying more and executive upper-level professional jobs paying less; however, while reform may be in order, it is not clear that it would have net fiscal impacts.

2. Nevada Public Employee Retirement System: Nevada PERS runs various defined-benefit (DB) retirement funding programs, which we address as a group here to get at the key fiscal issues for the State. There are a number of other problems raised by the various aggregating practices of PERS that we simply can't address in this limited review.

In a retirement program, people put some of their current income into a fund that is invested for maximum risk-adjusted growth of the principal so that after their working/contributing years, they may draw retirement income from it. Under defined-contribution (DC) plans, the retirement draw of plan participants is determined by the growth of the fund, which is determined mainly by how well the investments have fared. So, DC plans are inherently fair because all the fruits of saving and investment are returned ultimately to participants, and outside parties do not have any opportunity to divert the funds, nor are they required in any way to subsidize the participants. Under DB plans, participants and the agents who govern the plan are allowed to socialize the risks of their investment decisions to taxpayers and to future generations of participants who have no role in managing those investment risks and thus no opportunity to be fairly protected.

So, DB retirement programs inherently raise the following serious public-policy questions:

- What investment management policies and practices are followed?
- What expected rate of return on future investments or discount rate (DR) for future liabilities is used in setting contribution and draw levels? The DR is one of the most important issues for retirement programs.
- What lengths of working and thus contributory participation time are assumed and what lengths of retirementdraw time are assumed, in addition to the other estimates used? The DR and these other parameters are key in determining the Annual Contribution Rates (ARCs) for currently working plan participants. Unduly high DRs used in the past have contributed significantly to raising taxpayer and current employees' required contribution rates, and they may also raise future taxpayer and employee contributions.
- A. Investment Management Policies and Practices: Nevada PERS leads the nation and is doing all the important things right in this area. Modern investment theory counsels that in efficient markets, such as investments, one cannot expect to beat the market by consistently reaping higher-than-market-average returns – and one can lose a lot by trying. Hence, one should seek essentially to buy a slice of the whole market (or a representative portfolio) and thereby come as close as possible to reaping market-average returns by keeping investment-management costs as low as possible. This is known as index-oriented (or passive) management, and the alternative is active management. We haven't space to rehearse here the details, but Nevada PERS has done the best job of implementing index-oriented management on reasonable asset allocations and has realized greater returns than notable actively managed funds elsewhere. (See more detail on the Controller's web site.)
- **B.** The Discount Rate (DR): Determining the DR is highly controversial, especially in deciding the purpose of discounting, and thus what standards shall be used to set the rate. One view is that the purpose is to absolutely assure that plan resources from past contributions and investment returns will always be sufficient to cover all

benefits and other claims the system may face, without having to raise additional funds in the future. This approach dictates use of a very low, so-called "riskless" rate – e.g., 2%. One problem with this view is that retirement plans already have a long history of making adjustments to raise funds to cover liabilities incurred in the past because the past contributions and earnings were insufficient to cover the benefit levels granted to retirees. Another problem is that it is literally impossible to assure the desired sufficiency because it is possible at any time for the plan to lose money unless it uses investment strategies that do not seek to maximize risk-adjusted returns; so this approach almost requires suboptimal investment management practices. A final problem is that if sound investment management practices are followed, the expected value of plan resources will always exceed the liabilities, and this means that contribution rates and benefit levels for future employees will be subsidized by today's plan participants and taxpayers. Because economic growth means that future generations will be wealthier than today's generation, this implies a regressive intergenerational wealth transfer.

So, the proper fiduciary method for setting the DR is to soberly assess the expected net returns on the investments; then, probabilistic analyses (such as Monte Carlo simulations, etc.) should be conducted using return distributions that have as their expected value return the DR chosen. These simulations will tell the probabilities that the fund will be able to cover various future payout levels, and contribution requirements and benefit levels can be determined to satisfy the level of certainty chosen by the board overseeing the plan. Thus, the real DR question is simply: What are the reasonably expected returns? For decades, public-sector plans have assumed returns around 8%, although some plans have adjusted downward slightly in recent years. Our analysis in the following Economic Outlook section shows economic growth and thus investment returns are highly likely to be much lower than historic levels for the foreseeable future.

Our conclusion is that a DR of 5% net of fees and costs is the most reasonable expectation. On the Controller's web site, we provide further support for this position. For example, using a 60% equity and 40% debt portfolio with a debt return (yield) of 3.5%, and an expected equity return of 6%, gives exactly a 5% portfolio ROR; something slightly higher would be needed to cover fees and costs, even at the very low rates incurred by Nevada PERS. The 6% equity return can be supported by an average of: 1) a risk-premium analysis that adds a 5.5% equity risk premium to a 2.5% riskless rate to get 8%; and 2) a discounted cash flow analysis that adds a 3% current dividend yield to a 1% per-person expected economic growth rate for a 4% equity return. So, we strongly recommend PERS adopt a 5% DR.

- **C. Reference Working Lives and Retirement Periods:** Expected life length has been climbing in the US for decades, and health status has been improving at every age, but these factors have not been reasonably reflected in the reference working lives and retirement terms assumed by pension funds, Social Security, etc. In short, today most working lives assumed in pension plans, including PERS, mean that retirement benefits maximum levels are reached after 30 years of employment or only slightly longer and often available at a mid-fifties age. Thus, many public employees, including Nevada State employees, get market-level pay for 30 years of service, followed by retirement draws that may run as long as 40 years and are noticeably better than the retirement draws generally available in private employment. Even expanding on these issues at the Controller's web site, we cannot do full justice to this issue. Our purpose in raising it here is to initiate a broad and sustained conversation among all parties to properly plan for and finance the retirement of public employees.
- **D.** Duty to the public interest, voters, taxpayers and future plan participants: The basic duty owed by all public officials from governors, controllers and legislators to all public employees in policy-related positions is a duty to the voters, taxpayers and broad public interest. People involved in governing retirement funds tend to see a duty to plan participants, and statute and regulation often supports such additional duties. As public choice theory illustrates, the real problem is that officials generally begin to regard their primary duty as residing with current plan participants and they forget to view all their decisions from the viewpoint of the voters, taxpayers and broad public interest. In particular, taxpayers and in retirement matters, future plan participants begin to be viewed as mainly deep pockets to allow the politicians and bureaucrats to better serve the interests of current pan participants. We therefore urge that all discussions of these issues begin with explicit recognition of the duties to voters, taxpayers and the broad public interest, and all proposals should be evaluated almost exclusively on that basis.

## VI. ECONOMIC OUTLOOK: INTRODUCTION AND OVERVIEW

A year ago in Nevada's first Popular Annual Financial Report, we proffered an unusual economic outlook, one focused on the intermediate and long term. We identified four long-term secular trends that we believe have suppressed the US economic growth rate the last decade -- thus explaining the "new normal" -- and by their nature will continue to do so for the foreseeable future absent significant changes in public policy. These developments

obviate short-term forecasts because they swamp out business-cycle effects and may even change business-cycle frequency. They also make sectoral forecasts uncertain. And they do the same to regional forecasts; nonetheless, we examined certain long-term Nevada trends to see if there was any basis for modifying the national forecast for our state. (There was not.)

**Long-term Growth of Government Over-reach:** The first trend is the continuing growth of government relative to the economy – reflected in public spending, taxes, deficits, debt, regulation of all kinds, and other government interventions (e.g., retirement programs, health care and insurance, etc.). The empirical economic literature indicates that government size, scope and reach has for over 55 years been excessive relative to levels that maximize growth and thus human wellbeing. Yet government has continued to grow, especially in the last decade, thus ever more retarding growth. Until the turn of the century, this growing deadweight loss was offset by three growth-inducing factors: 1) demographic and other increasing labor-force participation trends; 2) increasing debt levels of all kinds relative to GDP (government, financial debt, non-financial business debt, home mortgages and all other consumer debt); and 3) rapid growth in emerging economies, plus globalization of firms, increasing trade and foreign direct investment.

**Changes in Three Other Long-term Secular Trends:** Not only has government over-reach soared to new levels in the last ten years, but labor-force trends that were a major offset to that excess have turned around, driven by both policy and demographics since the turn of the century. Since the Great Recession, rapid growth in debt has waned for policy reasons and simply because the growth rates were unsustainable. Thirdly, world economic growth is slowing and will continue to slow because other countries have done an even worse job than the United States on growth policy; further, our increasing integration with the rest of world has slowed since the recession, mainly due to poor policy. So, for both reasons, the rest-of-the-world sector also has changed from an engine to a drag.

The upshot of these trend changes is that ten-year US growth, which peaked in the 1960s and then was roughly constant through 2007, except for a downward excursion in the early 1980s, collapsed after 2007 to half its historical rate, where it has stayed. Last year, we forecasted 2% or lower long-term annual growth, with half of it coming from population growth and half from real per-person economic growth – both of which may well decline going forward. We emphasize per-person growth because it determines the extent to which human wellbeing and human flourishing increase, and thus is the real measure of success in public policy. The difference between the 1% figure of the last decade that we project to continue for the foreseeable future and previous growth in the 2%-2.5% range is hugely significant in economic, social and human terms, as we showed.

**New Normal Persists: Slow Long-term Growth:** While 2% growth had been the rule since the recession, almost nobody had been projecting continuation of it. So, our projection (which Knecht has made since 2011 based on such analyses), was an unorthodox if not radical view. Over the last year, many people have begun to accept the idea that such slow growth really is the new normal and will persist – and many have given reasons similar to ours to support such forecasts. In fact, the Congressional Budget Office – which has a long record of optimistic forecasts that were not realized – just recently adopted the 2% long-term growth estimate. While we're not averse to the mainstream coming around to our views, we nonetheless continually critically re-examine our analysis and results. So, beginning on the next page, we revisit the four trends, plus our Nevada-specific factors, and their effects. We find that last year's analysis of these trends is essentially unchanged. Our conclusion remains that economic growth will be slow and that uncertainty has increased.

**Innovation, Technological Change and Productivity:** Although our basic analysis are still sound, the last year has highlighted some competing theories, concerns and new data; so, we examine them too. First, major works published the last two years suggest endogenous (organic) factors explain the growth over the last 150 years (or longer) in terms of specific inventions, innovations, technological progress and developments that led to unusual productivity gains and thus rapid growth for periods from a decade to a century. Proponents of these analyses seem mostly to ignore effects of the four trends we presented, and more importantly they claim that past rapid growth was a one-off phenomenon and so we have now returned to a basal economic metabolism of slow growth. We believe that our factor analysis explains much of the growth in innovation, technological progress and productivity they have correctly observed. Therefore, we need not wallow in pining for a lost golden age, but instead need to reform policies to reinstitute it.

**Cost Disease:** An important aspect of this debate concerns structural changes in our economy as our total economic output has shifted more to services from goods. Baumol's "cost disease" is the economist's explanation of the problem, but we believe it errs by failing to consider alternates and substitutes continually proliferating in the basket of consumer and business purchases. We give an example to show that the traditional description of cost disease fails to capture the full range of efficiency gains realized by new developments. While cost disease may characterize general government and the three sectors most entangled with it (education, health care and aging services), innovation by producers and consumer sovereignty overwhelm cost disease in the market economy. Once again, public policy is the key to reform and growth by directly changing the budget processes of the public sector and moving education, health care and aging services greatly forward to market structures.

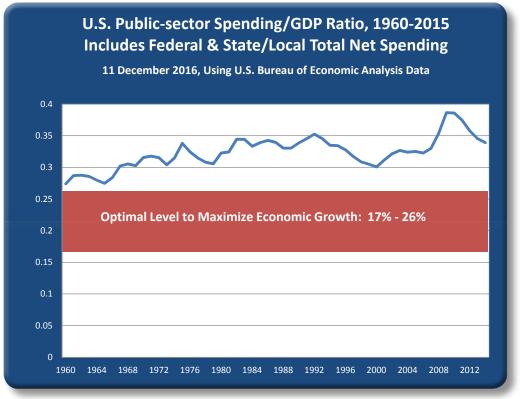

**Market Capitalism and Income Inequality:** Finally, recent years have also seen increased concern about the distribution of economic growth, especially as the slowly rising tide fails to lift all boats as the historic tidal surge did. Further, a group of academics have rolled out new versions of classic Marxian doctrines that search for major structural flaws in real capitalism, with the prime one even titled as a knock-off of *Das Kapital*. It claims that over time market systems systematically make the rich richer and leave the poor and middle classes behind, although this claim has been thoroughly refuted on its own terms by serious academic and professional analyses (and it has been greatly qualified as a result by the author). We show that increases in economic inequality have been directly correlated with public-sector over-reach with which our analysis began, and explain that cronyism, which is the inevitable result of government excess, benefits the political classes at the expense of the masses. Market competition enables social mobility and favors the many, while the political allocation of resources (high public spending, taxes, regulation, etc. – in short, politics and cronyism) favors the privileged political few.

**The Solution: Broad Public Policy Reform:** In sum, as we detail below, our analysis of the four factors we previously identified as resulting mainly from unsound public policy explains the source and solution of our problems. To serve the broad public interest and the people of Nevada, our state and local governments need to do their part, and our federal representatives need to push the national government to do its part. A new federal administration aligned with a cooperative and reform-oriented Congress have an opportunity to turn things around. Additional discussion of many matters addressed here is posted on the web site controller.nv.gov.

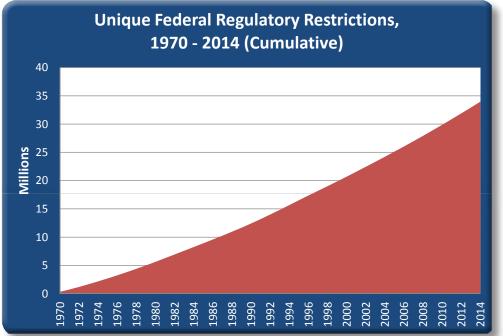

1. Government Overreach: The size, scope and reach of American government – including spending, taxing, borrowing, statutory mandates, regulation, monetary and credit-allocation policy, and other intervention – long ago exceeded levels that promote the public interest in maximum economic growth and fairness. These excesses at federal, state and local levels have increasingly slowed growth and diminished fairness, and they will continue to do so unless they are reined in. Economists now understand that economic growth and thus aggregate human wellbeing levels are determined more by the economic, political and social institutions, practices and policies of a society than by geographic, infrastructure, resources and other earlier development-theory factors. The rule of law, limited government with separation of powers, personal liberty and individual rights, strong property rights and high levels of economic freedom are essential for growth.

As detailed on the Controller's web site, empirical literature – research based on real economic data – supports and quantifies theory suggesting that there's an optimal range of government spending that maximizes economic growth. There are classically defined public goods that are most efficiently provided by government and there are market failures that justify regulation and other intervention. However, excess spending, scope and reach of the public sector diverts efficient private investment and consumption, and it slows growth. While there are uncertainties and debate about the levels of public spending relative to the economy that maximize growth, the best evidence shows that the US passed those levels by the 1960s and has increased government excess to the present time.

The chart below of public spending over time as a percentage of the US economy vividly illustrates this point. The excess growth has not been limited to the federal government; state and local spending have grown even faster in relative terms. Nevada's local-government and total public-sector spending have grown particularly fast. Nationally, increasing government interventions into health care have accelerated greatly driven up its cost. As the public sector continues to consume resources beyond economically efficient levels, private investment and growth is elsewhere deterred, and overall growth of our economy slows.

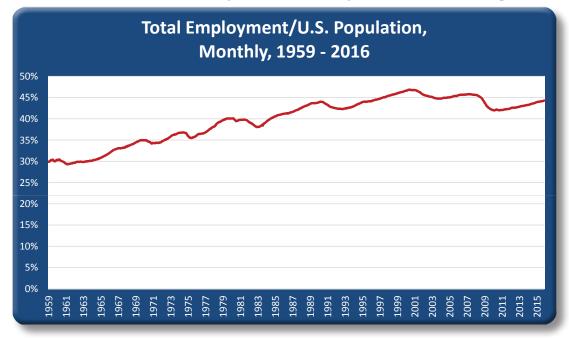

While public spending is the measure of government overreach easiest to quantify, analyze and understand as a growth determinant, other measures also drive and reflect the excess. Taxes and public debt are directly driven by public spending, and public debt has now reached its highest level relative to the gross domestic product (GDP) since the early 1950s, when the debt from World War II was being worked off. Government regulation in a wide range of economic, environmental, public health and safety areas, plus intervention including monetary stimulus and credit allocation and federalization of health insurance and education have all increased to unprecedented levels and metastasized in the last decade. The net effect has been to raise the barriers to business formation and success, retarding growth; with the overreach at record levels and still increasing, the drag may even get worse. Regulatory restrictions accumulate at an increasing rate each year, with more than 1 million restrictions issued in 2014 alone. For entrepreneurs, however, it is the cumulative effect of these restrictions that burdens business formation, expansion and job growth. Since 1970, nearly 34 million unique federal restrictions have been issued, as shown in the graph below.

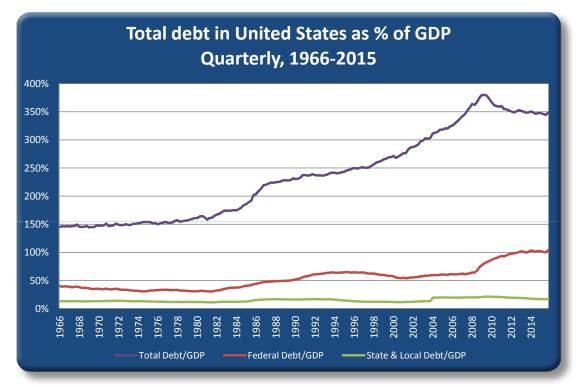

**2. Demographics and Work-force Participation:** Demographic changes driven by public policy and non-policy factors are reducing the fraction of the population doing productive work in market settings, while increasing numbers consuming but not producing. These changes include falling birth rates, increasing longevity, more public subsidy for retirement and of persons not working, and changing social and economic roles of men and women. These changes are slowing growth and may precipitate generational conflict.

The 1970s movement of Baby Boomers into working age, plus the movement then and later of women into paid work drove labor-force participation to a record level of 67.1% in 2001. The aging of Boomers into retirement years, plus declining birth rates in younger cohorts, the slippage of female workforce participation and the tepid recovery from the Great Recession have all dropped participation to 62.7%, the lowest level since 1977. Falling labor-force participation in the 16-54 age range more than offsets recent participation increases for the 55+ group, netting a continued decline in total employment ratios. Low unemployment rates are due to counting "discouraged workers" out of the labor force and to increases in "under-employed" part-timers – both driven by the non-recovery and the palliative effects of increases in benefits to people not working. As shown in the graph nearby comparing population and employment, through 2002, demographic and workforce participation factors gave a huge boost to economic growth countering public-sector overreach, and the employment/population ratio rose more than 56% in 42 years (from 0.30 to 0.47).

However, since 2002, demographic and other labor-force-participation trend reversals have reinforced the increasing drag from government excess that depresses growth. The movement of the large Boomer cohort into retirement began in 2011 and will accelerate and then continue for 20 more years. Because retirement age and support policies were set when longevity was lower and health of people over 60 was less robust, US dependent/producer ratios will continue to rise relative to what they would be under market incentives. So, total-factor productivity and thus the economy will continue to grow slowly. The burden on productive cohorts will increase, especially with slow income growth, leading perhaps to generational conflict. Slow economic growth and resulting low interest rates and other rates of return on investment will challenge retirement funding and exacerbate all these problems.

**3.** Debt in All Sectors and Net Savings and Investment: Total debt levels relative to the US economy increased hugely until the financial crash and Great Recession of 2007-09. As shown in the graph nearby of total American debt as a percentage of the economy, they have retrenched only mildly since then, leaving an excess-leverage overhang that may not be receding. All debt sectors are involved: government at all levels; business (financial and nonfinancial); and households (mortgage, auto, student and consumer loans, etc.). Credit-allocation policy such as the Community Reinvestment Act amendments of the 1990s drove much of the excess, especially in the decade ending 2008, providing artificial and unsustainable temporary stimulus to growth but also produced mal-investment. Monetary policy – the Federal Reserve keeping interest rates low in 2002-05– also contributed to these problems.

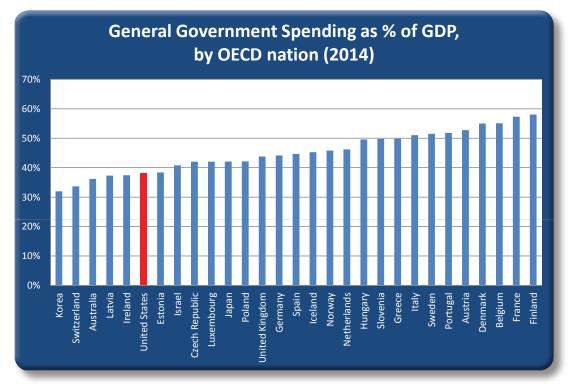

Total US debt/GDP ratios in 2015 were still twice their 1984 levels, despite retrenchment following the financial crash and Great Recession. Consumer debt growth was driven mainly by the federal mortgage lending policies that caused the housing bubble and subsequent collapse. Business debt grew in finance and large corporate stock buybacks, mergers and acquisitions, meaning there is now perhaps an equity bubble. Federal government total debt/GDP ratios have more than doubled, driven by fiscal policy such as the stimulus spending of the \$831-bllion American Recovery and Reinvestment Act of 2009 and the continued growth of "entitlements" spending (Social Security, Medicare and Medicaid). Monetary policy – the copious increases to the Federal Reserve balance sheet due to massive purchases of Treasury securities and government agency debt – has also been used to ameliorate the negative growth effects of a wide range of regulatory, tax and other public policies. Further retrenchment from current debt levels is needed to restore the economy, so demand for capital and interest rates and investment returns will all remain low, as will economic growth. The resulting sustained low interest rates have destroyed much economic wealth and damaged institutional, retirement and endowments investors and savers.

**4. International Economic Growth, Trade and Foreign Direct Investment**: Until the Great Recession, long-term growth of the world and developing economies, led by China, was more rapid than growth in the US and other advanced nations. Driven by and contributing to increasing 1) globalization of corporate operations (not political globalization), 2) international trade and 3) foreign direct investment in the US, this growth increased US economic growth by lowering costs to American consumers and businesses and spurring more efficient investment and production by domestic and foreign businesses.

Since 2007, trade increases have lagged world economic growth. Growth in China and other developing nations has slowed, further depressing American growth. The three factors above that now retard US economic growth are even worse in other major economies, advanced and developing. While this makes our economy the "cleanest dirty shirt in the laundry pile" for investors, it also means the global-trade-and-investment cavalry will not be riding to rescue us from anemic economic growth rates. The world economy will no longer spur US growth to the degree it did before the Great Recession.

The problems of excess and still growing size, reach and scope of government are worse in every other major economy than in the US, as shown in the chart below. So are demographic problems of low birth rates and labor force participation, plus increased aging. Europe (the only other comparably-sized economy) and Japan continue to struggle as they long have done with very low growth. China has grown hugely into the second-largest national economy, but the command-and-control methods that remain even after its liberalization have yielded massive malinvestment and debt growth. Due to mal-investment, persistent low consumer demand and the recently eased one-child policy, a monumental policy mistake that is spawning great human tragedy, China is headed for ever lower and possibly negative growth. All other economies are too small to make a significant difference to US growth.

Total debt worldwide is now about 5.6 times what it was 20 years ago, while the world economy is only 2.8 times its prior size, meaning debt/GDP ratios have doubled in only two decades. That increase is likely unsustainable especially with slowing world growth and globalization, leading to future retrenchment. Europe is now following Japan and the US into monetary and credit-allocation overreach, and Italy and others (possibly including Japan and China) soon may face Reinhart/Rogoff excess debt levels (debt above 90% of GDP leading to financial collapse). Birth rates being an inverse function of women's education and wealth levels explains much of the world demographic problem, but in India and Africa birth rates are dropping even faster than education and income indicate. Slow population growth will slow their growth.

5. Upshot: Continued Slow Economic Growth: All four mutually reinforcing problems discussed above have already produced the poorest recession recovery on record, with real growth of about 2% annually – or, adjusting for population increase, real per-person growth of about 1%. With none of these problems abating (and perhaps increasing), the most reasonable outlook is economic and productivity growth at recent anemic rates or even lower, plus great uncertainty going forward. The chart below of rolling ten-year growth rates shows that US economic growth has long been declining due to these factors and has collapsed to record sustained low levels since 2008. Growth at 1% per person per year sounds only slightly lower than historic 2.0% to 2.5% levels, but the compounding impact is huge: Namely, average human wellbeing growing only 42% every 35 years instead of doubling, the social norm for 250 years. So, instead of average family incomes doubling from \$50,000 yearly to \$100,000 (at 2.5%), they will grow only to \$71,000 (at 1%). Restoring the economic growth legacy left by previous generations, an essential public policy need, requires government to grow slower than the economy for decades.

Down-side risks may even make things worse. As discussed in the next section, some economists claim that invention, innovation, technological progress and thus productivity growth have slowed from levels of recent decades, meaning that this key driver of growth will have a diminished effect and economic growth will fall toward zero. A related issue is that recent slow growth has occurred despite falling energy and other commodity prices that, all other things remaining equal, should have spurred growth. Possible returns of these prices to historical levels could dampen growth even further, but some economists believe that persistence of low prices could precipitate worldwide deflation and negative economic growth consequences. Two other factors are likely to further compound these problems: 1) slow economic growth produces low investment returns, which in turn tend to keep growth lower in a negative feedback loop; and 2) our current recovery, anemic as it has been, is now longer than the average cyclical upturn and we may be due for a contraction. We see no salient upside factors in the US outlook.

6. Innovation, Technological Change and Productivity: Two recent economic history books have addressed the slowdown of the American economy in the last half century, and there have also been a number of analyses of the role of innovation, technological progress and productivity growth. The two books are *The Rise and Fall of American Growth* by Robert Gordon and *An Extraordinary Time* by Marc Levinson.

Gordon focuses on the historically unprecedented growth in the US in "the special century" of 1870-1970 and the much less spectacular record since 1970. He breaks down the determinants of growth between 1) capital deepening (the ever accumulating stock of capital to serve the economy and foster growth) and 2) the effective education levels of the populace (which makes people more economically productive and can be viewed as the deepening of the human capital stock), plus 3) total factor productivity (TFP), which covers all productivity gains not explained by the other two factors. He finds that the combination of capital deepening and education has contributed roughly a nearly constant 1% per year in real terms to average annual growth rates of output per work hour since 1890.

However, TFP was a mere 0.5% in 1890-1920 before soaring to 1.8% in 1920-1970 and settling back to 0.7% in 1970-2014. Gordon does address briefly the demographic and labor-force participation trends we have cited, but not the other three factors. Instead he sees TFP as endogenous and even sui generis – more a (richly deserved and well told) humanistic celebration of some remarkable technological and economic history than an analysis useful for forecasting and policy. While he sees no basis to believe TFP will rebound to previous levels, he does analyze the last 44 years to conclude that the proliferation of information and communications technologies during that time produced only a ten-year serious bump in TFP to 1.03% in 1995-2004 and he finds the 2004-2014 rate to be the lowest since 1890 at 0.4%.

Levinson analyzes the progress of major western economies, including the US, in the 1948-1973 quarter-century to also find historically unprecedented growth ("the golden age") followed by a collapse to much lower levels since then. His analysis is also well told, but lacks even more than Gordon's in quantitative detail and support; in over 300 pages, one finds not a single table, chart, graph or equation (a remarkable feat for a former finance and economics editor of *The Economist*, which has always specialized in illuminating graphics.) He states, "Scholars have spent the past fifty years struggling to understand what went wrong and how to set it right." So, he joins Gordon in concluding that the present is normal and that the golden age was a unique non-recurring set of many fortunate circumstances.

Both books overlook our explanation above that modest growth until the Great Recession, followed by the distressingly low growth since 2007, is explained by the powerful effect of increasing government over-reach, first offset and then reinforced by the demographic/labor-force, debt and rest-of-the-world trends. But Levinson embraces a particular error in this regard as he writes:

"Our inability to restore the world economy to its peak condition has had long-lasting consequences. It radically changed social attitudes, engendering a skepticism about government that has dominated political life well into

the twenty-first century. With that change came a shift away from collective responsibility for social wellbeing; as state institutions were allowed to wither, individuals were asked to assume more of the costs and risks of their health care, their education and their old age."

The first sentence is certainly true, and arguably the second one too. However, the third sentence, for which we have supplied the emphasis, is categorically false and runs expressly counter to the objective facts-- even though it has become a common talking point for some politicians and media outlets. We show above that public-sector spending has remained above reasonable (optimal) levels for decades and has continued to increase in both nominal and real terms and consumes an increasing proportion of household incomes, burdening economic growth. Moreover, we show that this public-sector metastasis has been driven especially by spending on health care, education and old-age -- the exact three areas for which Levinson erroneously claims public-sector retrenchment. And that the burden and problems from excess spending have been exacerbated by wanton regulatory and other governmental intervention in everything, especially those three areas.

Invention, innovation and technological progress – plus the benefits of capital deepening and education – all together produce productivity gains, which are the source of real economic growth and improvements in human wellbeing. It is helpful to break out capital deepening and education as Gordon does, but more breakout and causal analysis related to his TFP residual is needed. To sum up the recent total productivity growth in the last century: the golden age rate was 2.8% through about 1973; followed by 1.3% in 1973-1995; then a jump to 2.5% in 1995-2004; and concluding with 1% in 2004-2015. The long sustained low rate of the last dozen years included a jump to 2% in 2007-2010 that was mainly a temporary lurch caused by the Great Recession and businesses' response to it. The sustained rate in 2010-2015 has been about 0.3%, with as much evidence that it is falling as rising.

On the other hand, our 10-year US rolling economic growth computation – which includes about 1% per year for population growth (a figure that is now declining) – shows a boom ending about 1973, followed by a flat and modestly good sustained rate of 3% or slightly more in 1973-2007, then followed by a troublesome and declining 2% in 2007-2015. Our four-part causal analysis of continually growing government excess for 55 years, first offset and then in this century reinforced by the other three factors (demographics and labor force; debt; and rest-of-the-world sector) is fully consistent with the facts and numbers of US economic growth history. Moreover, while we do not have a detailed explanation correlating progress in these four factors with the capital deepening, education and TFP estimates by Gordon, we submit that the two data series are reasonably compatible and consistent. And they provide a direction for future research to understand our growth history and prospects. To initiate that further research, we also note economists have raised a number of productivity measurement issues, as well as questions about achievement trends and the incremental economic effectiveness of education. Also, many have emphasized the metastasis in regulation in the last decade.

7. Cost Disease: Over the long run, the mix of goods and services produced by the US and world economies has shifted toward more services and fewer goods. Half a century ago, William Baumol (who later won a Nobel prize in economics) diagnosed a problem in providing many services that came to be known as Baumol's cost disease. He noted that the means of providing many services are constant over time and not subject to innovation and technological change that yield productivity gains. Hence, some have suggested that as the economy shifts toward services, effective economy-wide innovation, technological change and thus economic growth rates will slow from historic levels. As discussed here, we believe this view is unproven and likely offset when services productivity is viewed in a larger context.

Baumol observed that, economically, delivering the services of a Mozart quartet today has not changed since Mozart composed it. It still takes four musicians, their instruments and a venue that cannot be much larger (for more listeners) now than it was then. Put in these terms, it is easy to understand the argument and to extend it to a range of other services such as education, where a class of students still requires a teacher, classroom, desks, books, etc., just as it did a century ago. Thus, economy-wide, we may expect diminishing returns to innovation, etc. as services increase relative to goods. Baumol pointed out that when a sector such as classical music experiences productivity gains slower than those for the economy as a whole, the rising productivity of the economy nonetheless means that greater rewards accrue to firms and individuals in that sector over time – albeit not as fast as they grow in sectors with rapid technological change and productivity gains.

Given the constant labor input per unit of output (i.e., a concert), he was concerned that business models for performing arts firms and performers may have trouble delivering income that would keep them economically viable. He did admit they might survive by developing new sources of revenue (e.g., charitable contributions), not just ticket sales. A recent Wall Street Journal article notes that in fact symphony budgets and the pay of their musicians has actually increased relative to the economy, instead of diminishing – although it also questioned whether the increasing real costs can find revenues to sustain the enterprise and artists. Public subsidies, plus contributions, play a role too. However, contra Baumol's belief that alternate revenue sources such as recording sales would apparently not provide a solution, we believe they do. Further, when the service of providing music is viewed in a larger context, there is no resaon to believe that services are inherently subject to slower technological change and productivity gains than goods.

A good way to see our point is via the 1980 movie Fame. For his audition at a performing arts high school, a student uses three sets of keyboards and other electronic instruments to play, all by himself, a full synthetic orchestration of the third movement of Beethoven's Fifth Symphony. The music teacher (following Baumol approach to music) is appalled, thus setting up a running argument between them about what it means to make music. The student asserts that if Mozart were alive today, he'd use modern electronic methods – but he is also convinced finally to master classical instruments.

The point is that new inventions, innovations and technological change can in fact hugely increase the productivity of musicians. One musician can play multiple parts. But more important, via recordings and broadcast the performance that could be heard in Mozart's time only by the limited number of people present when it was rendered can now be enjoyed by literally millions of people – and as often as they like. So, with modern communications and data technology, the productivity of musicians and their instruments is multiplied by many orders of magnitude. And consumers realize much greater value from the performance by hearing the third movement of Beethoven's Fifth Symphony on a long auto drive. That is, considering services productivity from the perspective of consumer utility and total output of various kinds by suppliers, there are synergies that offset any cost disease limits and increase productivity hugely.

Moreover, this observation extends to education and increasingly to nearly all services. Alternative means of delivery of education are proliferating in higher education: Students and many people benefit today from recorded and broadcast lectures by the best teachers in any area and at any location, not just at a brick-and-mortar institution. Primary and secondary students also have access to a range of options for their instruction, from traditional classrooms to on-line home-schooling. And instead of having to find an encyclopedia at the library during its hours, in the middle of the night, we Google a subject and follow the search results wherever and for as long as we want. With the synergies proliferating everywhere, we see no reason to believe that Baumol's cost disease is anything other than a rare phenomenon or the product of a limited analytic paradigm.

**8. Market Capitalism and Income Equality:** An economic outlook analysis is by nature focused on growth. But, we believe that economic growth should also be the primary goal of public policy. When aggregate output increases, there are more resources on average for each person. In addition, increasing total output gives society greater resources to take care of people who through no fault on their part are unable to reasonably provide for themselves. Increases in resources promote human flourishing via education, improved health care, better diets and living conditions, and greater opportunities for use of leisure time. In short, economic growth is the key to human wellbeing.

Moreover, as the analyses in this addendum show, the public policies that promote growth are also those that promote fairness or equity – which is generally accepted as another fundamental goal of public policy. In a mainly market-based economy, people get income and accumulate wealth roughly in proportion to the value they deliver to others. This value is the "consumer surplus" reaped by people who do business with them, and it does not depend on how hard the producers work or how charitable or otherwise virtuous they are; even if they are simply avaricious, in market systems their rewards depend on the contributions they make to society. Further, the value they deliver to others is as much a contribution to society when it results from investing their capital as when it flows from their labor; value is value, and there is no more virtue inherent in labor than in managing capital.

The economic freedom and protection of private property that foster aggregate economic growth also are fair to those who produce by letting them retain the fruits of their labor and investment risk-taking. And those same economic freedoms and property rights promote among everyone the virtuous behaviors society needs of delivering value to others. On the other hand, in any political allocation of resources, income and wealth depend on political behavior, aggressiveness and many other factors that do not serve the public interest in growth and equity, but only the self-interest of the people engaging in them.

Nonetheless, people have always been concerned about how their wellbeing compares to that of others and more generally about the distribution of income within society. With the slow growth and flagging human wellbeing of the last decade, concerns about income distribution and inequality have risen. These concerns often merge with some classic critiques of market capitalism, as reflected in the 2014 book *Capital in the Twenty-first Century* by

Thomas Piketty. So, we review here the arguments and claims about distribution, inequality and alleged structural problems of market capitalism. Then we present data that show that the extensive public-sector interventions urged by these critics not only suppress growth but have also contributed to unequal income distributions and lagging wellbeing of middle- and lower-income households.

Piketty covers much ground in his 700-page tome, but two points stand out here – as summarized from *Problems with Piketty: The Flaws and Fallacies in Capital in the Twenty-first Century* by Mark Hendrickson. First, incomes and wealth are distributed very unequally, both within and among countries. Second, based on the fact that the rate of return on capital investment is generally greater than the growth rate of the economy, Piketty hypothesizes that capital will come to comprise an ever larger fraction of each economy, thus leading him to conclude that inevitably the rich get richer and the poor and middle classes get left behind – until this unsustainable trend erupts in economic breakdown and chaos. So, Piketty calls for confiscatory tax rates on wealth and income (e.g., 80%) to avert this supposed tendency.

However, like most analysts who obsess over income distribution, Piketty ignores the huge effects that income taxes and transfer payments already play. His calculations are based on pre-tax income, which is not the amount anyone has to spend. Piketty further overlooks employer-provided benefits like health insurance and non-taxable capital gains and he fails to adjust for household size, so his assertions have little basis in reality. There are also transcription errors and incorrect formulas in his spreadsheets and some data does not cite original sources. These problems led him to retract his data for the US

Further, the obsessive focus on income distribution is misplaced in principle. As we noted, in market systems (but not in explicitly political allocations of resources), income and wealth generally flow to people in proportion to the value they deliver to others – i.e., the economic value they create for society. Since individuals' contributions vary greatly, often by many orders of magnitude, the resulting distribution of income not only reasonably rewards people who create value, but it also provides the appropriate value-creation incentives for everyone. Further, people's wealth is split among their heirs and according to their charitable contributions, and this effect in the real world tends to spread wealth, instead of allowing ever narrower accumulations of it. Thus, lists of individuals' fortunes increasingly include self-made entrepreneurial successes and ever fewer legacy fortunes. Also, not all capital reaps the average rate of return, and thus some fortunes grow slower than the economy or even disappear altogether in financial losses. And the fact that a loss of X% requires subsequent gains greater than X% to restore the original corpus also works toward wealth spreading.

Another major flaw is that, for Piketty, the value, virtue and efficacy of government spending is never questioned; more is always better by assumption, despite demonstrations by Nobel laureate Friedrich Hayek that rational economic planning is impossible outside competitive markets. Ultimately, his obsession (and that of other progressives) with income and wealth distribution not only completely distorts the real record on these trends but also overlooks the real public interest – namely, economic growth and thus human wellbeing. Capital formation is essential to this goal. He does, however, concede that "the return of high capital/income ratios over the past few decades can be explained in large part by the return to a regime of relatively slow growth."

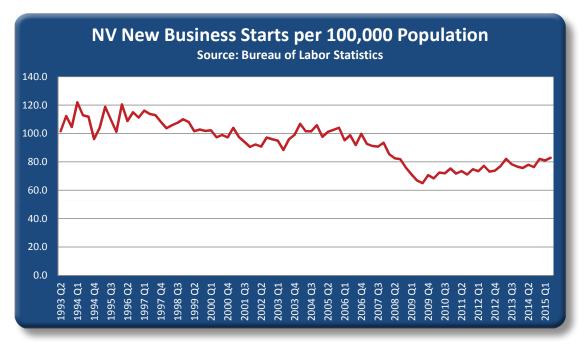

Indeed, the table nearby demonstrates broadly this point for the US It shows that the difference between GDP growth rates in the US and the increases in income inequality have produced much slower total gains for the middle and lower classes in the Bush 41, Bush 43 and Obama administrations than was the case in the Nixon/Ford, Reagan and Clinton administrations. In short, as income growth has slowed – especially during the last decade inequality has risen.

| Administration | Annual Growth,<br>Real GDP Per | Annual Increase in<br>Income Inequality | GDP Growth Less<br>Income Inequality |
|----------------|--------------------------------|---|--------------------------------------|
|                | Person                         |   | Increase                             |
| Nixon/Ford     | 1.87%                          | 0.33%                                   | 1.55%                                |
| Carter         | 1.67%                          | 0.67%                                   | 1.00%                                |
| Reagan         | 2.70%                          | 1.04%                                   | 1.66%                                |
| Bush 41        | 0.69%                          | 0.32%                                   | 0.37%                                |
| Clinton        | 2.48%                          | 0.84%                                   | 1.64%                                |
| Bush 43        | 0.70%                          | 0.25%                                   | 0.45%                                |
| Obama          | 1.44%                          | 1.23%                                   | 0.20%                                |

**9. Nevada Prospects Are Similar to US Prospects:** Nevada's overall tax levels lie toward the middle among the states. The state has long practiced onerous regulation of professions and occupations and has intervened in housing finance in ways adverse to growth. In assisting destructive federal policies in health care, education and energy, state policy further retards growth. Nevada's demographic and workforce outlook is no better than the national picture, especially due to modest workforce education levels. Further, there is no reason to believe Nevada will do better than other states on non-state debt levels, or on trade and foreign direct investment. Historically, Nevada and the Southwest populations have grown much faster than the US, but their net in-migration has slowed greatly. So, despite faster growth currently than most states, the most prudent forecast for Nevada is growth at the anemic national rates. Moreover, the dominance of the outlook by long-term secular trends obviates fine-tuned state cyclical growth estimates. A notable bright spot is that Nevada has managed conservatively its debt load; so, maintaining its creditworthiness will be assured by continued prudence.

Between 2011 and 2015, Nevada's state gross domestic product grew meagerly from \$119.3 billion to \$126.2 billion (in constant 2009 dollars). Per capita, that's a growth rate of -0.15%, ranking 44th among the states in that period. This continued negative growth comes on the heels of an economic recession in which Nevada saw the largest percapita decline in GDP of any state. Between 2007 and 2010, per-capita GDP shrank by an average of 5.76% annually versus a national shrinkage of 1.26%.

Further, entrepreneurial activity in Nevada remains at historically low levels. As shown in the graph below, startup density, measured by the number of business starts per 100,000 persons, fell roughly 30% between the mid-1990s and recent years, according to Bureau of Labor Statistics data. Non-governmental data sources, providing a longer time series, indicate that startup density has fallen 61% since 1977. This long-run decline in entrepreneurial activity portends a less dynamic state economy. Studies indicate that nearly all net new US job growth is attributable to startups, so future Nevada economic growth prospects may be significantly diminished if entrepreneurial activity does not rebound to historic levels.

**10.** Economic Outlook In Sum: Government at all levels has long been so big, yet still growing relative to our economy, that it increasingly consumes our time, energy and productivity; crowds out private entrepreneurship and business spending and investment; and thereby stifles economic growth. Until 2002, falling birth rates plus Baby Boomers and women entering the workforce greatly mitigated this problem. Sustained low birth rates leading to small working-age population cohorts, plus somewhat falling rates of workforce participation by women and by men ages 16-54, have lately decreased the fraction of the population working and the producer/dependent ratios that fed earlier growth.

Increasing debt levels relative to the economy, which were mainly driven by policy far into unsustainable territory, promoted growth until the financial crash. Mild retrenchment during the non-recovery has not worked off the overhang; so, slow growth of non-government debt demand will add to the drag on economic growth. Rapid growth of developing economies, plus faster growth of trade and foreign domestic investment also helped greatly until 2009. Growth in most countries has slowed since then because the government overreach, and demographic and workforce participation and debt problems are worse in other major economies. And trade is now growing slower than the world economy. The most reasonable expectation is that these world trends will continue, not improve, despite (or even due to) low commodity and energy prices.

Hence, all four fundamental factors are now driving US economic growth down from the current 2% annual real levels (1% per person), and so human wellbeing will grow much slower in the future than in the last 250 years. The increasing time since the Great Recession also suggests cyclical factors may stunt growth in coming years. Nevada is not exempt from this unfortunate outlook: As detailed above in the section on spending, its public-sector metastasis has been greater and it continues. Other demographic, debt and international trade and investment factors do not portend improvement from the national economic outlook. Nevada's creditworthiness is a single bright spot. However, low economic growth will yield low expected investment returns, greatly challenging management of state retirement and endowment funds.

## VII. POLICY PRESCRIPTIONS

Some people have claimed that Nevada has a revenue problem. Some argue that Nevada spends insufficiently on K-12 education and on HSS, although they have not said how much would be "enough" in either case. The analyses herein show that total state spending has increased much faster than the incomes of Nevada families and businesses and that state revenues increased even faster than spending. Hence, with state revenues and spending growing faster than the state economy, Nevada has a spending problem, not a revenue problem.

K-12 spending has increased much faster than incomes and all other state spending except that for HSS, especially with the massive K-12 increases adopted in 2015. The empirical literature is clear that spending increases from current Nevada levels have had little or no effect on student achievement. The increases in HSS spending have been driven by state decisions and federal mandates and financed substantially by federal grants and contributions. Federal support for these programs may be diminished greatly in coming years. So, Nevada faces another major spending problem as it seeks either to rein in spending to reasonable levels determined by its revenues instead of increasing taxes again from unduly high levels.

Nevada's PERS system is managing its investments better than any comparable system, but it has not yet adopted reasonable discount rates for future liabilities for planning and determining contribution rates. It should adopt a rate of 5%, reflecting the realistic total net return assumptions for its investments. PERS also needs to reset working- and retirement-years assumptions to levels that reflect current and prospective demographics to correct a long history of burdening future taxpayers and plan participants with subsides to retired government employees. The unvarnished good news is that Nevada's credit situation is very sound.

As discussed in the economic outlook section, growth in public spending is a prime reason economic growth in our nation and state has slowed and will continue to be anemic. Further, claims that budgets have been cut are misleading when actual spending and tax/feepayer burden have increased as they have. Public-sector excess is a drag on the economy and it diminishes human wellbeing and fairness in our society. It, not some alleged failure to adequately fund HSS and K-12, is the principal threat to our prosperity and children's welfare. For a long time to come, government in Nevada needs to grow slower than our economy.

Nevada must also work to revitalize the dynamism of its economy and promote genuine entrepreneurship as the path to sustained growth and economic development. Occupational and other licensing laws that are here more onerous than in other states place artificial barriers for enterprising individuals, damage their aspirations, and limiting their earning potential. Cash grants and targeted tax incentives for particular firms with political influence signal official state support for those firms, distort the pattern of investment and discourage genuine entrepreneurship. Nevada must restore hope for its future generations by abandoning these practices and embracing market capitalism and the social mobility it enables.

Workers harvest ice blocks near Elko, Nevada during the 1930s. Prior to the proliferation of modern refrigerators, these blocks were shipped across the country on rail and used by breweries, creameries, grocers and households.

#### **Independent Auditor's Report**

The Honorable Ronald Knecht, MS, JD & PE State Controller Carson City, Nevada

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Nevada, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the State of Nevada's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the following:

- the financial statements of the Housing Division, which is a major fund and 32.33 percent of the assets and deferred outflows of resources, 16.85 percent of net position, and 4.10 percent of the revenues of the business-type activities;
- the financial statements of the Nevada System of Higher Education and the Colorado River Commission, both of which are discretely presented component units and represent more than 99 percent of assets and deferred outflows of resources, net position, and revenues of the discretely presented component units;
- the financial statements of the Self Insurance and Insurance Premiums Internal Service Funds which, in the aggregate, represent less than one percent of the assets and deferred outflows of resources and the net position, and 3.99 percent of the revenues of the aggregate remaining fund information;
- the financial statements of the Pension Trust Funds and the Other Employee Benefit Trust Fund – State Retirees' Fund, which in the aggregate represent 63.70 percent of the assets and deferred outflows of resources, 65.05 percent of the net position and 28.13 percent of the revenues of the aggregate remaining fund information;

www.eidebailly.com

- the financial statements of the Nevada College Savings Plan Private Purpose Trust Fund, which represent 30.87 percent of the assets and deferred outflows of resources, 31.98 percent of the net position and 47.54 percent of the revenues of the aggregate remaining fund information;
- the financial statements of the Retirement Benefits Investment Fund Investment Trust Fund, which represent less than one percent of the assets and deferred outflows of resources, net position and revenues of the aggregate remaining fund information;
- the financial statements of the Division of Museums and History Dedicated Trust Fund, which represent less than one percent of the assets and deferred outflows of resources, fund balance and revenues of the aggregate remaining fund information.

Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the above-mentioned funds and entities, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Division of Museums and History Dedicated Trust Fund, the Pension Trust Funds, the Insurance Premiums Internal Service Fund and the Retirement Benefits Investment Fund were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained, and the reports of other auditors, is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Nevada, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### **Correction of Errors**

As discussed in Note 18 to the financial statements, the State of Nevada converted from the straight line method of amortizing bond premiums and discounts to the interest method. The change to the interest method resulted in a restatement of net position as of July 1, 2015. In addition, as discussed in Note 18 to the financial statements, the State of Nevada corrected a prior year allocation of an investment loss in the Highway Fund, which resulted in a restatement of net position as of July 1, 2015 in the Highway Fund and the General Fund. Our opinions are not modified with respect to these matters.

#### **Other Matters**

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6 through 16, the budgetary comparison information, the notes to required supplementary information-budgetary reporting, the schedule of funding progress, the schedule of infrastructure condition and maintenance data, and the pension plan information collectively presented on pages 90 through 96 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Nevada's basic financial statements. The introductory section, combining statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section (including the transmittal letter and the Controller's analysis and economic outlook) and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2016, on our consideration of the State of Nevada's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Nevada's internal control over financial reporting and compliance.

Reno, Nevada December 21, 2016

### MANAGEMENT'S DISCUSSION AND ANALYSIS

State of Nevada management provides this discussion and analysis of the State of Nevada's Comprehensive Annual Financial Report (CAFR) for readers of the State's financial statements. This narrative overview and analysis of the financial activities of the State of Nevada is for the fiscal year ended June 30, 2016. Readers should consider this information in conjunction with the additional information furnished in the letter of transmittal.

#### **HIGHLIGHTS**

#### **Government-wide:**

- Total assets and deferred outflows of resources of the State exceeded liabilities and deferred inflows of resources by \$6.0 billion (reported as *net position*). Of this amount, \$5.6 billion is net investment in capital assets and \$2.3 billion is restricted for specific uses, neither of which are available to meet the State's general obligations, and a negative \$1.9 billion is reported as an unrestricted deficit, which indicates no funds are available for discretionary purposes.
- The State's total net position increased by \$1.5 billion or 34.5% over the prior year. Net position of governmental activities increased by \$1.1 billion or 30.4%. Net position of business-type activities increased by \$410.9 million or 54.4%.

#### **Fund-level:**

- The State's governmental funds reported combined ending fund balances of \$1,864.2 million, an increase of \$301.2 million from the prior year. Of the ending fund balance, \$477.3 million is nonspendable, \$815.0 million is restricted, \$698.3 million is committed and a negative \$126.4 million is unassigned.
- The State's enterprise funds reported combined ending net position of \$1,166.3 million, an increase of \$410.5 million from the prior year. Of the ending net position, \$4.3 million is net investment in capital assets, \$1,153.0 million is restricted, and \$9.0 million is unrestricted.

#### Capital Assets and Long-term Debt:

- The State's capital assets, net of depreciation, increased by \$667.4 million or 10.7%.
- The State's total bonds payable and certificates of participation payable decreased by \$323.9 million or 9.3%.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is an introduction to the State of Nevada's basic financial statements which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The Comprehensive Annual Financial Report also contains other supplementary information in addition to the basic financial statements.

#### **Government-wide Financial Statements:**

The *government-wide financial statements* are designed to provide readers with a broad overview of the State of Nevada's finances in a manner similar to the private sector. They take into account all revenues and expenses connected with the fiscal year regardless of when cash is received or paid. The government-wide financial statements include the following two statements:

The *statement of net position* presents *all* of the State's assets, liabilities, and deferred outflows/inflows of resources with the difference being reported as "net position." The statement combines and consolidates all of the State's current financial resources with capital assets and long-term obligations. Over time, increases and decreases in net position measure whether the State's financial position is improving or deteriorating.

The *statement of activities* presents information showing how the State's net position changed during the most recent fiscal year. The statement reveals how much it costs the State to provide its various services, and whether the services cover their own costs through user fees, charges, grants, or are financed with taxes and other general revenues. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of cash flows. Therefore, some revenue and expenses reported in this statement will not result in cash flows until future fiscal periods (e.g., uncollected taxes earned and unused leave).

Both government-wide statements above report three types of activities:

*Governmental Activities* – Taxes and intergovernmental revenues primarily support these activities. Most services normally associated with State government fall into this category, including general government, health and social services, education, law, justice and public safety, regulation of business, transportation, recreation and resource development, interest on long-term debt and unallocated depreciation.

*Business-type Activities* – These activities are intended to recover all, or a significant portion, of the costs of the activities by charging fees to customers. The Housing Division and Unemployment Compensation are examples of the State's business-type activities.

*Discretely Presented Component Units* – Discrete component units are legally separate organizations for which their relationship with the primary government meets selected criteria. The State has three discretely presented component units – the Nevada System of Higher Education, the Colorado River Commission and the Nevada Capital Investment Corporation. Complete financial statements of the individual component units can be obtained from their respective administrative offices.

#### **Fund Financial Statements:**

A fund is an accounting entity consisting of a set of self-balancing accounts to track funding sources and spending for a particular purpose. The State's funds are broken down into three types:

*Governmental funds* – Most of the State's basic services are reported in governmental funds. These funds focus on short-term outflows and inflows of expendable resources as well as balances left at the end of the fiscal year available to finance future activities. These funds are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

The governmental fund financial statements focus on major funds and provide additional information that is not provided in the government-wide financial statements. It is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. A reconciliation is provided between the governmental fund statements and the governmental activities in the government-wide financial statements.

*Proprietary funds* – When the State charges customers for the services it provides, whether to outside customers (enterprise funds) or to other State agencies (internal service funds), the services are generally reported in the proprietary funds. Proprietary funds apply the accrual basis of accounting utilized by private sector businesses, and there is a reconciliation between the government-wide financial statement business-type activities and the enterprise fund financial statements. Because internal service fund operations primarily benefit governmental funds, they are included with the governmental activities in the government-wide financial statements.

*Fiduciary funds* – These funds are used to account for resources held for the benefit of parties outside the state government. For instance, the State acts as a trustee or fiduciary for its employee pension plans, and it is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. Fiduciary funds are reported using the accrual basis of accounting. The government-wide statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and do not represent discretionary assets of the State to finance its operations.

#### Notes to the Financial Statements:

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in both the government-wide and fund financial statements.

#### **Required Supplementary Information:**

The required supplementary information includes budgetary comparison schedules for the General Fund and major special revenue funds, along with notes and a reconciliation of the statutory and U.S. generally accepted accounting principles (GAAP) fund balances at fiscal year-end. This section also includes a schedule of pension plan information and a schedule of infrastructure condition and maintenance data.

#### **Other Supplementary Information:**

Other supplementary information includes combining financial statements for non-major governmental, non-major enterprise, all internal service and all fiduciary funds. The non-major funds are added together, by fund type, and presented in single columns in the basic financial statements. Other supplementary information contains budgetary schedules of total uses for the General Fund and special revenue fund budgets, as well as a schedule of sources for non-major special revenue fund budgets.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

The State's overall financial position and operations for the fiscal years ended June 30, 2016 and 2015 for the primary government are summarized in the following statements based on the information included in the government-wide financial statements.

| Total net position        | \$ 4,804,920 | \$ 3,648,254      | \$ 1,166,231                          | \$ 743,907                 | \$ 5,971,151 | \$ 4,392,161 | \$ 1,578,990    |

\* The 2015 amounts have not been restated for the change in the method used to amortize bond discounts and premiums; the 2015 restricted and unrestricted net position of business-type activities has been revised to properly reflect the Unemployment Compensation Fund net position as restricted.

#### **Net Position:**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The State reported net position of \$6.0 billion at the end of 2016, compared with \$4.4 billion at the end of the previous year.

The largest portion of the State's net position (\$5.6 billion or 93.7%) reflects its investment in capital assets such as land, buildings, improvements other than buildings, equipment, software costs, construction in progress, infrastructure and rights-ofway, less any related debt still outstanding that was used to acquire those assets. The State uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the State's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the State's net position (\$2.3 billion or 37.8%) represents resources that are subject to external restrictions on how they may be used. At the close of the fiscal year, the State reported an unrestricted net position deficit of \$1.9 billion or (31.5%) as compared to a \$2.2 billion deficit in the prior year. The governmental activities and business-type activities components of the unrestricted net position deficit are discussed below.

The unrestricted net position deficit in governmental activities decreased by \$335.5 million; from a deficit of \$2.2 billion to a total deficit of \$1.9 billion. Changes in governmental activities were a result of several factors, including an increase in the unrestricted fund balance of the General Fund of \$174.9 million and an increase of \$16.7 million in deferred inflows of resources for unrestricted and unavailable revenue recognized as revenue in the government-wide statement of net activities. Of the \$16.7 million increase in deferred inflows of resources for unrestricted and unavailable revenue a decrease of \$.9 million in unrestricted tax revenue. In business-type activities the unrestricted net position increased by \$30.5 million from a deficit of \$21.6 million to a net position of \$8.9 million. The increase is primarily due to an increase in the unrestricted net position of the Housing Division fund in the amount of \$9.7 million and an increase in unrestricted net position of the Workers Compensation fund of \$21.4 million.

## Changes in State of Nevada's Net Position-Primary Government

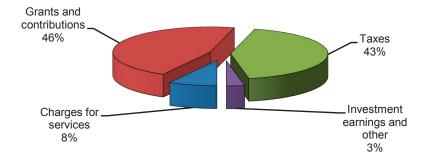

The 2015 amounts have been revised to disaggregate expenses for health and social services and education K-12.

#### **Changes in Net Position:**

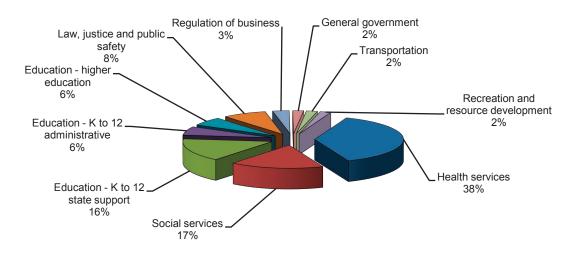

Total government-wide revenues increased by \$1.0 billion during the current year. The increase in revenues is a result of several factors, including increases of \$437.2 million in federal funding, \$149.1 million in modified business taxes, \$143.5 million in commerce taxes, \$60.3 million in cigarette taxes and \$58.2 million in sales and use taxes. Program revenues from charges for services increased by \$64.9 million compared to the prior year.

Governmental activities – The current year net position increased by \$1.1 billion. Approximately 43.4% of the total revenue came from taxes, while 45.6% was in the form of grants and contributions (including federal aid). Charges for various goods and services provided 8.4% of the total revenues (see chart below). The State's governmental activities expenses cover a range of services and the largest expenses were 37.7% for health services, 17.2% for social services, and 15.7% for state support of K to 12 education (see chart below). In 2016, governmental activities expenses exceeded program revenues, resulting in the use of \$3.6 billion in general revenues, which were generated to support the government.

The following chart depicts the governmental activities revenues for the fiscal year:

*Business-type activities* – The current year net position increased by \$410.9 million. Approximately 76.0% of the total revenue came from taxes, while 7.9% was in the form of grants and contributions (including federal aid). Charges for various goods and services provided 16.1% of the total revenues (see chart below). The State's business-type activities expenses cover a range of services. The largest expenses were 74.1% for unemployment compensation (see chart below). In 2016, business-type activities expenses exceeded program revenues by \$283.0 million. Of this amount, unemployment compensation was the largest, with net expenses of \$326.3 million, resulting in the use of general revenues generated by and restricted to the Unemployment Compensation Fund.

The following chart depicts the business-type activities revenues for the fiscal year:

The following chart depicts the business-type activities expenses for the fiscal year:

The following table depicts the total program revenues and expenses for each function for business-type activities:

| Other                     |                  | 31,471   |    | 33,829   |  |  |
| Total                     | \$               | 461,943  | \$ | 178,941  |  |  |

The State's overall financial position improved over the past year. Current year operations resulted in a \$1.1 billion increase in the net position of the governmental activities and a \$410.9 million increase in the net position of the business-type activities. Nevada continues to recover at a slow pace. Key economic indicators from the State's sales and other taxes continue to show positive growth. Tax revenues for governmental activities increased in the current fiscal year \$455.4 million or 11.1% compared to an increase of \$296.8 million or 7.8% in the prior fiscal year. In addition, operating grants and contributions for governmental activities increased in the terrent fiscal year, intergovernmental revenues increased \$164.3 million primarily due to an increase in federal aid, while motor and special vehicle taxes increased \$12.0 million and driver's license and motor carrier fees increased \$14.8 million.

## FINANCIAL ANALYSIS OF THE STATE'S FUNDS

#### **Governmental Funds:**

As of the end of the current fiscal year, the State's governmental funds reported combined ending fund balances of \$1.9 billion, an increase of \$301.2 million from the prior year. Of these total ending fund balances, \$477.3 million or 25.6% is nonspendable, either due to its form or legal constraints, and \$815.0 million or 43.7% is restricted for specific programs by external constraints, constitutional provisions, or contractual obligations. An additional \$698.3 million or 37.5% of total fund balance has been committed to specific purposes. Committed amounts cannot be used for any other purpose unless approved by the Legislature. Included in committed fund balance is \$63.9 million for fiscal emergency. NRS 353.288 provides for the Account to Stabilize the Operation of the State Government (Stabilization Account) in the State General Fund. Additions to the stabilization account are triggered at the end of a fiscal year if the General Fund unrestricted fund balance (budgetary basis) exceeds 7% of General Fund operating appropriations, in which case forty percent of the excess is deposited to the Stabilization Account. Expenditures may occur only if actual revenues for the biennium fall short by 5% or more from anticipated revenues, or if the Legislature and Governor declare that a fiscal emergency exists. Additions to the Stabilization Account were \$63.9 million in the current fiscal year and \$0 in the prior fiscal year. The remaining negative \$126.4 million or (6.8%) of fund balance is unassigned. The major funds are discussed more fully below.

*The General Fund* is the chief operating fund of the State. At the end of the current fiscal year, the total General Fund fund balance was \$398.2 million compared to \$207.3 million in the prior fiscal year, before restatement. The fund balance increased by \$190.9 million or 92.1%, of which \$4.1 million or 2.0% is a decrease to beginning fund balance due to a prior period adjustment, leaving a fund balance increase of \$195.0 million or 95.9% during the current fiscal year. Reasons for this increase are discussed in further detail below. The negative unassigned fund balance of \$126.4 million is mostly due to an accrual for Medicaid expenditures and for unearned gaming taxes and mining taxes already collected and budgeted but not yet recognized as revenues.

The following schedule presents a summary of revenues of the General Fund for the fiscal years ended June 30, 2016 and 2015 (expressed in thousands). Other financing sources are not included.

The total General Fund revenues increased \$759.7 million or 9.6%. The largest increases in revenue sources were \$276.5 million or 6.8% in intergovernmental revenues, \$149.9 million or 36.4 % in modified business taxes, \$143.5 million or 100% in commerce taxes, \$60.3 million or 65.0% in cigarette taxes, and \$52.2 million or 4.5% in sales taxes. Intergovernmental revenues primarily increased by \$256.1 million in receipts for Medicaid, \$43.3 million in receipts for food stamps, and \$20.9 million for school lunch program. The largest decline in revenue sources was \$25.9 million or 29.7% in other revenues and \$3.0 million or .9% in other taxes. In other revenues, the decrease is primarily due to \$19.3 million of settlement income recorded in the prior year.

The following schedule presents a summary of expenditures by function of the General Fund for the fiscal years ended June 30, 2016 and 2015 (expressed in thousands). Other financing uses are not included.

The total General Fund expenditures increased 6.3%. The largest increases in expenditures were \$192.3 million or 5.8% in health services expenditures, \$87.7 million or 6.2% in social services expenditures, \$107.6 million or 25.8% in education K to 12 administrative expenditures, and \$62.3 million or 12.8% in higher education. Health services expenditures increased due to expansion of the Medicaid program. The largest decrease was \$14.0 million or 1.0% of expenditures for education K to 12

*The State Highway Fund* is a special revenue fund used to account for the maintenance, regulation and construction of public highways and is funded through vehicle fuel taxes, federal funds, other charges and bond revenue. The fund balance increased by \$198.8 million or 59.5%, of which \$4.1 million or 1.2% is an increase to beginning fund balance due to a prior period adjustment, leaving an increase of \$194.7 million or 58.3% during the current fiscal year compared to a 5.6% decrease in the prior year. This was primarily due to an increase in intergovernmental revenues of \$164.3 million or 52.0% and other taxes of \$30.8 million or 151.2%. The increase in other taxes is due to the Legislative allocation to the Highway Fund of \$25.6 million in motor vehicle government services tax commissions and penalties allocated to the General Fund in 2015. Expenditures increased as spending for three major road construction projects, Project NEON, USA Parkway and the Boulder City Bypass, increased.

*The Municipal Bond Bank Fund* is a special revenue fund used to account for revenues and expenditures associated with buying local government bonds with proceeds of State general obligation bonds. The fund balance decreased by \$133.5 million during the current fiscal year, which is a 58.3% decrease from the prior year. This decrease was primarily due to the refunding of local government bonds of \$173.5 million offset by \$47.3 of new bonds and the State's refunding and payment of principal of \$7.4 million.

*The Permanent School Fund* is a permanent fund used to account for certain property and the proceeds derived from such property, escheated estates, and all fines collected under penal laws of the State, which become permanent assets of the fund. All earnings on the assets are to be used for education. The fund balance increased by \$7.6 million during the current fiscal year, which is a 2.3% increase from the prior year. This increase is primarily due to \$2.7 million increase in investment income.

#### **Proprietary Funds:**

state support.

The State's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Proprietary funds are comprised of two types: enterprise funds and internal service funds. Enterprise funds are used when goods or services are provided primarily to parties outside of the State while internal service funds are used when goods or services are provided primarily to State agencies.

*Enterprise Funds* – There are four *major* enterprise funds: Housing Division Fund, Unemployment Compensation Fund, Water Projects Loans Fund and the Higher Education Tuition Trust Fund. The combined net position of the four major funds is \$1,146.4 million, the net position of the nonmajor enterprise funds is \$19.9 million and the total combined net position of all enterprise funds is \$1,166.3 million. The combined net position of all enterprise funds increased by \$421.9 million in 2016, of which \$11.4 million is an increase to beginning net position due to the change in the method used to calculate bond premium amortization. The major enterprise funds are discussed below:

*The Housing Division Fund* was created for the purpose of making available additional funds to assist private enterprise and governmental agencies in providing safe and sanitary housing facilities and provides low interest loans for first-time homebuyers with low or moderate incomes. The net position increased by \$3.4 million or 1.8%, resulting in an ending net position of

\$196.5 million. Revenues from interest on loans increased by 15.9% reflecting Nevada's improving but still recovering housing market. Operating expenses increased by \$3.8 million, and operating revenues increased by \$1.9 million.

*The Unemployment Compensation Fund* accounts for the payment of unemployment compensation benefits to unemployed State citizens. The net position increased by \$391.4 million during the current fiscal year, of which \$10.4 million is an increase to beginning net position due to the change in the method used to calculate the bond premium amortization from straight-line to the interest method, resulting in an ending net position of \$501.3 million. This increase in net position is primarily due to operating revenues exceeding expenses by \$236.5 million and a transfer of \$149.5 million from the Unemployment Comp Bond Fund for special bond contributions assessed on employers for payment of principal and interest on Unemployment Compensation Bonds. During fiscal year 2016, \$338.3 million of unemployment compensation benefits was paid to unemployed State citizens compared to \$369.7 million paid in fiscal year 2015, representing a 8.5% decrease in claims expense.

*The Water Projects Loans Fund* issues loans to governmental and private entities for two programs: Safe Drinking Water and Water Pollution Control. The federal EPA matches the State's bond proceeds to make loans to governmental entities; only federal funds are loaned to private entities. The net position increased by \$22.3 million during the current fiscal year, of which \$1.0 million is an increase to beginning net position due to the change in method used to calculate the bond premium amortization from straight-line to the interest method, for a final net position of \$389.6 million, which is a 6.1% increase from the prior year.

*The Higher Education Tuition Trust Fund* provides a simple and convenient way for Nevada families to save for a college education through the advance payment of tuition. A purchaser enters into a contract for the future payment of tuition for a specified beneficiary. The contract benefits are based on in-state rates for Nevada public colleges, but can be used towards costs at any accredited, nonprofit, private or out-of-state college. The Trust Fund completed its eighteenth enrollment period during the fiscal year with 964 new enrollments. The net position increased \$6.0 million or 11.2% during the current fiscal year.

*Internal Service Funds* – The internal service funds charge State agencies for goods and services such as building maintenance, purchasing, printing, insurance, data processing and fleet services in order to recover the costs of the goods or services. Rates charged to State agencies for the operations of internal service funds are adjusted in following years to offset gains and losses. Because these are allocations of costs to other funds, they are not included separately in the government-wide financial statements but are eliminated and reclassified as either governmental activities or business-type activities. In 2016, total internal service fund net position increased by \$1.2 million, for a final net position of \$6.3 million. The two largest funds are:

*The Self-Insurance Fund* accounts for group health, life and disability insurance for State employees and retirees and certain other public employees. Net position decreased by \$6.2 million or 7.8% during the current fiscal year, for a final net position of \$73.8 million. The decrease was considered a normal fluctuation in insurance premium income and in claims expense.

*The Information Services Fund* accounts for designing, programming, and maintaining data processing software and operating the State's central computer facility and telecommunication system. The net position deficit decreased by \$2.3 million or 15.0% during the current fiscal year, resulting in a total net position deficit of \$12.9 million. The deficit decrease is primarily the result of increase in transfers from other funds.

# ANALYSIS OF GENERAL FUND BUDGET VARIATIONS

The General Fund budgetary revenues and other financing sources were \$574.7 million or 5.5% less than the final budget, primarily because actual intergovernmental revenues received were less than the final budgeted amount. Intergovernmental revenues represent federal grants, and there are timing differences arising from when grants are awarded, received and spent. The final budget can include grant revenue for the entire grant period, whereas the actual amount recorded represents grant revenue received in the current year.

The net increase in the General Fund expenditures and other uses budget from original to final was \$613.2 million. Some of the differences originate because the original budget consists only of those budgets subject to legislative approval through the General Appropriations Act and the Authorizations Bill. The non-executive budgets, not subject to legislative approval, only require approval by the Budget Division and if approved after July 1, are considered to be revisions. Increases due to the non-executive budgets approved after July 1 and increased estimated receipts were approximately \$610.9 million.

## CAPITAL ASSETS AND LONG-TERM DEBT ADMINISTRATION

#### **Capital Assets:**

The State's capital assets for governmental and business-type activities as of June 30, 2016 amount to \$8.1 billion, net of accumulated depreciation of \$1.2 billion, leaving a net book value of \$6.9 billion. This investment in capital assets includes land, buildings, improvements other than buildings, equipment, software costs, infrastructure, rights-of-way, and construction in progress. Infrastructure assets are items that are normally immovable, such as roads and bridges.

As allowed by GASB Statement No. 34, the State has adopted an alternative process for recording depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, the State expenses certain maintenance and preservation costs and does not report depreciation expense on infrastructure. Utilization of this approach requires the State to: 1) commit to maintaining and preserving affected assets at or above a condition level established by the State; 2) maintain an inventory of the assets and perform periodic condition assessments to ensure that the condition level is being maintained; and 3) make annual estimates of the amounts that must be expended to maintain and preserve assets at the predetermined condition levels. To monitor the condition of the roadways the State uses the International Roughness Index (IRI). In 2016, the State realigned its goals to maintain a certain percentage of each category of its roadways. The realignment was based on the Pavement and Bridge Condition Notice of Proposed Rulemaking released by the Federal Highway Administration (FHWA). The new policy is to maintain each category with an IRI of 95 or less. The prior policy was to maintain each category with an IRI of 80 or less. The first table shows the most current condition assessment under the State's new policy and the second table shows the condition assessment under the prior policy:

| Condition Level of the Roadways                    |          |   |  |  |  |  |  |  |
|--|----------|---|--|--|--|--|--|--|
| Percentage of roadways with an IRI of less than 95 |          |   |  |  |  |  |  |  |
| Category   |          |   |  |  |  |  |  |  |

|                                     |      | n Level of the<br>of substanda |      |
|-------------------------------------|------|--------------------------------|------|
|                                     | 2015 | 2014                           | 2012 |
| State Policy-maximum percentage     | 10%  | 10%                            | 10%  |
| Actual results condition assessment | 4%   | 4%                             | 4%   |
|                                     |      |                                |      |

The estimated amount necessary to maintain and preserve infrastructure assets at target condition levels exceeded the actual amounts of expense incurred for fiscal year 2016 by \$11.2 million. Even though actual spending for maintenance and preservation of infrastructure assets fell below estimates, condition levels are expected to approximately meet or exceed the target condition levels for the roadway category. Additional information on the State's infrastructure can be found in the Schedule of Infrastructure Condition and Maintenance Data in the Required Supplementary Information section to the financial statements.

To keep pace with the demands of the population, the State also has a substantial capital projects program. The following is a summary of major projects in progress or completed during 2016 (expressed in millions):

|  | Expe<br>June | Total Budget |    |      |
|--|--------------|--------------|----|------|
| Healthcare Reform Software                               | \$           | 49.2         | \$ | 49.2 |
| Unemployment Insurance Software Development              |              | 35.9         |    | 40.4 |
| New Readiness Center North Las Vegas                     |              | 30.9         |    | 35.8 |
| Southern Nevada Veterans' Cemetery Expansion             |              | 8.4          |    | 13.4 |
| NDOT Integrated Right of Way Software                    |              | 8.4          |    | 9.3  |
| Energy Retrofit Projects                                 |              | 5.5          |    | 6.2  |
| Statewide Roofing Projects                               |              | 4.0          |    | 6.9  |
| Southern Desert CC Distribution Switchgear & Panelboards |              | 0.2          |    | 4.1  |

Additional information on the State's capital assets can be found in Note 7 to the financial statements.

#### Long-term Debt Administration:

As of year-end, the State had \$3.2 billion in bonds and certificates of participation outstanding, compared to \$3.5 billion last year, a decrease of \$323.9 million or 9.3% during the current fiscal year. This decrease was due primarily to the payment of principal on debt.

The most current bond ratings from Fitch Investor Service was AA+, Moody's was Aa2, and Standard and Poor's ratings were AA or AAA. These ratings are an indication of high quality obligations and a reflection of sound financial management. The Constitution of the State limits the aggregate principal amount of the general obligation debt to 2% of the total reported assessed property value of the State.

New bonds issued during the 2016 fiscal year were (expressed in thousands):

| General Obligation Capital Improvement and Refunding Bonds                         | 11/4/2015D | \$ 248,935 |
|--|------------|------------|

Additional information on the State's long-term debt obligations can be found in Note 10 to the financial statements and in the Statistical Section.

#### **Requests for Information**

This financial report is designed to provide a general overview of the State of Nevada's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: State of Nevada, Office of the State Controller, 101 N. Carson Street, Suite 5, Carson City, NV 89701 or visit our website at: www.controller. nv.gov.

<section-header>

Amelia Earhart flew over Nevada many times and often visited friends in Carson City and Lake Tahoe. In 1928 she crashed in rural Lincoln County but was unhurt. Here, in 1931, she appears

|  |  | and have been the   |  |

(third from the right) in Lovelock while piloting an autogiro across the state. She made stops in Wendover, Elko, Battle Mountain, Lovelock and Reno.

A 1936 postcard highlights the creative name of a gas station and convenience store in Lovelock.

# Fremont Street in downtown Las Vegas during the 1930s.

(Photo's Permission Granted by: Nevada Historical Society)

Las Vegas shops and hotels on Fremont Street with neon signs lit during the 1930s.

The Las Vegas welcome arch and downtown shops and hotels on Fremont Street, 1931.

#### June 30, 2016

#### Total fund balances - governmental funds

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:

| Land<br>Construction in progress<br>Infrastructure assets<br>Rights-of-way<br>Buildings<br>Improvements other than buildings<br>Furniture and equipment<br>Software costs<br>Accumulated depreciation/amortization<br>Total capital assets  | <pre>\$ 150,951,465<br/>224,702,425<br/>4,591,399,157<br/>654,989,854<br/>1,714,407,558<br/>124,758,260<br/>372,960,895<br/>171,777,736<br/>(1,164,022,986)</pre> | 6,841,924,364    |
|---|---|------------------|
| Some of the State's revenues collected after year-end are not available soon enough to pay for the current period's expenditures and, therefore, are reported as unavailable deferred inflows of resources in the funds.  |   | 397,482,263      |
| Intergovernmental receivable not providing current resources.   |   | 221,045          |
| Amounts due to component unit for bonds authorized to be issued are not reported in the funds as they are not due and payable.  |   | (24,362,000)     |
| Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in governmental activities in the statement of net position.<br>The loss on early retirement of debt is reported as a deferred outflow of resources on |   | 6,441,270        |
| the statement of net position and is amortized over the original remaining life of the old debt, or the life of the new debt, whichever is less.  |   | 80,786,385       |
| Deferred outflow of resources related to pensions are not reported in the governmental funds.   |   | 195,525,183      |
| Deferred inflow of resources related to pensions are not reported in the governmental funds.  |   | (344,023,305)    |
| Certain liabilities for settlement agreements are not due and payable in the current period and therefore are not reported in the funds.  |   | (16,620,000)     |
| Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:   |   |                  |
| Net pension obligation<br>Bonds payable<br>Accrued interest on bonds<br>Certificates of participation<br>Capital leases<br>Compensated absences<br>Total long-term liabilities  | (1,813,890,034)<br>(2,162,514,398)<br>(20,987,906)<br>(90,716,191)<br>(19,527,807)<br>(89,023,127)  | (4,196,659,463)  |
| Net position of governmental activities   |   | \$ 4,804,919,969 |

Parishioners celebrate the 60th Anniversary of St. Mary's Church in Virginia City, (1935)

Two men shake hands on C Street in Virginia City. Behind them, snow piled high between the boardwalk and street.

# Reconciliation of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

NELADA

## For the Fiscal Year Ended June 30, 2016

| Net change in fund balances - total governmental funds   | \$<br>301,158,798   |
|--|---------------------|
| Amounts reported for governmental activities in the statement of activities are different because:   |                     |
| Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, the amounts are:  |                     |
| Capital outlay\$ 735,171,498Depreciation expense(69,112,132)Excess of capital outlay over depreciation expense   | 666,059,366         |
| Debt proceeds provide current financial resources to governmental funds; however, issuing debt increases long-term liabilities in the statement of net assets. In the current period, proceeds were received from:   |                     |
| Bonds issued(272,070,000)Refunding bonds issued(347,253,000)Premiums on debt issued(114,211,578)Total bond proceeds(114,211,578)   | (733,534,578)       |
| Repayment of long-term debt is reported as an expenditure in governmental funds, but the<br>repayment reduces long-term liabilities in the statement of net position. In the current year,<br>these amounts consist of:  |                     |
| Bond principal retirement378,419,677Certificates of participation retirement2,710,000Payments to the bond refunding agent419,992,607Capital lease payments1,959,384  |                     |
| Total long-term debt repayment   | 803,081,668         |
| Internal service funds are used to charge the costs of certain activities to individual funds.<br>The change in net position of the internal service funds is reported with governmental activities.   | 770,574             |
| Because some revenues will not be collected for several months after the State's fiscal year<br>end, they are not considered "available" and are not reported as revenues in the governmental<br>funds. Unavailable deferred inflows of resources changed by this amount.                      | 126,677,179         |
| In the statement of activities, the gain or loss on the sale of assets is reported, whereas in the governmental funds, only the proceeds from the sale increase financial resources. Thus, the the change in net assets differs from the change in fund balance by the cost of the asset sold. | (931,523)           |
| Amortization of deferred loss on early retirement of debt is reported as an expense for the statement of activities.   | (13,262,832)        |
| Amortization of premiums on bonds and certificates of participation is reported as a reduction of interest expense for the statement of activities.  | 30,408,854          |
| Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of the net change in:  |                     |
| Pension costs, net15,376,421Accrued interest payable(3,519,285)Compensated absences6,670,464Capital lease receivable(43,398,670)Long term due to component unit(24,362,000)Settlement agreement liability(11,597,392)  |                     |
| Total additional expenditures  | <br>(60,830,462)    |
| Change in net position of governmental activities  | \$<br>1,119,597,044 |

NEVADA

Workers cut and prepare building materials at the Boulder Dam site (1933).

(Photo's Permission Granted by: Nevada Historical Society)

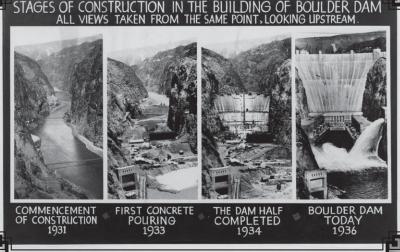

Workers commute from residences in Boulder City to the Boulder Dam in 1932.

"Jumbo Rigs," like the one shown here, were used to facilitate faster drilling for the tunnels of the Boulder Dam. They consisted of scaffolding mounted onto a truck bed that allowed drillers to work on three levels simultaneously.

A Postcard from 1936 documents the progress of constructon on the Boulder Dam.

### Note 1 - Summary of Significant Accounting Policies

The accompanying financial statements of the State of Nevada (the State) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

# A. Description of Government-wide Financial Statements

The Government-wide Financial Statements, which consist of the Statement of Net Position and the Statement of Activities, report information on all non-fiduciary activities of the primary government and its component units. All fiduciary activities, including component units that are fiduciary in nature, are reported only in the fund financial statements. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

#### **B.** Reporting Entity

For financial reporting purposes, the State's reporting entity includes the "primary government" and its "component units." The primary government includes all funds, departments, agencies, and those authorities that are considered an integral part of the State's activities. Component units are legally separate organizations for which the State's elected officials are financially accountable. The State's component units have a June 30 year-end.

The GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and either: 1) the ability of the State to impose its will on that organization; or 2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State. When the State does not appoint a voting majority of an organization's governing body, GASB requires inclusion in the reporting entity based on financial accountability if: 1) the organization is both fiscally dependent on the State and there is the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State; or 2) it would be misleading to exclude the organization.

**Fiduciary Component Units:** The following fiduciary component units are legally separate from the State. The State is financially accountable for these organizations since it appoints the voting majority of the boards and is able to impose its will on them through the ability to remove appointed members of the organization's governing board. Since

these component units are fiduciary in nature, they are included only in the fund financial statements with the primary government's fiduciary funds. Therefore, these component units are excluded from the government-wide financial statements.

The Public Employees' Retirement System (PERS), the Legislators' Retirement System (LRS) and the Judicial Retirement System (JRS) are administered by a sevenmember board appointed by the Governor. PERS is the administrator of a cost-sharing, multiple-employer, defined benefit public employees' retirement system established to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earning capacities have been removed or substantially impaired by age or disability. LRS is the administrator of a single-employer public employees' defined benefit retirement system established to provide a reasonable base income to Legislators at retirement. JRS is the administrator of an agent multiple-employer public employees' defined benefit retirement system established to provide a reasonable base income to justices of the Supreme Court, district judges, municipal court judges, and justices of the peace at retirement.

The *Retirement Benefits Investment Fund* (RBIF) was created for the sole purpose of providing an investment vehicle for monies belonging to either the State or local government other post employment benefit trust funds. RBIF is administered by the Retirement Benefits Investment Board, which consists of the same members as the Public Employees' Retirement Board.

**Blended Component Unit:** The Nevada Real Property Corporation (NRPC) is a legally separate organization. The State is financially accountable for NRPC since it appoints the board of directors, and NRPC provides a financial benefit to the State by providing financing services. NRPC was incorporated to finance certain construction projects which include office buildings, a transitional residential facility and a warehouse, all financed by the issuance of certificates of participation. Upon completion of construction, the NRPC leases the facilities to the State. Since the NRPC provides financing services solely to the State, these financial transactions are reported as part of the primary government using the blended method.

**Discretely Presented Component Units:** A component unit should be included in the reporting entity financial statements using the discrete presentation method if the component unit's governing body is not substantively the same as the governing body of the primary government, the component unit does not provide services entirely or almost entirely to the primary government, and the component unit's total debt outstanding is not expected to be repaid entirely or almost entirely with resources of the primary government. The following

discretely presented component units meet these criteria and are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the State.

The *Nevada System of Higher Education* (NSHE) is a legally separate organization consisting of the institutions of public higher education in Nevada, the NSHE Administration entity, and their component units. NSHE is governed by a Board of Regents elected by the voters. NSHE is considered to be fiscally dependent on the primary government since the State can modify and approve their budgets. In addition, NSHE imposes a financial burden on the primary government since the State provides financial support to NSHE through annual operating and capital appropriations.

The *Colorado River Commission* (CRC) is a legally separate organization responsible for managing Nevada's interests in the water and power resources available from the Colorado River. It is governed by seven commissioners, a majority of whom are appointed by the State: four are appointed by the Governor and three are appointed by the board of directors of the Southern Nevada Water Authority. The State is financially accountable for CRC since bonds issued by the CRC are backed by the full faith and credit of the State of Nevada, which creates the potential for a financial burden to the State. CRC provides services to citizens through the distribution and sale of electric power.

The Nevada Capital Investment Corporation (NCIC) is a legally separate organization whose board of directors consists of the State Treasurer, who serves as the chair; five members that are appointed by the primary government; and the Chancellor of NSHE, or his designee. Up to five additional members of the board may be chosen who are direct investors of the corporation. The NCIC is an independent corporation for public benefit, the general purpose of which is to act as a limited partner, shareholder or member to provide private equity funding to businesses located in or seeking to locate in Nevada, and engage in certain industries. The amount invested in the NCIC is not to exceed \$50 million from the State Permanent School Fund. The State is financially accountable for NCIC since it is able to impose its will through veto power by the State Treasurer.

Complete financial statements for each of the individual component units, with the exception of the *Nevada Real Property Corporation*, which has no other financial activity than that described above, may be obtained at that organization's administrative offices:

Public Employees' Retirement System Carson City, NV Legislators' Retirement System Carson City, NV

Judicial Retirement System Carson City, NV Retirement Benefits Investment Fund Carson City, NV Nevada System of Higher Education Reno, NV Colorado River Commission Las Vegas, NV Nevada Capital Investment Corporation Carson City, NV

**Related Organizations:** The Governor is responsible for appointing the members of many boards and commissions. The State's accountability for these entities does not extend beyond making the appointments and thus these entities are excluded from this report. The State does not exercise financial or administrative control over the excluded boards and commissions.

#### C. Basis of Presentation

**Government-Wide Financial Statements:** While separate government-wide and fund financial statements are presented, they are interrelated. On the government-wide financial statements, the governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. As discussed earlier, the State has three discretely presented component units which are shown in a single column in the government-wide financial statements.

In general, the effect of interfund activity has been removed from the government-wide financial statements. Overhead costs have been removed to minimize the double counting of internal activities, but interfund services provided and used have been retained, as their elimination would distort the measurement of the cost of individual functional activities. Internal activities of a reimbursement type nature reduce the expenses of the reimbursed programs. Certain centralized costs have been included as part of the program expenses reported for the various functions and activities. The net amount of interfund receivables and payables between governmental activities and business-type activities are reported as internal balances on the government-wide statement of net position. The net amount of transfers between governmental activities and business-type activities are reported as transfers on the government-wide statement of activities.

**Fund Financial Statements:** The fund financial statements provide information about the government's funds, including its fiduciary and blended component units. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual

governmental and enterprise funds are reported as separate columns in the fund financial statements. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

The State reports the following major governmental funds:

*General Fund* – this is the State's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund.

*State Highway Fund* - accounts for the maintenance, regulation, and construction of public highways and is funded through vehicle fuel taxes, federal funds, and other charges.

*Municipal Bond Bank Fund* - accounts for revenues and expenditures associated with buying local governments' bonds with proceeds of State general obligation bonds.

*Permanent School Fund* - accounts for certain property and the proceeds derived from such property, escheated estates, and all fines collected under penal laws of the State, which become permanent assets of the fund. All earnings on the assets are to be used for education.

The State reports the following major enterprise funds:

*Higher Education Tuition Trust Fund* – accounts for the State program to assist Nevada residents in locking in the cost of future higher education expenses for Nevada colleges and universities. This program is financed through the sale of prepaid tuition contracts.

*Housing Division Fund* - accounts for the State program to assist private lenders in providing low interest housing loans to low- and moderate-income households. This program is financed through the sale of bonds.

*Unemployment Compensation Fund* - accounts for the payment of unemployment compensation benefits.

*Water Projects Loans Fund* - accounts for revenues and expenses associated with operating a revolving fund to finance local government pollution control projects, and with operating revolving and set-aside program funds to finance local public water systems' safe drinking water projects.

Additionally, the State reports the following fund types:

*Internal Service Funds* - provide goods or services primarily to other agencies or funds of the State rather than to the general public. These goods and services include accounting, communications, information technology, fleet services, personnel, printing, property management, purchasing and risk management. In the government-wide statements, internal service funds are included with governmental activities. *Pension and Other Employee Benefit Trust Funds* - report resources that are required to be held in trust for the members and beneficiaries of the State's defined benefit pension plans and other post-employment benefit plans.

NEVADA

*Investment Trust Funds* - report resources received from local governments that are either pooled in an external investment portfolio for the benefit of all participants or separated into subaccounts of identified investments allocated to specific participating local governments. Examples include the Local Government Investment Pool, the Nevada Enhanced Savings Term and the Retirement Benefits Investment Fund.

*Private Purpose Trust Funds* - report resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments. Examples include the Prisoners' Personal Property and the Nevada College Savings Plan.

*Agency Funds* - report assets and liabilities for deposits and investments entrusted to the State as an agent for others. Examples of funds in this category include state agency fund for bonds, motor vehicle, and child support disbursement.

#### D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured, such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual; that is, when they become both measurable and available. "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The State considers revenues to be available if they are collected within 60 days after year-end. Those revenues susceptible to accrual are gaming revenues, sales taxes, other taxes as described in Note 14, interest revenue and charges for services. Fines and permit revenues are not susceptible to accrual because they are generally not measurable until received in cash.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments are recorded only when payment is due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The proprietary, pension and other employee benefit trust, investment trust, and private-purpose trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency funds have no measurement focus but utilize the accrual basis of accounting for reporting assets and liabilities.

# E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

*Cash and Pooled Investments* - The State Treasurer manages a cash pool where all temporary surplus cash is invested. These investments are reported on the Statement of Net Position and Balance Sheet as cash and pooled investments. Earnings from these pooled investments are credited to the General Fund and certain other funds that have specific statutory authority to receive a prorated share based on daily cash balances. Also included in this category is cash held by departments in petty cash funds and in bank accounts outside the Treasurer's cash management pool. The operations and investments of the cash pool are described in Note 3.

Cash and cash equivalents are defined as bank accounts, petty cash, money market demand accounts and certificates of deposit with original maturities of three months or less. Cash and cash equivalents are reported in the Statement of Cash Flows for proprietary fund types.

*Investments* - Investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Short-term investments are generally reported at cost, which approximates fair value, except for the short-term investments of the Nevada College Savings Plan that are valued at amortized cost, which approximates fair value. Securities, traded on a national or international exchange, are valued at the last reported sale price of the day. International securities prices incorporate end-of-day exchange rates. The fair value of real estate investments is based on estimated current value, and MAI (Member Appraisal Institute) independent appraisals. Investments that do not have an established market are reported at estimated fair value.

The Local Government Investment Pool, the Nevada Enhanced Savings Term Investment Trust and the Retirement

Benefits Investment Fund are reported as investment trust funds. The investments of the Local Government Investment Pool and the Nevada Enhanced Savings Term Investment Trust are subject to the general limitations of NRS 355.170. The investments of the Retirement Benefits Investment Fund are governed by the prudent person standard, as set forth by NRS 286.682. Security transactions are accounted for on the trade date (the date the order to buy or sell is executed). Interest income is determined on an accrual basis with discounts earned and premiums paid being amortized. Realized gains and losses, if any, on sales of securities are calculated using the amortized cost basis at the date of sale. The fair value of the position in the pool is the same as the value of the pool shares. The Bank of New York Mellon is the custodian and transfer agent for the Local Government Investment Pool, the Nevada Enhanced Savings Term Investment Trust and the Retirement Benefits Investment Fund.

NEVADA

Derivatives are generally valued at quoted market value. Under the circumstance where quoted market values are not considered to be readily available, such derivatives are reported at estimated fair value and the methods and significant assumptions used are described in Note 3D. Investments are discussed further in Note 3.

*Receivables* - Receivables represent amounts due to the State at June 30, which will be collected sometime in the future. In the government-wide financial statements, a corresponding amount is recorded as revenue. In the governmental fund financial statements, the portions considered "available" (i.e., received by the State within approximately 60 days after yearend) are recorded as revenue; the remainder is recorded as deferred inflows of resources, unavailable revenue. Receivables in proprietary fund types have arisen in the ordinary course of business. All receivables are shown net of an allowance for uncollectible accounts. Significant receivable balances not expected to be collected within one year are presented in Note 4.

*Interfund Transactions* - The State has two types of interfund transactions:

- 1. Services rendered and employee benefit contributions are accounted for as revenues, expenditures/expenses in the funds involved.
- 2. Operating appropriations and subsidies are accounted for as transfers in the funds involved.

Due from/due to other funds and transfers are presented in Note 5.

*Inventories* – In general, inventories in governmental funds are recorded as expenditures when purchased; however, certain inventories in the General Fund, the Highway Fund, and nonmajor governmental funds are recorded as expenditures at the time individual inventory items are consumed.

Inventories are stated at cost on the first-in, first-out basis. Inventory items in the governmental funds are offset by nonspendable fund balance to indicate that they will not be converted to cash.

*Prepaid Items* – Prepaid items reflect payments for costs applicable to future accounting periods and are recorded in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased. Prepaid items in the governmental funds are offset by nonspendable fund balance to indicate that they will not be converted to cash.

Advances to Other Funds - Long-term interfund advances are recorded by the advancing fund as a receivable. These amounts are reported in the nonspendable fund balance in the General Fund to maintain the accountability and to disclose properly the amount available for appropriation. In other governmental funds this amount will be reported in restricted, committed, or assigned fund balances. Repayments are credited to the receivable and corresponding reductions are made in the appropriate fund balance. A summary of interfund advances is presented in Note 5.

*Capital Assets and Depreciation* - An inventory of Stateowned land, buildings and equipment was developed in 1985. All capital assets are recorded in the Statement of Net Position at historical cost or estimated historical cost, based on acquisition of comparable property or agency records, if actual historical cost is not available. Donated capital assets are stated at appraised fair value at the time of donation or estimated fair value at time of donation, based on acquisition of comparable property, if appraised fair value is not available. The government defines capital assets as assets with a unit cost of \$5,000 or more for furniture and equipment, or \$100,000 or more for buildings and improvements, and an estimated useful life in excess of one year. Interest incurred during construction is only capitalized in proprietary funds.

Most capital assets are depreciated principally on a straightline basis over estimated useful lives of 40 years for structures and 3 to 30 years for improvements, furniture and equipment. The State's significant infrastructure assets utilize the modified approach in which costs to maintain and preserve these assets are expensed and no depreciation expense is recorded. This approach is discussed further in the Required Supplementary Information portion of this report. In the Nevada System of Higher Education, capital assets are defined as assets with an initial unit cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are stated at cost at the date of acquisition or fair value at date of donation in the case of gifts. Depreciation is computed on a straight-line basis over estimated useful lives of 40 years for buildings, 10 to 15 years for land improvements and 3 to 18 years for library books, machinery and equipment. Additional disclosure related to capital assets is provided in Note 7.

Compensated Absences - A liability for compensated absences relating to services already rendered and that are not contingent on a specified event is accrued as employees earn the rights to the benefits. Compensated absences relating to future services or that are contingent on a specified event will be accounted for in the period those services are rendered or those events take place. Proprietary fund types report accrued compensated absences as liabilities in the appropriate funds. Governmental funds report a liability and expenditure for compensated absences only if the liability has matured as a result of employee resignations or retirements. Thus no expenditure would be recognized in governmental funds for the unpaid balance of compensated absences for employees still in active service at the end of the reporting period. On the Statement of Net Position, the accrued compensated absences for both proprietary and governmental fund types is reported.

NEVADA

*Long-Term Obligations* - In the government-wide statements and proprietary fund financial statements, long-term debt and other long-term liabilities are reported as liabilities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures. Long-Term Obligations are more fully described in Note 10.

*Deferred Outflows/Inflows of Resources* – In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources, which represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/ expenditure) until then. An example is the deferred charge on refunding which results from the difference in the carry-ing value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources, which represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. An example is unavailable revenue, reported in the governmental funds balance sheet when revenue is measureable but not available. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

*Net Position/Fund Balance* - The difference between fund assets, deferred outflows of resources, liabilities and deferred inflows of resources is "Net Position" on the government-wide, proprietary and fiduciary fund statements, and "Fund Balance" on governmental fund statements.

In governmental fund financial statements, fund balances are classified based primarily on the extent to which the State is bound to observe constraints imposed upon the use of the resources in the fund as follows:

- 1. Nonspendable fund balance includes items that cannot be spent because they are either not in spendable form (such as inventories, prepaid amounts and the long-term portion of loans/notes receivables) or legally or contractually required to be maintained intact (such as the principal of a permanent fund).
- 2. Restricted fund balances have constraints placed upon the use of the resources either by an external party or imposed by law through constitutional provisions or enabling legislation.
- 3. Committed fund balances can be used only for specific purposes pursuant to constraints imposed by a formal action of the government's highest level of decision-making authority, the Nevada Legislature, through legislation passed into law.
- 4. Assigned fund balance includes amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. Assignments of fund balance are created by the executive branch.
- 5. Unassigned fund balance is the residual amount of the General Fund not included in the four categories above. Also, any deficit fund balances within the other governmental fund types are reported as unassigned.

Each fund has been analyzed for proper classification of fund balance. Funds are created by the Legislature and money is authorized to be transferred to the fund for a particular purpose. Balances in the Legislatively created funds are at least committed, and may be further restricted depending on whether there is an external party, constitutional provision, or enabling legislation constraint involved. Note 13 provides a disaggregation of governmental fund balances, nonspendable, restricted, committed, and unassigned.

*Net Position/Fund Balance Flow Assumptions* - The State's policy is to spend restricted amounts first when an expenditure/expense is incurred for purposes for which both restricted and unrestricted resources are available. Therefore, restricted net position/fund balance is depleted before using unrestricted net position/fund balance. In governmental funds, when an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, the assumed order of spending is first committed, assigned and then unassigned.

*Minimum Fund Balance Policy* - NRS 353.213(3) requires that the proposed budget for each fiscal year of the biennium provide for a reserve of not less than 5% or more than 10% of the total of all proposed appropriations from the State General Fund for the operation of all departments, institutions and agencies of the State and authorized expenditures from the State General Fund for the regulation of gaming for that fiscal year.

Stabilization Arrangement – NRS 353.288 provides for the Account to Stabilize the Operation of the State Government (Stabilization Account) in the State General Fund. Additions to the stabilization arrangement are triggered at the end of a fiscal year if the General Fund unrestricted fund balance (budgetary basis) exceeds 7% of General Fund operating appropriations. Forty percent of the excess is deposited to the Stabilization Account, and is classified on the balance sheet as committed for fiscal emergency. Expenditures may occur only if actual revenues for the biennium fall short by 5% or more from anticipated revenues, or if the Legislature and Governor declare that a fiscal emergency exists. The balance in the Stabilization Account committed for fiscal emergency at June 30, 2016 is \$63,935,955.

*Pensions* – For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS, LRS and JRS and additions to/deductions from the plans fiduciary net position have been determined on the same basis as they are reported by PERS, LRS and JRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### F. Revenues and Expenditures/Expenses

*Program Revenues* - In the government-wide statement of activities, program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

*Property Taxes* – Property taxes are recognized as revenues in the year for which they are levied. Property taxes are levied July 1 on property values assessed by the prior January 1. Property tax billings are payable in quarterly installments on the third Monday in August and the first Monday in October, January and March, after which time the bill is delinquent.

*Grants* – The State participates in various federal award programs which are received in both cash and noncash forms. Grants and other entitlements are recognized as revenues when all eligibility requirements are met, including any time requirements, and the amount is received within 60 days after year-end. Federal reimbursement type grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received within 60 days after year-end. Certain grants have matching requirements in which the State must contribute a proportionate share of the total costs of a program. Use of grant resources is conditioned upon compli-

ance with terms of the grant agreements and applicable federal regulations, which include subjecting grants to financial and compliance audits.

NEVADA

*Proprietary Funds Operating and Nonoperating Revenues and Expenses* - Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal, ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

## Note 2 - Budgetary and Legal Compliance

#### **Budgetary Process and Control**

The Governor must submit his proposed budget for the Executive Branch to the State Legislature not later than 14 calendar days before each regular session, which convenes every odd-numbered year. The presented budget spans the next two fiscal years and contains the detailed budgetary estimates of revenues and expenditures. The Legislature enacts the budget through passage of the General Appropriations Act, which allows expenditures from unrestricted revenues, and the Authorized Expenditures Act, which allows expenditures from revenues collected for specific purposes. Once passed and signed, the budget becomes the State's financial plan for the next two fiscal years.

The legal level of budgetary control, the level at which appropriations are approved and the level at which over-expenditure of appropriations or transfers of appropriated amounts may not occur without Legislative action, is at the total program level within each department or agency.

Limited budgetary revisions may be made without Legislative action through the following management/administrative procedures. After obtaining the approval of the Governor, or his designee, the Budget Director, Legislative Interim Finance Committee (LIFC) approval is required of those revisions in excess of \$30,000 which have the effect, when taken into consideration with all other changes during the fiscal year, of increasing or decreasing any legislatively approved expenditure level by 10% or \$75,000, whichever is less. Revisions not exceeding this threshold require only Budget Director approval. The LIFC approval is not equivalent to governing body approval, as total appropriations for a program may not be increased except as follows. The Legislature appropriates limited funds to the Contingency Account, in the General Fund, which may be allocated to programs by the LIFC upon recommendation of the Board of Examiners. Allocations totaling \$10,285,226 were made in the 2016 fiscal year.

Unencumbered appropriations lapse at the end of each fiscal year unless specific authority to carry forward is granted in the Appropriations Act. Unexpended authorized resources, under the Authorized Expenditures Act, are carried forward for expenditure in the next fiscal period.

Budgets are legally adopted for the General Fund and Special Revenue Funds, except for the Nevada Real Property Corporation special revenue fund. In addition, certain activity within such funds may be unbudgeted. The State's budget is prepared principally on a modified accrual basis with the following exceptions:

- 1. Cash placed in petty cash funds or outside bank accounts is considered expended for budgetary purposes.
- 2. Advances to other funds are considered expenditures. Repayments of such advances are considered revenues.
- 3. Certain assets, such as prepaid items, are considered expended for budgetary purposes. Inventory is an expenditure for budgetary purposes. Certain unearned revenue is considered revenue for budgetary purposes.
- 4. Expenditures are only recognized if the liability is liquidated within 45 days after the fiscal year end.
- 5. Revenue from grants is only recognized when it is received in cash.
- 6. Encumbrances for goods or services not received by fiscal year-end are considered an expenditure of the current period if received and paid within 45 days.

The Budgetary Comparison Schedule is presented as Required Supplementary Information (RSI) in this report. Actual amounts in this schedule are presented on a budgetary basis. Because this basis differs from accounting principles generally accepted in the United States of America (GAAP), a reconciliation between the budgetary and GAAP basis is presented in the RSI.

### Note 3 - Deposits and Investments

The Nevada Revised Statutes (NRS) and Nevada Administrative Code, as well as procedures approved by the State Board of Finance, govern deposits and investing activities for the primary government and its discretely presented component units which are not expressly required by law to be received and kept by another party. NRS 226.110(3) further requires that the Office of the State Treasurer shall establish the policies to be followed in the investment of money of the State of Nevada.

#### A. Deposits

Primary Government, Private Purpose Trust, Pension and Other Employee Benefit Trust, and Investment Trust Funds -The State minimizes its custodial credit risk by legislation establishing a program to monitor a collateral pool for public deposits. Custodial credit risk for deposits is the risk that in the event of a bank failure, the State's deposits may not be recovered. The NRS direct the Office of the State Treasurer to deposit funds into any state, or national bank, credit union or savings and loan association covered by federal depository insurance. For those deposits over and above the federal depository insurance maximum balance, sufficient collateral must be held by the financial institution to protect the State of Nevada against loss. The pooled collateral for deposits program maintains a 102% pledged collateral for all public deposits. As of June 30, 2016, the bank balance of the primary government, private purpose trust, pension and other employee benefit trust, and investment trust funds totaled \$747,559,255, of which \$48,809,712 was uncollateralized and uninsured.

*Component Units* - Cash and cash equivalents of the Nevada System of Higher Education (NSHE) are stated at cost, which approximates market, and consist of deposits in money market funds, which are not federally insured, and cash in the bank. At June 30, 2016 NSHE's deposits in money market funds totaled \$206,200,000 and cash in bank was \$8,848,000. Of these balances, \$250,000 are covered by the Federal Depository Insurance Corporation (FDIC); the remaining deposits are uncollateralized and uninsured.

### **B.** Investments

NRS 355.140 details the types of securities in which the State may invest. In general, authorized investments include: certificates of deposit, asset-backed securities, bankers' acceptances and commercial paper, collateralized mortgage obligations, corporate notes, municipal bonds, money market mutual funds whose policies meet the criteria set forth in the statute, United States treasury securities, and specific securities implicitly guaranteed by the federal government. Additionally, the State may invest in limited types of repurchase agreements; however, statutes generally prohibit the State from entering into reverse-repurchase agreements. The State's Permanent

School Fund is further limited by statute as to the types of investments in which it may invest (NRS 355.060). Cash and Investments are also discussed in Note 1 under Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance.

The State Board of Finance reviews the State's investment policies at least every four months. The Board is comprised of the Governor, the State Controller, the State Treasurer and two members appointed by the governor, one of which must be actively engaged in commercial banking in the State.

Investments held in the Local Government Investment Pool (LGIP), Retirement Benefits Investment Fund (RBIF), and Nevada Enhanced Savings Term (NVEST) are specifically identifiable investment securities and are included in the following tables. LGIP, RBIF, and NVEST are investment trust funds and discussed further in Note 1, Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/ Fund Balance. LGIP and NVEST are governed by the Nevada State Board of Finance and administered by the Nevada State Treasurer. Complete financial statements for LGIP and NVEST may be obtained from the State Treasurer's Office, 101 N. Carson Street, Suite 4, Carson City, NV 89701. RBIF is administered by the Retirement Benefits Investment Board. The audited financial statements of RBIF may be obtained from the Public Employees' Retirement System, 693 West Nye Lane, Carson City, Nevada 89703.

**Interest Rate Risk:** Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

Primary Government, Private Purpose Trust, Pension and Other Employee Benefit Trust, and Investment Trust Funds -The State minimizes interest rate risk by maintaining an effective duration of less than 1.5 years and holding at least 25% of the portfolio's total market value in securities with a maturity of 12 months or less. However, the benchmark used by the State Treasurer to determine whether competitive market yields are being achieved is the 90 day U.S. Treasury Bill's average over the previous three month period (Rolling 90 day T-Bill). Investment policies for the pension and other employee benefit trust funds authorize all securities within the Barclays Aggregate Index benchmark. If securities are purchased outside the Barclays U.S. Treasury Index, they must be of investment grade rating by at least two of the following: Moody's, Standard & Poor's or Fitch (BBB- or better by Standard & Poor's/Fitch, Baa3 or better by Moody's) except those issued or guaranteed by the U.S. Government or its agencies. The following table provides information about the interest rate risks associated with the State's investments as of June 30, 2016 (expressed in thousands):

|                                   |               |              | Maturities   | s in Years   |              |
|-----------------------------------|---------------|--------------|--------------|--------------|--------------|
|                                   | Fair Value    | Less Than 1  | 1-5          | 6-10         | More Than 10 |
| U. S. Treasury securities         | \$ 768,764    | \$ 146,977   | \$ 457,358   | \$ 132,267   | \$ 32,162    |
| Negotiable certificate of deposit | 487,544       | 485,085      | 2,459        | -            | -            |
| U.S. agencies                     | 10,751,086    | 532,249      | 6,529,208    | 1,892,353    | 1,797,276    |
| Mutual funds                      | 121,479       | 121,479      | -            | -            | -            |
| Repurchase agreements             | 358,006       | 358,006      | -            | -            |              |
| Asset backed corporate securities | 97,680        | 227          | 71,730       | 19,076       | 6,647        |
| Corporate bonds and notes         | 340,113       | 138,595      | 178,130      | 11,371       | 12,017       |
| Commercial paper                  | 374,446       | 374,446      | -            | -            |              |
| Fixed income securities           | 794           | 794          | -            | -            |              |
| Municipal bonds                   | 10,792        | 7,708        | 3,084        | -            |              |
| Investment agreements             | 175           | -            | -            | -            | 175          |
| Other short-term investments      | 294,015       | 294,015      | -            | -            |              |
| Other investments                 | 17,162        | 15,105       | 2,057        |              |              |
| Total                             | \$ 13,622,056 | \$ 2,474,686 | \$ 7,244,026 | \$ 2.055.067 | \$ 1,848,277 |

The Nevada College Savings Plan, a private purpose trust, currently has no formal investment policy with regard to interest rate risk for the investments. The mutual funds held by Vanguard, USAA, Upromise, and Putnam have various maturities from 28 days to 13.9 years and are not included in the table above.

*Component Units* – The Nevada System of Higher Education's (NSHE) policy for reducing its exposure to interest rate risk is to have an average investment life of at least two years for fixed income securities within both the endowment and operating investment pools. With regard to the trusts included in endowment investments, NSHE is not the trustee of these investments and, therefore, currently has no policies with regard to interest rate risk for these investments. Investments having interest rate risk are principally invested in mutual funds and private commingled funds. The following table provides the segmented time distribution for these investments at June 30, 2016 (expressed in thousands):

**Credit Risk:** Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the State of Nevada.

Primary Government, Private Purpose Trust, Pension and Other Employee Benefit Trust, and Investment Trust Funds -NRS 355.140, the State Treasurer's investment policy, and investment policies of the pension and other employee benefit trust and investment trust funds all address credit risk. A summary of the policies is presented as follows: • Commercial paper, Negotiable Certificates of Deposit, and Bankers' Acceptances are rated by a nationally recognized rating service as "A-1," "P-1" or its equivalent, or better,

NEVADA

- Notes, bonds and other unconditional obligations issued by corporations in the U.S. and municipal bonds (effective September 2011) are rated by a nationally recognized rating service as "A" or its equivalent, or better,
- Money market mutual funds are SEC registered 2(A)7 and rated by a nationally recognized rating service as "AAA" or its equivalent,
- Collateralized mortgage obligations and asset-backed securities are rated by a nationally recognized rating service as "AAA" or its equivalent,
- Repurchase agreements with banks or registered brokerdealers provided the agreement is collateralized by 102% with U.S. Treasuries or U.S. government agency securities on a delivery basis.

In addition to the above provisions, investment policies for the pension and other employee benefit trust funds allow investment in corporate bonds, assets related instruments, and foreign debt issued in the U.S. rated by at least two of the following: Moody's, Standard & Poor's, or Fitch (BBB- or better by Standard & Poor's/Fitch, Baa3 or better by Moody's). The Nevada College Savings Plan, a private purpose trust, currently has no formal investment policy with regard to credit risk for the investments. Investments having credit risk are included in the table below.

The State's investments as of June 30, 2016 were rated by Standard & Poor's and/or an equivalent national rating organization, and the ratings are presented below using the Standard & Poor's rating scale (at fair value, expressed in thousands):

|                                   |       |        |               | G  | Quality Rat | ting |        |         |       |        |    |            |

| Total                             | \$ 17 | 9,926  | \$<br>877,640 | \$ | 681,083     | \$   | 29,111 | \$ 3,83 | 35 \$ | \$ 809 | \$ | 17,148,456 |

*Component Unit* – The NSHE's policy for reducing its exposure to credit risk is to maintain a weighted average credit rating of AA or better, and never below A, for investments with credit risk within both the endowment and operating investment pools. With regard to the trusts included in endowment investments, NSHE is not the trustee of these investments and therefore, it currently has no policies with regard to credit risk for these investments. The credit risk profile for NSHE operating and endowment investments at June 30, 2016 is as follows (at fair value, expressed in thousands):

|                                 | Unrated    |
|---------------------------------|------------|
| Mutual funds publicly traded    | \$ 527,735 |
| Partnerships                    | 95,524     |
| Endowment cash/cash equivalents | 130        |
| Trust(s)                        | 4,063      |
| Private commingled funds        | 145,656    |
| Total                           | \$ 773,108 |
|                                 |            |

**Concentration of Credit Risk:** Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issuer. The NRS 355.140, 355.060, and the State Treasurer's investment policy limit the investing in any one issuer to 5% of the total par value of the portfolio. At June 30, 2016, no individual investment exceeded 5% of the total portfolio of the Primary Government.

At June 30, 2016, the following investments exceeded 5% of the Higher Education Tuition Trust's total investments (expressed in thousands):

|  | Fa | ir Value | Percentage |
|--|----|----------|------------|
| Federal Home Loan Mortgage Corp-<br>Asset-Backed Mortgage Security | \$ | 16,618   | 7.42%      |

The Housing Division currently places no limit on the amount it may invest in any one issuer provided their ratings are in the highest two general rating categories. However, the Housing Division monitors rating changes on all issuers. If warranted, more concentrated investments may have to be diluted to alternative investment providers. As of June 30, 2016, the Housing Division's investments in Fannie Mae and Ginnie Mae are 3.94% and 42.04% respectively, of the Housing Division's total investments. The Fannie Mae and Ginnie Mae investments are in mortgage backed securities matched to the interest rate and maturity of the underlying bonds. Because such investments are matched to concomitant liabilities, the Housing Division is less concerned about a concentration risk on these investments.

NEVADA

*Component Unit* - The Nevada Capital Investment Corporation (NCIC) owns 99% equity interest in Silver State Opportunities Fund LLC (SSOF), a Nevada limited liability company, for the purpose of obtaining income. At June 30, 2016 the investment in equity interest of SSOF exceeded 5% of NCIC's total investments.

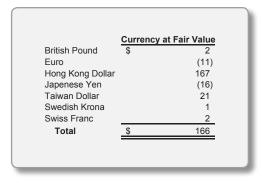

**Foreign Currency Risk:** Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit.

Primary Government, Pension and Other Employee Benefit Trust Funds, and Investment Trust Funds - The primary government does not have a policy regarding foreign currency risk; however, the State Treasurer's office does not have any deposits or investments in foreign currency. The PERS, LRS, JRS, and RBIF do have foreign currency policies for deposit and investments, which may be used for portfolio diversification and hedging. Highly speculative positions in currency are not permitted. LRS and JRS had no exposure to foreign currency risk as of June 30, 2016. The following table summarizes the pension and investment trust funds' exposure to foreign currency risk in U.S. dollars as of June 30, 2016 (expressed in thousands):

|                        |                 | <u> </u>           | ment a | nd Fair Value | 9  |           |

NEVADA

*Private Purpose Trust Fund* - The Nevada College Savings Plan, a private purpose trust, currently has no formal investment policy with regard to foreign currency risk for the investments. The Plan consists of Vanguard College Savings Plan, USAA College Savings Plan, Upromise College Fund Plan, and Putnam for America Plan which all state that there are certain inherent risks involved when investing in international securities through mutual funds that are not present with investments in domestic securities, such as foreign currency exchange rate fluctuations, adverse political and economic developments, natural disasters and possible prevention or delay of currency exchange due to foreign governmental laws or restrictions. The investments held in Putnam for America Plan consist of the portfolios managed and sponsored by Putnam Investment Management, Putnam Mutual Funds, and non-Putnam Mutual Funds. Both mutual funds pose no foreign currency risk. The following table summarizes foreign currency risk for the GAA portfolios in U.S. dollars as of June 30, 2016 (expressed in thousands):

*Component Unit* - The NSHE does not directly invest in foreign currency investments and is therefore not subject to foreign currency risk. However, it has \$176,008,000 in mutual funds in both the operating and endowment pools that are primarily invested in international equities at June 30, 2016.

**Fair Value of Investments:** The State categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The following table summarizes the fair value measurements of the primary government as of June 30, 2016 (expressed in thousands):

| _                                     | F  | air Value | Lev | el 1 Inputs | Lev | el 2 Inputs | Level 3 Inputs |   |
|---------------------------------------|----|-----------|-----|-------------|-----|-------------|----------------|---|
| Investments by fair value level       |    |           |     |             |     |             |                |   |
| Debt securities                       |    |           |     |             |     |             |                |   |

## C. Securities Lending

*Primary Government and Investment Trust Funds* - NRS 355.135 authorizes the State Treasurer to lend securities from the investment portfolio of the State if collateral received from the borrower is at least 102% of fair value of the underlying securities and the value of the securities borrowed is determined on a daily basis. There were no securities on loan at June 30, 2016 (excluding PERS).

*Public Employees' Retirement System (PERS)* – PERS maintains a securities lending program under the authority of the "prudent person" standard of NRS 286.682. Securities loaned under this program consist of U.S. Treasury Obligations, corporate fixed income securities, international fixed income securities, equity securities, and international equity securities. Collateral received consists of cash and securities issued by the U.S. Government, its agencies or instrumentalities. Collateral received for the lending of U.S. securities must equal at least 102% of fair value, plus accrued interest in the case of fixed income securities must equal at least 102% of fair value, plus accrued for the lending of international securities must equal at least 105% of fair value, plus accrued interest in the case of fixed income securities.

At year-end, PERS has no credit risk exposure to borrowers because the associated value of the collateral held exceeds the value of the securities borrowed. PERS has no discretionary authority to sell or pledge collateral received or securities loaned. The contract with the securities lending agent requires the agent to indemnify PERS for all losses relating to securities lending transactions. There were no losses resulting from borrower default during the period nor were there any recoveries of prior period losses.

NEVADA

PERS may only loan up to 33 1/3% of its total portfolio. Either PERS or the borrower can terminate all securities loans on demand. In September 2013 the Board elected to allow only overnight repurchase agreements collateralized by U.S. government obligations issued or guaranteed by the U.S. Government, its agencies or instrumentalities within the reinvestment portfolio. This action effectively eliminated risk in securities lending collateral reinvestment portfolio since securities issued or guaranteed by the U.S. Government are considered to be free of credit risk. The maturities of the investments made with cash collateral generally do not match the maturities of the securities loaned because securities lending transactions can be terminated at will.

The fair value of underlying securities on loan at June 30, 2016 is \$3,954,057,876. Collateral received for outstanding securities lending arrangements consisted of cash in the amount of \$411,128,913 and non-cash in the amount of \$3,635,396,664. The cash collateral is reported on the Statement of Fiduciary Net Position as an asset with a related liability. At June 30, 2016, PERS has collateral consisting of cash and securities issued by the U.S. Government, its agencies or instrumentalities, in excess of the fair value of investments held by brokers/ dealers under a securities lending agreement.

### **D.** Derivatives

*Primary Government* – The Office of the State Treasurer's investment policies do not contain any specific language regarding derivatives other than prohibiting certain types of derivatives such as option contracts, futures contracts, and swaps in the General Portfolios and the Local Government Investment Pool effective June 2012 and November 2015 respectively. The primary government has no exposure to derivatives as of June 30, 2016.

*Private Purpose Trust Fund* – Certain investments in the Nevada College Savings Plan are managed by Putnam Investment Management through Putnam sponsored portfolios (the Portfolios) and mutual funds. The Portfolios use six types of derivatives: options, futures contracts, forward currency contracts, total return swap contracts, interest rate swap contracts, and credit default contracts. Currently, there is no written investment policy with regard to derivatives for the Portfolios. All six types of derivatives are considered investments. The fair value amount in the table below represents the unrealized appreciation (depreciation) from derivative instruments and is reported in the Statement of Fiduciary Net Position. The net increase (decrease) in fair value is reported as investment income on the Statement of Changes in Fiduciary Net Position. The Portfolios' investment derivative instruments as of June 30, 2016, and changes in fair value for the year then ended are summarized in the following table (expressed in thousands):

|  | N  | ontracts/<br>otional<br>mounts | Change in<br>Fair Value Fair Value |      |    |       |  |
|--|----|--------------------------------|------------------------------------|------|----|-------|--|
| Purchased Options, gross               | \$ | 2,127                          | \$                                 | 10   | \$ | 10    |  |
| Forward Currency Contracts, net        | \$ | 48,230                         |                                    | 136  |    | 202   |  |
| CC Interest Rate Swap Contracts, gross | \$ | 6,525                          |                                    | (34) |    | (47)  |  |
| OTC Total Return Swap Contracts, gross | \$ | 16,379                         |                                    | (8)  |    | 18    |  |

The Portfolios use options contracts to gain exposure to securities. The potential risk is that the change in value of options contracts may not correspond to the change in value of the managed instruments. In addition, losses may arise from changes in the value of the underlying instruments if there is an illiquid secondary market for the contracts, if interest or exchanged rates move unexpectedly or if the counterparty to the contract is unable to perform. Realized gains and losses on purchased options are included in realized gains and losses on investment securities. Exchange-traded options are valued at the last sale price.

The Portfolios use futures contracts to manage interest rate risk, gain exposure to interest rates, manage prepayment risk, equitize cash, and manage exposure to market risk. The potential risk is that the change in value of futures contracts may not correspond to the change in value of the managed instruments. In addition, losses may arise from changes in the value of the underlying instruments if there is an illiquid secondary market for the contracts, if interest or exchange rates move unexpectedly, or if the counterparty to the contract is unable to perform. Futures contracts are valued at the quoted daily settlement prices established by the exchange on which they trade. Risks may exceed amounts recognized on the Statement of Fiduciary Net Position. The Portfolios and the broker agree to exchange an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin."

The Portfolios buy and sell forward currency contracts, which are agreements between two parties to buy and sell currencies at a set price on a future date. These contracts are used to manage foreign exchange risk and to gain exposure on currency. The contract is marked to market daily using current forward currency exchange rates supplied by a quotation service. The Portfolios may be exposed to risk if the value of currency changes unfavorably, if the counterparties to the contracts are unable to meet the terms of their contracts or if the Portfolios are unable to enter into a closing position. Risk of loss may exceed amounts recognized on the Statement of Fiduciary Net Position.

NEVADA

The Portfolios entered into OTC total return swap contracts, which are arrangements to exchange a market linked return for a periodic payment, both based on a notional principal amount, to manage sector exposure, manage exposure to specific sectors or industries, manage exposure to specific securities, to gain exposure to basket of securities, to gain exposure to specific markets or countries. To the extent that the total return of the security, index or other financial measure underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Portfolios will receive a payment from or make a payment to the counterparty. OTC total return swap contracts are marked to market daily based upon quotations from an independent pricing service or market makers. The Portfolios could be exposed to credit or market risk due to unfavorable changes in the fluctuation of interest rates or the

price of the underlying security or index, the possibility that there is no liquid market for these agreements or that the counterparty may default on its obligation to perform. The Portfolios' maximum risk of loss from counterparty risk is the fair value of the contract. This risk may be mitigated by having a master netting arrangement between the Portfolios and the counterparty. Risk of loss may exceed amounts recognized on the Statement of Fiduciary Net Position.

The Portfolios entered into OTC and/or centrally cleared interest rate swap contracts to manage interest rate risk and to gain exposure on interest. OTC and centrally cleared interest rate swap contracts are marked to market daily based upon quotations from an independent pricing service or market makers. The Portfolios could be exposed to credit or market risk due to unfavorable changes in the fluctuation of interest rates or if the counterparty defaults, in the case of OTC interest rate contracts, or the central clearing agency or a clearing member defaults, in the case of centrally cleared interest rate swap contracts, on its respective obligation to perform. This risk may be mitigated for OTC interest rate swap contracts by having a master netting arrangement between the Portfolios and the counterparty and for centrally cleared interest rate swap contracts through the daily exchange of variation margin. There is minimal counterparty risk with respect to centrally cleared interest rate swap contracts due to the clearinghouse guarantee fund and other resources that are available in the event of a clearing member default. Risk of loss may exceed amounts recognized on the Statement of Fiduciary Net Position.

The Portfolios entered into OTC and/or centrally cleared credit default contracts to manage credit risk and market risk, and gain exposure on individual names and/or baskets of securities. In an OTC and centrally cleared credit default contracts, the protection buyer typically makes a periodic stream of payments to a counterparty, the protection seller, in exchange for the right to receive a contingent payment upon the occurrence of a credit event on the reference obligation or all other equally ranked obligations of the reference entity. Credit events are contract specific but may include bankruptcy, failure to pay, restructuring and obligation acceleration. The OTC and centrally cleared credit default contracts are marked to market daily based upon quotations from an independent pricing service or market makers. In addition to bearing the risk that the credit event will occur, the Portfolios could be exposed to market risk due to unfavorable changes in interest rates or in the price of the underlying security or index or the possibility that it may be unable to close out its position at the same time or at the same price as if it had purchased the underlying reference obligations. In certain circumstances, the Portfolios may enter into offsetting OTC and centrally cleared credit default contracts which could mitigate their risk of loss. Risk of loss may exceed amounts recognized on the Statement of Fiduciary Net Position. The Portfolios' maximum risk of loss from counterparty risk, either as the protection seller or as the protection buyer, is the fair value of the contract. This risk may be mitigated for OTC credit default contracts by having a master netting arrangement between the Portfolios and the counterparty and for centrally cleared credit default contracts through the daily exchange of the variation margin. Counterparty risk is further mitigated with respect to centrally cleared credit default contracts due to the clearinghouse guarantee fund and other resources that are available in the event of a clearing member default. Where the Portfolios are a seller of protection, the maximum potential amount of future payments it may be required to make is equal to the notional amount.

Derivative instruments held by the Portfolios were not individually rated by a ratings agency for the reporting period. As of June 30, 2016, OTC derivative counterparties had ratings that were either greater than or equivalent to long-term ratings of Baa1/BBB and short-term ratings of P-2/A-2. Centrally cleared contracts are not considered brokered contracts and have mitigated risks. With futures, there is minimal counterparty credit risk to the Portfolios since futures are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded futures, guarantees the futures against default.

Derivative instruments are subject to interest rate risk. Prices of longer term maturities generally change more in response to interest rate changes than the prices of shorter term maturities. The following table provides information about the interest rate risks associated with the types of investment derivative instruments as of June 30, 2016 (expressed in thousands):

| Notes/loans receivable            | 14,915        |       | 89,700               |      | -                    |     | 104,615            |
| Due from Component Unit           | <br>-         |       | -                    |      | 34,572               |     | 34,572             |
| Total noncurrent portion          | <br>24,029    |       | 89,700               |      | 34,572               |     | 148,301            |
| Total                             | \$<br>403,779 | \$    | 94,240               | \$   | 35,631               | \$  | 533.650            |

Not included in the receivable balances are amounts considered to be uncollectible. In the governmental funds, uncollectible taxes receivable are estimated at \$20.1 million, and uncollectible accounts receivable are estimated at \$110.2 million. The proprietary funds have \$37.1 million in uncollectible accounts receivable of which \$9.1 million are from uninsured employers' fines and penalties, and \$12.1 million are from unemployment contributions and benefit overpayments.

NELADA

Interfund advances are the portions of interfund balances that are *not* expected to be repaid within one year. The interfund balances that are expected to be repaid within one year are shown in the Due From/Due To summary below.

Advances are generally made to finance capital expenditures or as a loan for operating purposes.

#### B. Due From/Due To Other Funds and Component Units

| Total                     | \$<br>517                    | \$ | 24,975                               | \$ | 25,492             |  |  |  |  |

The balances result primarily from timing differences between the date goods and services are provided or reimbursable expenses occur, and the date the transactions are recorded in the accounting system and payment is made. An exception is the long-term due to the Nevada System of Higher Education (NSHE) from the Primary Government in the amount of \$24,427,760. This is the result of the 2015 Legislative Session which authorized funds for the UNLV hotel college, totaling approximately 50% of the construction cost with the remaining coming from donor funds, as well as funding for the ongoing NSHE Statewide deferred maintenance program (\$15 million).

## C. Transfers From/Transfers To Other Funds

A summary of transfers between funds for the year ended June 30, 2016, is shown below (expressed in thousands):

The general purpose for transfers is to move monies from funds required by statute to collect them to the funds required by statute or budget to expend them, and to move monies collected for debt service purposes to the debt service fund required to make the payment.

# Note 6 - Restricted Assets

Various debt service, operation and maintenance, capital improvement and construction (acquisition) funding requirements of bond covenants, and trust indentures are recorded as restricted assets on the Statement of Net Position. The components of restricted assets at June 30, 2016 are as follows (expressed in thousands):

| r                      | <br>Primary G                  | over | nment                      |    | )                 |

The State, as lessor, entered into a lease purchase agreement in fiscal year 2014 with the Nevada System of Higher Education (NSHE), a discretely presented component unit, as lessee. The agreement is to finance a building construction project at the Nevada State College. Construction was completed in fiscal year 2016, and at the end of the lease, title to the buildings transfers to NSHE. As discussed in Note 10G, the construction is being financed by Lease Revenue Certificates of Participation Series 2013. Proceeds from the certificates of participation are used to pay the capitalized interest during the construction period, and NSHE will begin making capital lease principal and interest payments starting in fiscal year 2017.

NEUADA

For the fiscal year ended June 30, 2016, a capital lease receivable has been recorded by the primary government in the amount of \$50,445,000, which represents the certificate of participation proceeds remitted to NSHE for construction of the building.

The future minimum lease payments receivable for capital leases are as follows (expressed in thousands):

| Year Ending<br>June 30              | <br>ernmental<br>ctivities |

# Note 9 - Short-Term Obligations

*Primary Government* - On May 17, 2016, the State issued short-term bonds of \$4,042,042 to provide the necessary State match for all or a portion of the 2015, 2016, and 2017 Clean Water Capitalization Grant Awards. These bonds were paid off on May 24, 2016. There was no short-term debt outstanding at July 1, 2015 or June 30, 2016.

# Note 10 - Long-Term Obligations

### A. Changes in Long-Term Liabilities

The following is a summary of changes in long-term obligations of the primary government for the fiscal year ended June 30, 2016 (expressed in thousands):

The General Fund and special revenue funds typically liquidate the capital lease obligations. The compensated absence obligations are typically liquidated by the General Fund and State Highway Fund incurring the related salaries and wages costs. The debt service funds typically liquidate the arbitrage obligations.

### **B.** Bonds Payable

The State issues general obligation bonds for the acquisition, construction and improvement of major capital facilities; buying local governments' bonds in the municipal bond bank fund; loans to municipalities for water projects; protection of natural resources; cultural affairs projects; the construction, reconstruction, improvement and maintenance of highways; and for refunding purposes. General obligation bonds are direct obligations and pledge the full faith and credit of the State.

Special obligation highway improvement revenue bonds provide funds for property acquisition and construction of highway projects. Special obligation unemployment compensation bonds are to repay the Federal Unemployment Advance as benefits paid significantly exceeded employer assessment during the national economic downturn. Special obligation housing bonds in the aggregate have a debt limit of \$5 billion and are used for housing loans or to purchase mortgage loans having both fixed and variable interest rates. Special obligation bonds are payable solely from gross pledged revenues and are not general obligations of the State.

General obligation bonds and special obligation bonds of the primary government outstanding at June 30, 2016 are comprised of the following (expressed in thousands):

|   | Interest<br>Rates | Original<br>Amount | c    | Principal<br>Outstanding |
|---|-------------------|--------------------|------|--------------------------|
| Governmental activities:  |                   |                    |      |                          |

### C. Constitutional Debt Limitations

Section 3, Article 9, of the State Constitution (as amended) limits the aggregate principal amount of the State's public debt to two percent (2%) of the assessed valuation of the State. Exempt from this limitation are debts authorized by the Legislature that are incurred for the protection and preservation of, or for obtaining the benefits of, any property or natural resources within the State. At June 30, 2016, the debt limitation and its unused portion are computed as follows (expressed in thousands):

|                                       | )               |
|---------------------------------------|-----------------|

NEVADA

### D. Nevada Municipal Bond Bank

General obligation bonds have been issued through the Nevada Municipal Bond Bank, a special revenue fund, as authorized by NRS 350A. These bonds are subject to statutory limitation of \$1.8 billion and are exempt from the Constitutional Debt Limitation. Proceeds from the bonds are used to purchase validly issued general obligation bonds of the State's local governments to finance projects related to natural resources. The State anticipates that the debt service revenue it receives from the participating local governments will be sufficient to pay the debt service requirements of the State bonds as they become due. Twelve projects were funded through the Nevada Municipal Bond Bank as of June 30, 2016, and total outstanding loans to local governments amounted to \$94,240,000.

NEVADA

### E. Refunded Debt and Redemptions

During the fiscal year 2016, the State of Nevada refunded \$248,480,000 in general obligation, limited tax, bonds related to capital improvement, natural resources and water project loans by issuing refunding bonds with a total par amount of \$227,770,000 at a \$44,923,783 premium. In addition, the State refunded \$146,045,000 in special obligation bonds, payable and collectible solely out of the gross pledged revenue, by issuing refunding bonds with a total par amount of \$125,115,000 at a \$30,167,763 premium. Proceeds from refunding bonds were used to refund certain outstanding State bonds to realize debt service savings. The refunding decreased the aggregate debt service payments by \$46,892,943 with an economic or present value gain of \$41,296,322. The reacquisition price exceeded the carrying amount of the old debt causing a deferred accounting loss of \$28,379,225. This amount is being reported as a deferred outflow of resources and amortized as an adjustment to interest expense over the life of the refunded debt or the refunding debt, whichever is shorter. The impact of the refunding issues is presented in the following table (expressed in thousands):

| Issue Description:   | efunding<br>Amount | Refunded<br>Amount | -  | ash Flow<br>ain (Loss) | -  | Present<br>Ilue Gain |
|--|--------------------|--------------------|----|------------------------|----|----------------------|
| General obligation bonds:  |                    |                    |    |                        |    |                      |

| Open Space, Parks, Natural Resources and Refunding Bonds Series 2015G        | 8,917              | 8,170              |    | 1,036                  |    | 811                  |
| Safe Drinking Water Revolving Fund Matching and Refunding Bonds Series 2015H | 4,208              | 4,065              |    | 309                    |    | 285                  |
| Special obligation bonds:  |                    |                    |    |                        |    |                      |
| Highway Revenue Improvement and Refunding Bonds Series 2016                  | 154,504            | 146,045            |    | 14,193                 |    | 14,568               |
| Total  | \$<br>425.874      | \$ 394.525         | \$ | 46.893                 | \$ | 41,296               |

In current and prior years, the State defeased certain general obligations and other bonds by placing the proceeds of new bonds and other monies in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the State's financial statements. The total outstanding amount of defeased issues at June 30, 2016 is \$691,983,056.

### F. Capital Leases

The State has entered into various agreements for the lease of equipment and improvement of buildings. Assets of the primary government acquired under such leases at June 30, 2016, include equipment with a historical cost of \$2,255,789 with accumulated depreciation of \$1,186,604 and building improvements of \$27,810,128 with accumulated depreciation of \$6,125,751.

For all capital leases of the primary government, the gross minimum lease payments and the present value of the net minimum lease payments as of June 30, 2016 follow (expressed in thousands):

|               | Year Ending<br>June 30             | Go | overnmental<br>Activities |  |

| Less: amount  | Less: amount representing interest |    |                           |  |
| Obligations u | nder capital leases                | \$ | 20,177                    |  |

#### G. Certificates of Participation

In fiscal year 2010, the NRPC, a blended component unit, issued \$7,900,000 of General Obligation Certificates of Participation series 2009 at 5.0-5.125% interest to prepay the remaining outstanding balance of the 1999 issue of the Nevada Real Property Corporation. The original 1999 issue of \$15,000,000 was to finance the acquisition, construction, installation and equipping of a secured juvenile treatment facility. The 2009 issue is a direct general obligation of the State to which the full faith and credit of the State is pledged. The State is required to make payments from general (ad valorem) taxes in the Consolidated Bond Interest and Redemption debt service fund that approximate the interest and principal payments made by trustees to certificate holders.

In fiscal year 2014, the NRPC issued \$35,785,000 of Lease Revenue Refunding Certificates of Participation Series 2013 at 3.0-5.0% interest to refund the outstanding balances of Lease Revenue Certificates of Participation Series 2004 and 2004B, which were to finance the acquisition and construction of the State's Capitol Complex Building 1 and Casa Grande Projects respectively.

In fiscal year 2014, the NRPC issued \$50,445,000 of new Lease Revenue Certificates of Participation Series 2013 at 4.0-5.0% interest to finance the State's Nevada State College Project. The Project is leased to the Nevada System of Higher Education (NSHE), the State's discretely presented component unit. Meanwhile, the NRPC entered into a Ground Lease with respect to the real property on which the Project is located.

In fiscal year 2007, the NRPC issued \$5,760,000 of Lease Revenue Certificates of Participation Series 2006 at 4.0-5.0% interest to finance the design and construction of a warehouse addition to the Legislative Counsel Bureau's existing State Printing Office building in Carson City and resurfacing of the exterior of the existing building, together with related improvements on the premises.

Under the lease revenue certificates of participation financing arrangements, the certificates are not general obligations of the State and are not backed by the faith and credit or the taxing power of the State. The State's obligation to pay base rent and make other payments to the trustee under the financing leases is subject to appropriation by the State. In the event that the State does not make a sufficient appropriation with respect to a Lease Purchase Agreement, that Lease Purchase Agreement will terminate. Currently, only the payment of principal and interest on the Series 2006 is being guaranteed by an insurance policy.

The following schedule presents future certificates of participation payments as of June 30, 2016 (expressed in thousands):

| Year Ending<br>June 30 | P  | rincipal |    | nterest |
|------------------------|----|----------|----|---------|
| 2017                   | \$ | 3,845    | \$ | 4,132   |
| 2018                   |    | 4,080    |    | 3,957   |
| 2019                   |    | 2,960    |    | 3,805   |
| 2020                   |    | 3,160    |    | 3,676   |
| 2021                   |    | 3,300    |    | 3,539   |
| 2022-2026              |    | 19,015   |    | 15,141  |
| 2027-2031              |    | 22,745   |    | 10,374  |
| 2032-2036              |    | 10,530   |    | 6,379   |
| 2037-2041              |    | 13,300   |    | 3,612   |
| 2042-2043              |    | 6,290    | _  | 476     |
| Total                  | \$ | 89,225   | \$ | 55,091  |

### H. Tuition Benefits Payable

The Higher Education Tuition Trust Fund, an enterprise fund, reports benefits payable as shown in Section A based upon the actuarial present value (APV) of the future tuition obligations and administrative expenses that will be paid in future years. The present value calculation includes the effects of projected tuition and fee increases and termination of contracts as follows (expressed in thousands):

| APV of the future tuition obligation                        | \$211,120 |
|---|-----------|
| Net position available                                      | 270,183   |
| Net position as a percentage of tuition benefits obligation | 127.98%   |

The actuarial valuation used an investment yield assumption of 5.00% per year and tuition growth assumptions as follows:

|                   | Universities | Community Colleges |
|-------------------|--------------|--------------------|
| 2017-18           | 4.00%        | 4.00%              |
| 2018-19           | 4.00%        | 4.00%              |
| 2019-20 and later | 4.75%        | 4.00%              |

### I. Arbitrage Rebate Requirement

The Tax Reform Act of 1986 imposes a rebate requirement with respect to some bonds issued by the State. Under this requirement, an amount equal to the sum of (a) the excess of the aggregate amount earned on all investments (other than certain specified exceptions) over the amount that would have been earned if all investments were invested at a rate equal to the yield on the bonds, and (b) any income earned on the excess described in (a) must be rebated to the United States Treasury, in order for the interest on the bonds to be excluded from gross income for federal income tax purposes. In accordance with the Internal Revenue Service Regulations, arbitrage rebate liability has been calculated as of June 30, 2016, and changes for the fiscal year then ended are presented in Section A of this note.

#### J. Conduit Debt Obligations

The State has issued Industrial Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of commercial facilities deemed to be in the public interest. During the 2013 session, the Nevada Legislature enacted the Charter School Financing Law, which authorizes the issuance of Charter School Bonds and other obligations to finance the acquisition, construction, improvement, maintenance or furnishing of land, buildings and facilities for Charter Schools in the State of Nevada. The above two types of bonds are secured by the properties financed and are payable solely from payments received on the underlying mortgage loans. The State is not obligated in any manner for the repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of June 30, 2016, there are five series of Industrial Revenue Bonds and one series of Charter School Bonds outstanding, with an aggregate principal amount payable of \$633,670,616.

#### K. Pledged Revenue

*Pledged motor vehicle and special fuel tax* - The State has pledged a portion of future motor vehicle fuel and special fuel tax revenues as well as federal aid for eligible projects to repay the Highway Improvement Revenue Bonds that were issued for highway construction projects and property acquisition purposes. As of June 30, 2016, the outstanding balance of Highway Improvement Revenue and Refunding bonds is \$587,095,000. The total of principal and interest remaining on the bonds is \$780,048,647 payable through December 2029. Upon completion of eligible projects, federal aid of \$324,971,600 is expected to be received in fiscal year 2017. For the current year, principal and interest paid was \$65,852,363 and total motor vehicle fuel and special fuel tax revenues were \$287,571,198.

*Pledged future lease rental payments* – With respect to each series of Lease Revenue Certificates of Participation, the NRPC, a blended component unit, has pledged its rights, title and interest in the applicable Ground Lease and Lease Purchase Agreement to the Trustee (including the right to receive payments of base rent and other payments). As of June 30, 2016, the outstanding balance of Lease Revenue Certificates of Participation is \$86,675,000. The total of principal and interest remaining on the certificates is \$141,636,994 payable through June 2043. In fiscal year 2016, principal and interest of \$5,614,156 was paid, which includes the interest payment of \$1,216,388 paid entirely by the excess certificate proceeds for the State's Nevada State College Project as discussed in Section G of this note and Note 8. As of June 30, 2016, \$1,735,598 was held by the trustee for the benefit of the bondholders. Building rent of \$5,000,000 is expected to be col-

lected in fiscal year 2017, which, along with assets held by the trustee, will be used to pay the fiscal year 2017 debt service principal and interest of \$6,635,856.

Pledged additional assessments of unemployment contributions - The State has pledged additional assessments on unemployment contributions (special bond contributions), the proceeds derived from the sale of bonds, and related investment earnings to repay \$548,900,000 of Unemployment Compensation Fund Special Revenue Bonds issued on November 6, 2013. The revenue bonds were issued for the purposes of repaying the Federal Unemployment Advance that occurred during the last recession and funding a deposit to the Nevada UITF Account to avoid the need for further advances. Pursuant to NRS 612.6132, special bond contributions must be established at levels sufficient to pay debt service on the bonds. As of June 30, 2016, the outstanding balance of the bonds is \$279,145,000. The total principal and interest remaining on the bonds is \$296,124,125 payable through June 2018. In fiscal year 2016, principal and interest of \$150,045,950 was paid. As of June 30, 2016, \$55,137,513 was held by the trustee for the benefit of the bondholders. Special bond contributions of \$246,152,623 are expected to be collected in fiscal year 2017, which, along with assets held by the trustee, will be used to pay the fiscal year 2017 debt service principal and interest of \$163,480,875.

*Pledged Nevada Housing Division program funds* – The single-family bonds are payable from, and secured by, a pledge of the proceeds derived from the sale of bonds; the rights and interest of the Housing Division in all mortgage loans purchased under the various bond certificates; revenues which primarily include mortgage repayments and the net income, if any, derived as a result of foreclosure or other action taken in the event of a default on such a mortgage loan; curtailments, consisting generally of all amounts representing monthly principal payments with respect to mortgage loans which are received in advance of the scheduled amortization thereof; and all earnings realized by the investment of monies in all funds and accounts as well as all funds and accounts created by the various bond certificates.

The multi-unit bonds are payable from, and secured by, a pledge of the proceeds derived from the sale of bonds; all earnings realized from the investment of bond proceeds; after permanent financing, all revenues received from the development including housing assistance and rental payments made by tenants, notes receivable collateralized by deeds of trust and the rights to FHA insurance, draws on bank letters of credit, private mortgage and hazard insurance and condemnation proceeds.

As of June 30, 2016, the outstanding balance of single-family and multi-unit bonds is \$544,821,907. The total of principal and interest remaining on the bonds is \$736,897,544 payable through June 2049. In fiscal year 2016, principal and interest of \$53,552,576 was paid. As of June 30, 2016, \$177,071,228 was held by the trustee for the benefit of the single-family bondholders. The amount of payments received for mortgage loans in fiscal year 2016 is \$54,405,310. Fifty-five million is expected to be collected in fiscal year 2017, which, along with assets held by the trustee, will be used to pay the fiscal year 2017 debt service principal and interest of \$38,379,320.

NEVADA

### L. Component Unit Obligations

*Nevada System of Higher Education (NSHE)* – Bonds, notes, capital leases and compensated absences payable by NSHE at June 30, 2016, and the changes for the year then ended, consist of the following (expressed in thousands):

|   | ginning<br>alance | Additions     | R  | eductions | <br>Ending<br>Balance |    | e Within<br>ne Year |

# Note 11 - Pensions and Other Employee Benefits

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of each pension plan and additions to/ deductions from each pension plan's fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments and refunds of employee contributions are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

The aggregate pension related amounts for the primary government consist of a net pension liability of \$1,899,044,202, deferred outflows of resources of \$204,228,570, deferred inflows of resources of \$360,060,384 and pension expense of \$191,174,572. The State's defined benefit pension plans are described in detail below.

**A.** Public Employees' Retirement System of Nevada *Plan Description* – The Public Employees' Retirement System (PERS) was established in 1947 by the Nevada Legislature and is governed by the Public Employees' Retirement Board whose seven members are appointed by the governor.

PERS administers a cost-sharing multiple-employer defined benefit pension plan that covers qualified State employees and employees of participating local government entities in the State. Any public employer in the State may elect to have its regular and police/fire employees covered by PERS. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERS issues a publicly available financial report that includes financial statements and the required supplementary information for the System. That report may be obtained on the PERS website at www. nvpers.org.

*Pension Benefits* – Benefits provided to participants or their beneficiaries include retirement, disability, and survivor benefits. Benefits, as required by statute, are determined by the number of years of accredited service at the time of retirement and the member's highest average compensation in any 36 consecutive months, with special provisions for members entering the System on or after January 1, 2010. Members become fully vested as to benefits upon completion of 5 years of service. Unreduced benefits are available, depending upon when the member entered the System, as follows:

| Regular Members  | Police/Fire Members   |
|--|---|
| Before January 1, 2010<br>Age 65 with 5 years of service<br>Age 60 with 10 years of service<br>Any age with 30 years of service  | Before January 1, 2010<br>Age 65 with 5 years of service<br>Age 55 with 10 years of service<br>Age 50 with 20 years of service<br>Any age with 25 years of service      |
| On or after January 1, 2010<br>Age 65 with 5 years of service<br>Age 62 with 10 years of service<br>Any age with 30 years of service                                   | On or after January 1, 2010<br>Age 65 with 5 years of service<br>Age 60 with 10 years of service<br>Age 50 with 20 years of service<br>Any age with 30 years of service |
| On or after July 1, 2015<br>Age 65 with 5 years of service<br>Age 62 with 10 years of service<br>Age 55 with 30 years of service<br>Any age with 33.3 years of service | On or after July 1, 2015<br>Age 65 with 5 years of service<br>Age 60 with 10 years of service<br>Age 50 with 20 years of service<br>Any age with 30 years of service    |

Members with the years of service necessary to receive a retirement benefit but who have not reached the age for an unreduced benefit may retire at any age with the benefit reduced by 4% (for members entering the System before January 2, 2010) or 6% (for members entering the System on or after January 1, 2010) for each full year they are under the required age.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% multiplier. Lastly, for members entering the System on or after July 1, 2015, there is a 2.25% multiplier. PERS offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Retirees are eligible for annual benefit increases if they began receiving benefits at least 3 years before the effective date of the increase. Benefits are increased annually on the first day of the month following the anniversary of the commencement of benefits. The increases begin at 2% in years 4, 5 and 6; increase to 3% in years 7, 8 and 9; 3.5% in years 10, 11 and 12; 4% for years 13 and 14; and 5% in year 15 and each year thereafter. For retirees entering the System on or after January 1, 2010, increases are capped at 4% in year 13 and each year thereafter. If the benefit outpaces inflation in the period since retirement, the increase may be capped by a rolling three-year average of the Consumer Price Index (all items). For retirees entering the System on or after July 1, 2015, the increases begin at 2% in years 4, 5 and 6; increase to 2.5% in years 7, 8 and 9; the lesser of 3% or the increase, if any, in the Consumer Price Index (all items) for the preceding calendar years following year 10 and every year thereafter.

*Member and Employer Contributions* - The authority for establishing and amending the obligation to make contributions, and member contribution rates, is set by statute. New hires of the State of Nevada and public employers have the option of selecting either the employee/employer contribution plan or the employer-pay contribution plan. Under the employee/ employer contribution plan, the employee and the employer each make matching contributions. Under the employer-pay contribution plan, the employer pays all contributions on the employee's behalf; however, the employee shares equally in the cost of the contribution rate either through salary reduction or in lieu of a promised pay increase.

PERS' basic funding policy provides for periodic contributions as a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due. Although PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis, contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. The actuarial funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

Required contribution rates for employers and for active plan members, as a percentage of covered payroll, for the fiscal year ended June 30, 2016 were as follows:

|  | Statutory Rate<br>Employer Employees |        |
|--|--------------------------------------|--------|
| Regular employees:                     |                                      |        |
| Employer-pay plan                      | 28.00%                               | na     |
| Employee/employer plan (matching rate) | 14.50%                               | 14.50% |
| Police and Fire employees:             |                                      |        |
| Employer-pay plan                      | 40.50%                               | na     |
| Employee/employer plan (matching rate) | 20.75%                               | 20.75% |

State contributions recognized as part of pension expense for the current fiscal year ended June 30, 2016 were \$176,579,325.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2016, the State reported a liability of \$1,879,626,041, for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's proportion of the net pension liability was based on the State's share of contributions in PERS pension plan relative to the total contributions of all

participating PERS employers and members. At June 30, 2015, the State's proportion was 16.4%, a decrease of .20% from its proportion measured at June 30, 2014.

For the year ended June 30, 2016, the State recognized pension expense of \$187,305,225. At June 30, 2016, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (expressed in thousands):

|  | Deferred<br>Outflows o<br>Resource | of Inflows of      |
|--|------------------------------------|--------------------|
| Differences between expected and actual experience   | \$                                 | - \$(141,380,420)  |
| Net difference between projected and actual earnings on pension plan investments                           |                                    | - (101,813,003)    |
| Changes in proportion and differences between State contributions and proportionate share of contributions | 3,413,4                            | 00 (110,583,999)   |
| State contributions subsequent to the measurement date   | 191,436,4                          | - 28               |
| Total  | \$ 194,849,8                       | 28 \$(353,777,422) |

Deferred outflows of resources of \$191,436,428 for contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (expressed in thousands):

| Year Ended Jun | e 30:      |    |
|----------------|------------|----|
| 2017           | \$ (96,170 | )) |
| 2018           | (96,170    | )) |
| 2019           | (96,171    | )  |
| 2020           | (6,406     | 5) |
| 2021           | (41,436    | 5) |
| 2022           | (14,011    | )  |
| Thereafter     |            | -  |
|                |            |    |

Actuarial Assumptions – The State's net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate:             | 3.50%   |
|-----------------------------|---|
| Payroll growth:             | 5.00%, including inflation  |
| Investment rate of return:  | 8.00%   |
| Productivity pay increase:  | 0.75%   |
| Projected salary increases: | Regular: 4.60% to 9.75%, depending on service                       |
|                             | Police/Fire: 5.25% to 14.50%, depending on service                  |
|                             | Rates include inflation and productivity increases                  |
| Consumer price index:       | 3.50%   |
| Other assumptions:          | Same as those used in the June 30, 2015 funding actuarial valuation |

Mortality rates were based on the RP-2000 Combined Healthy Mortality Table projected to 2013 with Scale AA, set back one year for females (no age setback for males) for regular members and set forward one year for police/fire members. Mortality rates for disabled members were based on the RP-2000 Disabled Retiree Mortality Table projected to 2013 with Scale AA, set forward three years.

NEVADA

Actuarial assumptions used in the June 30, 2015 valuation were based on an experience study for the period from July 1, 2006, through June 30, 2012.

*Investment Policy* - The PERS Board evaluates and establishes the investment portfolio target asset allocations and the expected real rates of return (expected returns, net of investment expenses and inflation) for each asset class. The Board reviews these asset allocations and capital market expectations annually. The System's target asset allocations and current long-term geometric expected real rates of return for each asset class included in the fund's investment portfolio as of June 30, 2015, are included in the following table:

| Asset Class           | Target<br>Allocation | Long-term<br>Geometric<br>Expected Real<br>Rate of Return |
|-----------------------|----------------------|---|
| Domestic equity       | 42%                  | 5.50%   |
| International equity  | 18%                  | 5.75%   |
| Domestic fixed income | 30%                  | 0.25%   |
| Private markets       | 10%                  | 6.80%   |

*Discount Rate* – The discount rate used to measure the total pension liability was 8% as of June 30, 2015. The projection of cash flows used to determine the discount rate assumed plan contributions will be made in amounts consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employers and

members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except that projected contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2015.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the State's proportionate share of the net pension liability at June 30, 2015 calculated using the discount rate of 8%, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7%) or 1-percentage-point higher (9%) than the current rate (expressed in thousands):

|                       | % Decrease<br>in Discount<br>Rate (7%) | Discount<br>Rate (8%) | 1% Increase<br>in Discount<br>Rate (9%) |
|-----------------------|--|-----------------------|---|
| Net pension liability | \$ 2,864,174                           | \$ 1,879,626          | \$1,060,906                             |

*Pension Plan fiduciary net position* – Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS' report.

*Payables to the pension plan* – At June 30, 2016, the State reported payables to the defined benefit pension plan of \$14,598,437 for legally required employer contributions which had been withheld from employee wages but not yet remitted to PERS.

### B. Legislators' Retirement System of Nevada

*Plan Description* – The Legislators' Retirement System (LRS) is a single-employer defined benefit pension plan established in 1967 by the Nevada Legislature (NRS 218C) and is governed by the Public Employees' Retirement Board whose seven members are appointed by the governor. All State Legislators are members. LRS issues a publicly available financial report that includes financial statements and the required supplementary information for the System. LRS' financial report may be obtained from the Public Employees' Retirement System, 693 West Nye Lane, Carson City, Nevada 89703.

At June 30, 2015, the LRS pension plan membership consisted of:

|   | 70  |
|---|-----|
| Retirees and beneficiaries currently receiving benefits | 78  |
| Inactive vested members                                 | 13  |
| Inactive non-vested members                             | 26  |
| Active members  | 35  |
| Total   | 152 |
|   |     |

NEVADA

*Pension Benefits* – Benefits are determined by the number of years of accredited service at the time of retirement. Service years include the entire election term whether or not the Leg-islature is in session. Benefits payments to which participants may be entitled under the plan include pension and survivor benefits. Monthly benefit allowances are \$25 for each year of service up to 30 years.

If a Legislator is newly elected after July 1, 1985, they must have at least 10 years of service, be age 60, and no longer be a Legislator in order to retire without benefit reduction. If a Legislator is no longer serving and has at least 10 years of service but is under the age of 60, they can elect to wait to receive their benefit until the age of 60 or begin receiving a reduced benefit prior to the age of 60. The minimum requirement for an unreduced benefit for a Legislator elected prior to July 1, 1985, is 8 years of accredited service at age 60.

Members are eligible for post-retirement benefit increases based on their effective date of membership. For members with an effective date of membership before January 1, 2010, the lesser of: (a) 2% per year following the third anniversary of the commencement of benefits, 3% per year following the sixth anniversary, 3.5% per year following the ninth anniversary, 4% per year following the twelfth anniversary and 5% per year following the fourteenth anniversary, or (b) the average percentage increase in the Consumer Price Index (or other Board approved index) for the three preceding years. In any event, a member's benefit must be increased by the percentages in (a) if it has not been increased at a rate greater than or equal to the average of the Consumer Price Index (CPI) (All items) (or other Board approved index) for the period between retirement and the date of increase. For members with an effective date of membership on or after January 1, 2010, same as above, except the increases in paragraph (a) do not exceed 4% per year. For future retirees, those hired prior to 2010 are assumed to reach the cap after 24 years of retirement. Those hired in 2010 or later are assumed to reach the cap after 39 years of retirement. Underlying all of these assumptions is that CPI will grow over time at a rate of 3.5% per year.

*Member and Employer Contributions* - The employee contribution of 15% of compensation is paid by the employee only when the Legislature is in session, as required by statute. The

NEL ADA

Legislature holds sessions every two years. Prior to 1985, the employee contributions were matched by the employer. The 1985 Legislators' Retirement Act includes NRS 218C.390(2) which states, "The Director of the Legislative Counsel Bureau shall pay to the Board from the Legislative Fund an amount as the contribution of the State of Nevada as employer which is actuarially determined to be sufficient to provide the System with enough money to pay all benefits for which the System will be liable." The Legislature appropriated \$311,710 for fiscal years 2015 and 2016, which is the required State contribution as determined by the actuary. This amount was paid by the State of Nevada to the Legislative fund during fiscal 2015, of which \$155,855 (half) was recognized as employer contributions in the fiscal year 2015, and the other half recognized as employer contributions in fiscal year 2016.

State contributions recognized as part of pension expense for the fiscal year ended June 30, 2016 were \$155,855.

LRS' basic funding policy provides for contributions by the State based on a biennial actuarial valuation prepared per NRS 281C.390(2). The Actuarially Determined Employers' Contribution (ADEC) includes the employer's normal cost and a provision for amortizing the Unfunded Actuarial Accrued Liability (UAAL). Beginning July 1, 2014, actuarial valuations are done annually. Effective with the January 1, 2009 valuation, the UAAL is amortized as a level dollar amount over a declining amortization period of 20 years. Any increases or decreases in the UAAL that arise in future years will be amortized over separate 20-year periods. In addition, the Actuarial Value of Assets (AVA) was limited to not less than 75% or greater than 125% of market value. The actuarial funding method used is the Entry Age Normal Cost Method.

*Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions* – At June 30, 2016, the State reported a net pension liability of \$654,825. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

For the year ended June 30, 2016, the State recognized pension income of \$72,390. At June 30, 2016, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (expressed in thousands):

|   | Outf | ferred<br>lows of<br>ources | Deferred<br>Inflows of<br>Resources |               |
|---|------|-----------------------------|-------------------------------------|---------------|
| Net difference between projected and actual earnings on pension plan investments<br>Difference between expected and actual experience | \$   | 157                         | \$                                  | (281)<br>(26) |
| State contributions subsequent to the measurement date  |      | -                           |                                     | (20)          |
| Total   | \$   | 157                         | \$                                  | (307)         |

There were no deferred outflows of resources for contributions subsequent to the measurement date to be recognized in the year ended June 30, 2017.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (expressed in thousands):

| Year End   | ed June 30: |      |  |
|------------|-------------|------|--|
| 2017       | \$          | (81) |  |
| 2018       |             | (54) |  |
| 2019       |             | (54) |  |
| 2020       |             | 39   |  |
| 2021       |             | -    |  |
| Thereafter |             | -    |  |

The following table presents the changes in the net pension liability for LRS for the year ended June 30, 2015 (expressed in thousands):

|  | <br>2015    |
|--|-------------|
| Total pension liability  |             |
| Service cost   | \$<br>39    |
| Interest   | 426         |
| Differences between expected and actual experience                     | (109)       |
| Benefit payments, including refunds                                    | <br>(497)   |
| Net change in total pension liability                                  | (141)       |
| Total pension liability - beginning                                    | <br>5,531   |
| Total pension liability - ending (a)                                   | \$<br>5,390 |
| Plan fiduciary net position  |             |
| Contributions - employer   | \$<br>156   |
| Contributions - employee   | 23          |
| Net investment income  | 179         |
| Benefit payments, including refunds                                    | (497)       |
| Administrative expense   | (85)        |
| Other  | <br>86      |
| Net change in plan fiduciary net position                              | (138)       |
| Plan fiduciary net position - beginning                                | <br>4,873   |
| Plan fiduciary net position - ending (b)                               | \$<br>4,735 |
| Net pension liability - beginning                                      | \$<br>658   |
| Net pension liability - ending (a) - (b)                               | \$<br>655   |
| Plan fiduciary net position as a percentage of total pension liability | 88%         |
| Covered-employee payroll   | N/A         |
| Net pension liability as a percentage of covered-employee payroll      | N/A         |

Actuarial Assumptions – The State's net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate:             | 3.50%   |
|-----------------------------|---|
| Investment rate of return:  | 8.00%   |
| Projected salary increases: | 3.50%   |
| Consumer price index:       | 3.50%   |
| Other assumptions:          | Same as those used in the June 30, 2015 funding actuarial valuation |

Mortality rates were based on the RP-2000 Combined Healthy Mortality Table projected to 2013 with Scale AA, set back one year for females (no age setback for males).

Actuarial assumptions used in the June 30, 2015 valuation were based on the results of the actuarial experience study for the period July 1, 2006, through June 30, 2012.

*Investment Policy* – The Retirement Board evaluates and establishes the investment portfolio target asset allocations and the expected real rates of return (expected returns, net of investment expenses and inflation) for each asset class. The Board reviews these asset allocations and capital market expectations annually. The System's target asset allocations and current long-term expected real rates of return for each asset class included in the fund's investment portfolio as of June 30, 2015, are included in the following table:

NEVADA

| Asset Class           | Target<br>Allocation | Long-term<br>Expected Real<br>Rate of Return |
|-----------------------|----------------------|--|
| Domestic equity       | 49%                  | 5.50%  |
| International equity  | 21%                  | 5.75%  |
| Domestic fixed income | 30%                  | 0.25%  |

*Discount Rate* – The discount rate used to measure the total pension liability was 8% as of June 30, 2015. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. For this purpose, only employer contributions that are intended to fund benefits for current plan members and their beneficiaries are included. Projected employer contribu-

tions that are intended to fund the service costs for future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability calculated using the discount rate of 8%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7%) or 1-percentage-point higher (9%) than the current rate (expressed in thousands):

|                       | 1% Decrease<br>in Discount<br>Rate (7%) |       | <br>Discount<br>Rate (8%) |    | ncrease<br>iscount<br>e (9%) |
|-----------------------|---|-------|---------------------------|----|------------------------------|
| Net pension liability | \$                                      | 1,111 | \$<br>655                 | \$ | 263                          |

*Pension plan fiduciary net position* – Detailed information about the pension plan's fiduciary net position is available in the separately issued LRS report.

*Payables to the pension plan* – At June 30, 2016, the State had no payables to the defined benefit pension plan for legally required employer contributions.

### C. Judicial Retirement System of Nevada

*Plan Description* – The Judicial Retirement System (JRS) is an agent multiple-employer defined benefit pension plan established in 2001 by the Nevada Legislature (NRS 1A.160) and is governed by the Public Employees' Retirement Board whose seven members are appointed by the governor. The JRS was established to provide benefits in the event of retirement, disability, or death of justices of the Supreme Court, district judges, municipal court judges and justices of the peace, funded on an actuarial reserve basis. JRS issues a publicly available financial report that includes financial statements and the required supplementary information for the System. JRS' financial report may be obtained from the Public Employees' Retirement System, 693 West Nye Lane, Carson City, Nevada 89703.

At June 30, 2015, the JRS pension plan membership consisted of:

| Retirees and beneficiaries currently receiving benefits | 69  |
|---|-----|
| Inactive vested members                                 | 4   |
| Active members  | 115 |
| Total   | 188 |
|   |     |

*Pension Benefits* - Benefits are paid according to various options contained in pertinent statutes, dependent upon whether a member was serving as a Supreme Court justice or district judge before November 5, 2002. Retiring members who were serving as a judge before November 5, 2002 may select among the two benefit options below. Retiring members who began serving as a justice or judge on or after November 5, 2002 may select only the first option below.

Option 1 - 2003 Benefit Plan: Benefits, as required by statute, are computed at 3.4091% per year of accredited service at the time of retirement times the member's highest average compensation in any 36 consecutive months, to a maximum of 75%. Benefit payments to which participants may be entitled under the plan include pension benefits, disability benefits and survivor benefits.

<u>Option 2 – Previous Benefit Plan:</u> Retiring members who were serving as a Supreme Court justice or district judge prior to November 5, 2002 may select benefit payments computed at 4.1666% for each year of service, up to a total maximum of 22 years, times the member's compensation for their last year of service.

Members who retired under the Previous Benefit Plan (plan in effect before November 5, 2002) and are appointed as senior judges can earn service credit while receiving their pension payments. They are eligible to have their benefit recalculated each time they earn an additional year of service credit.

Members of the System become fully vested after five years of service. A member of the System is eligible for retirement at age 65 with five years of service, at age 60 with ten years of service, or at any age with 30 years of service. For those members who were serving as a Supreme Court justice or district judge prior to November 5, 2002, and selected the second benefit option, eligibility for retirement is at age 60 with five years of service.

*Member and Employer Contributions* – The JRS is an employer-paid plan and there is no contribution from active members. The participating employers submit the percentage of compensation determined by the actuary to pay the normal costs and administrative expenses. Also, the participating employers pay to the JRS an amount on the unfunded liability which is actuarially determined to be sufficient to enable the JRS to pay all current benefits for which the JRS is liable.

JRS' basic funding policy provides for contributions by the participating employers based on an actuarial valuation prepared per Nevada Revised Statute (NRS 1A.180(1)). The amount of the annual contribution required to fund the System is comprised of a normal cost payment and a payment on the Unfunded Actuarial Accrued Liability (UAAL). Effective January 1, 2009, UAAL is amortized over a year-by-year closed amortization period as a level percent of pay (3% pay-

NEVADA

roll growth assumed) where each amortization period will be set at 30 years for State judges (Supreme Court justices and district judges) and 20 years for each non-state agency. Any increases or decreases in UAAL that arise in future years will be amortized over separate 30-year periods for State judges and 20-year periods for non-state judges. The actuarial funding method used is the Entry Age Normal Cost Method.

The State's annual actuarially determined contribution to fund the System at June 30, 2016 was \$5,443,188 and the actual contribution made was \$5,227,905.

Pension Liability, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2016, the State reported a liability of \$18,763,336 for its net pension liability for the JRS pension plan. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's net pension liability was based on an individual basis and based on the plan provisions and benefit accrual rates applicable to that individual.

For the year ended June 30, 2016, the State recognized pension expense of \$3,504,834. At June 30, 2016, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (expressed in thousands):

|  | Deferred<br>Outflows of<br>Resources |       | Deferred<br>Inflows of<br>Resources |         |
|--|--------------------------------------|-------|-------------------------------------|---------|
| Differences between expected and actual experience   | \$                                   | 895   | \$                                  | (1,479) |
| Net difference between projected and actual earnings on pension plan investments                           |                                      | 3,099 |                                     | (4,341) |
| Changes in proportion and differences between State contributions and proportionate share of contributions |                                      | -     |                                     | (155)   |
| State contributions subsequent to the measurement date   |                                      | 5,227 |                                     | -       |
| Total  | \$                                   | 9,221 | \$                                  | (5,975) |

Deferred outflows of resources of \$5,227,095 for contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (expressed in thousands):

| Year Ended Ju | ne 30: |       |
|---------------|--------|-------|
| 2017          | \$     | (979) |
| 2018          |        | (979) |
| 2019          |        | (980) |
| 2020          |        | 957   |
| 2021          |        | -     |
| Thereafter    |        | -     |

2015 Total pension liability \$ Service cost 3,593 Interest 8,876 Differences between expected and actual experience 1,250 (4,896) Benefit payments, including refunds Other 2,357 Net change in total pension liability 11,180 Total pension liability - beginning 108,630 \$ 119,810 Total pension liability - ending (a) Plan fiduciary net position Contributions - employer \$ 6,155 Contributions - employee 96 Net investment income 3,206 (4,896) Benefit payments, including refunds Administrative expense (86) Other 2,357 6.832 Net change in plan fiduciary net position Plan fiduciary net position - beginning 92,113 Plan fiduciary net position - ending (b) \$ 98,945 Net pension liability - beginning \$ 16,517 Net pension liability - ending (a) - (b) \$ 20,865 Plan fiduciary net position as a percentage of total pension liability 83% Covered-employee payroll (measurement as of end of fiscal year) \$ 19,930 Net pension liability as a percentage of covered-employee payroll 105%

The following table presents the changes in the net pension liability for JRS for the year ended June 30, 2015 (expressed in thousands):

Actuarial Assumptions – The State's net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate:             | 3.50%   |
|-----------------------------|---|
| Investment rate of return:  | 8.00%   |
| Projected salary increases: | 3.00% - 8.00% varies by service                                     |
| Consumer price index:       | 3.50%   |
| Other assumptions:          | Same as those used in the June 30, 2015 funding actuarial valuation |

Mortality rates were based on the RP-2000 Combined Healthy Mortality Table projected to 2013 with Scale AA, set back one year for females (no age setback for males).

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2006, through June 30, 2012.

*Investment Policy* – The Retirement Board evaluates and establishes the investment portfolio target asset allocations and the expected real rates of return (expected returns, net of investment expenses and inflation) for each asset class.

The Board reviews these asset allocations and capital market expectations annually. The System's target asset allocations and current long-term expected real rates of return for each asset class included in the fund's investment portfolio as of June 30, 2015, are included in the following table:

NEVADA

| Asset Class           | Target<br>Allocation | Long-term<br>Expected Real<br>Rate of Return |
|-----------------------|----------------------|--|
| Domestic equity       | 49%                  | 5.50%  |
| nternational equity   | 21%                  | 5.75%  |
| Domestic fixed income | 30%                  | 0.25%  |

*Discount Rate* – The discount rate used to measure the total pension liability was 8% as of June 30, 2015. The projection of cash flows used to determine the discount rate assumed that contributions will be made monthly at the current contribution rate and the payment to amortize the unfunded actuarial liability is assumed to be paid at the end of the year for State and monthly for non-state agencies. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the State's proportionate share of the net pension liability using the discount rate of 8%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentagepoint lower (7%) or 1-percentage-point higher (9%) than the current rate (expressed in thousands):

|                       | 1% Decrease<br>in Discount<br>Rate (7%) |        | <br>scount<br>ate (8%) | in D | Increase<br>Discount<br>te (9%) |
|-----------------------|---|--------|------------------------|------|---------------------------------|
| Net pension liability | \$                                      | 31,043 | \$<br>18,763           | \$   | 8,370                           |

*Pension Plan fiduciary net position* – Detailed information about the pension plan's fiduciary net position is available in the separately issued LRS report.

*Payables to the pension plan* – At June 30, 2016, the State reported payables to the defined benefit pension plan of \$258,496 for legally required employer contributions not yet remitted to JRS.

#### D. Other Postemployment Benefits

Plan Description - The State Retirees' Health and Welfare Benefits Fund, Public Employees' Benefits Program ("PEBP") of the State of Nevada ("Retirees' Fund") was created in 2007 by the Nevada Legislature to account for the financial assets designated to offset the portion of current and future costs of health and welfare benefits paid on behalf of state retirees. NRS 287.0436 established the Retirees' Fund as an irrevocable trust fund for the purpose of providing retirement benefits other than pensions. The Retirees' Fund is a multiple-employer cost-sharing defined postemployment benefit plan administered by the Board of the Public Employees' Benefits Program of the State of Nevada. The Retirees' Fund provides benefits other than pensions to eligible retirees and their dependents through the payment of subsidies to the PEBP. PEBP administers a group health and life insurance program for covered employees, both active and retired, of the State, and certain other participating public employers within the State of Nevada. NAC 287.530 establishes the benefit upon the retiree. All Nevada public employees who retire with at least five years of public service and who have State service are eligible to receive benefits from the Retirees' Fund. State service is defined as employment with any Nevada State agency, the Nevada System of Higher Education and any State Board or Commission. A portion of the monthly premiums are deducted from pension checks and paid to the PEBP. The cost varies depending on which health plan the retiree chooses, as well as the amount of subsidy they receive.

The Retirees' Fund issues a stand-alone financial report that includes financial statements and required supplementary information. The State reports the Retirees' Fund as a trust fund. The Retirees' Fund financial report may be obtained from Public Employees' Benefits Program, 901 South Stewart Street, Suite 1001, Carson City, NV 89701.

*Summary of Significant Accounting Policies* - The financial statements of the Retirees' Fund have been prepared using the accrual basis of accounting and the economic resources measurement focus. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. The Retirees' Fund does not receive member contributions.

*Method Used to Value Investments* – The Retiree's Fund and the Retirement Benefit Investment Fund (RBIF) both hold investments that are measured at fair value on a recurring basis and categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. All investments are classified in Level 1.

Contributions and Funding Policy - NRS 287.046 establishes a subsidy to pay an amount toward the cost of the premium or contribution for the persons retired from the State. Contributions to the Retirees' Fund are paid by the State of Nevada through an assessment of actual payroll paid by each State entity. For the period from July 1, 2015 through June 30, 2016 the rate assessed was 2.126% of annual covered payroll. The assessment is based on an amount provided by the Legislature each biennium in session law. For the year ended June 30, 2016, the State, its component units, State Boards and Commissions, and other participating public employers contributed \$32,213,079 to the plan, which is 100% of the contractually required contribution. For the years ended June 30, 2015 and 2014 the State, its component units, State Boards and Commissions, and other participating public employers contributed \$37,758,981, and \$32,697,856, respectively, to the plan, which equaled 100% of the contractually required contribution each year.

## Note 12 - Risk Management

The State of Nevada established the Self-Insurance and Insurance Premiums funds in 1983 and 1979, respectively. Both funds are classified as internal service funds.

Interfund premiums are reported as interfund services provided and used. All State funds participate in the insurance program. Changes in the claims liabilities during the past two fiscal years were as follows (expressed in thousands):

|                                 | h  | Self<br>Insurance<br>Fund |    | surance<br>remiums<br>Fund |
|---------------------------------|----|---------------------------|----|----------------------------|
| Balance June 30, 2014           | \$ | 47,154                    | \$ | 65,378                     |
| Claims and changes in estimates |    | 221,215                   |    | 11,899                     |
| Claim payments                  |    | (207,711)                 |    | (12,538)                   |
| Balance June 30, 2015           |    | 60,658                    |    | 64,739                     |
| Claims and changes in estimates |    | 220,238                   |    | 14,736                     |
| Claim payments                  |    | (217,882)                 |    | (15,758)                   |
| Balance June 30, 2016           | \$ | 63,014                    | \$ | 63,717                     |
| Due Within One Year             | \$ | 63,014                    | \$ | 16,778                     |

In accordance with GASB, a liability for claims is reported if information received before the issuance of the financial statements indicates it is probable a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. These liabilities include incremental claims adjustment costs. A reserve for losses has been established in both funds to account for these liabilities and is included in the liability section of the Statement of Net Position.

There was no insurance coverage for excess liability insurance.

There are several pending lawsuits or unresolved disputes involving the State or its representatives at June 30, 2016. The estimated liability for these claims has been factored into the calculation of the reserve for losses and loss adjustment expenses developed.

### A. Self-Insurance Fund

The Self-Insurance Fund administers the group health, life and disability insurance for covered employees, both active and retired, of the State and certain other participating public employers within the State. All public employers in the State are eligible to participate in the activities of the Self-Insurance Fund and currently, in addition to the State, there are five public employers whose employees are covered under the plan. Additionally, all retirees of public employers contracted with the Self-Insurance Fund to provide coverage to their active employees are eligible to join the program subsequent to their

retirement. Public employers are required to subsidize their retirees who participate in the plan in the same manner the State subsidizes its retirees. Currently, the State, the Nevada System of Higher Education and one hundred twenty-two public employers are billed for retiree subsidies. The Self-Insurance Fund is overseen by the Public Employees' Benefit Program Board. The Board is composed of ten members, nine members appointed by the Governor, and the Director of the Department of Administration or their designee.

The Self-Insurance Fund is self-insured for medical, dental, vision, mental health and substance abuse benefits and assumes all risk for claims incurred by plan participants. Fully insured HMO products are also offered. Long-term disability and life insurance benefits are fully insured by outside carriers. For the self-insured benefits, fund rate-setting policies have been established after consultation with an actuary. The participating public employers, with the exception of the State, are not subject to supplemental assessment in the event of deficiencies.

The management of the Self-Insurance Fund establishes claims liabilities based on estimates of the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled and of claims that have been incurred but not reported and the unused portion of the Health Reimbursement Arrangement (HRA) liability. Because actual claims costs depend on such complex factors as inflation, changes in doctrines of legal liability and damage awards, the process used in computing claims liabilities does not necessarily result in an exact amount. Upon consultation with an actuary, claims liabilities are recomputed annually using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency and other economic and social factors. A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation, because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. Adjustments to claims liabilities are charged or credited to expense in the periods in which claims are made.

### **B.** Insurance Premiums Fund

The Insurance Premiums Fund provides general, civil (tort), and auto liability insurance to State agencies, workers' compensation insurance for State employees excluding NSHE, and auto physical damage and property insurance for State agencies.

For the period beginning January 1, 2001, and for each calendar year thereafter, the Fund purchased a high deductible pol-

icy for workers' compensation. Liabilities in the amount of \$49,841,992 as of June 30, 2016 were determined using standard actuarial techniques as estimates for the case, reserves, incurred but not reported losses and allocated loss adjustment expenses under the plan as of June 30, 2016.

The Fund is financed by the State. The State has a maximum exposure of \$50,000 through October 1, 2007, \$75,000 through October 1, 2011 and \$100,000 thereafter for each general liability claim, with the exception of claims that are filed in other jurisdictions, namely, federal court. Those claims filed in federal court are not subject to the limit. Per State statute, if, as the result of future general liability or catastrophic losses, fund resources are exhausted, coverage is first provided by the reserve for statutory contingency account and would then revert to the General Fund.

The Fund is fully self-insured for general, civil and vehicle liability. The Fund is also self-insured for comprehensive and collision loss to automobiles, self-insured to \$250,000 for property loss with commercial insurance purchased to cover the excess above this amount, and commercially insured for losses to boilers and machinery and certain other risks.

At June 30, 2016, incurred but not reported claims liability for general, civil and auto liability insurance is based upon standard actuarial techniques, which take into account financial data, loss experience of other self-insurance programs and the insurance industry, the development of known claims, estimates of the cost of reported claims, incurred but not reported claims, and allocated loss adjustment expenses. The incurred but not reported claims liability for property casualty insurance is based upon the estimated cost to replace damaged property. The liability for estimated losses from reported and unreported claims in excess of the amounts paid for the workers' compensation policies is determined using standard actuarial techniques, which take into account claims history and loss development factors for similar entities. Incurred but not reported claims liabilities are included in the reserve for losses.

The State is contingently liable for the cost of post retirement heart and lung disease benefits payable under the Nevada Occupational Disease Act. Any fireman or police officer that satisfies the five-year employment period requirement under this act is eligible for coverage under Workers' Compensation for heart and lung disease. A range of estimated losses from \$5,224,500 to \$18,779,100 for heart disease and \$5,761,870 for lung disease have been determined using standard actuarial techniques. Due to the high degree of uncertainty surrounding this coverage, no accrual for these losses is reflected in the financial statements.

At June 30, 2016 total liabilities exceeded total assets by \$49,982,199. The Fund is liable for approximately \$50,000,000 as of June 30, 2016 in potential claims settlements, which have yet to be funded through premium contributions. As NRS 331.187 provides that if money in the Fund is insufficient to pay a tort claim, the claim is to be paid from the reserve for statutory contingency account, and, as management assesses premiums to cover current claims payments, management believes that this provides the opportunity for the Fund to satisfy these liabilities.

# Note 13 - Fund Balances and Net Position

### A. Net Position-Restricted by Enabling Legislation

The government-wide statement of net position reports \$2,258,085,033 of net position-restricted for the primary government, of which \$207,583,030 is restricted by enabling legislation.

### **B.** Governmental Fund Balances

Governmental fund balances are classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the State is bound to observe constraints imposed on the use of the resources of the fund. A summary of governmental fund balances at June 30, 2016, is shown below (expressed in thousands):

|   |            | Major Gover                           |                        |                     |                                   |                       |
|---|------------|---------------------------------------|------------------------|---------------------|-----------------------------------|-----------------------|
|   | General    | State Highway                         | Municipal Bond<br>Bank | Permanent<br>School | Nonmajor<br>Governmental<br>Funds | Total<br>Governmental |
| Fund balances:<br>Nonspendable:         |            |                                       |                        |                     |                                   |                       |
| Long term notes/loans receivable        | \$ 14,915  | 5 \$ -                                | \$ 89,700              | \$-                 | \$-                               | \$ 104,615            |
| Inventory                               | 7,383      |                                       | -                      | -                   | . 391                             | 26,616                |
| Advances                                | 2,546      | } -                                   | -                      | -                   | -                                 | 2,546                 |

NELADA

# C. Individual Fund Deficit

# Nonmajor Enterprise Funds:

*Insurance Administration and Enforcement* - The Insurance Administration and Enforcement Fund accounts for activities related to the administration and enforcement of the Nevada Insurance Code and other laws and regulations enforced by the Department of Business and Industry Division of Insurance. The fund recorded a decrease in net position of \$1,519,921 for the year ended June 30, 2016, resulting in negative net position of \$2,654,268 at June 30, 2016.

*Nevada Magazine* – The Nevada Magazine Fund accounts for the operation of the publication, Nevada Magazine, which is published to promote tourism. The fund recorded a decrease in net position of \$16,232 for the year ended June 30, 2016, resulting in a negative net position of \$689,424 at June 30, 2016.

#### **Internal Service Funds:**

*Buildings and Grounds* – The Buildings and Grounds Fund accounts for the maintenance, housekeeping and security of most State buildings. The fund recorded a decrease in net position of \$20,899 for the year ended June 30, 2016, resulting in a negative net position of \$3,608,157 at June 30, 2016.

*Communications* – The Communications Fund accounts for the operation of mail services for State agencies in Carson City, Reno, Las Vegas and Elko. The fund recorded an increase in net position of \$180,586 for the year ended June 30, 2016, resulting in a negative net position of \$172,420 at June 30, 2016.

*Insurance Premiums* – The Insurance Premiums Fund allocates the cost of fidelity insurance, property insurance and workers' compensation insurance to State agencies. The fund recorded an increase in net position of \$836,572 for the year ended June 30, 2016, resulting in negative net position of \$49,982,199 at June 30, 2016.

*Administrative Services* – The Administrative Services Fund provides administrative and accounting services to various divisions of the Department of Administration. The fund recorded a decrease in net position of \$226,236 for the year ended June 30, 2016, resulting in negative net position of \$2,867,990 at June 30, 2016.

*Personnel* – The Personnel Fund accounts for the costs of administering the State personnel system. The fund recorded an increase in net position of \$305,995 for the year ended June 30, 2016, resulting in negative net position of \$7,286,488 at June 30, 2016.

*Purchasing* – The Purchasing Fund provides purchasing services to State agencies and other governmental units. The fund recorded an increase in net position of \$429,670 for the year ended June 30, 2016, resulting in negative net position of \$2,606,781 at June 30, 2016.

*Information Services* – The Information Services Fund accounts for designing, programming, and maintaining data processing software and also operating the State's central computer facility, radio communication and telecommunication systems. The fund recorded an increase in net position of \$2,289,300 for the year ended June 30, 2016, resulting in negative net position of \$12,930,201 at June 30, 2016.

# Note 14 - Principal Tax Revenues

The principal taxing authorities for the State of Nevada are the Nevada Tax Commission and the Nevada Gaming Commission.

The Nevada Tax Commission was created under NRS 360.010 and is the taxing and collecting authority for most non-gaming taxes. The following are the primary non-gaming tax revenues:

*Sales and Use Taxes* are imposed at a minimum rate of 6.85%, with county and local option up to an additional 1.25%, on all taxable sales and taxable items of use. The State receives tax revenue of 2% of total sales with the balance distributed to local governmental entities and school districts.

*Modified Business Tax* is imposed at different rates for businesses, financial institutions and mining. Businesses other than financial institutions and mining are assessed a tax at a rate of 1.475% per calendar quarter for amounts the

wages exceed \$50,000. Modified Business Tax is imposed on financial institutions and mining at 2% on gross wages paid by the employer during the calendar quarter. There is an allowable deduction from the gross wages for amounts paid by the employer for qualified health insurance or a qualified health benefit plan.

*Insurance Premium Tax* is imposed at 3.5% on insurance premiums written in Nevada. A "Home Office Credit" is given to insurance companies with home or regional offices in Nevada.

*Motor Vehicle Fuel Tax* is levied at 24.805 cents per gallon on gasoline and gasohol sales. 17.65 cents of the tax goes to the State Highway Fund, .75 cents goes to the Cleaning Up Petroleum Discharges Fund, .055 cents goes to the General Fund and the remaining 6.35 cents goes to the counties. The counties have an option to levy up to an additional 9 cents per gallon.

#### (Note 14 Continued)

*Cigarette Tax* is imposed at a rate of 90 mills per cigarette. A tax on tobacco products, other than cigarettes, is imposed at a rate of 30% of the wholesale price.

*Commerce Tax* is imposed upon each business entity whose Nevada gross revenue in a taxable year exceeds \$4 million. The business entity is entitled to deduct certain amounts. The tax rate is based on the primary business industry classification.

*Lodging Tax* is imposed at a rate of at least 1% of the gross receipts from the rental of transient lodging with three-eights of the first 1% paid to the State for the Tourism Promotion Fund. In counties with populations greater than 300,000, an additional tax of up to 3% is remitted to the State for distribution to the State Supplemental School Support Account.

*Other Sources* of tax revenues include: Controlled Substance Tax, Jet Fuel, Liquor Tax, Live Entertainment Tax (non-gaming establishments), Business License Fees, Motor Carrier Fees, Motor Vehicle Registration Fees, Net Proceeds of Minerals Tax, Property Tax, Real Property Transfer Tax, Short-Term Lessor Fees and Tire Tax.

The Nevada Gaming Commission was created under NRS 463.022 and is charged with collecting State gaming taxes and fees. The following sources account for gaming tax revenues:

Percentage Fees are the largest of several State levies on gaming. They are based upon gross revenue and are col-

### Note 15 - Works of Art and Historical Treasures

The State possesses certain works of art, historical treasures, and similar assets that are not included in the capital assets shown in Note 7. The mission of the Lost City Museum in Overton is to study, preserve, and protect prehistoric Pueblo sites found in the Moapa Valley and adjacent areas and to interpret these sites through exhibits and public programs. In Reno, the Nevada Historical Society exhibits and maintains a large number of historical collections preserving the cultural heritage of Nevada. These collections are divided into four sections: library, manuscripts, photography, and museum. The Nevada State Museum in Carson City collects, preserves, and documents three general types of collections: anthropology, history, and natural history as it relates to Nevada and the Great Basin. The mission of the Nevada State Museum, Las Vegas, is to inspire and educate a diverse public about the history and natural history of Nevada. Its major collections include transportation, mining, and tourism as well as daily artifacts such as clothing, historical correspondence, business records, and photography. The Nevada State Railroad Museum, which is located in Carson City, is dedicated to educating visitors and the community through the collection, preserva-

lected monthly. The fee is applied on a graduated basis at the following monthly rates: 3.5% of the first \$50,000 of gross revenue; 4.5% of the next \$84,000 of gross revenue; and 6.75% of the gross revenue in excess of \$134,000.

*Live Entertainment Taxes,* prior to October 1, 2015, were imposed at 10% of all amounts paid for admission, food, merchandise or refreshment, while the establishment provided entertainment in facilities with less than occupancy/ seating of 7,500. A 5% rate was imposed for facilities with at least 7,500 occupancy/seating. Beginning October 1, 2015 taxes are imposed at a rate of 9% on admission to a facility where live entertainment is provided with an occupancy over 200. Live entertainment provided by escort services is also subject to the tax.

*Flat Fee Collections* are levied on the number of gambling games and slot machines operated. Licensees pay fees at variable rates on the number of gaming devices operated per quarter.

*Other Sources* of gaming tax revenues include: Unredeemed Slot Machine Wagering Vouchers, Annual State Slot Machine Taxes, Annual License Fees and Miscellaneous Collections, which consists of penalties and fines, manufacturer's, distributor's and slot route operator's fees, advance payments, race wire fees, pari-mutuel wagering tax and other nominal miscellaneous items.

tion and interpretation of objects directly related to railroads and railroading in Nevada. The East Ely Depot Museum, located in the historic Nevada Northern Railroad Depot building, exhibits artifacts, documents, and photographs of early Eastern Nevada mining and railroad transportation. The Nevada Arts Council with locations in Carson City and Las Vegas exhibits artwork. Its mission is to enrich the cultural life of the State and make excellence in the arts accessible to all Nevadans.

These collections are not capitalized by the State because they are:

- Held for public exhibition, education or research in furtherance of public service, rather than financial gain,
- Protected, kept unencumbered, cared for and preserved, and
- Subject to an organizational policy that requires the proceeds from sales of collection items to be used to acquire other items for collections.

### Note 16 - Commitments and Contingencies

#### A. Primary Government

*Lawsuits* - The State Attorney General's Office reported that the State of Nevada or its officers and employees were parties to numerous lawsuits, in addition to those described below. In view of the financial condition of the State, the State Attorney General is of the opinion that the State's financial condition will not be materially affected by this litigation, based on information known at this time.

Several of the actions pending against the State are based upon the State's (or its agents') alleged negligence in which the State must be named as a party defendant. However, there is a statutory limit to the State's liability of \$50,000 per cause of action through October 1, 2007 and \$75,000 per cause of action through October 1, 2011 and \$100,000 per cause of action thereafter. Such limitation does not apply to federal actions such as civil rights actions under 42 U.S.C. Section 1983 brought under federal law or to actions in other states. Building and contents are insured on a blanket replacement cost basis for all risk except certain specified exclusions.

The State and/or its officers and employees are parties to a number of lawsuits filed under the federal civil rights statutes. However, the State is statutorily required to indemnify its officers and employees held liable in damages for acts or omissions on the part of its officers and employees occurring in the course of their public employment. Several claims may thus be filed against the State based on alleged civil rights violations by its officers and employees. Since the statutory limit of liability (discussed above) does not apply in federal civil rights cases, the potential liability of the State is not ascertainable at the present time. Currently, the State is involved in several actions alleging federal civil rights violations that could result in substantial liability to the State.

In litigation filed against the Department of Taxation (DOT), the plaintiff is seeking a declaration that the Live Entertainment Tax is unconstitutional on its face and that they do not have to pay the tax. The Live Entertainment Tax is collected by the DOT as well as the Gaming Control Board. The Gaming Control Board's collection of the Live Entertainment Tax has not been challenged. Should a refund be granted, the estimated amount to date is \$145.1 million. However, if the tax is found to be unconstitutional on its face, the statute may be completely stricken.

The Department of Taxation has litigated vigorously a lawsuit against a utility company. The lawsuit arose out of a claim for the refund of \$200.0 million in use tax paid, plus interest, on coal purchased out of the state and used in Nevada. The company claims the use tax is unconstitutional. The State won the case in the 1<sup>st</sup> Judicial District Court. The utility company appealed to the Nevada Supreme Court and is waiting for a decision. The use tax distribution is shared between the State,

counties and local governments. If the utility company's appeal is successful, the State's exposure upon a potentially unfavorable outcome is \$26.6 million.

*Leases* - The State is obligated by leases for buildings and equipment accounted for as operating leases. Operating leases do not give rise to property rights as capital leases do. Therefore, the results of the lease agreements are not reflected in the Statement of Net Position. Primary government lease expense for the year ended June 30, 2016 amounted to \$38.9 million. The following is the primary government's schedule of future minimum rental payments required under operating leases that have initial or remaining noncancelable lease terms in excess of one year as of June 30, 2016 (expressed in thousands):

|        | mount   |  |
|--------|---------|--|
| \$     | 32,838  |  |
|        | 27,681  |  |
|        | 21,906  |  |
|        | 17,367  |  |
| 12,695 |         |  |
|        | 35,377  |  |
|        | 3,708   |  |
|        | 273     |  |
| \$     | 151,845 |  |
|        |         |  |

*Federal Grants* - The State receives significant financial assistance from the federal government in the form of grants and entitlements, which are generally conditioned upon compliance with terms and conditions of the grant agreements and applicable federal regulations, including the expenditure of the resources for eligible purposes. Substantially all grants are subject to financial and compliance audits by federal agencies. Any disallowance as a result of these audits could become a liability of the State. As of June 30, 2016, the State is unable to estimate the amount, if any, of expenditures that may be disallowed, although the State expects such amounts, if any, to be immaterial.

Rebate Arbitrage - The Federal Tax Reform Act of 1986 imposes a rebate requirement with respect to some bonds issued by the State. Under this requirement, an amount equal to the sum of (a) the excess of the aggregate amount earned on all investments (other than certain specified exceptions) over the amount that would have been earned if all investments were invested at a rate equal to the yield on the bonds, and (b) any income earned on the excess described in (a) is required to be rebated to the U.S. Treasury, in order for the interest on the bonds to be excluded from gross income for federal income tax purposes. Rebatable arbitrage is computed as of each installment computation date. The present value of the rebatable arbitrage is \$972,000 and has been recorded as a liability in the Statement of Net Position at June 30, 2016. Future calculations might result in different rebatable arbitrage amounts.

### (Note 16 Continued)

Nonexchange Financial Guarantees - The 1997 Nevada Legislature added NRS 387.513 through 387.528, allowing school districts to enter into guarantee agreements with the State Treasurer whereby money in the Permanent School Fund may be used to guarantee the debt service payments on certain bonds issued by Nevada school districts. The amount of the guarantee for bonds of each school district outstanding, at any one time, must not exceed \$40 million. Total bond guarantees at June 30, 2016 were \$238.4 million which includes accrued interest of \$1.4 million. The bonds mature at various intervals through fiscal year 2042. In the event any school district was unable to make a required payment, the State Treasurer would withdraw from the State Permanent School Fund the amount needed to cover the debt service payment. Any amount withdrawn would be deemed a loan to the school district from the State Permanent School Fund, and the State Treasurer would determine the rate of interest on the loan. Repayment would be taken from distributions from the State Distributive School Account.

*Encumbrances* – As of June 30, 2016, encumbered expenditures in governmental funds were as follows (expressed in thousands):

|                             | A  | Amount |  |  |
|-----------------------------|----|--------|--|--|
| General Fund                | \$ | 7,412  |  |  |
| State Highway               |    | 5,017  |  |  |
| Nonmajor governmental funds |    | 119    |  |  |
| Total                       | \$ | 12,548 |  |  |

*Construction Commitments* – As of June 30, 2016, the Nevada Department of Transportation had total contractual commitments of approximately \$231.1 million for construction of various highway projects. Other major non-highway construction commitments for the primary government's budgeted capital projects funds total \$66.8 million.

### **B.** Discretely Presented Component Units

*Nevada System of Higher Education (NSHE)* – As of June 30, 2016, NSHE is a defendant or co-defendant in legal actions. Based on present knowledge and advice of legal counsel, NSHE management believes any ultimate liability in these matters, in excess of insurance coverage, will not materially adversely affect the net position, changes in net position or cash flows of NSHE.

The NSHE has an actuarial study of its workers' compensation losses completed every other year. The study addresses the reserves necessary to pay open claims from prior years and projects the rates needed for the coming year. The NSHE uses a third party administrator to adjust its workers' compensation claims. The NSHE is self-insured for its unemployment liability. The NSHE is billed by the State each quarter based on the actual unemployment benefits paid by the State. Each year the NSHE budgets resources to pay for the projected expenditures. The amount of future benefits payments to claimants and the resulting liability to the NSHE cannot be reasonably determined as of June 30, 2016.

NEVADA

The NSHE receives Federal grants and awards, and amounts are subject to change based on outcomes of Federal audits. Management believes any changes made will not materially affect the net position, changes in net position or cash flows of the NSHE.

The estimated cost to complete property authorized or under construction at June 30, 2016 is \$122.5 million. These costs will be financed by State appropriations, private donations, available resources and/or long-term borrowings.

The Board of Regents, at its March 4, 2016 meeting, approved the issuance of a Promissory Note in an amount up to \$5.0 million. The authorized note is expected to be issued in calendar year 2017.

*Colorado River Commission* (CRC) - The CRC may from time to time be a party in various litigation matters. It is management's opinion, based upon advice from legal counsel, that the risk of financial losses to CRC from such litigation, if any, will not have a material adverse effect on CRC's future financial position, results of operations or cash flows. Accordingly, no provision has been made for any such losses.

The CRC does not accrue for estimated future legal and defense costs, if any, to be incurred in connection with outstanding or threatened litigation and other disputed matters but rather, records such as period costs when the services are rendered.

*Nevada Capital Investment Corporation* (NCIC) - The NCIC currently has commitments to the Silver State Opportunity Fund of \$50.0 million (the First Tranche). As of June 30, 2016, the NCIC has fulfilled \$35.9 million of its total commitment. The NCIC has the right, but not the obligation, to increase its capital commitment by which would be effective after the end of the First Tranche (or such other date as the NCIC and Manager may agree). If the NCIC elects to make such an additional commitment, both the amount of the NCIC's additional commitment and an additional commitment from the Manager shall be established by agreement between the NCIC and the Manager (the Second Tranche).

### Note 17 - Subsequent Events

### A. Primary Government

*Bonds* – On November 9, 2016, the State issued \$48,790,000 in General Obligation Bonds. The Series 2016C bonds were issued primarily to finance various capital improvement projects, to award financial assistance to certain governmental entities and nonprofit organizations for the actual expenses of preserving or protecting historical buildings to be used to develop a network of cultural centers and activities. The Series 2016D bonds were issued to finance costs of environmental improvement projects for the Lake Tahoe Basin and to refund certain outstanding bonds.

On August 30, 2016, the State issued \$1,023,500 in General Obligation (Limited Tax) Open Space, Parks, and Natural Resources Bonds, Series 2016B (not subject to the Constitutional Debt Limit). These "Question 1" project bonds as set forth in Section 28 of Chapter 445 statutes of Nevada 2013 will be used for Wildlife Projects.

*Certificates of Participation* – On August 9, 2016, the State approved the issuance of Series 2016, Certificates of Participation for \$3,730,000. The Certificates refund the 2006 Certificates for the Nevada Legislative Counsel Bureau's warehouse remodel. The Series evidences an undivided interest in the right to receive base rent under a lease purchase agreement to be paid by the State. The lease purchase agreement is with Nevada Real Property Corporation. The Certificates are not general obligations of the State.

### **B.** Discretely Presented Component Units

*Nevada System of Higher Education* – The Board of Regents, at its September 9, 2016 meeting, approved a resolution authorizing the issuance of up to \$14,800,000 of universities revenue bonds. The System issued the bonds in October 2016.

### C. New Accounting Pronouncements

In June 2015, the GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions (GASB 75), which improves accounting and

financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support of OPEB that is provided by other entities. GASB 75 is effective for fiscal years beginning after June 15, 2017. The anticipated impact of this pronouncement is uncertain at this time.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units* (GASB 80), which improves financial reporting by clarifying the financial statement requirements for certain component units. The statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. GASB 80 is effective for fiscal years beginning after June 15, 2016. The anticipated impact of this pronouncement is uncertain at this time.

In March 2016, the GASB issued Statement No. 82, Pension Issues – An Amendment of GASB Statements No. 67, No. 68, and No.73 which addresses certain issues that have been raised with respect to Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and 68 (GASB 82). Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. GASB 82 is effective for fiscal years beginning after June 15, 2017. The anticipated impact of this pronouncement is uncertain at this time.

### Note 18 - Accounting Changes and Restatements

### A. Primary Government

Net position as of July 1, 2015 has been restated in the Governmental Activities and the Business-type Activities to reflect a conversion from the straight line method of amortizing premiums and discounts to the interest method, for bond obligations. The change to the interest method affected the Unemployment Compensation Fund and the Water Projects Loans Fund which are major enterprise funds under Business-type Activities.

NELADA

In addition, a prior period adjustment was made to decrease the General Fund balance and to increase the State Highway Fund balance to correct for the allocation of an investment loss related to the 2008 Lehman Brothers bankruptcy.

The following table shows the changes to the beginning net position as of July 1, 2015 for the primary government (expressed in thousands):

|  |    | overnmental<br>Activities | Business-type<br>Activities |         |  |
|--|----|---------------------------|-----------------------------|---------|--|
| Net position at June 30, 2015 as previously reported       | \$ | 3,648,254                 | \$                          | 743,907 |  |
| Conversion from straight line amortization to the interest |    |                           |                             |         |  |
| method for bond premiums/discounts                         |    | 37,069                    |                             | 11,411  |  |
| Net position at June 30, 2015 as restated                  | \$ | 3,685,323                 | \$                          | 755,318 |  |

The following table shows the changes to the beginning fund balance/net position as of July 1, 2015 for the General Fund, State Highway Fund and proprietary funds (expressed in thousands):

|  | M  | ajor Governı | ment | al Funds | 1  | Major Enterpri   | ise F | unds                         |  |                            |  |
|--|----|--------------|------|----------|----|------------------|-------|------------------------------|--|----------------------------|--|
|  |    | General      |      | General  |    | State<br>Highway |       | Unemployment<br>Compensation |  | Water<br>Projects<br>Loans |  |
| Fund balance/net position at June 30, 2015<br>as previously reported                             | \$ | 207,288      | \$   | 333,930  | \$ | 109,846          | \$    | 367,277                      |  |                            |  |

# Taking the Cure

Everyone wants to learn the truth about this astounding new racket\_how a nation has gone mad over a scramble for new wives and husbands! In a fantastic race to win the divorce business, common sense has been thrown to the winds! In this chapter the fantastic laws of Reno are revealed, showing how it's done, what it costs, and how long it takes to "reno-vate."

(Magazine Page Permission Granted by: Nevada Historical Society)

GOODBYE WEDDING RINGS! Tossing their discarded rings into the river from Reno's "Bridge of Sighs" are Mrs. Marjorie Mac-Arthur (right) and Mrs. Dorothy Foltz, as they follow the custom of the liberated.

HERE'S THE CURE FACTORY

## REQUIRED SUPPLEMENTAL INFORMATION

Guests appear on horseback at the Valley Ranch divorce colony near Reno, circa 1940.

(Photo and Postcard Permission Granted by: Nevada Historical Society)

The availability of quick divorces became a cottage industry for Northern Nevada during the 1930s. This cartoon depicts men and women moving to the area for just long enough to establish residency and file for divorce. THIS IS THE PLACE, AND "X" MARKS THE SPOT, WHERE LAWYERS UNTANGLE THE MARITAL KNOT. SOMESAY, IT'S ONLY A MODERN GOMORRAH, BUT MANY HAVE LEFT THERE THE SLIPNOOSE OF SORROW, IF LIFE, THE OLD GAMBLER, HAD DEALT YOU A HAND, A SHOWDOWN WOULD MARK YOU A PIKER TO STAND; IF MAYBE YOUR PARTNER RENEGED ON YOU, AND STACKED THE DECKA TIME OR TWO. WOULDN'T IT BE MUCH MORE WORTH WHILE TO QUIT THE GAME & WITH A SMILE, TAKE THAT HEARTACHE FOR A RIDE, SPOT IT ON SIERRA'S SIDE.OUT WHERE MEN SPEAK JUST AS THEY FEEL', GIVING AND GET TING — A SQUARE DEAL - THAN HEED LOVE HI-JACKER'S LYING DISCOURSES. CAMOUFLAGING THEIR OWN SIN WHILE SCOURGING DIVORCES? OF COURSE THE SEARCHERS USUALLY FIND EXACT LY THE STUFF THEY HAVE IN MIND, DEVOTEES OF TRUTH OR REST WILL FIND THEM RIGHT HERE-IN THIS HEART OF THE WE S T.

Women congregate around the roulette table at The Willows in 1931 to place newly legal bets. In addition to being an exclusive gambling hall, The Willows catered to men and women living in Reno's so-called "divorce colonies," where they had often moved from other states to secure a quick divorce.

A crowd gathers around the roulette table at The Willows (1931).

Gamblers place newly legal bets in 1931 with a crowd of onlookers.

### For the Fiscal Year Ended June 30, 2016

The accompanying Budgetary Comparison Schedule – General Fund and Major Special Revenue Funds presents both the original and the final legally adopted budgets, as well as actual data on a budgetary basis. (Note 2 of the basic financial statements identifies the budgeting process and control.)

NEVADA

The original budget is adopted through passage of the General Appropriations Act, which allows for expenditures from unrestricted revenues, while the Authorized Expenditures Act allows for expenditures from revenues collected for specific purposes (restricted revenues). For programs financed from restricted revenues, spending authorization is generally contingent upon recognition of the related revenue. Reductions of spending authority occur if revenues fall short of estimates. If revenues exceed the estimate, supplemental appropriations are required before the additional resources can be spent.

Generally Accepted Accounting Principles (GAAP) require that the final legal budget be reflected in the "final budget" column. Therefore, updated revenue estimates available for appropriations as of August 23 are reported instead of the amounts disclosed in the original budget. The August 23, 2016 date is used because this is the date for which the Legislative Interim Finance Committee affected the last changes to the fiscal year ended June 30, 2016 budget as permitted by NRS 353.220.

Since the budgetary and GAAP presentations of actual data differ, a reconciliation of ending fund balances is presented below (expressed in thousands):

|   | General<br>Fund | State<br>Highway | Municipal<br>Bond Bank |  |
|---|-----------------|------------------|------------------------|--|
| Fund balances (budgetary basis) June 30, 2016                       | \$ 851,140      | \$ 518,619       | \$ 1                   |  |
| Adjustments:  |                 |                  |                        |  |
| Basis differences:  |                 |                  |                        |  |
| Petty cash or outside bank accounts                                 | 5,673           | 145              | -                      |  |
| Investments not recorded on the budgetary basis                     | 11,889          | -                | -                      |  |
| Loans not recorded on the budgetary basis                           | -               | -                | 94,240                 |  |
| Accrual of certain other receivables                                | 242,056         | 8,124            | 1,086                  |  |

| Advances to other funds   | 2,798           | -                | -                      |  |
| Accrual of certain accounts payable and other liabilities           | (423,533)       | (17,190)         | -                      |  |
| Unearned revenues   | (122,092)       | -                | -                      |  |
| Deferred inflows - unavailable                                      | (194,972)       | (2,642)          | -                      |  |
| Encumbrances  | 7,413           | 5,017            | -                      |  |
| Other   | (3,018)         | 1,763            | -                      |  |
| Perspective differences:  |                 |                  |                        |  |
| Special revenue fund reclassified to General Fund for GAAP purposes | 13,425          |                  |                        |  |
| Fund balances (GAAP basis) June 30, 2016                            | \$ 398,162      | \$ 532,739       | \$ 95,327              |  |

Total fund balance on the budgetary basis in the General Fund at June 30, 2016, is composed of both restricted funds, which are not available for appropriation, and unrestricted funds as follows (expressed in thousands):

| Total fund balance (budgetary basis)<br>Restricted funds | \$<br>851,140<br>(442,130) |
|--|----------------------------|
| Unrestricted fund balance<br>(budgetary basis)           | \$<br>409,010              |

### For the Fiscal Year Ended June 30, 2016

### A. Multiple-employer Cost Sharing Plan

The following schedule presents the State's (primary government's) proportionate share of the net pension liability for the Public Employees' Retirement System at June 30, 2015 (expressed in thousands):

|   |      | 2015             |      | 2014      |
|---|------|------------------|------|-----------|
| State's proportion of the net pension liability   |      | 16.4%            |      | 16.6%     |
| State's proportionate share of the net pension liability  | \$   | 1,879,626        | \$   | 1,730,601 |
| State's covered-employee payroll  | \$   | 874,098          | \$   | 872,316   |
| State's proportionate share of the net pension liability as a percentage of its covered-employee payroll  |      | 215%             |      | 198%      |
| Plan fiduciary net position as a percentage of the total pension liability  |      | 75%              |      | 76%       |
| Note: This schedule requires ten years of information to be presented. However, until ten years of data is available, only those available will be presented. | year | s for which info | orma | ation is  |

The following schedule presents a ten year history of the State's (primary government's) contributions to the Public Employees' Retirement System (expressed in thousands):

|                                     | 2016       | 2015       | 2014       | 2013       | 2012       | 2011       | 2010       | 2009       | 2008       | 2007       |
|-------------------------------------|------------|------------|------------|------------|------------|------------|------------|------------|------------|------------|
| Statutorily required contribtutions | \$ 190,528 | \$ 176,579 | \$ 174,712 | \$ 162,484 | \$ 163,219 | \$ 160,959 | \$ 164,630 | \$ 153,768 | \$ 146,754 | \$ 136,270 |
| Contributions in relation to the    |            |            |            |            |            |            |            |            |            |            |

| Note: This schedule requires ten years of information to be presented. However, unt available, only those years for which information is available will be presented | il ten years | s of data is |              |

*Notes to Required Supplementary Information* – actuarial assumptions used in calculating the actuarially determined contributions can be found in Note 11C.

### For the Fiscal Year Ended June 30, 2016

The State has adopted the modified approach for reporting infrastructure assets defined as a single roadway network that includes bridges. Bridges are not considered a subsystem as they are included in the cost of road construction. Under this approach, the State expenses certain maintenance and preservation costs and does not report depreciation expense. The single roadway network accounted for under the modified approach includes the combination of 5,400 centerline miles of roads and 1,160 bridges.

The State manages its roadway network by dividing the roadway system into five categories based on the traffic load. The categories range from category I, representing the busiest roadways and interstates, to category V, representing the least busy rural routes with an average daily traffic of less than 400 vehicles. To monitor the condition of the roadways the State uses the International Roughness Index (IRI). IRI measures the cumulative deviation from a smooth surface. The lower the IRI value, the better the condition of the roadway. The State realigned its goals to maintain a certain percentage of each category of its roadways. The realignment was based on the Pavement and Bridge Condition Notice of Proposed Rulemaking released by the Federal Highway Administration (FHWA). The new policy is to maintain each category with an IRI of 95 or less. The prior policy was to maintain each category with an IRI of 80 or less. Therefore, the first table shows the most current condition assessment under the new policy and the second table shows the condition assessment under the prior policy.

| Condition Level of the Roadways                  |                        |   |  |   |  |  |  |  |
|--|------------------------|---|--|---|--|--|--|--|
| Percentage of roadways with an IRI of 95 or less |                        |   |  |   |  |  |  |  |
| Category   |                        |   |  |   |  |  |  |  |

The State has set a policy to maintain its bridges so that not more than 10 percent are structurally deficient or functionally obsolete. The following tables show the State's policy and the condition level of the roadways and bridges.

| Condition Level of the Bridges    |                                   |     |     |  |  |  |  |  |  |  |
|-----------------------------------|-----------------------------------|-----|-----|--|--|--|--|--|--|--|
| Perce                             | Percentage of substandard bridges |     |     |  |  |  |  |  |  |  |
|                                   | 2015 2014 2012                    |     |     |  |  |  |  |  |  |  |
| State Policy-maximum percentage   | e 10%                             | 10% | 10% |  |  |  |  |  |  |  |
| Actual results condition assessme | ent 4%                            | 4%  | 4%  |  |  |  |  |  |  |  |

The following table shows the State's estimate of spending necessary to preserve and maintain the roadway network at, or above, the established condition level and the actual amount spent during the past five fiscal years.

| Maintenance and Preservation Costs |                          |         |           |         |      |         |      |         |    |         |
|------------------------------------|--------------------------|---------|-----------|---------|------|---------|------|---------|----|---------|
|                                    | (Expressed in Thousands) |         |           |         |      |         |      |         |    |         |
|                                    |                          | 2016    | 2015 2014 |         | 2013 |         | 2012 |         |    |         |
| Estimated                          | \$                       | 306,532 | \$        | 386,093 | \$   | 433,338 | \$   | 402,650 | \$ | 322,210 |
| Actual                             |                          | 295,244 |           | 329,677 |      | 360,904 |      | 325,313 |    | 304,333 |

Maintenance and preservation costs are primarily funded with highway user revenue, fuel taxes, vehicle registration and license fees. The funding level for maintenance and preservation costs is affected by the amount of taxes and fees collected and the amount appropriated for construction of new roadways.

## COMBINING STATEMENTS AND SCHEDULES

Film crews document progress on the Boulder Dam construction in 1935.

(Photo's Permission Granted by: Nevada Historical Society)

Below earth and concrete, construction on Boulder Dam proceeds in 1932 with artificial light.

A construction worker bends over in the heat at the Boulder Dam site (1933).

### NONMAJOR SPECIAL REVENUE FUNDS

**Employment Security** Accounts for the administration of employment training programs (NRS 612.607), unemployment compensation claims (NRS 612.605), and employment security laws (NRS 612.615).

**Unemployment Comp Bond Fund** Accounts for special bond contributions assessed on employers for the purpose of retiring the bonds in the Unemployment Compensation Fund (NRS 612.613)

**Regulatory** Accounts for receipts and expenditures related to enforcement of regulations on manufactured housing (NRS 489.491), enforcement of regulations pursuant to dairy products (NRS 584.053), legal judgments against real estate licensees (NRS 645.842), regulation of public utilities (NRS 703.147), and regulation of taxicabs (NRS 706.8825).

**Higher Education Capital Construction** Accounts for the first \$5,000,000 and 20% of the remaining annual slot machine tax, which is designated for capital construction and payment of principal and interest of construction bonds for higher education (NRS 463.385).

**Cleaning Up Petroleum Discharges** Accounts for fees collected and claims paid related to the use, storage or discharge of petroleum (NRS 590.830).

**Hospital Care to Indigent Persons** Accounts for taxes levied to provide care to indigent persons hospitalized from motor vehicle accidents, and for taxes received and payments to counties for supplemental medical assistance to indigent persons (NRS 428.175).

**Tourism Promotion** Accounts for room taxes and other monies designated for the support of the Commission on Tourism (NRS 231.250).

**Offenders' Store** Accounts for operations of the general merchandise stores and snack bars used by offenders. Earnings, except interest, must be expended for the welfare and benefit of all offenders (NRS 209.221).

**Tobacco Settlement** Accounts for proceeds from settlement agreements with and civil actions against manufacturers of tobacco products, forty percent of which is allocated to the Millennium Scholarship fund for the purpose of increasing the number of State residents who enroll in and attend a university or community college of the Nevada System of Higher Education (NRS 396.926), and sixty percent of which is allocated to the Healthy Nevada fund (NRS 439.620) for the purpose of assisting Nevada residents in obtaining and maintaining good health.

Attorney General Settlement Accounts for receipts from the National Mortgage Settlement for purposes of foreclosure relief and housing programs.

**Gift** Accounts for gifts and grants received by the Department of Conservation and Natural Resources (NRS 232.070), the Department of Wildlife (NRS 501.3585), the State Board of Education (NRS 385.095), the State Library and Archives (NRS 378.090), the Division of State Parks (NRS 407.075), the Rehabilitation Division of the Department of Employment, Training and Rehabilitation (NRS 232.960), and the Department of Health and Human Services (NRS 232.355).

**Natural Resources** Accounts for grants to publicly owned water systems for water conservation and capital improvements (NRS 349.952).

**NV Real Property Corp General Fund** Accounts for the general fund activity of the Nevada Real Property Corporation, a blended component unit incorporated to finance certain construction projects.

**Miscellaneous** Accounts for receipts and expenditures related to compensation of victims of crime (NRS 217.260); fees related to private investigators and recoveries for unfair trade practices (NRS 228.096); prosecution of racketeering (NRS 207.415); and the office of advocate for customers of public utilities (NRS 228.310). It also accounts for private money received by the Division of Museums and History for the Dedicated Trust Fund (NRS 381.0031; receipts for the care of sites for the disposal of radioactive waste (NRS 459.231); and fees collected from owners of mobile home parks to provide mobile home lot rent assistance to low-income mobile home owners (NRS 118B.215).

### NONMAJOR DEBT SERVICE FUNDS

**Consolidated Bond Interest and Redemption Fund** Accumulates monies for the payment of leases and of principal and interest on general obligation bonds of the State (NRS 349.090).

**Highway Revenue Bonds** Accumulates monies for the payment of principal and interest on highway revenue bonds of the State (NRS 349.300).

### NONMAJOR CAPITAL PROJECTS FUNDS

**Parks Capital Project Construction** Accounts for the parks improvements program for the Division of State Parks of the Department of Conservation and Natural Resources (NRS 407.065).

**Capital Improvement Program - Motor Vehicle** Accounts for capital improvement projects for the Department of Motor Vehicles and Public Safety (NRS 341.146).

**Capital Improvement Program - Human Resources** Accounts for capital improvement projects for the Department of Health and Human Services (NRS 341.146). **Capital Improvement Program - University System** Accounts for capital improvement projects for the Nevada System of Higher Education (NRS 341.146).

**Capital Improvement Program - General State Government** Accounts for capital improvement projects for general government (NRS 341.146).

**Capital Improvement Program - Prison System** Accounts for capital improvement projects for the Department of Corrections (NRS 341.146).

**Capital Improvement Program - Military** Accounts for capital improvement projects for the Department of Military (NRS 341.146).

**Capital Improvement Program - Wildlife** Accounts for capital improvement projects for the Department of Wildlife (NRS 341.146).

### NONMAJOR PERMANENT FUND

Henry Wood Christmas Fund Accounts for the bequest of the late Henry Wood to provide Christmas gifts to orphans.

An ox wagon leads parade for graduates of Churchill County High School in Fallon, NV.

(Photo's Permission Granted by: Nevada Historical Society)

An agricultural stronghold, Fallon quickly grew from its establishment in 1896 into one of Nevada's largest towns by the 1930s.

Churchill County High School in 1930. The building remains in use today as Churchill County Middle School.

An Independence Day Parade proceeds across the Virginia Street Bridge in Reno during the 1930s.

(Photo's Permission Granted by: Nevada Historical Society)

# The White Hats riding group and band perform at the Reno Rodeo on July 4, 1938.

The First National Bank of Nevada, shown here on North Virginia Street in Reno, partnered with the Nevada State Journal in 1936 to finance the "One Sound State" campaign.

**Workers' Compensation and Safety** Records assessments on insurers for compensation of injured workers and administration of regulations for employee safety (NRS 616A.425), assesses self-insurers to pay claims against insolvent self-insured employers (NRS 616B.309), accounts for compensation benefits to physically impaired employees from a subsequent injury in the course of employment (NRS 616B.554, 616B.575, 616B.584), and accounts for injury claims of employees of uninsured employers (NRS 616A.430).

**Insurance Administration and Enforcement** Accounts for activities related to the administration and enforcement of the Nevada Insurance Code and other laws and regulations enforced by the Department of Business and Industry Division of Insurance (NRS 680C.100).

**Gaming Investigative** Accounts for activities related to investigations of gaming license applicants (NRS 463.331).

**Forestry Nurseries** Accounts for the self-supporting operation of State nurseries, which propagate, maintain and distribute plants for conservation purposes (NRS 528.100).

**Prison Industry** Accounts for a self-supporting program of job training through the employment of inmates in farming and manufacturing (NRS 209.189).

**Nevada Magazine** Accounts for the operation of the publication, Nevada Magazine, which is published to promote tourism (NRS 231.290).

**Marlette Lake Water System** Accounts for the costs of operating the State-owned Marlette Lake Water System. The system serves the State Buildings and Grounds Division and portions of Carson City and Storey County (NRS 331.180).

The Waldorf Club in Reno on opening night in 1931, following Nevada's legalization of gambling.

(Photo and Postcard Permission Granted by: Nevada Historical Society)

Patrons celebrate an evening out at the Reno Country Club in the mid-1930s.

A 1939 postcard highlights many contemporary attractions of the Reno area.

**Self-Insurance** Accounts for self-insured group life, accident and health insurance plans for State and other government employees (NRS 287.0435).

**Buildings and Grounds** Accounts for the maintenance, housekeeping and security of most State buildings (NRS 331.101).

**Fleet Services** Accounts for the operations of the State vehicle fleet (NRS 336.110).

**Communications** Accounts for the operation of mail services for State agencies in Carson City, Reno, Las Vegas and Elko (NRS 378.143).

**Insurance Premiums** Allocates the costs of fidelity insurance, property insurance and workers' compensation insurance to State agencies (NRS 331.187).

Administrative Services Provides administrative and accounting services to various divisions of the Department of Administration (NRS 232.219).

**Personnel** Accounts for the costs of administering the State personnel system. Operations are financed by assessments charged to user agencies (NRS 284.110).

**Purchasing** Provides purchasing services to State agencies and other governmental units. The operation is financed by an administrative charge on purchase orders and warehouse orders (NRS 333.120).

**Information Services** Accounts for designing, programming, and maintaining data processing software and also operating the State's central computer facility, radio communication and telecommunication systems (NRS 242.211).

**Printing** Accounts for the operation of the State printing facilities (NRS 344.090).

Crowd gathers in front of steam engine No. 10 at the Palisade Station of the Eureka-Nevada Railway in 1938.

(Photo's Permission Granted by: Nevada Historical Society)

Г.

Mining has always been a staple industry in Nevada. Here, a steam engine unloads ore from the Eureka mines.

Two crewmen and a third man occupy a passenger car on the Eureka-Nevada Railway (1935).

# PENSION AND OTHER EMPLOYEE BENEFIT TRUST

**Public Employees' Retirement** Accounts for the operations of the Public Employees' Retirement System which provides income benefits to qualified public employees (NRS 286.220).

**Legislators' Retirement** Accounts for the operations of the Legislators' Retirement System (NRS 218.2375).

**Judicial Retirement** Accounts for the operations of the Judicial Retirement System which provides benefits for justices of the Supreme Court and district judges (NRS 1A.160).

**State Retirees' Fund** Accounts for the assets accumulated and the payments made for other postemployment benefits provided to current and future State retirees. Administered as a defined benefit Other Postemployment Benefit Plan (OPEB). Funding comes from employer contributions and investment earnings (NRS 287.0436).

# **INVESTMENT TRUST**

**Local Government Investment Pool** Accounts for investment funds received from local governments and pooled to obtain greater interest earnings (NRS 355.167).

**Nevada Enhanced Savings Term** Accounts for the establishment of one or more separate subaccounts for identified investments that are made for and allocated to specific participating local governments (NRS 355.165).

**Retirement Benefits Investment Fund** Accounts for investment of contributions made by participating entities to support financing of other post employment benefits at some time in the future (NRS 355.220).

# **PRIVATE PURPOSE TRUST**

**Prisoners' Personal Property** Accounts for personal property held in trust for prisoners pending their release (NRS 209.241).

**Nevada College Savings Plan** Accounts for participant contributions used to pay for future college expenses (NRS 353B.340).

# AGENCY

**Intergovernmental** Accounts for taxes and fees, such as sales and use, property tax and motor vehicle privilege tax, collected by the Department of Taxation on behalf of local governments (NRS 353.254).

**State Agency Fund for Bonds** Accounts for surety bonds and deposits held by the State (NRS 353.251).

**Motor Vehicle** Accounts for taxes and fees collected by the Department of Motor Vehicles pending distribution to counties (NRS 482.180).

**Child Support Disbursement** Accounts for the centralized collection and disbursement of child support payments in accordance with 42 U.S.C. Sec. 654b (NRS 425.363).

**Child Welfare Trust** Accounts for survivor benefits held in trust for children receiving welfare services (NRS 432.037).

**Restitution Trust** Accounts for money received from parolees making restitution (NRS 213.126).

**State Payroll** Accounts for payment of payroll and payroll deductions such as income tax withholding, insurance deductions, credit union deductions, etc. (NRS 227.130).

Heavyweight champion boxer Jack Dempsey poses in the ring with a young boy.

(Photo's Permission Granted by: Nevada Historical Society)

Heavyweight boxing champ Jack Dempsey, who first came to Nevada as a freight car stowaway, didn't just work inside the ring. Here, he is shown lobbing ore into a mining cart.

This part of the State of Nevada's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

| TABLES  | PAGES |
|---|-------|
| FINANCIAL TRENDS  |       |
| These tables contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.  | 156   |
| Revenue Capacity  |       |
| These tables contain information to help the reader assess the government's most significant revenue source, taxable sales.   | 160   |
| DEBT CAPACITY   |       |
| These tables present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.                          | 161   |
| Demographic and Economic Information  |       |
| These tables offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.   | 165   |
| OPERATING INFORMATION   | 168   |
| These tables contain service and infrastructure data to help the reader understand<br>how the information in the government's financial report relates to the services the<br>government provides and the activities it performs. | 200   |

#### Note:

(a) On June 30 of each year, the most current assessed value available is the assessed value used for calculating and assessing taxes for the following fiscal year. Therefore, the debt limitation as of June 30 of each year is calculated using the assessed value for the following fiscal year. For purposes of this computation, assessed valuation includes 35% of actual taxable property value, plus statewide redevelopment agency assessed values.

NEL POP

Notes: Details regarding the State's outstanding debt can be found in the notes to the financial statements.

(a) Consists of interest and investment income and principal collections of the Housing Division Enterprise Fund.

(b) Consists of operating expenses, nonoperating expenses and transfers out less interest expense and depreciation.

(c) Coverage equals net available revenues divided by total debt service.

(d) Principal paid on mortgage revenue bonds is updated for years 2010 and 2011. There is no change to coverage ratio.

(e) Assets - held by the trustee are the combination of additional lease rent, investment income, and bond proceeds.

**Note:** Total personal income is composed of wages and salaries, proprietors' income, personal interest and dividend income, rental income, and personal current transfer receipts, less contributions for government social insurance. Per capita personal income is calculated by dividing total personal income by population. (a) Revised estimates for 2012 through 2014

CPAs & BUSINESS ADVISORS

#### Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable Ronald Knecht, MS, JD & PE State Controller Carson City, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Nevada, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the State of Nevada's basic financial statements, and have issued our report thereon dated December 21, 2016. Our report includes a reference to other auditors who audited the financial statements of the Nevada System of Higher Education and the Colorado River Commission, discretely presented component units; the Housing Division Enterprise Fund, the Self Insurance and Insurance Premiums Internal Service Funds, the Pension Trust Funds and the Other Employee Benefit Trust Fund – State Retirees' Fund, the Nevada College Savings Plan - Private Purpose Trust Fund, the Retirement Benefits Investment Fund -Investment Trust Fund, and the Division of Museums and History Dedicated Trust Fund Special Revenue Fund, as described in our report on the State of Nevada's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by some of those auditors. The financial statements of the Division of Museums and History Dedicated Trust Fund, the Pension Trust Funds, the Insurance Premiums Internal Service Fund and the Retirement Benefits Investment Fund were not audited in accordance with Government Auditing Standards.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the State of Nevada's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of Nevada's internal control. Accordingly, we do not express an opinion on the effectiveness of the State of Nevada's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant

www.eidebailly.com

deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Responses, we identified certain deficiencies in internal control that we consider to be material weaknesses.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings and Responses as Findings 2016-A, 2016-B, and 2016-C to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the State of Nevada's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### The State of Nevada's Response to Findings

The State of Nevada's response to the findings identified in our audit is described in the accompanying Schedule of Findings and Responses. The State of Nevada's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of Nevada's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Nevada's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Erde Bailly LLP

Reno, Nevada December 21, 2016

#### STATE OF NEVADA SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED JUNE 30, 2016

## Findings Relating to the Financial Statements Reported in Accordance with GAGAS:

| 2016-A        | Amortization of Bond<br>Material Weakness | Premiums and Discounts  |
|---------------|---|---|
| Criteria:     |   | Management is responsible for establishing and maintaining an<br>effective system of internal control over financial reporting.<br>Properly calculating and reporting amortization of bond<br>premiums and discounts are key components of effective internal<br>control over financial reporting.  |
| Condition:    |   | A prior period adjustment of approximately \$48,480,000 was<br>required to correct the amortization of bond premiums and<br>discounts when the State of Nevada converted from the straight<br>line method to the interest method of amortization.   |
| Cause:        |   | Prior to July 1, 2015, the internal controls in place did not ensure<br>that the amortization of bond premiums and discounts was<br>calculated using the interest method.   |
| Effect:       |   | In prior years, net position in the governmental activities of the government wide financial statements was understated by approximately \$37,069,000 and net position in the business-type activities was understated by approximately \$11,411,000. The Unemployment Compensation Fund was understated by \$10,434,000 while the Water Projects Loans was understated by \$977,000. |
| Recommendat   | ion:                                      | We recommend the State of Nevada enhance internal controls to<br>ensure the interest method is used when calculating and<br>recording amortization of bond premiums and discounts.  |
| Views of Resp | onsible Officials:                        | Management agrees with this finding.  |

#### STATE OF NEVADA SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED JUNE 30, 2016

## Findings Relating to the Financial Statements Reported in Accordance with GAGAS:

| 2016-B         | Allocation of Investm<br>Material Weakness | ent Losses  |
|----------------|--|---|
| Criteria:      |  | Management is responsible for establishing and maintaining an effective system of internal control over financial reporting. Properly allocating investment losses among the various funds is a key component of effective internal control over financial reporting. |
| Condition:     |  | A prior period adjustment of \$4,085,616 was required to correct<br>a journal entry made in 2014-15 allocating a portion of an<br>investment loss to the Highway Fund.  |
| Cause:         |  | The internal controls in place did not ensure that the allocation of<br>an investment loss among the funds was accurate.  |
| Effect:        |  | In 2014-15, fund balance in the Highway Fund was understated<br>and fund balance in the General Fund was overstated by<br>\$4,085,616.  |
| Recommendat    | ion:                                       | We recommend the State of Nevada enhance internal controls to<br>ensure the allocation of investment losses among the various<br>funds is accurate.   |
| Views of Respo | onsible Officials:                         | Management agrees with this finding.  |

#### STATE OF NEVADA SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED JUNE 30, 2016

## Findings Relating to the Financial Statements Reported in Accordance with GAGAS:

| 2016-C        | Highway Fund - Acco<br>Material Weakness | ounts Payable, Deferred Inflow of Resources, and Inventory   |
|---------------|--|--|
| Criteria:     |  | Management is responsible for establishing and maintaining an effective system of internal control over financial reporting. Proper reporting of accounts payable, deferred inflow of resources, and inventory is a key aspect of a strong system of internal control.   |
| Condition:    |  | During our audit procedures, we became aware of several<br>transactions in the Highway Fund that were not recorded in the<br>appropriate accounting period under the modified accrual basis<br>of accounting. We also became aware of a transaction that was<br>posted incorrectly due to a formula error on an inventory<br>spreadsheet.        |
| Cause:        |  | The internal controls in place did not ensure that receipts and<br>payments after year end were recorded in the accounting period<br>in which the goods or services were received or provided. In<br>addition, the internal controls in place did not ensure that<br>inventory was accurately reported.  |
| Effect:       |  | Prior to adjustment, fund balance in the Highway Fund was<br>overstated by \$17,190,328 as a result of unrecorded contracts<br>payable and understated by \$1,012,347 due to unrecorded<br>revenues. In addition, inventory was overstated by \$3,410,142.   |
| Recommendat   | ion:                                     | We recommend the State of Nevada enhance internal controls to<br>ensure deferred inflow of resources and accounts payable are<br>recorded in the accounting period in which the goods or services<br>are received or provided. We also recommend the State of<br>Nevada enhance internal controls to ensure inventory is<br>accurately reported. |
| Views of Resp | onsible Officials:                       | Management agrees with this finding.   |

#### STATE OF NEVADA

JAMES W. SMACK Chief Deputy Controller

GEOFFREY LAWRENCE Assistant Controller

#### OFFICE OF THE STATE CONTROLLER

## **CORRECTIVE ACTION PLAN FOR AUDIT FINDING**

#### Audit Finding 2016-A

**Finding:** A prior period adjustment of approximately \$48,480,000 was required to correct the amortization of bond premiums and discounts when the State of Nevada converted from the straight line method to the interest method of amortization.

**Recommendation:** The State of Nevada enhance internal controls to ensure the interest method is used when calculating and recording amortization of bond premiums and discounts.

#### Agency Response

**Does the Agency Agree with Finding:** Yes **Additional Comments:** None

#### Corrective Action Taken or to be Taken

Action: The Controller's Office identified and corrected the error in fiscal year 2016. As a result, the Controller's Office purchased software for tracking long-term debt obligations, and the software calculates amortization using the interest method.

Date of Completion or Estimated Completion: Completed July 2016

#### Department or Agency Responsible for Corrective Action Plan

Agency:Controller's OfficeContact:Brenda Laird, CAFR Accountant II101 N. Carson Street, Suite 5Carson City, NV 89701775-684-5621blaird@controller.state.nv.us

#### STATE OF NEVADA

JAMES W. SMACK Chief Deputy Controller

GEOFFREY LAWRENCE Assistant Controller

#### OFFICE OF THE STATE CONTROLLER

## **CORRECTIVE ACTION PLAN FOR AUDIT FINDING**

#### Audit Finding 2016-B

**Finding:** A prior period adjustment of \$4,085,616 was required to correct a journal entry made in 2014-15 allocating a portion of an investment loss to the Highway Fund.

**Recommendation:** The State of Nevada enhance internal controls to ensure the allocation of investment losses among the various funds is accurate.

#### Agency Response

## Does the Agency Agree with Finding: Yes

Additional Comments: This particular instance was unique in that the Treasurer's Office deferred recognition of an unusually large investment loss on a cash basis to the participating funds over a period of years, while the losses were recognized for financial reporting in accordance with Governmental GAAP. In the normal course of business, insignificant investment losses are allocated to the funds during the Treasurer's quarterly interest distribution, and not deferred.

#### Corrective Action Taken or to be Taken

Action: The Controller's Office identified and corrected the error in fiscal year 2016. In addition, a procedure will be established to ensure any future allocations of large and unusual investment losses, where the decision is made to defer recognition in the distribution process, are properly recorded among the various funds.

**Date of Completion or Estimated Completion:** Error corrected February 2016 and procedure estimated to be completed January 2017.

# **CORRECTIVE ACTION PLAN FOR AUDIT FINDING**

### Audit Finding 2016-C1

**Finding:** Several transactions in the Highway Fund were not recorded in the appropriate accounting period under the modified accrual basis of accounting.

**Recommendation:** The State of Nevada enhances internal controls to ensure accounts receivable and accounts payable are recorded in the accounting period in which the goods or services were received or provided.

#### **Agency Response**

**Does the Agency Agree with Finding:** Yes **Additional Comments:** None

#### Corrective Action Taken or to be Taken

Action: Nevada Department of Transportation (NDOT) will raise the awareness of the State's fiscal year cutoff for financial reporting purpose. NDOT Accounting Division will begin a log for the transactions posted to the new fiscal year that should post to the old fiscal year. Such information will be provided to the Controller's Office Financial Reporting to make an adjusting entry during the Highway Fund preparation.

Besides providing adequate training, an additional procedure will be added to cross check for payments received between July 1<sup>st</sup> and Aug 31<sup>st</sup> posted in the system against the Accounts Receivable report.

Date of Completion or Estimated Completion: By November 1<sup>st</sup>, 2017

#### 2015-A Amortization of the Gain/Loss on Refunding Significant Deficiency

Initial Fiscal Year Finding Occurred: 2015

The State of Nevada's policy to refund debt on the first available call date, the State of Nevada calculated the life of the old debt as ending on the call date. The state of Nevada became aware of a recently issued Question and Answer that clarified that the life of the old debt should run through the original end date of the issue. In prior years, net position in the government wide financial statements was understated and amortization expense was overstated and required that a material prior period adjustment be made to report the correct amount of net position and amortization expense.

Status: Corrected

#### 2015-B Capital Assets Significant Deficiency

Initial Fiscal Year Finding Occurred: 2015

During our testing of capital assets, we identified a capital asset addition during fiscal year 2015 was recorded as an asset in 2012 and inadvertently recorded again in 2015 as part of the completed project. Thus capital assets were overstated and required that a material adjustment be made to report the correct amount of capital assets.

Status: Corrected
