## Report of Independent Auditors

The Board of Directors
Sutter Health and Affiliates

We have audited the accompanying consolidated financial statements of Sutter Health and Affiliates, which comprise the consolidated balance sheets as of December 31, 2015 and 2014, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

## **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Sutter Health and Affiliates at December 31, 2015 and 2014, and the consolidated results of their operations and changes in net assets, and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

# Adoption of Accounting Standards Update No. 2015-03, "Interest—Imputation of Interest (Subtopic 835-30) - Simplifying the Presentation of Debt Issuance Costs"

As discussed in Note 2 to the consolidated financial statements, Sutter Health and Affiliates changed its method for presenting debt issuance costs in the consolidated balance sheets as a result of the early adoption of the amendments to the Financial Accounting Standards Board Accounting Standards Codification resulting from Accounting Standards Update No. 2015-03, "Interest—Imputation of Interest (Subtopic 835-30) - Simplifying the Presentation of Debt Issuance Costs," effective December 31, 2015. Our opinion is not modified with respect to this matter.

## Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in millions)

#### 1. ORGANIZATION

Sutter Health is a California not-for-profit multi-provider integrated health care delivery system headquartered in Sacramento, California, which includes a centralized support group and various health care-related businesses operating primarily in Northern California. Sutter Health and its affiliates and subsidiaries provide health care, education, research and administrative services.

Sutter Health's integrated health care delivery system includes acute care, medical foundations, fundraising foundations and a variety of other specialized health care services. These entities are commonly referred to as the affiliates. Most acute care hospitals provide a full range of medical services (e.g., surgical, intensive care, emergency room, and obstetrics). All emergency rooms provide emergency care, regardless of a patient's ability to pay. Sutter Health and its affiliates also serve their communities with various programs such as health education, health libraries, school-based clinics, home health care, hospice care, adult day care, prenatal clinics, community clinics, immunization services, and health professions education.

#### 2. ACCOUNTING POLICIES

<u>Basis of Consolidation</u>: The consolidated financial statements include the accounts of Sutter Health and its controlled affiliates and subsidiaries (Sutter). All significant intercompany accounts and transactions have been eliminated in consolidation.

<u>Use of Estimates</u>: The preparation of financial statements in conformity with United States (U.S.) Generally Accepted Accounting Principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

<u>Cash Equivalents</u>: Cash equivalents include all highly liquid investments with original maturities of 90 days or less, including money market accounts with limited market risk, and investment-grade debt instruments, many of which are backed by the U.S. Government or other government agencies. Financial instruments that potentially subject Sutter to concentrations of credit risk include cash equivalents and investments. Cash equivalents are stated at fair market value.

#### 2. ACCOUNTING POLICIES (continued)

<u>Investments</u>: Investments consist principally of U.S. and foreign equity, corporate and government securities, a multi-strategy hedge fund portfolio and private equity funds, all of which are designated as either trading or other-than-trading and carried at fair market value. Certain investments are held in trust. These include assets held by trustees in accordance with the indentures relating to long-term obligations. In addition, certain investments are designated by the appropriate Sutter governing boards for future capital improvements.

<u>Derivative Instruments</u>: Sutter offsets fair value amounts recognized for certain derivative transactions from contracts executed with the same counterparty under a master netting arrangement. As a result, the net exposure to counterparties is reported as an asset or liability in the consolidated balance sheets.

<u>Cost Method Investments</u>: The aggregate carrying amount of all Sutter cost method investments is \$32 and \$31 as of December 31, 2015 and 2014, respectively. There were no identified events or changes in circumstances which may have had a significant adverse effect on the fair value of these investments and no evaluations for impairment were performed.

Patient Accounts Receivable: Sutter's primary concentration of credit risk is patient accounts receivable, which consist of amounts owed from patients and third-party payers. Sutter manages the receivables by regularly reviewing its patient accounts and contracts and by providing appropriate allowances for uncollectible amounts. These allowances are estimated based upon an evaluation of historical payments, negotiated contracts and governmental reimbursements. Sutter's allowance for doubtful accounts for self-pay patients was 83% and 90% of self-pay accounts receivable at December 31, 2015 and 2014, respectively. Adjustments and changes in estimates are recorded in the period in which they are determined. Significant concentrations of gross patient accounts receivable are as follows:

|          | Decem | December 31, |  |  |  |  |
|----------|-------|--------------|--|--|--|--|
|          | 2015  | 2014         |  |  |  |  |
| Medicare | 30%   | 29%          |  |  |  |  |
| Medi-Cal | 26%   | 27%          |  |  |  |  |

During 2015 and 2014, certain affiliates collected on accounts that were previously deemed uncollectible and reserved. Such recoveries are recognized in the period that cash

#### 2. ACCOUNTING POLICIES (continued)

is received and are not material. Due to the inherent variability in the estimation of future patient receivable collections, there is at least a reasonable possibility that the estimation may change by a material amount in the near term.

<u>Inventories</u>: Inventories, which consist principally of medical and other supplies, are stated on the basis of cost determined by the first-in, first-out method, which is not in excess of market.

Property, Plant and Equipment: Property, plant and equipment are stated on the basis of cost, or in the case of donated items, on the basis of fair market value at the date of donation, less depreciation and any impairment write-downs. Equipment includes medical equipment, furniture and fixtures, software, and internally-developed software. Routine maintenance and repairs are charged to expense as incurred. Expenditures that increase values, change capacities or extend useful lives are capitalized, as is interest on amounts borrowed to finance constructed assets during the construction phase. Sutter had accrued obligations for property, plant and equipment of \$78 and \$89 as of December 31, 2015 and 2014, respectively.

Depreciation is computed by the straight-line method over the estimated useful lives of the assets, which range from 3 to 40 years for buildings and improvements and leasehold improvements and from 3 to 20 years for equipment. Amortization of equipment under capital leases is included in depreciation and amortization expense.

<u>Asset Impairment</u>: Sutter routinely evaluates the carrying value of its long-lived assets for impairment. The evaluations address the estimated recoverability of the assets' carrying value, which is principally determined based on a qualitative test using the projected net cash flows generated by the underlying tangible assets. When the carrying value of an asset exceeds estimated recoverability, asset impairment is recognized.

Other Assets: Goodwill represents the excess of purchase price over the fair market value of net assets acquired. Goodwill and other intangible assets acquired in business combinations that have indefinite useful lives are subject to impairment tests. Sutter performs impairment tests at the reporting unit level annually or when events occur that require an evaluation to be performed. If the carrying value of goodwill is determined to be impaired, or if the carrying value of a business that is to be sold or otherwise disposed of exceeds its fair value, then the carrying value is reduced, including any allocated goodwill, to fair value. Estimates of fair value are based on appraisals, established market prices for comparative assets or internal estimates of future net cash flows based on projected performance, depending on circumstances.

## 2. ACCOUNTING POLICIES (continued)

Certain affiliates acquired assets of \$48 from six separate purchases, which resulted in an increase to goodwill of \$36 and other assets of \$13 for the year ended December 31, 2015. Sutter recognized \$31 and \$4 in revenue and income, respectively, from these operations for the year ended December 31, 2015. In 2014, an affiliate of Sutter acquired assets for \$52, which resulted in an increase to property, plant, and equipment of \$25, goodwill of \$19, and a covenant not to compete of \$8 during the year ended December 31, 2014. Sutter recognized \$141 and \$22 in revenue and net income, respectively, from these operations for the year ended December 31, 2014.

The changes in the carrying amount of goodwill are as follows:

|  | Year ended December 31, |           |    |          |  |  |  |
|--|-------------------------|-----------|----|----------|--|--|--|
|  | 2015                    |           |    | 2014     |  |  |  |
| Goodwill at beginning of year<br>Additions | \$                      | 108<br>36 | \$ | 92<br>19 |  |  |  |

| Goodwill at end of year                    | \$                      | 144       | \$ | 108      |  |  |  |

Other Liabilities: Other non-current liabilities consist of (i) insurance liabilities, including estimated liabilities for professional liability and comprehensive general liability losses, and workers' compensation, (ii) the portion of estimated third-party settlements not expected to be settled within a year, (iii) other postretirement benefits liabilities, and (iv) certain other liabilities.

<u>Risk Management</u>: Sutter Health and most affiliates are insured by a wholly owned self-insured captive insurance company for professional liability claims and comprehensive general liability. Sutter is also self-insured for workers' compensation and employee health for most affiliates.

The provisions for estimated professional liability and comprehensive general liability claims, workers' compensation, and employee health include estimates of the ultimate costs for both uninsured reported claims and claims incurred-but-not-reported (IBNR), in accordance with actuarial projections or paid claims lag models based on historical experience. Professional liabilities and comprehensive general liabilities were \$103 and \$110 discounted at a rate of 1.7% and 1.4% as of December 31, 2015 and 2014, respectively. Workers' compensation liabilities were \$248 and \$239 discounted using

## 2. ACCOUNTING POLICIES (continued)

rates with ranges of 1.7% to 2.4% and 1.4% to 2.0% as of December 31, 2015 and 2014, respectively. Employee health liabilities were \$45 and \$38 as of December 31, 2015 and 2014, respectively, and were recorded on an undiscounted basis. Such claim reserves are based on the best data available to Sutter; however, these estimates are subject to a significant degree of inherent variability. There is at least a reasonable possibility that a material change to the estimated reserves will occur in the near term. Such estimates are continually monitored and reviewed, and as reserves are adjusted, the differences are reflected in current operations. Management is of the opinion that the associated liabilities recognized in the accompanying consolidated financial statements are adequate to cover such claims.

Sutter has entered into reinsurance, excess, and stop loss policy agreements with independent insurance companies to limit its losses on professional liability, comprehensive general liability, workers' compensation, and employee health claims.

In lieu of a workers' compensation security deposit requirement, Sutter paid assessment charges to participate in the California Self Insurers' Alternative Security Program, which provided coverage of \$259 and \$239 as of December 31, 2015 and 2014, respectively.

Asset Retirement and Environmental Obligations: Sutter has recorded an estimated other non-current liability of \$46 and \$41 at December 31, 2015 and 2014, respectively, related to the fair value of costs for asbestos abatement that will result from Sutter's current plans to renovate and/or demolish certain acute care facilities.

<u>Contingencies</u>: Estimated losses from contingencies are recorded when they are probable and reasonably estimable.

<u>Net Assets</u>: Net resources that are not restricted by donors are included in unrestricted net assets. Gifts of long-lived operating assets, such as property, plant or equipment, are reported as unrestricted net assets and excluded from income. Resources restricted by donors for a specified time or purpose are reported as temporarily restricted net assets.

When the specific purposes are met, either through passage of a stipulated time period or when the purpose for restriction is accomplished, they are released to other operating revenues in the statement of operations and changes in net assets. Resources temporarily restricted by donors for additions to property, plant and equipment are initially reported

## Notes to Consolidated Financial Statements (continued)

(Dollars in millions)

## 2. ACCOUNTING POLICIES (continued)

as temporarily restricted net assets and are transferred to unrestricted net assets when expended. Donor-imposed restrictions, which stipulate that the resources be maintained permanently, are reported as permanently restricted net assets.

Investment income related to temporarily or permanently restricted net assets is classified as either unrestricted, temporarily restricted, or permanently restricted, based on the intent of the donor.

Patient Service Revenues and Patient Service Revenues less Provision for Bad Debts: Patient service revenues are reported at the estimated net realizable amounts from patients and third-party payers for services rendered, including estimated retroactive adjustments under reimbursement programs with third-party payers. Estimated settlements under third-party reimbursement programs are accrued in the period the related services are rendered and adjusted in future periods, primarily as a result of final cost report settlements with government agencies.

Patient service revenues less provision for bad debts are reported net of the provision for bad debts on the consolidated statement of operations and changes in net assets. Sutter's self-pay write-offs were \$192 and \$287 for 2015 and 2014, respectively.

Patient services revenues, net of contractual allowances and discounts, are as follows:

|                     | Year ended December 31, |       |    |       |  |  |
|---------------------|-------------------------|-------|----|-------|--|--|
|                     | 2015                    |       |    | 2014  |  |  |
| Government          | \$                      | 3,604 | \$ | 3,196 |  |  |
| Contracted          |                         | 5,879 |    | 5,557 |  |  |
| Self-pay and others |                         | 250   |    | 272   |  |  |
|                     | \$                      | 9,733 | \$ | 9,025 |  |  |

Other Revenue: The American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act. The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medi-Cal and Medicare incentive payment program beginning in 2011 for eligible providers that adopt and demonstrate meaningful use of certified EHR technology.

## Notes to Consolidated Financial Statements (continued)

(Dollars in millions)

## 2. ACCOUNTING POLICIES (continued)

Sutter accounts for Medi-Cal and Medicare EHR incentive payments as a gain contingency. For the years ended December 31, 2015 and 2014, Medi-Cal incentives of \$5 and \$3, and Medicare incentives of \$21 and \$32, respectively, were recognized in other revenues upon demonstration of compliance with the meaningful use criteria. A portion of the income from incentive payments is subject to retrospective adjustment, as the incentive payments are calculated using Medicare cost report data that is subject to audit. Additionally, Sutter's compliance with meaningful use criteria is subject to audit by the federal government, which could result in changes to amounts previously recorded.

<u>Purchased Services</u>: Purchased services expense is made up of a wide variety of contracted and other purchased services, including medical group compensation, other professional fees, and repairs and maintenance. Medical group compensation is accrued by Sutter according to professional services agreements between affiliated medical foundations and contracted medical groups.

Capitated Purchased Services: Sutter has agreements with various Health Maintenance Organizations (HMOs) to provide medical services to subscribing participants. Under these agreements, Sutter receives monthly capitation payments based on the number of each HMO's participants that are covered by the contract, regardless of services provided by Sutter. Certain of these agreements also contain provisions whereby additional amounts may be due or paid. Sutter accrues costs for out-of-area services for which Sutter is responsible, when services are rendered under these contracts, including estimates of IBNR claims and amounts receivable/payable under risk-sharing arrangements.

<u>Advertising</u>: Sutter expenses advertising costs as incurred. Advertising expense (included in other operating expenses) was \$21 for the years ended December 31, 2015 and 2014.

Research and Development: Sutter expenses research and development costs as incurred. Research and development expense (included in other operating expenses) was \$45 and \$42 for the years ended December 31, 2015 and 2014, respectively.

<u>Income Taxes</u>: Sutter Health, the legal entity, and many affiliates have been determined to be exempt organizations by the Internal Revenue Service (pursuant to Internal Revenue Code Section 501(c) (3)) and the California Franchise Tax Board (pursuant to California Revenue and Taxation Code 23701(d)) and, generally, are not subject to taxes on income. Certain activities of Sutter are subject to income taxes; however, such

activities are not significant to the consolidated financial statements. With respect to its taxable activities, Sutter records income taxes using the liability method, under which deferred tax assets and liabilities are determined based on the differences between the financial accounting and tax bases of assets and liabilities. Deferred tax assets or liabilities at the end of each period are determined using the currently enacted tax rate expected to apply to taxable income in the periods that the deferred tax asset or liability is expected to be realized or settled.

Sutter recognizes the tax benefit from uncertain tax positions only if it is more likely than not that the tax positions will be sustained on examination by the tax authorities, based on the technical merits of the position. The tax benefit is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Sutter recognizes interest and penalties related to income tax matters in operating expenses. At December 31, 2015 and 2014, there were no such uncertain tax positions.

<u>Performance Indicator</u>: "Income" and "Income attributable to Sutter Health" as reflected in the accompanying consolidated statements of operations and changes in net assets are performance indicators. Performance indicators include changes in unrestricted net assets other than net assets released from restriction for equipment acquisition, changes in net unrealized gains and losses on investments classified as other-than-trading, and pension-related changes other than net periodic pension cost.

Adoption of New Accounting Pronouncements: In February 2016 Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-02, *Leases*. The amendments in this update require lessees to put most leases on their balance sheets but recognize expenses on their income statements in a manner similar to today's accounting. The guidance also eliminates today's real estate-specific provisions for all entities. Sutter is evaluating the potential impact of this guidance, which will be effective for fiscal year 2019.

In January 2016, FASB issued ASU No. 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities. The amendments in this update will change how entities measure equity investments that do not result in consolidation and are not accounted for under the equity method and how they present changes in the fair value of financial liabilities measured under the fair value option that are attributable to their own credit. The new guidance also changes certain disclosure requirements and other aspects of current US GAAP. It does not change the guidance for classifying and measuring investments in debt securities. Sutter is evaluating the impact of this guidance, which will be effective in 2018.

## 2. ACCOUNTING POLICIES (continued)

In September 2015, FASB issued ASU No. 2015-16, *Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments*. The amendments in this update require that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined. It also requires that the acquirer record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. Sutter is evaluating the potential impact of this guidance, which will be effective for fiscal year 2016.

In August 2015, FASB issued ASU No. 2015-14, *Revenue from Contracts with Customers*. The amendments in this update defer the effective date of ASU No. 2014-09 *Revenue from Contracts with Customers*, issued in May 2014. ASU No. 2014-09, clarifies the principles for recognizing revenue and improves financial reporting by creating common revenue recognition guidance for GAAP. The core principle of this guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those good or services. Sutter is evaluating the potential impact of this guidance, which will be effective in 2018.

In July 2015, FASB issued ASU No. 2015-11, *Inventory (Topic 330): Simplifying the Measurement of Inventory*. The amendments in this update apply to all inventory that is measured using first-in, first-out or average cost. The core principle of the guidance requires that an entity measure inventory at the lower of cost and net realizable value. Sutter is evaluating the potential impact of this guidance, which will be effective in 2017.

In May 2015, FASB issued ASU No. 2015-09, *Financial Services-Insurance (Topic 944): Disclosures about Short-Duration Contracts* which applies to all insurance entities that issue short-duration contracts as defined in Topic 944, *Financial Services-Insurance*. The amendments do not apply to the policyholder of short-duration contracts. The core principle of this guidance requires insurance entities to disclose for annual reporting periods additional information about the liability for unpaid claims and claim adjustment expenses. Sutter is evaluating the potential impact of this guidance, which will be effective for fiscal year 2016.

#### 2. ACCOUNTING POLICIES (continued)

In May 2015, FASB issued ASU No. 2015-07, Fair Value Measurement (Topic 820) Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. Sutter early adopted ASU 2015-07 effective June 30, 2015, which has been applied retrospectively.

In April 2015, the FASB issued ASU No. 2015-03, *Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs* which requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. As permitted, Sutter early adopted this standard effective September 30, 2015. The adoption of ASU 2015-03 is a change in accounting principle, which has been applied retrospectively. The nature and reason for this change is a direct result of guidance issued by the FASB that simplifies the presentation of debt issuance costs, including these costs with debt discounts in the balance sheet. Sutter used the transition method, which required reclassification of \$18 in debt issuance costs from other non-current assets to long-term obligations in the December 31, 2014 consolidated balance sheets.

#### 3. INVESTMENTS

Sutter uses the specific identification method to compute realized gains and losses on all investments, except mutual funds, which are computed using the average cost method.

#### 4. FAIR VALUE MEASUREMENTS

Sutter accounts for certain assets at fair value. A fair value hierarchy for valuation inputs has been established to prioritize the valuation inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels, which is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

Level 1: Quoted prices are available in active markets for identical assets as of the measurement date.

Level 2: Pricing inputs are based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets.

Level 3: Pricing inputs are generally unobservable for the assets and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require management's judgment or estimation of assumptions that market participants would use in pricing the assets. The fair values are therefore determined using factors that involve judgment and interpretations, including, but not limited to, private and public comparables, third party appraisals, discounted cash flow models, fund manager estimates and net asset valuations provided by the underlying private investment companies and/or their administrators.

## 4. FAIR VALUE MEASUREMENTS (continued)

As of December 31, 2015 and 2014, the Level 2 instruments listed in the fair value hierarchy tables above use the following valuation techniques and inputs:

<u>U.S. Government Agencies Securities</u>: The fair value of investments in U.S. government agencies securities classified as Level 2 is primarily determined using consensus pricing methods of observable market-based data. Significant observable inputs include quotes, spreads, and data points for yield curves.

<u>U.S. State and Local Government Securities</u>: The fair value of U.S. state and local government securities classified as Level 2 is determined using a market approach. The inputs include yield benchmark curves, prepayment speeds, and observable market data such as institutional bids, dealer quotes, and two-sided markets.

<u>U.S. Federal Agency Mortgage-backed Securities</u>: The fair value of U.S. federal agency mortgage-backed securities classified as Level 2 is primarily determined using matrices. These matrices utilize observable market data of bonds with similar features, prepayment speeds, credit ratings, and discounted cash flows. Additionally, observed market movements, tranche cash flows and benchmark yields are incorporated in the pricing models.

<u>Foreign Government and Corporate Securities</u>: The fair value of investments in foreign government and corporate securities classified as Level 2 is primarily determined using consensus pricing methods of observable market-based data. Significant observable inputs include quotes, bid and ask yields, and issue-specific factors.

<u>U.S.</u> Corporate Securities: The fair value of investments in U.S. corporate securities classified as Level 2 is primarily determined using techniques that are consistent with the market approach. Significant observable inputs include reported trades, dealer quotes, security-specific characteristics, and multiple sources of spread data points in developing yield curves.

Other Investments Measured at Net Asset Value (NAV): Certain investments that are measured using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The NAV amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated balance sheets.

| 5%            | Three year lock-up expiring in November 2017 | 65 days     |

<u>Private Equity Funds</u>: This class includes domestic and foreign private equity funds that specialize in providing capital to a variety of investment groups, including but not limited to venture capital, leveraged buyout, mezzanine debt, distressed debt, and other strategies, which may include land, water processing, and alternative energy. There is no provision for redemptions during the life of these funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated, estimated at December 31, 2015, to be over the next 10 to 15 years.

<u>Private Equity Real Estate Funds</u>: This class includes domestic and foreign investments in real estate that are held in limited partnership funds, joint ventures, and other investments comprised of retail, office, industrial, and multi-family properties. There is no provision for redemptions during the life of these funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated, estimated at December 31, 2015, to be over the next 2 to 10 years.

## 7. LONG-TERM OBLIGATIONS

Long-term obligations consist of the following:

|  | December 31, |               |    |               |  |
|--|--------------|---------------|----|---------------|--|

| -<br>-   | \$           | 3,659         | \$ | 3,733         |  |

The aggregate estimated fair market values of Sutter's revenue bonds and certificates of participation at December 31, 2015 and 2014, of \$3,876 and \$3,941, respectively, were established using discounted cash flow analyses based on (i) the current market yield to maturity for similar types of publicly traded debt issues, and (ii) Sutter's current incremental borrowing rates for all other debt instruments. Based on the inputs and valuation techniques, the fair value of long-term debt is classified as Level 2 within the fair value hierarchy.

The central financing vehicle of credit for Sutter is the Obligated Group. Sutter Health, the legal entity, and certain affiliates are members of the Sutter Health Obligated Group (the "Obligated Group"), with their assets being subject to the indebtedness of the Obligated Group. Although the Obligated Group is not a legal entity, members of the Obligated Group are jointly and severally liable for repayment of the tax-exempt obligations issued through the California Health Facilities Financing Authority (CHFFA),

## 7. LONG-TERM OBLIGATIONS (continued)

California Statewide Communities Development Authority (CSCDA) and taxable obligations issued by Sutter. The related financing documents and various other debt agreements contain certain restrictive covenants requiring compliance by all members, including a pledge of gross revenue.

In November 2015, \$189 of Series 2015A CHFFA tax-exempt revenue bonds were issued on behalf of Sutter. The proceeds of the bonds, together with the release of the Series 2005A CSCDA Reserve Account, were used to refund \$224 of Series 2005A CSCDA revenue bonds. The refund did not result in a gain or loss.

In February 2016, \$475 of Series 2016A CHFFA tax-exempt revenue bonds were issued on behalf of Sutter. The proceeds of the bonds will be used to reimburse prior capital expenditures.

Aggregate principal payments of long-term obligations, excluding capital leases, various collateralized and unsecured obligations, net unamortized premiums, and issuance costs are as follows as of December 31, 2015:

| 2016       | \$ 43    |

| 2020       | 48       |
| Thereafter | 3,399    |
|            | \$ 3,624 |

Sutter has a \$400 revolving line of credit with a syndicate of banks, with \$400 available for borrowing as of December 31, 2015.

#### 8. LEASES

Sutter leases various buildings, office space and equipment. The leases expire at various times and contain certain contingent rental provisions, guarantees and various renewal options. These leases are classified as either capital leases, which were not material as of December 31, 2015 and 2014, or operating leases, based on the terms of the respective agreements.

Future minimum payments, by year and in the aggregate, under noncancellable operating leases with terms of one year or more at inception consist of the following as of December 31, 2015:

|            | Lease<br>Payments | Sublease<br>Receipts | Net Lease<br>Payments |  |

## 9. NET ASSETS AND CONTRIBUTIONS

Sutter receives donations through its philanthropic affiliates from the generosity of donors supporting certain programs and services. Donations with a restriction included in temporarily and permanently restricted net assets were maintained for the following purposes:

#### 9. NET ASSETS AND CONTRIBUTIONS (continued)

Unconditional promises to give cash or other assets are reported at fair market value at the date the promises are received. Conditional promises to give and indications of intentions to give are reported at fair market value when the conditions are met. Therefore, no revenue or receivable is recognized at the time a conditional promise is received. Conditional promises were not material as of December 31, 2015 and 2014.

As of December 31, 2015, pledges receivable (included in other receivables and other assets) consisted of the following unconditional promises to give:

| Pledges due in 2016                      | \$<br>9  |
|--|----------|
| Pledges due 2017–2020                    | 27       |
| Pledges due after 2020                   | 12       |
| Less allowance for uncollectible pledges | (2)      |
| Less discount on pledges receivable      | <br>(8)  |
|  | \$<br>38 |

Endowments: Sutter follows the Uniform Prudent Management of Institutional Funds Act (UPMIFA). UPMIFA eliminates the concept of "historic dollar value" and allows an institution to spend or accumulate as the board determines is prudent for the uses, benefits, purposes, and duration of the endowment fund unless the gift instrument states a particular spending rate or formula. California's version of UPMIFA also includes a rebuttable provision that spending greater than 7% of the average fair market value (calculated at least quarterly over a minimal period of three years) is presumed to be imprudent.

In accordance with UPMIFA, Sutter considers the following factors when appropriating or accumulating an endowment fund: (i) general economic conditions, (ii) effects of inflation and deflation, (iii) the purposes of the institution and the endowment fund, (iv) expected total return from income and appreciation of investments, (v) Sutter's other resources, (vi) the duration and preservation of the endowment fund, and (vii) Sutter's investment policies.

#### 9. NET ASSETS AND CONTRIBUTIONS (continued)

From time to time, the fair value of assets associated with individual endowment funds may fall below the level that the donor or UPMIFA requires Sutter to retain as a fund of perpetual duration. Deficiencies of this nature that are reported in unrestricted net assets were not material as of December 31, 2015 and 2014. These deficiencies resulted from unfavorable investment market fluctuations.

Sutter has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Under these policies, as approved by the Boards of Trustees of the philanthropic foundations, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results while assuming a moderate level of investment risk.

To satisfy its long-term rate-of-return objectives, Sutter relies on a balanced investment strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Sutter targets a diversified asset allocation that places a great emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

The endowment net asset composition by type of fund consists of the following:

|  | <b>December 31, 2015</b>      |         |                           |                           |                           |       |       |           |  |

#### 10. PATIENT SERVICE AND CAPITATION REVENUES

Sutter has agreements with third-party payers that provide for payments to Sutter at amounts different from its established rates. A summary of the payment arrangements with major third-party payers follows:

- Medicare Inpatient acute care services and outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per diagnosis. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Certain inpatient nonacute services and medical education costs related to Medicare beneficiaries are paid based on a cost reimbursement methodology. Sutter is reimbursed for cost-reimbursable items at a tentative rate, with final settlement determined after submission of annual cost reports by Sutter and audits thereof by the Medicare fiscal intermediary. Sutter's classification of patients under the Medicare program and the appropriateness of their admission are subject to an independent review. Sutter's Medicare cost reports have been audited by the Medicare fiscal intermediary generally through December 31, 2012. The estimated net settlement payables are \$15 and \$38 at December 31, 2015 and 2014, respectively.
- Medi-Cal Inpatient and outpatient services rendered to Medi-Cal program beneficiaries are reimbursed either under contracted rates or reimbursed for cost-reimbursable items at a tentative rate, with final settlement determined after submission of annual cost reports by Sutter and audits thereof by Medi-Cal. Sutter's Medi-Cal cost reports have been audited generally through December 31, 2012. The estimated net settlement payables are \$16 and \$52 at December 31, 2015 and 2014, respectively.

Adjustments from the finalization of prior-year cost reports from both Medicare and Medi-Cal resulted in a decrease to patient service revenues of \$19 and \$8 for the years ended 2015 and 2014, respectively.

Gross patient charges, including charges related to capitated patients, from the Medicare and Medi-Cal programs accounted for the following percentages of Sutter's gross patient service revenues:

|          | y ear ended December 31, |     |  |  |
|----------|--------------------------|-----|--|--|
|          | 2015                     |     |  |  |

## 10. PATIENT SERVICE AND CAPITATION REVENUES (continued)

The health care industry is subject to voluminous and complex laws and regulations of federal, state and local governments. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement laws and regulations, anti-kickback and anti-referral laws and false claims prohibitions, and in the case of tax-exempt hospitals, the requirements of tax-exemption. In recent years, government activity has increased with respect to investigations and allegations concerning possible violations of reimbursement, false claims, anti-kickback and anti-referral statutes and regulations by health care providers. Sutter operates an Ethics and Compliance Program, which reviews compliance with government health care program requirements and investigates allegations of non-compliance received from internal and external sources. From time to time, findings may result in repayment of monies previously received from government payers and/or disclosure of such overpayments, including, but not limited to, disclosure to Centers for Medicare and Medicaid Services (CMS) and its contracted agents, or the Office of Inspector General, Department of Health and Human Services. As a result, there is at least a reasonable possibility that the recorded estimates may change by a material amount in the near term.

Sutter also has entered into payment agreements with certain commercial insurance carriers, HMOs and preferred provider organizations. The basis for payment to Sutter under these agreements includes capitated arrangements, prospectively determined rates per diagnosis, discounts from established charges, and prospectively determined daily rates.

The State of California enacted legislation for a hospital fee program to fund certain Medi-Cal coverage expansions. The program obtains federal matching funds for Medi-Cal with the proceeds redistributed to California hospitals to treat Medi-Cal patients.

## 10. PATIENT SERVICE AND CAPITATION REVENUES (continued)

In September 2011, a 30-month hospital fee program was established for the period from July 1, 2011 through December 31, 2013 (the "30-month Program"). In June 2012, legislation was passed to separate the fee-for-service from the managed care components of the 30-month Program, and the fee-for-service component received final approval in June 2012. In May and June 2013, 24 months of the managed care component was approved. In December 2014, the final six months of the managed care component was approved. For the year ended December 31, 2014, supplemental payments for the 30-month Program of \$43 are included in patient service revenues, and fees and pledges of \$27 are included in other expenses.

In October 2013, a 36-month hospital fee program was established for the period from January 1, 2014 through December 31, 2016 (the "36-month Program"). The 36-month fee-for-service component was approved in December 2014 and six months of the managed care non-expansion component was approved in June 2015. For the year ended December 31, 2015, supplemental payments of \$382 are included in patient service revenues, and fees and pledges of \$269 are included in other expenses. As of December 31, 2015, supplemental payments of \$127 are included in other receivables, \$63 of fees are included in accounts payable and \$5 of pledges are included in prepaid expenses. For the year ended December 31, 2014, supplemental payments for the 36-month Program of \$335 are included in patient service revenues and other receivables, and fees and pledges of \$242 are included in other expenses and accounts payable.

#### 11. COMMUNITY BENEFIT EXPENSE

Services for the poor and underserved include traditional charity care, which covers health care services provided to persons who meet certain criteria and cannot afford to pay, as well as the unpaid costs of public programs treating Medi-Cal and indigent beneficiaries. Costs are computed based on a relationship of costs to charges. Services for the poor and underserved also include the cost of other services provided to persons who cannot afford health care because of inadequate resources and are uninsured or underinsured, and cash donations on behalf of the poor and needy. Sutter provided charity care services to patients at an estimated cost of \$52 and \$91 for 2015 and 2014, respectively.

### 11. COMMUNITY BENEFIT EXPENSE (continued)

Benefits for the broader community include costs of providing the following services: health screenings and other health-related services, training health professionals, educating the community with various seminars and classes, the cost of performing medical research, and the costs associated with providing free clinics and community services. Benefits for the broader community also include contributions Sutter makes to community agencies to fund charitable activities.

The following is a summary of Sutter's estimated costs of providing services to the poor and broader community for the year ended December 31, 2015:

Sutter's projected medical cost trend rate related to the Health Plans for 2016 is 6.0%. The assumed medical cost trend rate is expected to gradually decrease in subsequent years to 4.8% in 2023 and thereafter. A one-percentage-point change in assumed health care cost trend rates would not have a material effect on Sutter's consolidated financial statements.

The Pension and Investment Committee of the Board of Directors oversees the assets of the Retirement Plan and the Health Plans. Management of the assets is governed by the application of modern portfolio theory, resulting in asset class diversification and mean-variance optimization. Sutter's investment strategy is to balance the liquidity needs of the plans with the long-term return goals necessary to satisfy future obligations.

The target asset allocation seeks to reduce volatility while capturing the equity premium from the capital markets over the long-term and maintaining security of principal to meet near-term expenses and obligations. The target asset allocation at December 31, 2015, by major asset category is as follows:

|                                 | Target<br>Allocation<br>2015 |

Equity securities are comprised of U.S. and foreign equity securities, common and collective trusts, and commingled funds. The equity securities' target asset allocation of 59% is further comprised of 26% domestic large capitalization, 6% domestic small capitalization and 27% international/global.

The portfolio return assumption of 7.7% and 7.9% for 2015 and 2014, respectively, was based on the weighted-average return of comparative market indices for the major asset classes represented in the portfolio, net of administrative expenses.

### 12. POSTRETIREMENT BENEFITS (continued)

For the two participating affiliates in the Retirement Plan for Hospital Employees, participant benefits were frozen for the non-contractual employees on January 1, 2011, and for the contractual employees on January 1, 2014. Both affiliates will continue to make periodic contributions as needed for eligible participants.

There are no minimum contributions required for future periods by the collective-bargaining agreements, statutory obligations, or other contractual obligations for both plans.

The risks of participating in multiemployer plans are different from single-employer plans in the following aspects: (i) assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers; (ii) if a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers; and (iii) if the affiliates choose to stop participating in the multiemployer plan, the affiliates may be required to pay the plan an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

Sutter also maintains various defined contribution plans for eligible employees. Sutter's contributions to such plans were \$65 and \$66 in 2015 and 2014, respectively.

### 13. FUNCTIONAL CLASSIFICATION OF EXPENSES

The following is a functional classification of Sutter's expenses:

### 14. CONTINGENCIES AND COMMITMENTS

Contingencies: Sutter and certain affiliates were named in three class action complaints alleging meal and rest period and other wage-hour violations on behalf of certain employees. These class action suits were coordinated in the Alameda County Superior Court. In December 2012, the court denied plaintiffs' motion for class certification in its entirety. Plaintiffs from one of the suits appealed this decision. Sutter agreed to settle on an individual basis with the plaintiffs from the two other class actions for amounts that did not have a material adverse effect on Sutter's consolidated financial position or results of operations. On June 3, 2014, the appellate court affirmed the trial court's denial of class certification and the appeal period has expired. All additional individual lawsuits related to these complaints were dismissed on February 26, 2016 for failure to prosecute within the applicable statute of limitations.

In January 2007, a class action complaint was filed against Sutter alleging lack of accessibility to Sutter facilities for people with disabilities. In 2008, Sutter entered into a settlement agreement with the plaintiffs. The settlement agreement provides for an implementation period of ten years, ending July 2018. The settlement terms address: (i) correction to certain physical barriers that may limit a disabled person's access to facilities; (ii) modification to or purchase of medical equipment to provide improved accessibility to medical equipment; and (iii) adoption of new policies and procedures to improve access to facilities. Assessment of physical barriers and potential modification is currently in progress and is expected to continue for several years. It is difficult to estimate the cost of these proposed modifications. There can be no assurance that the resolution of these matters will not have a material adverse effect on Sutter's consolidated financial position or results of operations.

As a part of its compliance activities, Sutter performed an internal compliance audit related to certain physician arrangements of certain affiliates. Sutter elected to make voluntary self-disclosures to the federal government (in accordance with federal self-disclosure guidelines) related to certain physician financial arrangements that may constitute potential violations of federal regulatory standards. These disclosures were made in October and November 2010, November 2011, January 2014, and October 2014. The resolution of this matter is currently on hold as there is potential overlap with the regulatory investigation noted below. Any settlements are not expected to have a material adverse effect on Sutter's consolidated financial position or results of operations.

In February 2015, Sutter received notification of a regulatory investigation regarding certain physician financial arrangements. The investigation spans a timeframe beginning

in January 2006 through the present. The investigation is in its early stages and no final conclusions can be reached. The investigation could include payments to the government and/or the imposition of additional compliance requirements. At this time, management cannot estimate the amounts of any payments or settlements that may result, or whether additional, related matters may arise. There can be no assurance that the resolution of this investigation will not have a material adverse effect on Sutter's consolidated financial position or results of operations.

Certain Sutter affiliates received a request to cooperate with the Department of Justice (the "DOJ") in a national investigation to determine whether implantable cardioverter defibrillators provided to certain Medicare beneficiaries were provided in accordance with national coverage criteria. The DOJ's investigation spanned a time frame beginning in October 2003 through June 2010. In May 2015, Sutter settled this matter for \$3 with no imposition of any additional corrective actions.

Sutter management is aware of two potentially material privacy and security incidents within Sutter. The affiliates in each of these matters have taken action to notify affected patients and continue to coordinate with relevant state and federal agencies. The first involves a stolen computer with limited data on approximately 4.25 million patients. Sutter received notice that it and certain affiliates were named in multiple state and federal class action lawsuits related to the stolen computer, claiming private class-wide damages for data breaches. In July 2014, the appellate court dismissed the lawsuits, determining that the claims could not continue as no actual breach of confidentiality had occurred. Plaintiffs filed a petition for review with the California Supreme Court, which was denied and the class action lawsuits have now been dismissed. The second involves an incident caused when a former employee took paper and electronic patient information involving approximately 2,701 Sutter patients without authorization. No penalties have been assessed and no class action lawsuit has been filed. While each of the privacy and security incidents referenced above are in a different stage, future penalties may be assessed by regulatory agencies and additional patients may file private legal causes of action. There can be no assurance that any future penalties or private legal causes of action related to these privacy and security incidents, individually or in the aggregate, will not have a material adverse effect on Sutter's consolidated financial position or results of operations.

In recent years, government activity has increased with respect to investigations and allegations concerning possible violations of reimbursement, false claims, anti-kickback

and anti-referral statutes, and regulations by health care providers. Certain Sutter affiliates have received, and are in the process of responding to, requests from governmental agencies, including the Department of Justice, the California Attorney General, the California Department of Public Health and the Office of Civil Rights. Sutter is also involved in other litigation, as both plaintiff and defendant, and other routine labor matters, class-action complaints, tax examinations, security events resulting in potential privacy incidents and regulatory investigations and examinations arising in the ordinary course of business. There can be no assurance that the resolution of these matters will not have a material adverse effect on Sutter's consolidated financial position or results of operations.

As of December 31, 2015, Sutter had approximately 52,000 employees, of whom approximately 32,000 are full-time employees. Approximately 25% of these 52,000 employees are employed by 26 Sutter facilities and are represented by collective bargaining units. Of these employees, 9% are represented by collective bargaining agreements that expired from September 30, 2014 to December 31, 2015 and are in the process of being negotiated. Employee strikes or other adverse labor actions may have a material adverse impact on Sutter's consolidated financial position or results of operations.

Commitments: Sutter is required to remediate certain of its health care facilities to comply with earthquake retrofit requirements under a State of California law. Most of Sutter's facilities are compliant or have received extensions, making the facilities compliant until 2030, and Sutter is evaluating its facilities and is considering all options. On July 9, 2013, the City and County of San Francisco (CCSF) approved two projects proposed by Sutter West Bay Hospitals (SWBH), doing business as California Pacific Medical Center (CPMC). Pursuant to these approvals, SWBH is building a new hospital at Van Ness and Geary and a new hospital at a site adjacent to the St. Luke's hospital in San Francisco. As a condition of obtaining approval of the projects, SWBH entered into a development agreement with CCSF that obligated SWBH to pay the aggregate sum of \$85, which is generally payable in installments beginning in 2013 and ending in 2017, with a remaining commitment of \$21 as of December 31, 2015. The remaining estimated cost of development and construction is approximately \$1,830 (unaudited) for these two facilities, a parking lot, and tenant improvements associated with a new medical office building adjacent to the new hospital at Van Ness and Geary.

Sutter's capital allocation plan, which includes amounts for seismic retrofits, replacements, and relocations, is approximately \$4,579 (unaudited) from January 1, 2016 to December 31, 2020. Management and the Board of Directors evaluate Sutter's capital needs on an ongoing basis.

#### **Employees, Unions and Collective Bargaining Units**

As of December 31, 2015, the Sutter Health system had approximately 52,000 employees, of which approximately 32,000 are full-time employees. Approximately 4,600 of these 52,000 employees are employed by Sutter Health and the remaining employees are employed by Affiliated Entities. Approximately 25% of these employees (employed at 26 Sutter Health facilities) are represented by collective bargaining units, with 53 collective bargaining agreements in place that are subject to renegotiation from time to time. Renegotiation could result in work stoppages or other adverse labor actions and potential sympathy walkouts. Labor strikes have occurred in the past at the Obligated Group's facilities and likely will occur again in the future.

### **Obligated Group Utilization Information**

The following table summarizes the Obligated Group's acute care facility utilization data for the fiscal year ended December 31, 2015. This Continuing Disclosure Report no longer contains information related to long-term care facilities, as Mills-Peninsula Skilled Nursing, Sutter Health's last remaining freestanding skilled nursing facility operating under its own license and Medicare provider number, was sold outside of the Sutter Health system on June 30, 2015. Management of Sutter Health does not believe this sale will have a material adverse effect on the financial condition of the Obligated Group.
