

**Supplement dated April 1, 2011 to MI 529 Advisor Plan
Disclosure Statement and Participation Agreement for Investors Using a
Financial Advisor
(Classes A and C)
Dated November 30, 2009**

This Supplement to the MI 529 Advisor Plan Disclosure Statement dated November 30, 2009, as amended (the “Disclosure Statement”), supplements certain information contained in the Disclosure Statement and should be read in conjunction with the Disclosure Statement. Capitalized terms used but not defined in this Supplement have the meanings given to them in the Disclosure Statement.

Allianz AGIC Emerging Growth Fund

Effective, Friday, April 1, 2011, the Allianz AGIC Emerging Growth Fund, an underlying mutual fund within the MI 529 Advisor Plan, will be renamed the Allianz AGIC U.S. Emerging Growth Fund. All references in the Disclosure Statement to the Allianz AGIC Emerging Growth Fund are changed to the Allianz AGIC U.S. Emerging Growth Fund.

The following replaces the fifth sentence on page 14 in the section entitled Dollar-Cost Averaging Option (Auto-Exchange):

In order to select the dollar-cost-averaging investment option, an Account Owner must contribute a minimum of \$1,000 to the PIMCO Government Money Market Portfolio and must elect to transfer not less than \$25 per month to another pre-selected Investment Portfolio with respect to any existing balance in the PIMCO Government Money Market Portfolio.

The following replaces the table on page 27:

Total Annual Fund Expenses

1 The total annual operating expenses were calculated based on the fiscal year information reported in the most recent prospectus of each Underlying Fund available prior to the date of this Disclosure Statement. For Investment Portfolios invested in multiple Underlying Funds, such estimated expense is a weighted average of the underlying funds' expense ratios, in accordance with such Portfolio's allocation among such funds.

2 A portion of the Program Management Fee is paid by the Plan Administrator to the Program Manager monthly.

3 Paid directly to the State to administer and maintain the State's qualified tuition programs.

4 See "FEES PAYABLE BY ACCOUNT OWNERS," to determine whether a reduced sales charge would be applied to your contribution, or for details regarding circumstances under which a sales charge may be waived. Class C Units will be subject to a contingent deferred sales charge for withdrawals made within 12 months of a contribution.

The following should replace the Performance table provided in the supplement dated November 30, 2010.

Historical Performance of Investment Portfolios

The following tables summarize the average annual total return after deducting ongoing Portfolio fees of each Investment Portfolio as of December 31, 2010. Sales charges related to investments in the Investment Portfolios are not reflected in the returns set forth below. If the sales charges were reflected, returns would be less than those shown.

Updated performance data is available by visiting the Program's Web site, www.mi529advisor.com, or by calling the Program Manager, toll-free, at **1-866-529-8818**. The Program's fiscal year runs from October 1st to September 30th of each year.

The performance data set forth below is not indicative of the future performance of the Investment Portfolios. Ongoing market volatility can dramatically impact short-term performance. Future performance may be less than shown.

Annualized Total Returns (without Sales Charges) for periods ended December 31, 2010					
Class A	Inception Date	Year-to-Date¹	1-Year	3-Year	Since Inception¹
Age-Based Portfolios					
Age-Based 1 (Ages 0-8)	12/01/09	14.01%	14.01%	-	12.75%
Age-Based 2 (Ages 9-11)	12/01/09	13.76%	13.76%	-	12.93%
Age-Based 3 (Ages 12-14)	12/01/09	8.62%	8.62%	-	7.72%

The following should be added to the section entitled “Underlying Fund Descriptions” located on pages 42-55 of the Disclosure Statement dated November 30, 2009.

Allianz AGIC Opportunity Fund

Investment Objective and Principal Strategies. The Fund seeks capital appreciation; no consideration is given to income. The Fund seeks to achieve its objective by normally investing at least 65% of its assets in common stocks of “growth” companies with market capitalizations of less than \$2 billion. The portfolio managers’ investment process focuses on bottom-up, fundamental analysis. The portfolio managers consider “growth” companies to include companies that they believe to have above-average growth prospects (relative to companies in the same industry or the market as a whole). In seeking to identify these companies, the portfolio managers will consider fundamental characteristics such as revenue growth, volume and pricing trends, profit margin behavior, margin expansion opportunities, financial strength, cash flow growth, asset value growth and earnings growth. The investment process includes both quantitative and qualitative analysis. Once a potential investment is identified, the portfolio managers conduct a quantitative analysis to determine if the security is reasonably priced with respect to its peer group on a historical and current basis. Then fundamental research is conducted, focusing on a review of financial statements and third-party research. The portfolio managers seek to diversify the portfolio among different industries. The Fund may invest in securities issued in initial public offerings (IPOs) and up to 15% of its assets in non-U.S. securities (without limit in American Depositary Receipts (ADRs)). Effective August 25, 2010, the Fund changed its name from “Allianz

OCC Opportunity Fund” in connection with the Fund’s previous sub-adviser, Oppenheimer Capital LLC, transferring its advisory business to the Fund’s current sub-adviser.

Principal Risks. The Fund’s net asset value, yield and total return will be affected by the allocation determinations, investment decisions and techniques of the Fund’s management, factors specific to the issuers of securities and other instruments in which the Fund invests, including actual or perceived changes in the financial condition or business prospects of such issuers, and factors influencing the U.S. or global economies and securities markets or relevant industries or sectors within them (Management Risk, Issuer Risk, Market Risk). Equity securities may react more strongly to changes in an issuer’s financial condition or prospects than other securities of the same issuer, and securities issued by smaller companies may be more volatile and present increased liquidity risk (Equity Securities Risk, Smaller Company Risk). Other principal risks include: Credit Risk (an issuer or counterparty may default on obligations); Focused Investment Risk (focusing on a limited number of issuers, sectors, industries or geographic regions increases risk and volatility); IPO Risk (securities purchased in initial public offerings have no trading history, limited issuer information and increased volatility); Liquidity Risk (the lack of an active market for investments may cause delay in disposition or force a sale below fair value); Non-U.S. Investment Risk, Currency Risk (non-U.S. securities markets and issuers may be more volatile, smaller, less liquid, less transparent and subject to less oversight, and non-U.S. securities values may also fluctuate with currency exchange rates); and Turnover Risk (high levels of portfolio turnover increase transaction costs and taxes and may lower investment performance). Please see “Summary of Principal Risks” in the Fund’s statutory prospectus for a more detailed description of the Fund’s risks. It is possible to lose money on an investment in the Fund. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

PIMCO Floating Income

Investment Objective and Principal Strategies. The Fund seeks maximum current yield consistent with prudent investment management. The Fund seeks to achieve its investment objective by investing under normal circumstances at least 80% of its assets in a diversified portfolio of investments that effectively enable the Fund to achieve a floating rate of income, including, but not limited to, variable and floating-rate Fixed Income Instruments, Fixed Income Instruments with durations of less than or equal to one year, and fixed-rate Fixed Income Instruments with respect to which the Fund has entered into derivative instruments to effectively convert the fixed-rate interest payments into floating-rate interest payments, each of which may be represented by forwards or derivatives such as options, futures contracts or swap agreements. “Fixed Income Instruments” include bonds, debt securities and other similar instruments issued by various U.S. and non-U.S. public- or private-sector entities. The average portfolio duration of this Fund will vary based on Pacific Investment Management Company LLC’s (“PIMCO”) forecast for interest rates and will normally not exceed one year. Duration is a measure of the expected life of a fixed income security that is used to determine the sensitivity of a security’s price to changes in interest rates. The Fund may also invest in other Fixed Income Instruments. Variable and floating-rate Fixed Income Instruments generally pay interest at rates that adjust whenever a specified interest rate changes and/or reset on predetermined dates (such as the last day of a month or calendar quarter).

The Fund may invest all of its assets in high yield securities (“junk bonds”) rated at least Caa by Moody’s, or equivalently rated by S&P or Fitch, or, if unrated, determined by PIMCO to be of comparable quality, subject to a maximum of 10% of its total assets in securities rated below B by Moody’s, or equivalently rated by S&P or Fitch, or, if unrated, determined by PIMCO to be of comparable quality. In addition, the Fund may invest, without limitation, in securities and instruments that are economically tied to emerging market countries. The Fund may invest, without limitation, in securities denominated in foreign currencies and in U.S.-dollar-denominated securities of foreign issuers.

The Fund may invest, without limitation, in derivative instruments, such as options, futures contracts or swap agreements, or in mortgage- or asset-backed securities, subject to applicable law and any other restrictions described in the Fund’s prospectus or Statement of Additional Information. The Fund may purchase or sell securities on a when-issued, delayed delivery or forward commitment basis and may engage in short sales. The Fund may, without limitation, seek to obtain market exposure to the securities in which it primarily invests by entering into a series of purchase and sale contracts or by using other investment techniques (such as buy-backs or dollar rolls). The Fund may also invest up to 10% of its total assets in preferred stocks.

Principal Risks. The principal risks of investing in the Fund, which could adversely affect its net asset value, yield and total return are: interest rate risk, credit risk, high yield risk, market risk, issuer risk, liquidity risk, derivatives risk, equity risk, mortgage-related and other asset-backed risk, foreign (non-U.S.) investment risk, emerging markets risk, currency risk, leveraging risk, management risk, and short sale risk.
