# THE TRUSTEES of INDIANA UNIVERSITY (CUSIP6: 455167 and 455152) Annual Disclosure Document December 2013

Relating to the following bond issues occurring in the month and year specified:

**Indiana University Student Fee Bonds, Series O: March 2003** 

Indiana University Student Fee Bonds, Series P: December 2004

Indiana University Student Fee Bonds, Series Q: June 2006

Indiana University Student Fee Bonds, Series R: June 2006

Indiana University Student Fee Bonds, Series S: February 2008

Indiana University Student Fee Bonds, Series T-1 & T-2: April 2010

Indiana University Student Fee Bonds, Series U: July 2011

Indiana University Student Fee Bonds, Series V-1 & V-2: October 2012

Indiana University Consolidated Revenue Bonds, Series 2008A: February 2008

Indiana University Consolidated Revenue Bonds, Series 2009A: April 2009

Indiana University Consolidated Revenue Bonds, Series 2010A & B: May 2010

Indiana University Consolidated Revenue Bonds, Series 2011A: March 2011

Indiana University Consolidated Revenue Bonds, Series 2012A: January 2012

Indiana University Certificates of Participation, Series 2003A: April 2003

Indiana University Certificates of Participation, Series 2009A & B: December 2009

Indiana University Certificates of Participation, Series 2012A: February 2012

**Indiana University Certificates of Participation, Series 2013A: March 2013** 

Indiana University Facility Revenue System Bonds, Series 2004: July 2004

Indiana University Student Residence System Bonds, Series 2004B: June 2004

Exhibit A - Audited Financial Statements for the Fiscal Year Ended June 30, 2013

**Exhibit B - Certificate RE: Audited Financial Statements** 

Exhibit C - Certificate RE: Annual Financial Information Disclosure

Schedule I to Exhibits B and C

#### INDIANA UNIVERSITY

#### General

Indiana University (the "University" or "IU") is one of the largest universities in the nation. It was established by the Indiana General Assembly (the "General Assembly") in 1820 as Indiana Seminary and was located in Bloomington. It was designated as Indiana College by the General Assembly in 1828 and became Indiana University in 1838.

The University is composed of eight campuses, with core campuses in Bloomington and Indianapolis and regional campuses serving other areas of Indiana located in Gary ("Northwest"), Fort Wayne (Indiana University Purdue University Fort Wayne) ("Fort Wayne"), Kokomo, New Albany ("Southeast"), Richmond ("East"), and South Bend. The Bloomington campus is the oldest and largest campus in the University system, occupying 1,928 acres, and is the primary residential campus. The Indiana University Purdue University at Indianapolis campus ("IUPUI") is the home of the Indiana University School of Medicine, the School of Dentistry, and the School of Nursing. The eight campuses of the University encompass a total of 3,635 acres. Indiana University and Purdue University ("Purdue") jointly offer academic programs at IUPUI and Fort Wayne. The University has fiscal responsibility for IUPUI, and Purdue has fiscal responsibility for Fort Wayne.

#### **Forward Looking Statements**

Certain information contained in this document, particularly that titled "Student Enrollment," "Fees - Student Budget," "Operating Budget and Related Procedures," "State Appropriations to the University," and "Capital Program" and under the financial report accompanying this document —"Management Discussion and Analysis", contains "forward looking statements" based on current expectations, estimates, forecasts and projections about and assumptions made by the University. These forward-looking statements may be identified by the use of forward-looking terms such as "may," "will," "expects," "believes," "anticipates," "plans," "estimates," "projects," "targets," "forecasts," and "seeks" or the negatives of such terms or other variations on such terms or comparable terminology. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that could cause actual outcomes and results to differ materially. These risks and uncertainties include demographic changes, demand for higher education services and other services of the University, competition with other higher education institutions and general domestic economic conditions including economic conditions of the state of Indiana (the "State"). The University disclaims any intention or obligation to update or revise any forward looking statements, whether as a result of new information, future events or otherwise.

#### Academic Colleges, Schools & Divisions of the University

The University divides the academic year into two academic semesters and an additional summer session varying in length by campus. The University offers courses in the arts, humanities, social, behavioral, physical and life sciences, and professional fields. Additional programs include military science, professional practice, IU Online, and special summer session programs.

The major areas and fields of study at the University's campuses are organized into specific schools, colleges and divisions as shown.

#### University Schools, Colleges and Divisions

<u>Bloomington</u> <u>East</u>

College of Arts and Sciences School of Business and Economics

#### **Authorized Degree Programs and Degrees Conferred**

For the 2013-14 academic year, 741 Indiana University degree programs, including IU Online programs, were authorized and implemented on the University's campuses, excluding Fort Wayne. Four-year programs leading to baccalaureate degrees constitute the largest single category, accounting for 362 programs. Advanced

degrees (doctoral and professional) and master's account for 350 programs. Associate degrees account for 29 programs. Purdue University programs authorized and implemented on the IUPUI campus resulting in Indiana University degrees account for 41 programs, which are reported in the totals above.

The University's total headcount enrollment for the fall semester of 2013 was 115,412, including IU students at the Purdue administered Fort Wayne campus, or 107,132 IU students at campuses administered by the University. During the academic year ended June 30, 2013, the University awarded a total of 21,095 degrees consisting of 14,344 bachelor's degrees, 4,715 master's degrees, 1,526 professional and doctoral degrees, and 510 associate degrees.

#### **Accreditations and Memberships**

The University is fully accredited in all of its departments and divisions by the Higher Learning Commission of the North Central Association of Colleges and Schools. Each professional school holds full accreditation from its respective professional association. The University is a member of the American Council of Education and the Association of American Universities.

#### The Board of Trustees of the University

(Hamilton County)

The University is governed by a nine-member Board of Trustees ("Trustees"), which under Indiana statutes has policy and decision-making authority to carry out the programs and missions of the University. Five of the members of the Board of Trustees are appointed by the Governor for three year terms; three trustees are elected by the alumni of the University for three year terms, with one alumnus trustee being elected each year; and one trustee position must be a full-time student of the University. The student trustee is appointed by the Governor for a two year term. Certain officers of the Board of Trustees are not members.

The current members and officers of the Board of Trustees are listed below:

#### **BOARD OF TRUSTEE MEMBERS**

Thomas E. Reilly Jr., Chair (Marion County)	American Chemistry Council, President and CEO (retired); Reilly Industries, Inc., President and Chairman of the Board (retired)
MaryEllen Kiley Bishop, Vice Chair (Hamilton County)	Cohen, Garelick and Glazier, Attorney/Partner
William R. Cast, M.D. (Allen County)	NoMoreClipboard, CEO
Philip N. Eskew, Jr., M.D. (Kosciusko County)	ENT Specialists, Fort Wayne, Physician; St. Vincent Hospital, Director, Physician and Patient Relations (retired); Obstetrics & Gynecology, IU School of Medicine, Clinical Professor
Janice L. Farlow (Marion County)	M.DPh.D. candidate at the IU School of Medicine
James T. Morris (Marion County)	Pacers Sports and Entertainment, President; United Nations World Food Programme, Executive Director (former); Indianapolis Water Company, CEO (former)
Derica W. Rice	Eli Lilly and Company, Executive Vice President for Global Services

and Chief Financial Officer

Patrick A. Shoulders (Vanderburgh County)

Ziemer, Stayman, Weitzel & Shoulders, Attorney/Partner

Randall L. Tobias (Hamilton County)

Eli Lilly and Company, CEO (retired); AT&T International, Chairman and CEO (former); first U.S. Global AIDS Coordinator (former); first Director of U.S. Foreign Assistance and Administrator of the U.S.

Agency for International Development (USAID) (former)

BOARD OF TRUSTEE OFFICERS

Thomas E. Reilly Jr. Chair of the Trustees

MaryEllen Kiley Bishop Vice Chair of the Trustees

MaryFrances McCourt Treasurer of the Trustees

Stewart T. Cobine Assistant Treasurer of the Trustees

Robin Roy Gress Secretary of the Trustees

Jacqueline A. Simmons Assistant Secretary of the Trustees

#### **Administrative Officers of the University**

As the chief executive of the University, the President is appointed by the Trustees and is responsible for the operation of the entire University within the framework of policies provided by the Trustees. The President is responsible for accomplishing the objectives of the University, for determining missions and priorities for its various units, and for the effective and efficient planning, use, and management of its resources. The following is a list of the major officers of the University.

Michael A. McRobbie, President

John S. Applegate, Executive Vice President for University Academic Affairs

Charles R. Bantz, Executive Vice President and Chancellor, Indiana University-Purdue University Indianapolis

G. Frederick Glass, Vice President and Director of Intercollegiate Athletics

Jay L. Hess, Vice President for University Clinical Affairs

Jorge V. José, Vice President for Research

MaryFrances McCourt, Vice President, Chief Financial Officer, and Treasurer

Thomas A. Morrison, Vice President for Capital Planning and Facilities

Lauren K. Robel, Executive Vice President and Provost, Indiana University Bloomington

Michael M. Sample, Vice President for Public Affairs and Government Relations

Jacqueline A. Simmons, Vice President and General Counsel

William B. Stephan, Vice President for Engagement

Bradley C. Wheeler, Vice President for Information Technology and Chief Information Officer

James C. Wimbush, Vice President for Diversity, Equity and Multicultural Affairs

David Zaret, Vice President for International Affairs

Susan Sciame-Giesecke, Interim Chancellor of Indiana University Kokomo

William J. Lowe, Chancellor of Indiana University Northwest

Barbara A. Bichelmeyer, Interim Chancellor of Indiana University Southeast

Kathryn Cruz-Uribe, Chancellor of Indiana University East

Terry L. Allison, Chancellor of Indiana University South Bend

Vicky L. Carwein, Chancellor of Indiana University-Purdue University Fort Wayne

Adam W. Herbert, President Emeritus of the University

Thomas Ehrlich, President Emeritus of the University

These are brief biographical sketches of certain officers:

MICHAEL A. MCROBBIE - President. Michael A. McRobbie took office as the 18th president of the University on July 1, 2007. From the beginning of his tenure as president, McRobbie has focused on the University's fundamental missions of excellence in research and teaching to be achieved through a great faculty, responsive and relevant education, an enhanced global presence, expanded infrastructure, a rededication to the arts and humanities, and new economic development and engagement initiatives. McRobbie joined the University in 1997 as Vice President for Information Technology and Chief Information Officer. In 2003, he assumed the additional position of Vice President for Research, and three years later the Trustees appointed him Interim Provost and Vice President for Academic Affairs. McRobbie holds professorships in computer science, informatics, and philosophy, and adjunct professorships in cognitive science and information science at the Bloomington campus. He is also a professor of computer technology at the School of Engineering and Technology (Purdue) at the IUPUI campus. A member of many national and international industrial, governmental, and scientific boards and committees, McRobbie was a co-founder of the high-performance broadband Asia Pacific Advanced Network, which supports the research and education community all across the Asia-Pacific region. A native of Australia who became a U.S. citizen in 2010, he earned a Bachelor of Arts degree from the University of Queensland and a Doctoral degree at the Australian National University. He has also received honorary degrees from the Australian National University, the University of Queensland, and Sungkyunkwan University in Seoul, South Korea. Additionally, McRobbie has been elected an honorary member of the Australian Academy of Humanities and appointed as an Officer in the General Division of the Order of Australia, one of that nation's highest honors.

MARYFRANCES MCCOURT – MaryFrances McCourt was named Vice President, CFO and Treasurer of the University in August 2013, after having served in this capacity on an interim basis since January 2013. She joined the University as Treasurer of the University and Treasurer of the Trustees in October 2005. McCourt is responsible for the management of Capital Finance; Controller's Office; Procurement; Treasury Operations, University Budget; University Bursar; University Human Resources; and the recently established Office of Student Financial Literacy. Her work at the University has been characterized by streamlined business processes; enabling technology; increased governance; and the delivery of sophisticated financial analysis/forecasting tools, which have allowed the University to adapt its business model, while maintaining a position of financial strength. Before joining the staff of Indiana University, McCourt was Assistant Treasurer for a multi-billion dollar distributor and premier reseller of enterprise computer technology solutions, headquartered in Cleveland, Ohio. She has held various positions in strategic planning; financial analysis and treasury management with a particular focus on operational efficiency; business planning (including acquisitions, divestitures and new business modeling);

customer, vendor and product line profitability analyses; and balance sheet management. McCourt graduated with a B.A., magna cum laude, in Economics from Duke University and an M.B.A. from Case Western University.

#### **Facilities**

**Square Footage** There are 871 buildings on all campuses of the University encompassing 34.5 million gross square feet, of which approximately 21.2 million square feet are assignable to operating units.

**Libraries** The University's Library System serves all campuses with separate collections as well as interlibrary loan programs. As of June 30, 2013, the library system holdings include 12.8 million volumes. The University's libraries are open to residents of the State as well as University faculty and staff.

The Lilly Library on the Bloomington campus houses the University's collections of rare books and manuscripts. Its holdings number more than 400,000 books, over 7,500,000 manuscripts and 150,000 pieces of sheet music.

Information Technology Services University Information Technology Services ("UITS") is responsible for the continued development of a high-performance computing and communications infrastructure and the information technology environment that contains tools and services that support the University's academic, research, and administrative work, including a high-speed campus network with wireless access; central web hosting; tools and support for instruction and research; supercomputers for data analysis and visualization; more than 2,000 virtual servers in the state-of-the-art, disaster-resistant Data Center; and hundreds of public-access, Internet-connected workstations. Interconnecting these resources is a high-speed statewide fiber optic network connecting all University campuses. The network is connected to national and international research and education networks, such as the Internet2 Network. UITS has offices at IU Bloomington, IUPUI, IUPU Columbus, IU East, IU Kokomo, IU South Bend, and IU Southeast, and employs more than 950 highly trained professionals to support and expand the University's information technology capabilities. UITS is composed of six divisions: Research Technologies; Learning Technologies; Client Services and Support; Enterprise Software; Networks; and Enterprise Infrastructure, all working together to support the University community in its use of information technology. UITS reports to the Office of the Vice President for Information Technology and Chief Information Officer, which provides leadership for the continued development of information technology at IU.

**Research** As of fall 2012, the University, excluding the Fort Wayne Campus, has approximately 1.2 million assignable square feet of laboratories and service areas used for research purposes, primarily on the Bloomington and IUPUI campuses. The nature and function of this research space ranges from highly specialized to broad multi-disciplinary uses, with an emphasis on life and medical sciences.

Housing Facilities This section relates to all housing on the campuses administered by the University. The University has indicated certain housing facilities on the Bloomington and IUPUI campuses as being under a student residence system indenture under which the University will no longer issue bonds. This section is not limited to those facilities, but rather incorporates all University housing. All undergraduate first-year students on the Bloomington campus are required to live in on-campus housing facilities, which include residence halls, on-campus apartments, and fraternity and sorority houses. As of fall 2013, the Bloomington campus provided residence hall housing for 10,794 students and apartment housing for 1,446 students. Occupancy in Bloomington campus residence halls and apartment housing was 94% and 99%, respectively. On the Bloomington campus, as of spring 2013, approximately 6,577 undergraduate students participated in Greek life in 40 fraternities and 31 sororities, with 19 fraternities and 19 sororities providing on-campus housing. As of fall 2013, the residence facilities on the IUPUI campus provided living quarters for 1,696 students, through a combination of apartment style housing, traditional co-ed residence halls, and townhouse units. Occupancy in IUPUI campus housing was 100%. As of fall 2013, the South Bend campus provided living quarters for approximately 399 students with housing occupancy at 83%. The Southeast campus provided living quarters for approximately 400 students with housing occupancy at 98%. The 2011-12 plan to expand the housing program at the Southeast campus by 87 beds was put on hold in 2013, due to a change in enrollment trends. Other regional campuses for which the University has fiscal responsibilities have no student residence facilities.

Parking Facilities This section relates to all parking on the campuses administered by the University. The University has indicated certain parking facilities on the Bloomington, IUPUI, Kokomo, and South Bend campuses as being under a facility revenue indenture under which the University will no longer issue bonds. This section is not limited to those facilities, but rather incorporates all University parking. Parking space is provided for faculty, staff, students and visitors on all University campuses. Use of all parking areas and parking facilities is generally limited to paid permit holders, except for those garages and surface lots provided for visitors that are controlled by daily parking rates. Parking is available at nineteen garages on four campuses and at various surface lots on all University campuses. It is anticipated that within fiscal year 2014, IUPUI will have one additional garage from a land swap with Wishard Memorial Hospital, which is currently known as the Sidney & Lois Eskenazi Hospital and Eskenazi Health Campus, located next to the IUPUI campus. From the land swap, it is anticipated that fiscal year 2014 will show an increase of 1,200 garage spaces and 379 surface lot spaces.

*Other Facilities* Some of the University's other facilities include observatories; television, radio and journalism facilities; theatre and performance facilities; fine art studios; extensive science and medical teaching laboratories; museums of art and archaeology; printmaking facilities; and Bradford Woods – a 2,500 acre outdoor educational facility and nature preserve.

#### **Faculty and Staff**

The University's full-time academic administrators, faculty and lecturers consisted of 5,160 persons (academic staff who are tenure/tenure track faculty, and non-tenure track faculty and executive/administrators with faculty status), as of the fall semester of 2013. The percentage of faculty at the University's Bloomington and IUPUI campuses that have tenure are 74% and 67%, respectively. Percent of tenured faculty is calculated by dividing the number of full-time faculty and administrators who are tenured by the total number of full-time faculty and administrators who are eligible for tenure. As of the fall semester of 2013, 88% of Bloomington campus faculty (including visiting faculty) and academic administrators with professional rank hold a doctoral or professional degree. This percentage is 91% at IUPUI and 83% at the other campuses.

The number of full-time administrators and staff employed by the University totaled 12,035 as of fall 2013. The University recognizes four employee unions: (1) American Federation of State, County and Municipal Employees (AFSCME) Service Staff, for certain custodian, craft, maintenance and food service personnel; (2) AFSCME Police for certain police officers; (3) Communications Workers of America (CWA) for certain clerical, technical, and support personnel; and (4) International Alliance of Theatrical Stage Employees (IATSE) Stagehands for certain staff and hourly personnel. University administration meets and confers with each union about specific working conditions under the framework of "Conditions for Cooperation," a policy statement adopted by the Trustees, but does not negotiate collective bargaining agreements. As an instrumentality of the state of Indiana, the University and its employees are not subject to the provisions of the National Labor Relations Act, as amended, but are governed by state law, which prohibits strikes by public employees. Each union's status as exclusive representative of certain University employees is conditioned upon their disavowal of the right to strike in accordance with such law and Trustees policy.

#### **Student Admissions**

The University attracts students from a variety of backgrounds and geographic locations, with representation from 49 states, Washington D.C., and 168 foreign countries, as of fall 2013. Indiana residents represented 75% of the total enrollment, while 25% were from other states, Washington D.C., or foreign countries.

The table below sets forth the total number of beginning student applications received, applications accepted, percent accepted, and the percent of acceptances for beginning students who enrolled. These numbers are aggregate numbers, combined for all campuses, except for Fort Wayne, which is administered by Purdue University.

Applications and Enrollments 1

Academic	Applications	Applicants	Percent	Percent of
<u>Year</u>	Received	<b>Accepted</b>	<b>Accepted</b>	Accepted Enrolled
2009-10	50,243	36,493	72.6	39.6
2010-11	57,438	39,438	68.7	35.0
2011-12	53,772	38,576	71.7	36.8
2012-13	55,091	39,855	72.3	36.3
2013-14	58,669	41,988	71.6	35.9

Source: University Institutional Research and Reporting

In the 2013-14 academic year, 95% of Bloomington campus beginning students ranked in the upper 50% of their high school class. During the same period 70% of beginning students ranked in the upper 25% of their high school class, and 35% of beginning students ranked in the top 10%.

The following table shows the average composite score on the Scholastic Aptitude Test ("SAT") over the past five years for all beginning students new to the University, regardless of class, and excluding transfer students to the University, as compared to the national average:

**Average SAT Scores** 

Academic Year	Indiana University	National
2009-10	1068	1016
2010-11	1067	1017
2011-12	1068	1011
2012-13	1071	1010
2013-14	1070	1010

Source: University Institutional Research and Reporting

#### **Student Enrollment**

The headcount enrollments for Bloomington, IUPUI and regional campuses of the University for the fall semester are shown in the following table. The Fort Wayne (IPFW or Fort Wayne) enrollment numbers indicate the students in Indiana University academic programs on that campus.

Total Actual Headcount Enrollment by Campus Including Fort Wayne

Fall			Regionals	Enrollment		Total
Semester	<b>Bloomington</b>	<u>IUPUI</u>	Excl. IPFW	<b>IU Campuses</b>	<u>IPFW</u>	<b>Enrollment</b>
2009	42,347	30,383	26,710	99,440	7,720	107,160
2010	42,464	30,566	28,211	101,241	8,204	109,445
2011	42,731	30,530	28,719	101,980	8,456	110,436
2012	42,133	30,451	29,483	102,067	8,326	110,393
2013	46,817 1	30,488	29,827	107,132 <sup>1</sup>	8,280	115,412 1

Source: University Institutional Research and Reporting

Figures reflect all beginning students new to the University, regardless of class, excluding transfers. Beginning students are defined by their matriculation in the fall, or the preceding summer session, as degree-seeking students. Students who began taking college level coursework while in high school and are enrolled as a traditional beginning student during the fall or the preceding summer session are also included. This methodology is consistent with external reporting requirements.

<sup>&</sup>lt;sup>1</sup> IU Bloomington implemented a registration system to allow high school students who are taking college equivalent courses through the Advanced College Program (ACP) as non-degree students to be counted in enrollment at census. The ACP students affect Bloomington undergraduates only. There were a similar number of ACP students last year on the Bloomington campus, but they were not reported in enrollment, because they registered post census. ACP students will continue to be reported within the headcount, FTE, credit hours, and enrollment projections from fall 2013 forward. Bloomington headcount enrollment in fall 2013 increased by 4,466 from fall 2012 due to the reporting of ACP students. IUPUI does not participate in ACP, but has a similar program called SPAN (Special Programs for Academic Nurturing). IUPUI enrollments have counted SPAN students and the regional campuses have counted ACP students for the entire period presented.

Projected headcount enrollments for Bloomington, IUPUI and the regional campuses of the University, excluding Fort Wayne, for the fall semesters are as shown in the following table. The University no longer projects enrollments for the IPFW campus, which is administered by Purdue University.

Projected Headcount Enrollment by Campus Excluding Fort Wayne <sup>1</sup>

Fall			Regionals	Enrollment
Semester	<b>Bloomington</b>	<u>IUPUI</u>	Excl. IPFW	<b>IU Campuses</b>
2014	47,123	30,850	30,040	108,013
2015	47,412	30,722	29,936	108,070
2016	47,053	31,232	29,983	108,268
2017	47,331	30,842	30,160	108,333

Source: University Institutional Research and Reporting

The following table sets forth the total actual and projected headcount enrollment of undergraduate and graduate and professional students, combined for all campuses, excluding Fort Wayne, for the fall semester of the years indicated. The table also includes full-time equivalent enrollment and fiscal year credit hours taken.

Undergraduate and Graduate Enrollment, Full-Time Equivalent Enrollment and Total Annual Credit Hours Taken Excluding Fort Wayne

Fall Semester	<u>Undergraduate</u>	Graduate & Professional	Enrollment IU Campuses	Full-Time <u>Equivalent</u>	Fiscal Year Credit Hours <sup>1</sup>
Actual					
2009	78,602	20,838	99,440	80,293	2,512,858
2010	80,356	20,885	101,241	81,842	2,552,669
2011	81,187	20,793	101,980	82,230	2,548,801
2012	81,974	20,093	102,067	81,728	2,528,810
2013	87,142 <sup>2</sup>	19,990	107,132 <sup>2</sup>	83,792 <sup>2</sup>	2,530,500 <sup>3</sup>
Projected <sup>3,4</sup>					
2014	87,929	20,084	108,013	84,154	2,530,500
2015	88,000	20,070	108,070	84,308	2,530,500
2016	88,154	20,114	108,268	84,357	2,530,500
2017	88,231	20,102	108,333	84,456	2,530,500

Source: University Institutional Research and Reporting from the Fall 2013 Enrollment Study

#### Fees

The University operates its programs on a two semester and summer session basis. Tuition, fees and other costs of attending the University vary by campus and curriculum. Educational costs charged include instructional

<sup>&</sup>lt;sup>1</sup> The projections presented in this table were prepared based on the Fall 2013 Enrollment Study. No representation can be made as to the ability of the University to achieve these projections.

<sup>&</sup>lt;sup>1</sup> The Total Annual Credit Hours Taken shown for each of fall semesters 2011 and 2012 are for an academic calendar that groups the main semesters (fall and spring) with a trailing summer session. Prior years' numbers include the fall semester noted, the Summer II session that precedes it, and the spring semester and Summer I session of the subsequent year.

<sup>&</sup>lt;sup>2</sup> IU Bloomington implemented a registration system to allow high school students who are taking college equivalent courses through the Advanced College Program (ACP) as non-degree students to be counted in enrollment at census. The ACP students affect Bloomington undergraduates only. Bloomington headcount enrollment in fall 2013 increased by 4,466 from fall 2012 and FTE enrollment increased by approximately 1,300 from fall 2012 due to the reporting of ACP students. Bloomington and IU credit hours for fiscal year 2014, which is shown in the Fall Semester row, would otherwise be flat without the ACP student reporting change. IUPUI does not participate in ACP, but has a similar program called SPAN (Special Programs for Academic Nurturing). IUPUI enrollments have counted SPAN students and the regional campuses have counted ACP students for the entire period presented. ACP students will continue to be reported within the headcount, FTE, credit hours, and enrollment projections from fall 2013 forward.

<sup>3</sup> Estimated

<sup>&</sup>lt;sup>4</sup> The projections presented in this table were prepared based on the Fall 2013 Enrollment Study. No representation can be made as to the ability of the University to achieve these projections.

fees, fees associated with specific courses and/or academic programs, and room and board (if the student lives on campus). In addition, individual campuses charge other mandatory fees to support certain services. See "Mandatory Fees". Payments may be paid in full by a specified date or students may make partial payments with subsequent installments over the semester or session, depending on the plan offered, for a small service charge.

**Regular Instructional Fee Rates** The Trustees approve tuition and fee rates. On the Bloomington campus, undergraduate students taking between 12 and 17 hours are assessed a flat instructional fee. The graduate student amounts shown reflect the majority of graduate students not in professional programs. Graduate students are assessed fees on a credit-hour basis, except students in the MBA, Law (J.D.) and Optometry (O.D.) programs, which pay higher flat fees than shown. On campuses other than Bloomington, fee rates are assessed on a credit-hour basis, except for professional students in Medicine, Dentistry, and Law, which pay higher flat fees than shown.

The following two tables indicate tuition and fees for undergraduate or graduate and professional students for the academic years shown. Amounts for "Tuition & Fees" are for full-time students for the fall and spring semester combined, including mandatory fees, which are also shown separately in the section that directly follows.

**Undergraduate Students Tuition and Fees** <sup>1</sup>

**Student Budget** The following student budget is being used by the University's Bloomington Office of Student Financial Assistance and represents an estimate of standard per-student costs for undergraduate first-year students at the Bloomington campus for the academic year shown.

Estimated Student Budget for the 2013-14 Academic Year for an Undergraduate First-Year Student

Cost of Attendance	Resident	Non-Resident
Instructional Fees	\$8,919	\$31,060
Mandatory Fees	1,290	1,290
Tuition and Fees Subtotal	\$10,209	\$32,350
Room/Board 1	\$ 9,149	\$ 9,149
Books/Supplies	1,500	1,500
Miscellaneous	2,092	2,092
Transportation	870	<u>870</u>
Other Costs Subtotal	\$13,611	\$13,611
Estimated Budget Total	\$23,820	\$45,961

Source: University Institutional Research and Reporting

**Student Fee Revenues** The total amount and composition of student fee revenues of the University, including instructional fees and other fees charged, for each of the fiscal years are shown below.

<sup>&</sup>lt;sup>1</sup> Amounts shown are for full-time students at Bloomington and IUPUI. Rates for part-time students are based on credit hours taken. Bloomington's included fees assessed for Health and Transportation. IUPUI has a General Fee.

<sup>&</sup>lt;sup>2</sup> In Academic Year 2009-10, Bloomington graduate students were assessed a program fee of \$700.

<sup>&</sup>lt;sup>3</sup> For Academic Years 2011-12 and 2012-13, the repair and rehabilitation fee was considered temporary, but is not in Academic Year 2013-14.

<sup>&</sup>lt;sup>4</sup> IUPUI Professional programs in Medicine & Dentistry pay additional mandatory fees not shown.

<sup>&</sup>lt;sup>5</sup> Students at regional campuses pay mandatory fees, which may be on a credit hour basis. Amounts shown are for full-time students at regional campuses administered by the University. Until Academic Year 2013-14, the regional campuses had varying amounts, for which the range is shown.

<sup>&</sup>lt;sup>1</sup> All undergraduate first-year students on the Bloomington campus are required to live on campus, currently defined as residence halls, on-campus apartments, and fraternity and sorority houses. The rate shown is the most prevalent for room and board.

#### **Student Financial Aid**

Excluding the Fort Wayne Campus, approximately 68% of the students at the University receive financial aid that is processed through the University. The following table summarizes the financial aid, including parent loans, provided to IU students. A substantial portion of the funds provided are derived from sources outside the University, including federal, State, and private sources. Historically, federal loans, grants and other programs have provided a large portion of student financial assistance. All programs furnished by the federal and State governments are subject to appropriation and funding by the respective legislatures. There can be no assurance that the current amounts of federal and State financial aid for students will be available in the future at the same levels and under the same terms and conditions as currently apply.

**Student Financial Aid** <sup>1, 2</sup> (dollars in thousands)

Fiscal Year Ended June 30	2009	2010	2011	2012	2013

#### **Financial Operations of the University**

The university financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB). The university reports on a consolidated basis, with a comprehensive, entity-wide presentation of the university's assets, liabilities, net position, revenues, expenses, changes in net position, and cash flows. All significant intra-university transactions are eliminated upon consolidation.

The university reports as a special-purpose government entity engaged primarily in business-type activities, as defined by GASB. Accordingly, these financial statements have been presented using the economic resources

The University issued bonds prior to 1985 to finance the construction of certain facilities, which bonds are secured by certain dedicated fees. Such dedicated fees are excluded from the definition of "Student Fees" under the applicable indenture.

<sup>&</sup>lt;sup>2</sup> The presentation of information in this table has been expanded to reflect the distinction between the calculation of student fees that are subject to the lien of the indenture securing the University's Student Fee Bonds and the required financial reporting presentation of student fees net of scholarship allowances.

<sup>&</sup>lt;sup>3</sup> See "Financial Operations of the University - Statement of Revenues, Expenses and Changes in Net Assets".

Student Financial Aid shown summarizes the aid given to students enrolled during a fiscal year. For fiscal years ended 2009 through 2011, this included semesters/sessions summer I, fall semester, spring, and summer II. For fiscal year 2012 forward, student aid is based on semesters fall and spring, and a trailing summer session.

<sup>&</sup>lt;sup>2</sup> Excludes Fort Wayne Campus.

measurement focus and the accrual basis of accounting. Business type activities are those that are financed in whole or in part by fees charged to external parties for goods and services.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

The Statement of Revenues, Expenses and Changes in Net Assets of the University is shown below.

 $<sup>^1\,</sup>$  Net of scholarship allowance of \$15,850; \$18,750; \$21,151; \$22,411; and \$24,391 (in thousands) for fiscal years ended 2009 through 2013

#### **Operating Budget and Related Procedures**

The University adopts an operating budget for each fiscal year based on detailed budgets submitted by each of the University's departments. These budgets are reviewed by the President and senior administrative officers before final approval by the Trustees. In conjunction with its budgeting process, the University submits a biennial appropriation request to the State Budget Agency, the Indiana Commission for Higher Education and the General Assembly. The State appropriation includes various components for operations, fee replacement (a form of reimbursement of debt service from the State for debt associated with certain educational facilities), maintenance, research, public service and other special functions. For more information, see "State Appropriations to the University" below. The Trustees takes into consideration the specific amounts of State appropriations authorized by the General Assembly, along with the University's budget requirements and other revenue sources when establishing student fees and other fees for each academic year.

The University has adopted a balanced operating budget for the fiscal year ending June 30, 2014. Total budgeted revenues and expenditures for campuses which the University has fiscal responsibility are shown.

Operating Budget for Unrestricted, Restricted and Auxiliary Enterprise Funds <sup>1, 2</sup> (dollars in thousands)

·

Source: University Budget Office

- <sup>1</sup> Excludes Fort Wayne campus.
- <sup>2</sup> Excludes capital projects, investment income not specifically budgeted as general fund support, most gifts, and scholarship allowance.
- <sup>3</sup> Net of internal transfers.
- <sup>4</sup> Includes research, service and instruction expenditures.

#### **State Appropriations to the University**

The University has historically received, and continues to expect to receive, appropriations from the General Assembly. Annual operating appropriations are disbursed on a monthly basis. Other types of appropriations are generally disbursed on a quarterly or semi-annual basis. These appropriations are applied to the educational and general expenditures, and certain capital construction activities of the University. The General Assembly has historically appropriated to the University an amount equal to the annual debt service requirements due on previously approved and outstanding Student Fee Bonds (the "Fee Replacement" appropriations). This appropriation is renewed on a biennial basis because the Constitution of the State prohibits a sitting General Assembly from binding subsequent General Assemblies to the continuation of any funds, including Fee Replacement appropriations. In the 40 plus years of making Fee Replacement appropriations, the State has never failed to fully fund a Fee Replacement obligation established by a prior General Assembly. The University expects that the policy of Fee Replacement appropriations will be continued in future years.

In the 2013-15 biennium, total State operating and restricted special appropriations for the University increased by 3.9 percent or \$18,178,674 per fiscal year, and general maintenance, repair and rehabilitation appropriations also increased. Pursuant to a directive from the Governor on December 9, 2013, the general operating and certain restricted special appropriations of the University will be reduced in fiscal year 2014 by \$9,599,650 or 2.0%.

The tables below present state appropriations "As Appropriated" and "As Received" to the University for the fiscal years shown, including the unrestricted general operating appropriation, restricted special appropriations, Fee Replacement appropriations, general maintenance, repair and rehabilitation and capital appropriations.

## State Appropriations as Appropriated

Source: Office of the Treasurer

<sup>&</sup>lt;sup>1</sup> Except as indicated in the footnote, the "As Received" column for fiscal year 2014 includes amounts expected to be received from the state. For fiscal year 2014, the "As Received" shows the expected reduction of \$9,599,650 or 2.0% in Unrestricted General Operating and certain Restricted Special appropriations. General Maintenance, R&R and Capital includes amounts received through December 1, 2013 of \$10,799,000 for General Repair & Rehabilitation and \$14,420,000 for Regional Campus Special R&R Projects, which represent approximately one-half of the biennial appropriation amounts of \$22,912,596 and \$29,000,000, respectively. The 2013-15 biennial Capital appropriation also includes one-time cash appropriations of \$25,000,000 for the School of Medicine Rotary Building Expansion and \$2,000,000 for the Evansville Medical Education Center.

- <sup>2</sup> The variances in "As Appropriated" and "As Received" for Fee Replacement reflect issuance and refunding activity that received all requisite approvals.
- <sup>3</sup> The "As Received" Repair & Rehabilitation (R&R) funds for fiscal year 2012 were American Recovery and Reinvestment Act (ARRA) appropriations, which previously had been cancelled by the State.

#### **Indiana University Foundation**

The Indiana University Foundation (the "Foundation") was incorporated in 1936 as a non-profit corporation, organized under the laws of the State, separate and distinct from the University, and is empowered to perform a wide range of services and conduct a variety of activities that support the University as it carries out its missions of teaching, research and public service. The Foundation conducts general and special purpose fund raising programs, receives and acknowledges gifts for the benefit of the University, administers those gifts to ensure that they are used as specified by the donor, invests those gifts intended for endowment purposes, serves as trustee for certain types of planned gift arrangements, and provides other services for the benefit of the University as requested from time to time.

The Foundation is governed by a Board of Directors, of which three members must be current members of the Trustees and one member must be the President of the University. The assets and income of the Foundation are held and accounted for separately from the funds of the University. As of June 30, 2013, the assets of the Foundation and the assets of the University managed by the Foundation had a market value of approximately \$2,277,565,500, the majority of which consisted of funds restricted for University purposes. Distributions from endowment earnings received by the University in fiscal year 2013 totaled approximately \$68.8 million, which represented approximately 2% of estimated total University revenues during fiscal year 2013.

Assets, net assets, and annual income of the Foundation and the annual distributions to the University for the fiscal years shown are set forth below.

#### **Indiana University Foundation Financial Summary**

(dollars in thousands)

Fiscal Year			Total Revenue	University Unrestricted
Ended June 30	Assets 1	Net Assets	and Support <sup>2</sup>	<b>Program Expenditures</b> <sup>3</sup>
2009	1,642,126	1,318,118	(156,489)	109,090
2010	1,767,561	1,486,267	352,992	145,704
2011	2,054,875	1,741,608	379,646	102,174
2012	2,105,534	1,730,081	128,517	107,057
2013	2,277,565	1,903,286	309,272	105,726

Source: Indiana University Foundation - The Foundation financial statements as of June 30, 2013 may be obtained at: http://iufoundation.iu.edu/about/financial.html.

- Assets that the Foundation held for the University and for University affiliates had corresponding liabilities reported on the Foundation's Statement of Financial Position for each of the fiscal years shown above. The portion of those assets held for the University and for University affiliates, which represent endowment funds managed by the Foundation, total \$151,304,670; \$168,220,929; \$207,860,506; \$208,809,374, and \$224,896,799 for the fiscal years shown, respectively. Additional information with respect to University endowment funds is contained within the Endowments section below.
- <sup>2</sup> Primary sources of revenue are contributions and investment income.
- <sup>3</sup> These University related program expenditures primarily support grants and aid to the University and endowment and capital additions for the University.

#### **Annual Fund Raising**

The Foundation, for the benefit of the University, conducts ongoing annual fund raising campaigns, as well as major gift and special development programs, to raise funds for endowments, research, student support, scholarships, awards, capital projects and special programs.

The following table summarizes the annual contributions through the Foundation for each of the fiscal years indicated:

**Private Contributions to the Indiana University Foundation** 

Fiscal Year	Number	Receipts 1
Ended June 30	of Donors	(dollars in thousands)
2009	101,341	114,648
2010	123,652	166,806
2011	123,016	146,886
2012	117,813	154,035
2013	120,703	153,538

Source: Indiana University Foundation

#### **Endowments**

Endowments are funds in which donors or other outside agencies have stipulated, as a condition of the gift, that the principal be maintained in perpetuity. Funds functioning as endowments, also referred to as "quasi-endowments", are resources which the University, rather than the donor, has determined to retain and manage like endowments. Funds that the University sets aside as quasi-endowments may be unrestricted or restricted as to the purpose.

The market value of endowments and quasi-endowments held by the University are shown below for the fiscal years indicated.

Endowments and Quasi-Endowments <sup>1</sup> (dollars in thousands)

Fiscal Year	
Ended June 30	<u>Fair Value</u>
2009	\$153,533
2010	172,592
2011	207,594
2012	206,712
2013	218,036 <sup>2</sup>

Source: Audited IU Financial Report for fiscal year 2009; Office of the Treasurer for fiscal years 2010 through 2013 (unaudited)

#### **Physical Plant**

As of fall 2012, the various campuses of the University covered a total of 3,635 acres. There are 871 buildings on all campuses of the University encompassing 34.5 million gross square feet, of which 21.2 million

Lilly Endowment, Inc. has provided \$42,032,000 in contributions through the Foundation for University support and faculty research during the fiscal years shown.

In addition to funds currently held by the Foundation, these figures include other University endowments and quasi-endowments, with real estate valued at fair value.

<sup>&</sup>lt;sup>2</sup> The fair value as of September 30, 2013 is \$221,493,158 (unaudited).

square feet is assignable to operating units. Not included in the assignable square feet are service, building and parking garage circulation and construction areas, restrooms, hallways, and wall thicknesses. Academic and administrative activities are assigned 11.4 million square feet; auxiliary enterprise services are assigned 9.8 million square feet. The following table sets forth the University's net capital assets, for each of the fiscal years shown.

Capital Assets, Net <sup>1</sup> (dollars in thousands)

Fiscal Year	
Ended June 30	Capital Assets, Net 1
2009	\$2,197,123
2010	2,316,762
2011	2,422,233
2012	2,533,362
2013	2,695,502

Source: Audited IU Financial Report

Net of accumulated depreciation.

#### **Capital Program**

The University has an ongoing capital improvement program consisting of new construction and the renovation of existing facilities. Capital improvement projects have historically been funded from a variety of sources, including but not limited to State appropriations, debt financing, gifts, and University funds.

In each biennium, the University prepares and updates its ten-year capital improvement plan. This provides the basis for a capital appropriation request which the University submits each biennium to the State Budget Agency, the Indiana Commission for Higher Education, and the General Assembly. The request identifies the projects and their respective purposes, priorities, amounts and funding sources. The General Assembly will approve or decline the various projects submitted by the University, and may include projects which were not on the initial capital plan request. For projects that receive General Assembly approval, specific funding sources for each project will be stipulated. The General Assembly must authorize projects that are financed by Student Fee Bonds and projects that are not referenced within the other borrowing statutes.

The following tables summarize capital projects that are currently included in the University's near-term financing plan.

# **Planned Capital Projects to be Financed with Student Fee Bonds** <sup>1</sup> (dollars in thousands)

		Borrowing
<u>Project Name</u>	<b>Campus</b>	<b>Amount</b>
Tamarack Hall & Ivy Tech Community College <sup>2</sup>	Northwest	\$45,000
Academic Core Renovation - Phase I (Franklin Hall) <sup>2</sup>	Bloomington	21,000
Total		<u>\$66,000</u>

Source: Office of the Treasurer

- <sup>1</sup> Secured by a pledge of student fees.
- <sup>2</sup> Projects have been approved by the General Assembly and fee replacement was appropriated for the 2013-15 biennium for these projects. Timing of the borrowing for these projects is uncertain.

## Planned Capital Projects to be Financed with Lease Purchase Obligations ("LPOs") <sup>1</sup> (dollars in thousands)

		Borrowing
<u>Project Name</u>	<b>Campus</b>	<b>Amount</b>
University Hall <sup>2, 3</sup>	IUPUI	\$ <u>22,000</u>
Total		<u>\$22,000</u>

Source: Office of the Treasurer

- Payable from certain legally available funds of the University. LPOs were previously referred to as Certificates of Participation.
- <sup>2</sup> To be financed with LPOs 2014A
- <sup>3</sup> Subject to receipt of all appropriate State approvals

The University has used its tax-exempt commercial paper ("TECP") programs to provide interim financing for certain capital projects and may do so in the future. As of December 1, 2013, no TECP is outstanding.

#### **Indebtedness of the University**

The University is authorized by various acts of the General Assembly to issue bonds for the purposes of financing the construction of academic and administrative facilities, student housing facilities, student union buildings, athletic facilities, and parking facilities on all campuses and research facilities on the Bloomington and IUPUI campuses.

The University has never failed to pay punctually, and in full, all amounts due for principal of and interest on any indebtedness. All debt outstanding as of December 1, 2013 is at fixed-rate, with no underlying swaps. The total outstanding bonded indebtedness (unaudited) as of December 1, 2013 is summarized in the table that follows.

## Facilities Indebtedness as of December 1, 2013 <sup>1</sup> (dollars in thousands)

Type of Issuance	Original <u>Amount</u>	Principal Amount <u>Outstanding</u>
Student Fee Bonds <sup>2</sup>	\$ 883,682	\$ 414,690 <sup>3</sup>
Student Residence System Bonds (Housing) 4,5	20,620	705
Facility Revenue Bonds (Parking) 4,5	24,310	2,735
Consolidated Revenue Bonds <sup>5</sup>	451,885	403,715
Certificates of Participation <sup>5</sup>	<u>68,230</u>	62,850
Total	<u>\$ 1,448,727</u>	<u>\$ 884,695</u>

Source: Office of the Treasurer

- <sup>1</sup> This table does not reflect unamortized bond premium or deferred charges.
- <sup>2</sup> Secured by a pledge of Student Fees.
- <sup>3</sup> This number is net of the accreted value of outstanding capital appreciation bonds ("CABs"). Subsequent to the most recent debt service payment as of August 1, 2013, the principal amount outstanding as of December 1, 2013 for Student Fee Bonds, including the accreted value of the CABs through August 1, 2013, is \$424,688,599.
- <sup>4</sup> Secured by a pledge of net income of the designated auxiliary enterprises and also payable from certain other legally available funds of the University.
- <sup>5</sup> Payable from certain legally available funds of the University.

#### **Sources of Payment for Bonds**

#### **Available Funds**

Available Funds are defined as (a) the Net Income of the Facilities, and (b) any and all other funds of the University legally available for transfer to the sinking fund. Available Funds include, but are not limited to, unrestricted operating fund balances, auxiliary fund balances, and certain other fund balances of the University and selected related entities, in each case without any priority among any such fund balances and only to the extent not pledged, restricted, or specifically authorized for other purposes, now or in the future, or otherwise restricted by law. Available Funds do not include (i) student fees pledged for other purposes or otherwise restricted by law; (ii) certain prior encumbered revenues to the extent of such encumbrance; (iii) other specifically identified revenues or funds pledged or otherwise dedicated or restricted for other purposes; or (iv) moneys appropriated by the Indiana General Assembly and specifically authorized for other purposes or otherwise restricted by law. No assurance can be provided as to the availability or adequacy of any Available Funds as of any particular date. The University retains the right to use Available Funds for the payment of other obligations of the University and to use any or all Available Funds for other lawful corporate purposes of the University. In particular, Net Income of the Facilities and other Available Funds may be used to pay costs of facilities, financing expenses, other amounts payable under any credit facility, and other amounts payable (such as termination payments, etc.) under any derivative agreement.

The following table presents certain Available Funds balances (unaudited), from which the University's Certificates of Participation, Consolidated Revenue Bonds, Facility Revenue Bonds, Lease Purchase Obligations, Student Residence System Bonds and Commercial Paper (none outstanding) (see "Indebtedness of the University") are payable, as of the end of the fiscal year of the University, for each of the past five years:

Available Funds <sup>1</sup> (dollars in thousands)

Fiscal Year Ended June 30	Available <u>Funds</u> <sup>1</sup>
2009	\$1,033,364
2010	1,216,227
2011	1,452,927
2012	1,627,575
2013	1,742,173

Source: Audited IU Financial Report; Indiana University Foundation (unaudited)

#### **Student Residence System Bonds**

The University has agreed not to issue any further bonds under the Student Residence System Bonds ("SRS") Indenture. Future revenue bonds for student residence facilities are expected to be issued under I.C. 21-35-3 through the Consolidated Revenue Bonds ("CRB") Indenture. CRB Series 2008A, which was issued in February 2008, refunded all variable rate SRS outstanding. Fixed rate bonds issued under the SRS Indenture that remain outstanding will continue to have a senior lien on the particular pledged revenues and are further payable from legally available funds of the University. The information below represents Annual Financial Information and Operating Data required for SRS.

#### **General Information**

The Student Residence System provides housing facilities, including residence halls, apartments, town homes and suites for students, faculty or staff, visiting faculty, and conference guests of the University, the revenues of which may be pledged under the Indenture.

Amounts include all unrestricted net assets of the University as of June 30 of each year, including net income of certain facilities for the fiscal year then ended after payment of debt service on the revenue obligations payable from such net income. Amounts also include certain quasi-endowment funds held by the Foundation designated for general use by specific schools or departments, that could be used to replace other revenues budgeted for such schools or departments, allowing such budgeted revenues to be applied to debt service on outstanding obligations in the event other Available Funds are not sufficient to pay such debt service.

The Student Residence System consists of twenty-one separate student residence facilities located on the University's Bloomington and IUPUI campuses. The Student Residence System has an aggregate capacity to house 11,524 residents. Certain student residence facilities are not included in the Student Residence System because the facilities are either being converted to use as office space or the facilities have been financed under the CRB indenture.

A majority of the rooms in facilities that comprise the Student Residence System are double-occupancy rooms, but a substantial number of rooms have been converted to single occupancy in response to changing market demands. Funding for this reinvestment effort within the Student Residence System has come from reserves generated from operations and financing for the renovations of Briscoe, Campus Apartments on the Riverwalk, Tulip Tree, and Willkie. The Bloomington campus' 20-year housing master plan anticipates continued reinvestment in facilities of this nature in order to enhance student academic performance and retention rates. Funding for these projects is expected to come from a combination of bond financing and reserve funding, and some projects will be outside the Student Residence System.

The facilities that comprise the Student Residence System, and their capacities as of fall 2012, are:

Bloomington Campus		IUPUI Campus	
Student Residence Facility	Capacity	Student Residence Facility	Capacity
Ashton –West	461	Ball Residence Hall	324
BBHN Apartments	141	Campus Apartments on the Riverwalk	756
Briscoe	707	Town Homes at IUPUI	56
Campus View	223	IUPUI System Capacity	<u>1,136</u>
Collins	504		
Evermann Apartments	101		
Forest	1,052		
Foster	1,182		
Hillcrest	42		
Mason	87		
McNutt	1,367		
Read	1,058		
Redbud Hill	128		
Teter	1,213		
Tulip Tree	216		
University Apartments	117		
Willkie	758		
Wright	<u>1,031</u>		
Bloomington System Capacity	10,388		
Total System Capacity			<u>11,524</u>

Source: Bloomington Residential Programs and Services; IUPUI Housing and Residence Life

Excluded from the Bloomington System above for purposes of the Student Residence System Bonds indenture are Eigenmann (capacity 710), Union Street Center (capacity 827), and Third and Union Apartments (capacity 102), and Rose Residence Hall (capacity 440). As of fall 2013, occupancy for the combined Student Residence System, which includes certain facilities on the Bloomington and IUPUI campuses, was 96%. See "Facilities" for occupancy information related to Indiana University housing in general, including facilities excluded from the Student Residence System Bonds indenture.

#### **Financial Operations (Student Residence System)**

The following table, prepared by the University, presents a summary statement of combined revenues and operating costs for the Student Residence System for the past five years ended June 30.

#### **Summary of Revenues and Operating Costs**

Fiscal Years Ended June 30 (dollars in thousands)

Fiscal Year Ended June 30	2009	<u>2010</u>	2011	2012	<u>2013</u>
Gross Income	\$58,289	\$62,749	\$63,396	\$70,413	\$74,821

Total	\$ 1,312	\$ 1,350	\$ 1,390	\$ 1,010	\$ 634
Debt Coverage Ratio <sup>5</sup>	12.57	15.71	16.31	26.94	44.97

Source: Audited IU Financial Report; Office of the Treasurer

As of June 30, 2013, the cash balances in the various accounts comprising the Student Residence System's Revenue Fund, consisting of operating and reserve cash balances, total approximately \$90,034,000. The comparable cash balances in these accounts as of June 30, 2012 totaled approximately \$78,516,000. These cash balance may and will be used for facilities excluded from the Student Residence System.

#### **Facility Revenue System Bonds**

The University has agreed not to issue any further bonds under the Facility Revenue Bonds ("FRB") Indenture. Future revenue bonds for parking facilities are expected to be issued under I.C. 21-35-3 through the CRB Indenture. CRB Series 2008A, which was issued in February 2008, refunded all variable rate FRB. Fixed rate bonds issued under the FRB Indenture that remain outstanding will continue to have a senior lien on the particular pledged revenues and are further payable from legally available funds of the University. The information below represents Annual Financial Information and Operating Data required for FRB.

#### **General Information**

The Facility Revenue System consists of various parking facilities located within the University's Bloomington, IUPUI, Kokomo and South Bend parking systems (each a "Parking System"). All parking areas and parking facilities, except visitor lots, on all University campuses are designated by a system of letter coding. Permits issued for parking indicate, by letter, the specific areas in which the permit holder can park. Parking areas are assigned on each campus to recognize the needs of the various user groups identified by the University, including faculty, staff, students, handicapped-accessible, visitor, etc.

<sup>&</sup>lt;sup>1</sup> Includes amounts on deposit in the Student Residence System's Revenue Fund up to 25% of annual debt service.

<sup>&</sup>lt;sup>2</sup> Excludes depreciation expense.

<sup>&</sup>lt;sup>3</sup> The reduction in the annual debt service requirement between the fiscal years ended June 30, 2012 and June 30, 2013 resulted from the University refunding SRS with CRB. The facility refunded remains in the SRS System. The CRB indenture does not include the same coverage calculation requirements as the SRS indenture.

Other Uses of Net Income represent capital expenditures on facilities in the Student Residence System in excess of amounts on hand in related reserve funds as of the beginning of the fiscal year.

<sup>&</sup>lt;sup>5</sup> As calculated per the annual net income coverage covenant requirement.

The permit figures below report on faculty/staff and student permits only. Faculty/staff and student permits are sold throughout the fiscal year. Student permits are typically sold at the beginning of the fall semester, spring semester, and summer sessions. The figures reported below include parking permits sold for the first quarter of the fiscal year indicated.

The purchase of a permit does not guarantee a parking space, and fines are imposed on vehicles without permits or on vehicles that are parked where the displayed permit is not valid. Parking fees are determined annually by campus administration pursuant to recommendations from the Bloomington Transportation Services department and Bloomington Transportation Advisory Committee, the IUPUI Parking and Transportation Services department, the Kokomo Administration and Finance department, and the South Bend Parking Services department, for each respective campus.

#### **Bloomington Parking System**

The Bloomington Parking System provides parking for faculty, staff, students and visitors to the Bloomington campus. Parking is available at four garages, providing an estimated 2,356 garage spaces, and at various surface lots providing an estimated 17,105 spaces, for a total of 19,461 parking spaces. There are an additional 515 garage spaces in one garage on the Bloomington campus that are not included in the Bloomington Parking System for purposes of the Facility Revenue Bond indenture. All parking on the Bloomington campus requires a permit or is cashier controlled. Permits are sold to faculty, staff and students. Permits sold through September 30, 2013, for fiscal year 2013-14, are estimated at 10,559 faculty/staff permits and 8,513 student permits, for a total of 16,807 permits. The cost of a permit varies by type. Faculty/staff permits cost from \$144 to \$416 per year. The typical full-time student permit costs \$122 per year.

## **IUPUI Parking System**

The IUPUI Parking System provides parking for all faculty, staff, students and visitors to the IUPUI campus. Parking is available at nine garages, providing an estimated 8,197 garage spaces, and at various surface lots providing an estimated 8,114 spaces, for a total of 16,311 (14,515 on campus) parking spaces. There are an additional 2,971 garage spaces in three garages that are excluded from the IUPUI Parking System for purposes of the Facility Revenue Bond indenture. All parking on the IUPUI campus requires a permit, or is metered or cashier controlled. Permits are sold to faculty, staff and students. Permits sold through September 30, 2013, for fiscal year 2013-14, are estimated at 13,665 faculty/staff permits and 17,020 student permits, for a total of 30,685 permits. The cost of a permit varies by type. Faculty/staff permits cost from \$216 to \$732 per year. Faculty/staff reserved spaces cost \$2,640 per year. A typical full-time student permit costs \$276 per year.

#### **Kokomo Parking System**

The Kokomo Parking System provides parking for all faculty, staff, students and visitors to the Kokomo campus. Parking is available at one garage, providing an estimated 388 garage spaces, and at various surface lots providing an estimated 985 spaces, for a total of 1,373 parking spaces. All parking on the Kokomo campus, with the exception of visitor parking, requires a permit. Permits are sold to faculty, staff and students. Permits sold through September 30, 2013, for fiscal year 2013-14, are estimated at 427 faculty/staff permits, and 2,818 student permits, for a total of 3,245 permits. The cost of a permit varies by type. Student permits are priced according to the number of credit hours enrolled. A typical full-time student permit costs \$106 per year. Faculty/staff permits range in price from \$106 to \$369 per year.

#### **South Bend Parking System**

The South Bend Parking System provides parking for all faculty, staff, students and visitors to the South Bend campus. Parking is available at one garage, providing an estimated 695 garage spaces, and at various surface lots providing an estimated 1,908 spaces, for a total of 2,603 parking spaces. All parking on the South Bend campus requires a permit or is cashier controlled. Permits are sold to faculty, staff and students. Permits sold through September 30, 2013, for fiscal year 2013-14, are estimated at 837 faculty/staff permits and 5,190 student permits, for a total of 6,027 permits. The cost of a permit varies by type. Student permits are priced according to the number of

credit hours enrolled. A typical full-time student permit costs \$137 per year. Staff permits range in price from \$172 to \$516 per year.

#### **Financial Operations (Facility Revenue System)**

The following table, prepared by the University, presents a summary statement of combined revenues and operating costs for the Facility Revenue System for the past five years.

#### **Summary Of Revenues And Operating Costs**

Fiscal Years Ended June 30

Fiscal Year Ended June 30	2009	2010	<u>2011</u>	2012	2013

Source: Audited IU Financial Report; Office of the Treasurer

As of June 30, 2013, the cash balances in the various accounts comprising the Facility Revenue System's Revenue Fund, consisting of operating and reserve cash balances, total approximately \$26,542,000. The comparable cash balances in these accounts as of June 30, 2012 was approximately \$23,591,000. These cash balance may and will be used for facilities excluded from the Facility Revenue System.

#### **Risk Management**

The University is exposed to various risks of loss, including torts, theft, damage or destruction of assets, errors or omissions, job-related illnesses or injuries to employees, and health care claims on behalf of employees and their dependents. The University manages these risks through a combination of risk retention and commercial insurance, including coverage from internally maintained funds as well as from a wholly-owned captive insurance company, Old Crescent Insurance Company ("OCIC"). The University is self-funded for damage to buildings and building contents for the first \$100,000 per occurrence with an additional \$400,000 per occurrence covered by OCIC, with commercial excess property coverage above this amount. The University is self-funded for comprehensive general liability and automobile liability for the first \$100,000 per occurrence with an additional \$900,000 per occurrence covered by OCIC and with supplementary commercial liability umbrella policies. The University has a malpractice and professional liability policy in the amount of \$250,000 for each claim and \$750,000 annually in aggregate provided by OCIC. The University is self-funded for the first \$850,000 of any worker's compensation claims. Workers' compensation claims above \$850,000 are covered by commercial insurance and are subject to statutory limits. The University is self-funded for the first \$850,000 for employer liability claims with an additional \$1,000,000 coverage through commercial insurances.

<sup>&</sup>lt;sup>1</sup> Includes amounts on deposit in the Facility Revenue System's Revenue Fund up to 25% of annual debt service.

<sup>&</sup>lt;sup>2</sup> Excludes depreciation expense.

<sup>&</sup>lt;sup>3</sup> The reduction in the annual debt service requirement between the fiscal years ended June 30, 2012 and June 30, 2013 resulted from the University refunding FRB with CRB. The facility refunded remains in the FRB System. The CRB indenture does not include the same coverage calculation requirements as the FRB indenture.

<sup>&</sup>lt;sup>4</sup> Other Uses of Net Income represent capital expenditures on facilities in the Facility Revenue System in excess of amounts on hand in related reserve funds as of the beginning of the fiscal year.

<sup>&</sup>lt;sup>5</sup> As calculated per the annual net income coverage covenant requirement.

The University has four health care plans for full-time appointed employees, one of which is also available to retirees not eligible for Medicare. All of the employee plans are self-funded. The University records a liability for incurred but unpaid claims for University-sponsored, self-funded health care plans. This liability is estimated to be no more than 15% of the paid self-funded claims during the fiscal year, and totals \$25,133,000 and \$26,990,000 at June 30, 2013 and 2012, respectively. In addition, a potential claims fluctuation liability of \$9,876,000 has been recorded at June 30, 2013 and 2012.

Separate funds have been established to account for the liability of incurred but unpaid health care claims, as well as any unusual catastrophic claims fluctuation experience. All organizational units of the University are charged fees based on estimates of the amounts necessary to pay health care coverage costs, including premiums and claims. This is taken from the accompanying Indiana University Financial Report, 2012-13 – Note 10.

#### **Retirement Plans**

The University provided retirement plan coverage to 18,494 and 18,441 active employees, as of June 30, 2013 and June 30, 2012, respectively, in addition to contributing to the Federal Insurance Contributions Act ("FICA") as required by law.

Indiana Public Employees' Retirement Fund The University contributes to the Indiana Public Employees' Retirement Fund ("PERF"), a defined benefit pension plan with an annuity savings account provision. Indiana Public Retirement System (INPRS) administers the multiple-employer public employee retirement plans, which provide retirement benefits to plan members and beneficiaries. All support, technical and service employees with at least a 50% full-time equivalent ("FTE") appointment participate in the PERF plan. There were 6,267 and 6,352 active University employees covered by this retirement plan as of June 30, 2013 and June 30, 2012, respectively. State statutes authorize the University to contribute to the plan and govern most requirements of the system. The PERF retirement benefit consists of the pension and an annuity savings account, both of which are funded by employer contributions. The annuity savings account consists of contributions set by State statute at three percent of compensation plus the earnings credited to members' accounts. The University has elected to make the contributions on behalf of the members. PERF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. This report may be obtained by writing the Public Employees Retirement Fund, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling 1-888-526-1687, or reviewing the Annual Report online at www.in.gov/inprs/annual reports.htm.

Contributions made by the University totaled \$25,785,000 and \$23,972,000 for fiscal years ended June 30, 2013 and June 30, 2012, respectively. This represented a 9.7% and 8.6% University pension benefit contribution for fiscal years ended June 30, 2013 and June 30, 2012, respectively, and a 3% University contribution for the annuity savings account provisions each year.

**PERF Funding Policy and Annual Pension Cost** The contribution requirements of plan members for PERF are established by the Board of Trustees of PERF. The University's annual pension cost and related information, as provided by the actuary, is presented below.

The employer contributions required by the funding policy at actuarial determined rates are sufficient to fund the pension benefits when they become due. The amortization method and period are level dollar closed over 30 years. The actuarial cost method is entry age normal cost. The employer required contribution is determined using an asset smoothing method. The actuarial valuation date is June 30, 2012.

Actuarial assumptions include: 1) an investment rate of return of 6.75%, 2) projected salary increases of 3.25%-4.5%, and 3) a 1% cost of living increase granted in each future year, applying to current and future retirees.

#### **PERF Funding and Annual Pension Cost**

(dollars in thousands)

Fiscal Year Ended June 30	<u>2011</u>	<b>2012</b> <sup>1</sup>
Annual Required Contribution	\$ 21,855	\$ 22,735

Academic and Professional Staff Employees Appointed academic and professional staff employees with at least 50% FTE are covered by the IU Retirement Plan. This is a defined contribution plan under IRC 403(b) with four contribution levels. The University contributed \$61,118,000 during fiscal year ended June 30, 2013 and \$62,833,000 during fiscal year ended June 30, 2012, to TIAA-CREF for the IU Retirement Plan. The University contributed \$28,669,000 during fiscal year ended June 30, 2013, and \$26,854,000 during fiscal year ended June 30, 2012, to Fidelity Investments for the IU Retirement Plan. Under this plan, 7,743 and 8,081 employees directed University contributions to TIAA-CREF as of June 30, 2013 and June 30, 2012, respectively. In addition, 5,185 and 4,711 employees directed University contributions to Fidelity Investments as of June 30, 2013 and June 30, 2012, respectively.

In addition to the above, the University provides early retirement benefits to appointed academic and professional staff employees Grade 16 and above on or before June 30, 1999. There were 1,057 and 1,093 active employees on June 30, 2013 and June 30, 2012, respectively, covered by the IU Supplemental Early Retirement Plan ("IUSERP"); a defined contribution plan in compliance with IRC 401(a), with participant accounts at TIAA-CREF and Fidelity Investments. The University contributed \$2,553,000 and \$2,336,000 to IUSERP during fiscal years ended June 30, 2013 and June 30, 2012, respectively. The same class of employees covered by the IU Retirement Plan 15% Level of Contributions on or before July 14, 1988, is covered by the 18/20 Retirement Plan, a combination of IRC Section 457(f) and Section 403(b) provisions. The IU 18/20 Retirement Plan allows this group of employees to retire as early as age 64, provided the individual has at least 18 years of participation in the IU Retirement Plan and at least 20 years of continuous University service. During the fiscal year ended June 30, 2013, the University made total payments of \$32,027,000 to 361 individuals receiving IU 18/20 Retirement Plan payments. During the fiscal year ended June 30, 2012, the University made total payments of \$33,601,000 to 405 individuals receiving IU 18/20 Retirement Plan payments.

TIAA-CREF issues an annual financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. This report may be obtained by writing the Teachers Insurance and Annuity Association/College Retirement Equities Fund, 8500 Andrew Carnegie Blvd, Charlotte, NC 28262, by calling 1-800-842-2252, or by reviewing the annual report online at www.tiaa-cref.org/public/about/governance/corporate/annual-reports.

<sup>&</sup>lt;sup>1</sup> Actuarial data for 2013 was not available at the time of the financial report.

Does not reflect costs attributable to the University's 3.0% defined contribution benefit. See Indiana Public Employees' Retirement Fund above.

Fidelity Investments issues an annual financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. This report may be obtained by writing Fidelity Investments, 82 Devonshire Street, Boston, MA 02109, or by calling 1-800-343-0860.

IU Replacement Retirement Plan Funding Policy and Annual Pension Cost The University has established an early retirement plan for eligible employees to accommodate IRS requirements and as authorized by the Trustees of Indiana University. This plan is called the IU Replacement Retirement Plan. It is a single-employer plan and is qualified under IRC Section 401(a), with normal benefits payable for the participant's lifetime. Trust and recordkeeping activities are outsourced to the TIAA-CREF Trust Company. As of June 30, 2013 and June 30, 2012, 95 and 96 employees, respectively, were eligible to participate. University contributions related to this plan totaled \$1,611,000 and \$1,571,000, for fiscal years ended June 30, 2013 and June 30, 2012, respectively, with no employee contributions. These amounts represent 100% of the funding policy contribution.

The following schedule shows the funding policy contributions for the fiscal years indicated for the IU Replacement Retirement Plan as provided by the actuarial valuation report prepared as of July 1, 2012, for the fiscal year ended June 30, 2013, prepared as of July 1, 2011, for the fiscal year ended June 30, 2012, and prepared as of July 1, 2010 for the fiscal year ended June 30, 2011:

## **IU Replacement Retirement Plan Funding Contributions**

(dollars in thousands)

Fiscal Year Ended June 30	<u>2011</u>	2012	2013
Cost of benefits earned during the year	\$ 808	\$ 811	\$ 796
Amortization of unfunded actuarial accrued	767	664	716
Interest	<u>102</u>	<u>96</u>	98
Funding policy contribution	<u>\$1,677</u>	<u>\$1,571</u>	<u>\$1,610</u>

Source: Audited IU Financial Report

The funded status of the IU Replacement Retirement Plan as provided by the actuarial valuation reports for fiscal years ended June 30, 2011, 2012, and 2013 are as follows:

#### **IU Replacement Retirement Plan Funded Status**

(dollars in thousands)

Actuarial Valuation Date	July 1, 2010	July 1, 2011	July 1, 2012
Actuarial accrued liability ("AAL")	\$21,497	\$ 23,034	\$ 23,818
Actuarial value of plan assets	(11,541)	(14,558)	<u>(14,838)</u>
Unfunded actuarial liability	9,956	8,476	8,980
Actuarial value of assets as a % of AAL (funded ratio)	<u>53.7%</u>	<u>63.2%</u>	<u>62.3%</u>
Annual covered payroll	\$ 8,643	\$ 8,679	\$ 8,445
Ratio of unfunded actuarial liability to annual covered payroll	115.2%	97.7%	106.3%

Source: Audited IU Financial Report

Actuarial assumptions include a 6.5% asset rate of return and future salary increases of 3% for the fiscal year ended June 30, 2013 and June 30, 2012. Liabilities are based on the projected unit credit method. The actuarial value of assets is equal to the fair value on the valuation date adjusted for employer contributions receivable. Actuarial assumptions of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of future events including future employment and mortality, and are based on the substantive plan provisions.

Additional multiyear trend information regarding the funding progress of the IU Replacement Retirement Plan is provided immediately following the notes to the financial statements.

TIAA-CREF issues an annual financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. This report may be obtained by writing the Teachers Insurance and Annuity Association/College Retirement Equities Fund, 8500 Andrew Carnegie Blvd, Charlotte, NC 28262, by calling 1-800-842-2252, or by reviewing the annual report online at www.tiaa-cref.org/public/about/ governance/corporate/annual-reports.

#### **Postemployment Benefits**

Plan Description The University provides certain postemployment benefits for retired employees. The IU 18/20 Plan, Medical, and Life Insurance benefits are presented for financial statement purposes as a consolidated plan (the "Plan") under the requirements for reporting Other Postemployment Benefit Plans ("OPEB") required by GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The Plan is a single-employer defined benefit plan administered by Indiana University. The 18/20 Plan provides interim benefits to full-time appointed academic and professional staff employees who meet the following eligibility requirements: 18 years of participation in the IU Retirement Plan 15% level, at least 20 years of continuous full-time University service, and at least 64 years of age. This group of employees is eligible to receive monthly payments based on a hypothetical monthly annuity amount at age 70, up to the amount of terminal base salary, calculated as the average budgeted base salary for the five 12-month periods immediately preceding retirement. The 18/20 Plan was adopted by the Trustees. The University provides medical care coverage to individuals with University retiree status and their dependents. The cost of the coverage is borne fully by the individual. However, retiree medical care coverage is implicitly more expensive than active-employee coverage, which creates an implicit rate subsidy. The University provides retiree life insurance benefits in the amount of \$6,000 to terminated employees with University retiree status. The health and life insurance plans have been established and may be amended under the authority of the Trustees. The Plan does not issue a stand-alone financial report. Reflected in this note are benefits related to an early retirement incentive plan, approved by executive management in fiscal year 2011, which includes five years of annual contributions to a health reimbursement account.

Funding Policy The contribution requirements of plan members and the University are established and may be amended by the Trustees. The University contribution to the 18/20 Plan and retiree life insurance is based on pay-as-you-go financing requirements. Plan members do not make contributions. The medical plans are self-funded and each plan's premiums are updated annually based on actual claims. Retirees receiving medical benefits paid \$2,018,000 and \$1,330,000 in premiums in the fiscal years ended June 30, 2013 and 2012, respectively. The University contributed \$51,608,000 and \$53,851,000 to the consolidated OPEB Plan in fiscal years ended June 30, 2013 and 2012, respectively.

Annual OPEB Cost and Net OPEB Obligation The University's annual OPEB cost (expense) is calculated based on the annual required contribution ("ARC") of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period of twenty-five years.

The following table shows the University's annual OPEB cost for the year, the amount actually contributed to the plan, and the University's net OPEB obligation as provided by the actuarial results for the fiscal year ended June 30, 2013:

## Annual Other Postemployment Benefit Plans Cost (dollars in thousands)

Fiscal Year Ended June 30	2012	2013
ARC/Annual OPEB cost	\$ 57,052	\$ 54,714
Less Employer contribution	(53,851)	(51,608)
Increase in OPEB obligation	3,201	3,106
Net OPEB obligation, beginning of year	<u>19,557</u>	22,758
Net OPEB obligation, end of year	\$ 22,758	\$ 25,864
Percentage of annual OPEB cost contributed	94.39%	94.32%

Source: Audited IU Financial Report

**Funded Status and Funding Progress** The funding progress of the plan as of the most recent and preceding valuation date are as follows:

## Other Postemployment Benefit Plans Funded Status and Funding Progress

(dollars in thousands)

			Unfunded			
	Actuarial	Actuarial	Actuarial			UAAL as
Actuarial	Value of	Accrued	<b>Accrued Liability</b>	Funded	Covered	Percentage of
Valuation	Assets	Liability (AAL)	(UAAL)	Ratio	Payroll	Covered Payroll
<b>Date</b>	<u>(a)</u>	<u>(b)</u>	(b) - (a)	<u>(a/b)</u>	<u>(c)</u>	$\frac{((\mathbf{b}-\mathbf{a})/\mathbf{c})}{\mathbf{c}}$

July 1, 2012	_	390,227	390,227	0.0%	1,013,726	38.5%

Source: Audited IU Financial Report

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the University are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, represents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. See "Required Supplementary Information".

Actuarial Methods and Assumptions Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the University and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the University and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The projected unit credit cost method was used in the June 30, 2013 actuarial valuation. The actuarial assumptions include a 4.5% investment rate of return, which is a blended rate of (1) the expected long-term investment returns on plan assets and (2) the University's investments which are calculated based on the funded level of the Plan at June 30, 2013; and an annual healthcare cost trend rate that ranges from 9.5% in fiscal year 2014 to 5.0% in fiscal year 2022. The rate includes a 3% inflation assumption. The Unfunded Actuarial Accrued Liability is being amortized over 25 years using level dollar amounts on an open group basis.

#### **Voluntary Early Retirement Incentive Plan**

The University has recently adopted a voluntary Early Retirement Incentive Plan (ERIP-2013) for eligible academic and staff employees, with optional separation dates of December 31, 2013 and May 31, 2014. Voluntary separations under ERIP-2013 are intended to achieve specific institutional objectives including reduction of salary and benefit costs and realignment of positions to achieve higher strategic priorities. ERIP-2013 will provide the following three benefits to employees who have been accepted into the plan: a one-time income replacement payment of 6-months pay for staff and one-year pay for academic employees, annual contributions to a health reimbursement account for a five year period, and medical and dental plan continuation during the five year period. As of November 15, 2013, there are 340 employees who have been approved by University management to be accepted into ERIP-2013. Final acceptance will not be known until the spring of 2014.

## Message from the President

Michael A. McRobbie President, Indiana University

The Honorable Michael R. Pence Governor, State of Indiana State House, Room 206 200 West Washington Street Indianapolis, IN 46204

Dear Governor Pence:

On behalf of the Trustees of Indiana University, I am pleased to present to you IU's 2012-13 Financial Report.

For nearly 200 years, Indiana University and the State of Indiana have been united in a powerful partnership in which the citizens of the state have entrusted us with land, with resources, and with the education of their children. We have returned that trust by building a community of scholars who contribute in transformative and innovative ways to the prosperity and progress of the state, the nation, and the world.

It is abundantly clear that—more than ever before in history—the future of our state and nation in a global, digital, information economy depends on the quality of our higher education. At Indiana University, we continue to steadfastly embrace the enduring value of a rigorous college education, and we are taking steps that will ensure that Indiana University offers the kinds of educational opportunities that one would expect of a university that aspires to be one of the finest universities of the 21st century.

# Ensuring the Quality, Value, and Affordability of an IU Education

As a public university, we have an obligation to ensure that an IU education remains accessible and affordable for qualified Hoosier students. In recent years, we have redoubled our efforts to ensure quality, value and affordability in a number of ways.

Tuition increases for this biennium are the lowest in almost half a century with the undergraduate resident tuition increase at 1.75 percent.

IU's "Finish in Four" program guarantees no tuition increases for juniors and seniors who are on track to finish their degrees on time, and the Summer Tuition program provides a 25 percent tuition discount to students taking courses over the summer sessions.

We have also increased undergraduate and graduate financial aid from \$139 million in 2007 to \$255 million last year—an increase of 83 percent.

We have undertaken a complete and ongoing overhaul of career and academic advising.

We have also established programs for all students in financial literacy aimed at helping ensure lower student debt and better debt management.

We have conducted a comprehensive review of the university's financial

structure with a focus on consolidation and scale in administrative and student services, procurement processes, health care and capital financing, resulting in cumulative cost containment, efficiencies and avoidance totaling nearly \$400 million.

We established IU Online to coordinate and manage IU's online initiatives. IU, incidentally, now has over 100 online programs, over 1,000 online courses and, by 2015, all schools expect to offer fully online graduate certificates or degrees.

We have completed fund-raising campaigns for IU Bloomington and IUPUI totaling over \$2.5 billion with a major focus on student scholarships and fellowships.

We have made targeted investments in new facilities and renovations to expand and enhance IU's core academic educational strengths. And we have begun a comprehensive university-wide program of repair and rehabilitation aimed at making the most efficient and effective use of IU's physical assets.

#### Recognition of IU's Value

For the sixth consecutive year, Indiana University was named among the top 40 public schools on the list of "100 Best Values in Public Colleges" released by *Kiplinger's Personal Finance*. IU rose one spot from last year's list to 39th overall and ranks fourth among Big Ten universities.

More recently, *Washington Monthly* ranked IU Bloomington at 17th overall in its "Best Bang for the Buck" survey of over 1,500 universities. IU Bloomington ranks first in the survey among Big Ten universities, and fourth among members of the prestigious Association of American Universities.

#### **Record Enrollments**

Indiana University continues to attract record numbers of highly qualified students from around the state, the nation, and the world.

This fall, we enrolled a record 115,400 students across the state. Most of IU's campuses also achieved record enrollment, including a record 46,817 students in Bloomington. And on nearly every measure of quality and achievement this is also a record class across the entire university.

As these record enrollments clearly show, more than ever before, students and their families recognize the value of an Indiana University education. Nevertheless, we cannot rest on these laurels. In all the areas mentioned above and more, we must continue to redouble our efforts to ensure the continued value and affordability of an IU education.

# A Leading Public Research University

Our outstanding faculty members continue to successfully compete with top researchers across the nation and around the world for research funding that is becoming increasingly scarce.

Indiana University received nearly \$452 million in grants and awards for research and other sponsored programs in fiscal year 2013. At a time when research universities are facing unprecedented financial challenges and dwindling funding opportunities, Indiana University has been able to sustain its research excellence. The breadth, depth, and quality of our research clearly signal IU's continuing status as one of the leading public research universities in the world.

# Transforming Indiana University for the 21st Century

The issue of the value of an IU education and career opportunities for our graduates in the contemporary economy was a central focus of the *New Academic Directions* report of April, 2011, when it asked "is IU offering the kinds of degrees and educational opportunities that one would expect of a university that aspires to be one of the finest universities of the 21st century?"

In response to this, we have seen the most comprehensive academic restructuring in IU's history, with the establishment, merger, transformation or closure of seven schools. In the last year, we have seen the formal establishment of the Fairbanks School of Public Health at IUPUI, the School of Public Health at IU Bloomington, the Lilly Family School of Philanthropy, the School of Global and International Studies, and the inauguration of the newly configured School of Informatics and Computing, which now includes all programs previously offered by the IU's School of Library and Information Science.

I am also pleased to note that, at their October 2013 meeting, the IU Board of Trustees voted to approve the formation of a new school that will provide a nexus for IU's acclaimed programs of education and research in journalism, telecommunications, communications and culture, and film. The new IU Media School, which will officially come into existence on July 1, 2014, will be housed in the College of Arts and Sciences. The innovative new IU Media School will ensure that IU is at the forefront of teaching, research, and service about the understanding and production of media as it continues its dramatic evolution and transformation. The culmination of many years of productive discussions, it will build upon and honor the traditions of excellence IU has attained in

the fields that will serve as the school's academic foundation. At the same time, it will position the university for a future in which IU is the nation's leading gateway for students seeking to master the professional skills needed to actively engage in multiple platforms of media, both traditional and emerging, and to fully understand how media affect and inform our attitudes, beliefs and values.

#### A Leading International University

By any measure, Indiana University is one of America's leading international universities, and we continue to increase our international engagement. We now rank seventh in the

country in the overall number of students who are studying abroad. Study and service abroad are essential components of a 21st Century education meant to prepare students to live and work in a flat world. We also rank 11th nationally in the number of international students enrolled.

Today, without question, increased international integration and global interconnectivity truly are the major forces driving and shaping our contemporary society. The need for internationally minded and diplomatically skillful citizens is greater than ever. Understanding and responding to these forces is a paramount concern for us all.

This spring, we celebrated two historic milestones in the life of Indiana University that will help address these crucial challenges and help prepare this generation and future generations to collaborate across cultures and nations and forge global solutions: the inauguration of the School of Global and International Studies within the College of Arts and Sciences, and the beginning of construction on the school's new home. The building will be financed entirely through university sources. Approximately half of the funding is coming from IU's revenues from our athletics conference's television network, the Big Ten Network. This represents, by far, the largest commitment from athletics revenue to support the core academic mission of Indiana University that has ever been made, and, one of the largest ever in the nation.

IU has extraordinary resources and strengths in global and international studies, including:

• more than 70 foreign languages taught, (more than any other university);

- 11 international area studies programs that receive funding through the U.S. Department of Education's Title VI Program (again, more than any other university);
- a great breadth and depth of international research and scholarship;
- a high level and wide variety of international engagement.

By bringing together into the new School of Global and International Studies the core of IU's extraordinary resources in global and international studies, the university stands poised to join the most eminent programs in the world in these truly vital areas. The new school will expand the opportunities for international education for all students, and offer Hoosier students even more opportunities for the global education so necessary to their future success.

#### Conclusion

The importance of Indiana's public institutions of higher education to the long-term economic vitality of the state is immense. We are incubators for jobs and economic growth. Our researchers make discoveries that save and improve the lives of Indiana's citizens. We help to retain Indiana's own top students, keeping them in the state as our next generation of leaders. Our professors also attract top students from across the United States, many of whom stay in Indiana to become business, civic, and political leaders.

As this financial report illustrates, Indiana University continues to regard the funding it receives as a public trust. We are deeply grateful for the support we receive from state

appropriations, donor contributions, grants, contracts, and student fees, and are committed to achieving the best return on all of those investments.

As we approach Indiana University's bicentenary, which we will celebrate during the 2019-20 academic year, we must commit to strengthening our partnership with the State of Indiana and its citizens and to extending that partnership over the next 200 years.

We will continue to work diligently to make Indiana University more efficient, more affordable, more accessible, and to preserve and enhance its quality. The actions we have taken in recent years illustrate our dedication to preserving and strengthening the academic core of the university as we fulfill IU's fundamental missions of education and research. We look forward to continuing to work with the State of Indiana and our many external partners to preserve highquality higher education as an asset that can efficiently serve our state and our students for years to come.

Yours sincerely, രാ

President

Michael A. McRobbie

## Message from the Vice President, Chief Financial Officer and Treasurer

MaryFrances McCourt Vice President, Chief Financial Officer and Treasurer, Indiana University

Dear President McRobbie and the Trustees of Indiana University:

I am very pleased to present you with the consolidated financial report for Indiana University for the fiscal year ended June 30, 2013.

We continue to be recognized by Moody's Investors Services as one of only eight public institutions of higher education holding a Aaa long-term credit rating. This highest rating reflects not only IU's strong financial performance and focus on the highest standards of financial management, but also the effective governance of our senior leadership team and the Board of Trustees, our ability to plan for both the short and the long term, and our ongoing self-assessment and drive toward operating efficiency.

We are at an inflection point in higher education as disruptive forces impact the market. Every aspect of higher education, from the academic delivery system to the operational financing, is being closely scrutinized. We continue to see significant headwinds across all revenue sources combined

with pressures to reduce operating expenses. Indiana University takes these issues seriously, and continues to examine all aspects of its operation with heightened focus.

Despite these recent market trends, Indiana University has continued its strong financial track record and has further strengthened its balance sheet. Continued efficiencies in our operation, strong investment performance, further restructuring of our debt, and the continued generosity of our donors have resulted in continued growth of our net position—a significant indicator of financial health—by \$189 million, or 5.9%.

Among the initiatives that contributed to IU's positive performance for fiscal year 2013 were:

- Limiting employee headcount growth, with FY 2013 full-time headcount ending almost flat with FY2012 headcount and down from headcount two years prior;
- Curtailing the upward trend in healthcare costs;
- Delivering procurement savings through increased focus on managed spend;
- Maximizing the efficiency of our cash;
- Optimizing investment returns; and
- Further restructuring of the debt portfolio.

#### **Operating Efficiency Initiatives**

We recently announced a second Early Retirement Incentive Program to provide an attractive retirement package for employees who are at or near retirement age while delivering significant savings to the university.

We have also taken several steps to reduce healthcare costs, which continue to be one of most significant drivers of operating expense increases. IU partnered with IU Health to offer a same-day primary care clinic in Indianapolis to serve IU employees and

dependents age 16 or older covered by an IU-sponsored medical plan. We also enhanced our high-deductible health care plan for our employees. Under this plan, the employee and the university put pre-tax money in a special savings account that can be used for current or future health care costs. Employees benefit from building tax-free balances for health care and having increased flexibility, while the university saves money because employees enrolled in the plan tend to spend more prudently.

We are also engaged in ongoing collaboration with faculty members in the new Fairbanks School of Public Health on the IUPUI campus and the School of Public Health—Bloomington to increase our focus on wellness and encourage IU employees to adopt healthy lifestyles.

Beginning in 2010, IU conducted an institution-wide review of 187 business processes in the areas of admissions, financial aid, student records, and the office of the bursar, which revealed duplication of services and

found potential for the increased use of shared resources to minimize duplication and to expand and improve services. In addition, the project recommended the adoption of "one-stop" points of service on each campus in the student service area, where customers can obtain assistance from all of the functions within student services. As we continue to refine the Student Services Initiative, our goals are to achieve standardization of processes, to identify ways we can deliver better service through the use of technology, and to develop processes that can be centralized to achieve cost efficiency without diminishing the human interaction necessary to answer student questions about grades, finances, course advising, and other operations.

In the upcoming fiscal year, we will conduct a focused review of Indiana University's auxiliary enterprises across all campuses to identify similar efficiencies through leveraging resources and standardized processes.

#### Student Affordability

As outlined in President Michael McRobbie's introduction to this report, we have also instituted a number of programs, including the "Finish in Four" on-time completion award and the 25% Summer Tuition Discount. The university also just delivered the lowest university-wide tuition increase for both undergraduate and graduate students in almost 40 years.

During the fiscal year the university announced and began implementation of a comprehensive student financial literacy program designed to reach students across all seven campuses through varied delivery systems – from traditional Kelley Business School credit courses, to online mandatory course work, peer counseling, and a dedicated website. In addition, we have increased our investment in people and technology to increase advising/ counseling

resources and enable the development/ tracking of academic pathways to graduation. Student success remains a top priority.

#### **Kuali Implementation**

Indiana University implemented and fully transitioned to the Kuali Financial System, an open source software that was created to fit the needs of colleges and universities, in February 2013. As a result, we saved nearly \$20 million by joining with other universities to reduce administrative costs for essential financial software systems.

The Kuali Financial System gives IU faculty and administration one common place to monitor and approve purchases, research grants, human resources transactions, compliance, and other administrative tasks that used too much personal interaction and paper. With the Kuali Financial System, IU will route, approve and act on more than 3 million electronic documents this year.

The Kuali Financial System is another example of Indiana University's continued mission to be on the

leading edge of using technology to streamline functional operations. In addition, Kuali open source allowed us to benefit from best-in-class processing and ideas across the higher education industry.

#### Navigating the Future

We must continue to contain expenses while increasing top line growth to successfully navigate the future. Our current position of financial strength and the continued strong demand for an Indiana University education will allow us to take an offensive approach and we embrace these challenges as opportunities for improvement.

The results detailed in this report send a clear message that we are on solid financial ground as we continue our journey to better serve our students and the State of Indiana. I encourage you to closely examine the report and welcome your questions and ideas.

Thank you for your continued support and leadership of Indiana University.

Sincerely,

- Magt. Most

MaryFrances McCourt Vice President, Chief Financial Officer and Treasurer

STATE BOARD OF ACCOUNTS 302 WEST WASHINGTON STREET ROOM E418 INDIANAPOLIS, INDIANA 46204-2769

#### INDEPENDENT AUDITOR'S REPORT

TO: THE OFFICIALS OF INDIANA UNIVERSITY, BLOOMINGTON, INDIANA

#### Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and aggregate discretely presented component unit of Indiana University (University), a component unit of the State of Indiana, as of and for the years ended June 30, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the University's basic financial statements.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of Indiana University Foundation, a component unit of the University as discussed in Note 1, which represents 100% of the assets and revenues of the discretely presented component unit. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Indiana University Foundation, is based solely on the report of the other auditor. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the University's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the

# INDEPENDENT AUDITOR'S REPORT (Continued)

circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, based on our audits and the reports of the other auditor, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component unit of Indiana University as of June 30, 2013 and 2012, and the respective changes in its financial position and its cash flows, thereof, for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management Discussion and Analysis (MD&A), the Schedule of Funding Progress for IU Replacement Retirement Plan, the Schedule of Funding Progress for Other Postemployment Benefits Plans, and the Schedule of Funding Progress for Public Employees' Retirement Fund be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because of the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements. The Message from the President, Message from the Vice President, Chief Financial Officer and Treasurer, Trustees and Administrative Officers of Indiana University, and Additional Information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Message from the President, Message from the Vice President, Chief Financial Officer and Treasurer, Trustees and Administrative Officers of Indiana University, and Additional Information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we do not express an opinion or provide any assurance on this information.

# INDEPENDENT AUDITOR'S REPORT (Continued)

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 23, 2013, on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the University's internal control over financial reporting and compliance.

Bruce Hartman State Examiner

October 23, 2013

## Management's Discussion and Analysis

The following discussion and analysis provides an overview of the financial position and activities of Indiana University (the "university") for the fiscal years ended June 30, 2013, and 2012, along with comparative financial information for fiscal year ended June 30, 2011. This discussion has been prepared to assist readers in understanding the accompanying financial statements and footnotes.

The university's financial report includes three financial statements: the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows. The university's financial statements, related footnote disclosures, and discussion and analysis are the responsibility of university management and have been prepared in accordance with Governmental Accounting Standards Board (GASB) principles.

The Statement of Net Position presents the university's financial position by reporting all assets, liabilities, and net position at the end of the fiscal years audited. The statement as a whole provides information about the adequacy of resources to meet current and future operating and capital needs. Net position is the residual of all other elements presented in the Statement of Net Position and is one indicator of the current financial condition of the university.

The Statement of Revenues, Expenses, and Changes in Net Position presents the total revenues earned and expenses incurred by the university during the fiscal year. This statement illustrates the university's revenue streams, along with the categories of expenses supported by that revenue. Changes in net position are an indication of improvement or decline in the university's overall financial condition.

The Statement of Cash Flows provides additional information about the university's financial results by presenting detailed information about the cash activity of the university during the year. The statement reports the major sources and uses of cash and is useful in the assessment of the university's ability to generate future net cash flow, the ability to meet obligations as they come due, and the need for external financing.

#### Statement of Net Position

A comparison of the university's assets, liabilities and net position at June 30, 2013, 2012, and 2011, is summarized as follows:

Condensed Statement of Net Position (in thousands of dollars)									
	June 30, 2013	June 30, 2012	June 30, 2011						
Current assets	\$ 635,060	\$ 888,419	\$ 961,001						
Capital assets, net	2,695,502	2,533,362	2,422,233						
Other assets	1,559,666	1,337,428	1,173,342						
Total assets	4,890,228	4,759,209	4,556,576						
Current liabilities Noncurrent	415,503	462,063	554,715						
liabilities	1,084,727	1,096,472	1,042,860						
Total liabilities	1,500,230	1,558,535	1,597,575						
Net investment in capital assets	1,779,033	1,694,440	1,621,228						
Restricted net position	213,279	163,304	190,939						
Unrestricted net position	1,397,686	1,342,930	1,146,834						
Total net position	\$ 3,389,998	\$ 3,200,674	\$ 2,959,001						

#### Assets

Current assets include those that are used to support current operations and consist primarily of cash and cash equivalents, net receivables, and short-term investments. Cash balances support commitments to strategic initiatives, future employee benefit and retirement costs, self-liquidity requirements, and other areas of operational focus.

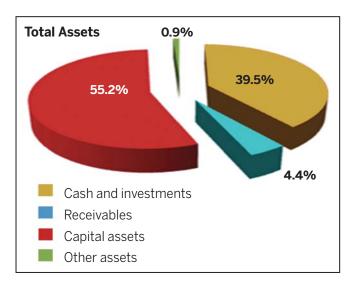

In fiscal year 2013, current assets declined \$253,359,000 to \$635,060,000 at June 30, 2013. This decline is primarily due to investment portfolio rebalancing to optimize yield. Spending of invested bond proceeds on capital projects also contributed to the decline in cash equivalents, resulting in a \$91,182,000 net reduction of these balances compared to June 30, 2012. Current net accounts receivable increased \$15,843,000, to \$132,489,000 during 2013, primarily due to clinical activities and transactions related to affiliated hospitals.

Major components of noncurrent assets are endowment and operating investments, and capital assets, net of accumulated depreciation. Noncurrent notes receivable are made up of student loan balances scheduled for collection beyond the current year reported. Noncurrent assets increased \$384,378,000, to \$4,255,168,000 at June 30, 2013. The increase of \$222,134,000 in the university's noncurrent investment portfolio, from \$1,269,390,000 at June 30, 2012, to \$1,491,524,000 at June 30, 2013, was largely due to operating portfolio rebalancing and unrealized gains in endowment investments. Unrealized losses in the operating portfolio partially offset the increase.

As detailed in the Capital Assets section of Management's Discussion and Analysis, the university continues to invest actively in its campus master plans for capital improvements. The university's facilities are an essential element in sustaining and enhancing the mission of the university, contributing importantly to research and education, as well as the student life experience.

The following table and chart represent the composition of total assets:

<b>Total Assets</b> (in thousands of dollars)								
Cash and investments	\$	1,933,856	39.5%					
Receivables		215,047	4.4%					
Capital assets		2,695,502	55.2%					
Other assets		45,823	0.9%					
Total assets	\$	4,890,228	100.0%					

#### Liabilities

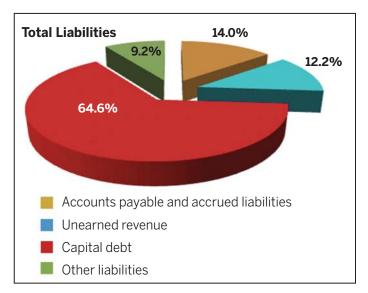

Current liabilities are those that are expected to become due and are payable over the course of the next fiscal year. Current liabilities consist of accounts payable, accrued compensation and compensated absences, unearned revenue, the current portion of long-term debt, and the current portion of capital lease obligations.

During fiscal year 2013, current liabilities decreased \$46,560,000 to \$415,503,000. Unearned revenue is comprised of receipts for which recognition of the related revenue will be recognized in future periods. Unearned revenue consists primarily of summer session student fees and funds received in advance of expenditures on sponsored projects. The decrease of \$32,839,000 in current unearned revenue is due to spending related to capital and other grants for which receipts were received in advance of related expenditures.

The university's capital debt outstanding of \$969,233,000 at June 30, 2013, and \$984,456,000 at June 30, 2012, represents 64.6% and 63.2% of total liabilities. A discussion of the university's capital financing activities appears in Note 7, Bonds and Notes Payable, Note 8, Lease Obligations, and in the Debt and Financing activity section below.

The following table and chart represent the composition of total liabilities:

Total Liabilities										
(in thousands of dollars)										
Accounts payable and accrued liabilities	\$	210,378	14.0%							
Unearned revenue		182,029	12.2%							
Capital debt		969,233	64.6%							
Other liabilities		138,590	9.2%							
Total liabilities	\$ 1	1,500,230	100.0%							

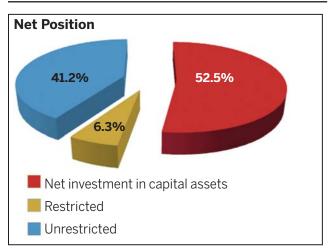

#### **Net Position**

Net position is the residual of all other elements presented in the Statement of Net Position. Net position is classified into three major categories:

- Net investment in capital assets consists of the university's investment in capital assets, such as equipment, buildings, land, infrastructure, and improvements, net of accumulated depreciation and related debt.
- Restricted net position consists of amounts that have been restricted by external parties and are divided into two sub-categories:
  - Restricted non-expendable net assets must be held inviolate and in perpetuity. These balances represent the university's permanent endowment funds received for the purpose of creating present and future income.
  - Restricted expendable funds are available for expenditure by the university, but must be spent according to restrictions imposed by third parties.
- Unrestricted net position includes amounts institutionally designated or committed to support specific purposes.

The following table and chart represent the composition of net position:

<b>Total Net Position</b> (in thousands of dollars)								
Net investment in capital assets \$ 1,779,033 52.5%								
Restricted	213,279	6.3%						
Unrestricted	1,397,686	41.2%						
Total net position	\$ 3,389,998	100.0%						

Net position in total increased \$189,324,000, or 5.9%, at June 30, 2013, compared to June 30, 2012.

The \$84,593,000 increase in the university's net investment in capital assets reflects the institutional investment in physical facilities and infrastructure net of related capital debt. Growth in this area is managed according to the university's long-range capital plans.

Unrestricted net position is subject to internal designations and commitments for academic and research initiatives, capital projects, and unrestricted quasi and term endowment spending plans. Unrestricted net position increased by \$54,756,000 in 2013. This category of resources is essential for ongoing operational

needs, as well as providing flexibility to support the university's mission in changing economic environments.

# Statement of Revenues, Expenses, and Changes in Net Position

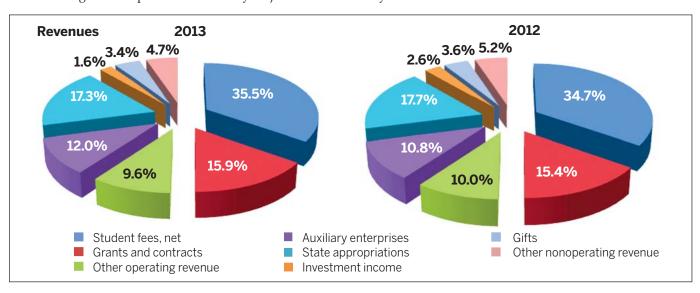

Revenues and expenses are classified as either operating or nonoperating. Trends in the relationship between operating revenues and expenses are important indicators of financial condition. Generally, operating revenues are received for providing goods and services and include tuition and fees, grants and contracts, sales and services, and auxiliary revenue. Nonoperating revenues include state appropriations, gifts, and investment income. Operating expenses are those incurred to carry out the normal operations of the university. As a public university, Indiana University is required by GASB standards to report certain revenue sources that are an integral part of operations as nonoperating revenues.

Total revenues increased \$29,695,000, or 1%, to \$2,941,595,000 in fiscal year 2013 compared to fiscal year 2012. Total expenses increased \$82,044,000, or 3.1%, to \$2,752,271,000 in fiscal year 2013 compared to fiscal year 2012.

A summarized comparison of the university's revenues, expenses, and changes in net position is presented below:

Condensed Statement of Revenues, Expenses, and Changes in Net Position (in thousands of dollars)									
	Fiscal Year Ended								
	June 30, 2013	June 30, 2012	June 30, 2011						
Operating revenues	\$ 2,146,736	\$ 2,065,918	\$ 2,003,416						
Operating expenses	(2,721,541)	(2,639,127)	(2,579,131)						
Total operating loss	(574,805)	(573,209)	(575,715)						
Nonoperating revenues	772,775	811,550	864,410						
Nonoperating expenses	(30,730)	(31,100)	(33,155)						
Income before other revenues, expenses, gains and losses	167,240	207,241	255,540						
Other revenues	22,084	34,432	26,594						
Increase in net position	189,324	241,673	282,134						
Net position, beginning of year	3,200,674	2,959,001	2,676,867						
Net position, end of year	\$ 3,389,998	\$ 3,200,674	\$ 2,959,001						

The following charts represent revenues by major source for fiscal years 2013 and 2012:

Total operating revenues increased by \$80,818,000, or 3.9%, from \$2,065,918,000 in fiscal year 2012 to \$2,146,736,000 in fiscal year 2013. The university supports its operations with diverse revenue sources. The largest single source of operating revenue is student tuition and fees. Tuition and fees, net of scholarship allowances, increased \$32,549,000, or 3.2% over the prior fiscal year. Tuition and fee revenue is influenced by tuition rate increases, along with enrollment change and changes in the mix of student levels and residency. The university implemented a repair and rehabilitation fee beginning in 2012, which accounted for a \$12,516,000 increase in

total tuition and fee revenue in 2013. The university recognized total revenue of \$466,828,000 for research and other sponsored programs, as IU faculty continue to compete successfully with researchers and scholars worldwide. Reflecting a national trend in constrained federal funding sources, federal grants and contracts revenue declined \$18,684,000, or 5.7% from the prior year. Nongovernmental grants and contracts revenue of \$139,802,000 represents an increase of \$37,845,000 over fiscal year 2012. The increase is attributable to a combination of natural variability in the awarding of foundation and not-for-profit agency grants, along with recognition of previously unearned revenue.

Total operating expenses increased by \$82,414,000, or 3.1%, from \$2,639,127,000 in fiscal year 2012 to \$2,721,541,000 in fiscal year 2013. The combined total of scholarship allowances and student financial aid expense increased by \$8,977,000, or 2.5%, as the university continued to focus on student affordability and access to education. Effective July 1, 2012, the Federal Pell Grant Program reduced eligibility for Pell grants to no more than twelve semesters, resulting in a decline in federal financial aid of \$3,201,000 compared to fiscal year 2012. Compensation and benefits, at 65.5% of total operating expenses, represent the largest single university expense. Compensation and benefits expense increased \$37,364,000 over the prior year, or 2.1%, to \$1,781,973,000. The university is taking a measured approach to providing benefits that attract and retain employees, with specific initiatives to reduce benefit program expenses. For example, all new employees are covered by a defined contribution retirement plan, with lower employer contributions than existing defined benefit plans. In addition, the university promotes a High Deductible Health Plan (HDHP) with much lower employer premiums. Approximately 70% of employees were enrolled in an HDHP in fiscal year 2013. The university continues to realize reductions in the number of staff positions as the Indiana University School of Medicine transitions clinical activities to Indiana University Health Partners (IUHP). The shift is part of a restructuring plan to achieve efficiencies and enhance and align collaboration between the university and IUHP.

Nonoperating revenues, net of expenses, declined \$38,405,000, or 4.9%, to \$742,045,000 in fiscal year 2013. Fiscal year 2013 is the second year of the state's biennial budget cycle, and as such, operating appropriations are

unchanged from fiscal year 2012. Fee replacement appropriations are made for the purpose of reimbursing a portion of debt service for certain academic facilities. These funds are claimed according to the university's fee replacement-supported debt service schedules, and those claims declined by \$5,776,000 compared to fiscal year 2012. Investment income declined from \$74,637,000 in fiscal year 2012 to \$47,668,000 in fiscal year 2013 primarily due to an increase in operating portfolio unrealized losses, partially offset by an increase in endowment unrealized gains.

Capital appropriations in fiscal year 2012 reflected spending of federal fiscal stabilization funds authorized by the American Recovery and Reinvestment Act of 2009. Spending of these funds was completed in fiscal year 2012. Capital grants received during the year include funding for projects for the Kelley School of Business and for the Jacobs School of Music on the Bloomington campus.

#### Statement of Cash Flows

The Statement of Cash Flows provides information about the university's financial results by reporting the major sources and uses of cash during the fiscal year. The statement assists in evaluating the university's ability to generate future net cash flows to meet its obligations as they become due and aids in determining the need for external financing. The statement is divided into four sections based on major activity: operating, noncapital financing, capital and related financing, and investing. A fifth section reconciles the operating income or loss on the Statement of Revenues, Expenses, and Changes in Net Position to the net cash used in operations.

A summarized comparison of the university's changes in cash and cash equivalents is presented below:

Comparative Statement of Cash Flows (in thousands of dollars)								
Fiscal Year Ended								
	June 30, 2013	June 30, 2012	June 30, 2011					
Net cash provided (used) by:								
Operating activities	\$ (476,724)	\$ (446,436)	\$ (417,254)					
Noncapital financing activities	723,772	750,452	763,296					
Capital and related financing activities	(336,521)	(166,036)	(303,733)					
Investing activities	(220,405)	(72,943)	(133,492)					
Net increase (decrease) in cash and cash equivalents	(309,878)	65,037	(91,183)					
Beginning cash and cash equivalents	645,147	580,110	671,293					
Ending cash and cash equivalents	\$ 335,269	\$ 645,147	\$ 580,110					

Cash received from operations consists primarily of student fees, grants and contracts, and auxiliary enterprise receipts. Payments to employees represent the largest use of cash for operations. Significant sources of cash provided by noncapital financing activities are used to fund operating activities, including state appropriations, federal Pell grants, and private noncapital gifts. Fluctuations in capital and related financing activities reflect decisions made relative to the university's capital and financing plans. Cash flows from investing activities include shifts between cash equivalents and longer term investments

## **Capital Asset Activity**

Indiana University President Michael McRobbie has set forth goals to "ensure that the university has the new and renovated physical facilities and infrastructure essential to achieve the Principles of Excellence, while recognizing the importance of historical stewardship, an environment that reflects IU's values, and the imperative to meet future needs in accordance with long-term master plans."

The university's investment in capital assets, which include land, art and museum objects, infrastructure, equipment, and buildings, increased \$162,140,000 over June 30, 2012. Additions to capital assets represent new construction, repairs and renovation, as well as major investments in equipment and information technology. Construction in progress includes academic building projects, major student residence hall improvements, and construction for research facilities.

The Rose Avenue Residence Hall, housing students beginning in August 2013, is a new 155,000 square foot complex located on the Bloomington campus. The residence hall complex consists of 450 beds comprised of a variety of room styles, including double and single occupancy units. The complex embodies the university's commitment to bring the academic life into student living environments. The residence hall offers common spaces, lounges, academic classrooms, fitness facilities, a cafe, and computer labs. The project was completed at a cost of \$36,000,000.

The Bart Kaufman Baseball Field and Andy Mohr Softball Field Complex was completed in March 2013, creating important new venues for the intercollegiate baseball and softball teams. The facilities are named in honor of major gifts to Indiana University Athletics from Bart Kaufman and Andy Mohr. The complex is part of a new generation of state-of-the-art resources for student athletes, with a synthetic turf field for baseball, a natural grass field for softball, and indoor/outdoor batting cages. Enhanced fan

Bart Kaufman Field, IU Bloomington

amenities include ample parking, entry plaza, concessions areas, and spectator seating.

A grant from the National Center for Research Resources of the National Institutes of Health to the School of Medicine on the Indiana University Purdue University Indianapolis campus made possible the renovation of a former research floor of the Riley Hospital for Children. The space was transformed into a state-of-the-art facility for conducting clinical research trials designed for children. The renovations were completed in the spring of 2013 at a cost of \$6,100,000. The 18,650 square foot center houses laboratory space, exam rooms, bio-storage, administrative offices, and high-tech video conferencing facilities.

The major renovation of the Education and Arts Building on the South Bend campus was completed in August 2013 at a cost of \$22,000,000. The building was renovated to house the School of Education, dental education, art studios, rehearsal rooms, and an art gallery and auditorium. The building design emphasizes student spaces with enhanced computer clusters, help desk, and group-work lounges. Classrooms have been updated with advanced technology and distance–education capabilities.

## **Debt and Financing Activity**

Institutional borrowing capacity is a valuable resource that is actively managed in support of the institutional mission. Bonds, notes, and capital lease obligations totaled \$969,233,000 and \$984,456,000 at June 30, 2013, and June 30, 2012, respectively.

On October 26, 2012, the university issued Indiana University Tax Exempt Student Fee Bonds, Series V-1 and Taxable Student Fee Bonds, Series V-2 in the total par amount of \$107,750,000, of which \$95,875,000 were refunding bonds

and \$11,875,000 were new money bonds. The purpose of the issue was to provide financing for qualified energy savings projects on the Indianapolis and South Bend campuses. The proceeds of the bonds were also used to refund all or a portion of Student Fee Bonds, Series P, Q, and R, and Qualified Energy Savings Notes, Series 2005, 2007, and 2008. The refunding portion of the transaction generated future debt service savings of \$8,729,000, which equated to a net present value savings of \$7,961,000. The all-in true interest cost for Series V-1 was 1.98% and for Series V-2 was 1.79%.

On March 8, 2013, the university issued natural fixed rate Certificates of Participation, Series 2013A with a par amount of \$22,515,000. The proceeds financed the construction of the Global and International Studies Building on the Bloomington campus and costs to issue the bonds, including underwriters' discount. The all-in true interest cost was 2.86%.

The University's ratings on debt obligations were reviewed and reaffirmed in February 2013. On February 14, 2013, Moody's Investors Service reaffirmed its underlying rating of 'Aaa' with a stable outlook on student fee bonds, student residence system bonds, facility revenue bonds, consolidated revenue bonds, and certificates of participation. On February 15, 2013, Standard & Poor's Ratings Services reaffirmed its underlying rating of 'AA+' with a stable outlook on student fee bonds, student residence system bonds, facility revenue bonds, consolidated revenue bonds, and certificates of participation.

## **Economic Outlook**

With the state able to provide a 3.8% increase in Indiana state university operating appropriations for fiscal year 2014, the long-term trend of decreasing state funding as a percentage of total funding has been temporarily stalled. Because the state employs a performance funding formula that is administered at both the institutional and campus level, funding increases at Indiana University's campuses ranged from a high of 7.9% at IU's East campus to 0.6% at the Southeast campus. For the entire Indiana University system, operating appropriations increased by 3.6%.

The ability of the state to provide an operating funding increase was due to improved state finances and continued recovery from the 2008 "Great Recession." While state revenue growth slowed considerably from a 6.4% increase in fiscal year 2012 over fiscal year 2011 to a 2.4% increase in fiscal year 2013 over fiscal year 2012, revenues exceeded forecast by \$91,000,000. Indicative of the state's recovery from the recession, total combined state reserves at the close of fiscal year 2013 were

East Studio Building, Jacobs School of Music, IU Bloomington

\$1,980,000,000 or 13% of operating revenue, nearly identical to the amount of reserves at the close of fiscal year 2012.

Unfortunately, Indiana's unemployment rate remains stubbornly high, ending fiscal year 2013 with an 8.4% rate in June, slightly higher than the 8.2% rate at the beginning of the fiscal year in July 2012. Thus, unemployment remains a major concern and impediment to increased state revenue growth and overall state economic wellbeing.

For fiscal year 2014, total revenues are forecast to increase by a modest 2.5%. In addition to concerns about continued state high unemployment, national and international threats to the economy remain, perhaps at slightly lower levels than a year ago.

Student enrollment for the university is projected to remain strong during the 2013-14 academic year. Overall, the financial position of the university is favorable and management will continue to monitor state and national economic conditions as part of its critical financial decision-making process.

## Indiana University Notes to the Financial Statements

June 30, 2013 and June 30, 2012

### Note 1—Organization and Summary of Significant Accounting Policies

#### ORGANIZATION

Indiana University (university) is a state-supported institution that is fiscally responsible for operations and has students enrolled on seven campuses. Campuses are located in Bloomington, Indianapolis (IUPUI), Richmond (East), Kokomo, Gary (Northwest), South Bend, and New Albany (Southeast). The financial statements include the individual schools, colleges, and departments as part of the comprehensive reporting entity. The university was established by state legislative act, under Indiana Code Section IC 20-12-23, in 1838, changing the name of its predecessor, Indiana College, to Indiana University. The university's governing body, the Trustees of Indiana University (trustees), is comprised of nine members charged by the Indiana General Assembly with policy and decision-making authority to carry out the programs and missions of the university. Six of the members are appointed by the Governor of Indiana, and three are elected by university alumni. The university is classified as exempt from federal income tax under Section 501(a) of the Internal Revenue Code, as an organization described in Section 501(c)(3), and also under Section 115(a). Certain revenues of the university may be subject to federal income tax as unrelated business income under Internal Revenue Code Sections 511 to 514.

#### BASIS OF PRESENTATION

The university financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB). The university reports on a consolidated basis, with a comprehensive, entity-wide presentation of the university's assets, liabilities, net position, revenues, expenses, changes in net position, and cash flows. All significant intra-university transactions are eliminated upon consolidation.

The university reports as a special-purpose government entity engaged primarily in business-type activities, as defined by GASB. Accordingly, these financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Business type activities are those that are financed in whole or in part by fees charged to external parties for goods and services.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

As a component unit of the state, the university is included as a discrete entity in the State of Indiana's Comprehensive Annual Financial Report.

#### REPORTING ENTITY

The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete, as required by GASB Statement No. 14, *The Financial Reporting Entity*, and as amended by GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*. As additionally required by GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, organizations that raise and hold economic resources for the direct benefit of the university are included in the reporting entity. The university evaluates potential component units for inclusion in the reporting entity based on these criteria.

#### DISCRETELY PRESENTED COMPONENT UNIT

The Indiana University Foundation, Inc. (IU Foundation) is organized as a not-for-profit corporation under the laws of the State of Indiana for the exclusive purpose of supporting the university by receiving, holding, investing, and administering property and making expenditures to or for the benefit of the university. The IU Foundation is considered a component unit of the university, which requires discrete presentation, according to the criteria in GASB No. 39, Determining Whether Certain Organizations Are Component Units, as amended by GASB 61, The Financial Reporting Entity: Omnibus. Accordingly, the IU Foundation's audited financial statements are presented in their original formats on separate pages.

The IU Foundation is a not-for-profit organization that reports under FASB standards, including FASB Statement No. 117, Financial Statements of Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features differ from GASB revenue recognition criteria and presentation features. No modifications have been made to the IU Foundation's financial information in the university's financial reporting to adjust for these differences. The IU Foundation distributed \$105,726,000 and \$107,057,000 to the university during fiscal years 2013 and 2012, respectively. Complete financial statements for the IU Foundation can be obtained from: Indiana University Foundation, Attn: Controller, PO Box 500, Bloomington, IN 47402.

#### **BLENDED COMPONENT UNIT**

In September 2008, the Trustees of Indiana University directed, by resolution, that the Indiana University Building Corporation (IUBC) be formed to serve specific purposes on behalf of the university and designated that certain of the university's administrative officers, by virtue of their titles, serve as directors and officers of IUBC. The sole purpose of IUBC is to assist the university in the financing and development of university facilities by owning and leasing such facilities to the university on a lease purchase basis.

#### **CASH EQUIVALENTS**

The university considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents. The university invests operating cash in investments with varying maturities.

#### **INVESTMENTS**

Investments are carried at fair value, as quoted by the major securities markets. Realized and unrealized gains and losses are reported as a component of investment income in the Statement of Revenues, Expenses, and Changes in Net Position.

#### **ACCOUNTS RECEIVABLE**

Accounts receivable consist primarily of amounts due from students, grants and contracts, and auxiliary enterprises and are recorded net of estimated uncollectible amounts.

#### **NOTES RECEIVABLE**

Notes receivable consists primarily of student loan repayments due to the university.

#### **CAPITAL ASSETS**

Capital assets are recorded at cost at the date of acquisition or fair market value at the date of contribution in the case of gifts. The university capitalizes equipment with a cost of \$5,000 or more and a useful life in excess of one year. Capital assets also include land improvements and infrastructure costing in excess of \$75,000. Buildings and building renovations that increase the useful life of the building, costing at least the lesser of \$75,000 or twenty percent of the acquisition cost of the existing building, are capitalized. Intangible assets with a cost of \$500,000 or more are subject to capitalization. Art and museum objects purchased by or donated to the university are capitalized if the value is \$5,000 or greater. Depreciation expense is computed using the straight-line method over the estimated useful lives of the respective assets, generally five to twenty years for equipment, ten years for library books, ten to forty years for infrastructure and land improvements, and fifteen to

forty years for buildings and building components. Useful lives for capital assets are established using a combination of the American Hospital Association guidelines, Internal Revenue Service guidelines, and documented university experience. Land and capitalized art and museum collections are not depreciated.

#### **UNEARNED REVENUE**

Unearned revenue is recorded for current cash receipts of student tuition and fees and certain auxiliary goods and services, which will be recorded as revenue in future periods. Amounts received from contract and grant sponsors that have not yet been earned are also recorded as unearned revenue.

#### **COMPENSATED ABSENCES**

Liabilities for compensated absences are recorded for vacation leave based on actual earned amounts for eligible employees who qualify for termination payments. Liabilities for sick leave are recorded for employees who are eligible for and have earned termination payments for accumulated sick days upon termination or retirement.

#### NET POSITION

The university's net position is classified for financial reporting in the following categories:

- Net investment in capital assets: This component of net position includes capital assets, net of accumulated depreciation and outstanding principal debt balances related to the acquisition, construction, or improvement of those assets.
- Restricted—nonexpendable: Assets included in the nonexpendable restricted net position category are subject to externally imposed stipulations that the principal is to be maintained in perpetuity and invested for the purpose of producing present and future income, which may be either expended or added to principal. Such assets include permanent endowment funds.
- Restricted—expendable: Resources classified as restricted and expendable are those for which the university is legally obligated to spend in accordance with externally imposed stipulations, or those stipulations that expire with the passage of time.
- Unrestricted: Unrestricted resources are not subject to externally imposed restrictions and are primarily used for meeting expenses for academic and general operations of the university.

When an expense is incurred for which both restricted and unrestricted resources are available, the university's policy is to apply the most appropriate fund source based on the relevant facts and circumstances.

#### **REVENUES**

University revenues are classified as either operating or nonoperating as follows:

- Operating revenues: Operating revenues result from exchange transactions, such as student tuition and fees (net of scholarship discounts and allowances), government and other grants and contracts, and sales and services of auxiliary enterprises (net of scholarship discounts and allowances).
- Nonoperating revenues: Nonoperating revenues include those derived from nonexchange transactions such as gifts and certain federal and state grants. Nonoperating revenues include significant revenue sources that are relied upon for operations, such as state appropriations, federal Pell grants, and investment income.

#### SCHOLARSHIP DISCOUNTS AND ALLOWANCES

Student tuition and fees and other student revenues are reported gross with the related scholarship discounts and allowances directly below in the Statement of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances are calculated as the difference between the stated charges for goods and services provided by the university and the amounts paid by students and/or third parties making payments on behalf of students.

#### NEW ACCOUNTING PRONOUNCEMENTS

GASB issued Statement No 60, Accounting and Financial Reporting for Service Concession Arrangements, in November 2010. This standard provides guidance on financial reporting for arrangements where a government conveys to another entity the right and related obligation to provide services through the use of infrastructure or another government asset in exchange for significant consideration from that entity. The requirements of this statement are effective for financial statements for periods beginning after December 15, 2011. The university has no service concession arrangements as defined by this new standard.

GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus*, in November 2010. This standard modifies certain requirements for inclusion of component units in the financial reporting entity. This Statement clarifies the manner in which that determination should be made and the types of relationships that generally should be considered in making the determination. The provisions of this statement are effective for financial statements for periods beginning after June 15, 2012. The amendments made under GASB 61 did not result in any reporting changes to the university's June 30, 2013, financial statements.

The university applied the requirements of Statement

No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, in fiscal year 2013. This statement codifies all sources of generally accepted accounting principles for state and local governments into a single source.

Effective with the fiscal year ended June 30, 2013, the university adopted GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position. The standard introduces and defines those elements as a consumption of net assets by the university that is applicable to a future reporting period, and an acquisition of net assets by the university that is applicable to a future reporting period, respectively. The standard also incorporates deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. In accordance with the standard, the university has no deferred outflows or inflows for the fiscal year ended June 30, 2013 and has modified the presentation of the Statement of Net Position accordingly.

#### RECLASSIFICATIONS

Certain reclassifications have been made to prior year statements and certain notes for comparative purposes and do not constitute a restatement of prior periods.

### **Note 2—Deposits and Investments**

#### **DEPOSITS**

The combined bank balances of the university's demand deposits were \$67,819,000 and \$137,657,000 at June 30, 2013 and 2012, respectively. The university had balances in excess of Federal Deposit Insurance Corporation limits in the amount of \$67,547,000 and \$61,187,000 at June 30, 2013 and 2012, respectively. The balance in excess of FDIC limits is subject to custodial credit risk. The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The university does not have a formal deposit policy for custodial credit risk, however the university monitors the credit rating and certain financial performance metrics of its custodial and commercial banks on a quarterly basis.

#### **INVESTMENTS**

The trustees have acknowledged responsibility as a fiduciary body for the invested assets of the university. Indiana Code 30-4-3-3 requires the trustees to "exercise the judgment and care required by Indiana Code 30-4-3.5", the *Indiana Uniform Prudent Investor Act*. That act requires the trustees to act "as a prudent investor would, by considering the purposes, terms, distribution requirements, and other circumstances of the trust. In satisfying this standard, the trustee shall exercise

reasonable care, skill, and caution." The trustees have the responsibility to assure the assets are prudently invested in a manner consistent with the university's investment policy. The trustees have delegated the day-to-day responsibilities for overseeing the investment program to the Office of the Treasurer.

At June 30, 2013 and 2012, the university had investments and deposits, including endowment funds, as shown below:

(dollar amounts presented in thousands	(dollar	amounts	presented	in	thousands
--	---------	---------	-----------	----	-----------

All other	(41,590)	184,298	
Total	\$ 1,933,856	\$ 1,976,013	

#### INVESTMENT CUSTODIAL RISK

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The university manages custodial credit risk through the types of investments that are allowed by investment policy. The university also monitors the credit rating and certain financial performance metrics of its custodial

and commercial banks. The university had \$1,519,000 and \$1,423,000 exposed to custodial credit risk at June 30, 2013 and 2012, respectively. The university had \$20,428,000 and \$10,604,000 where custodial credit risk could not be determined at June 30, 2013 and 2012, respectively. The remainder of the university's investments are not exposed to custodial credit risk and reflect either investment securities registered in the name of the university, investment securities loaned for collateral received, or other types of investments not exposed to custodial credit risk.

#### INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The university's policy for controlling its exposure to fair value losses arising from increasing interest rates is to constrain average portfolio duration within ranges of a target portfolio duration set for each portfolio of operating fund investments. The portfolios may seek to enhance returns by attempting to time movements of interest rates within the allowable ranges.

Reflecting Pool, IUN

Library, IUS

The university had investments with the following maturities at June 30, 2013:

(dollar amounts presented in thousands)

#### The university had investments with the following maturities at June 30, 2012:

(dollar amounts presented in thousands) Investment Maturities (in years) Fair Value Investment Type June 30, 2012 Less than 1 1–5 6-10 More than 10 Investments with maturity date Corporate bonds \$ 469,713 \$ 44,406 \$ 239,730 \$ 127,528 \$ 58,049 172,901 10,980 Government bonds 64,405 60,456 37,060 Government mortgage-backed securities 157,230 2,913 2,295 27,195 124,827 Asset-backed securities 141,065 807 95,554 25,322 19,382 Commercial mortgage-backed 52,955 355 1,442 51,158 Nongovernment-backed C.M.O.s 3,796 42,502 46,316 18 Government agencies 34,154 9,432 17,539 2,284 4,899 20,593 Index-linked government bonds 26,524 393 5,538 Short-term bills and notes 13,818 13,818 Municipal/provincial bonds 12,928 1,053 4,741 842 6,292 Guaranteed fixed income 5,708 4,616 1,092 Commercial paper 4,799 4,799 Government-issued commercial mortgage-backed 2,961 2,811 150 2,900 2,948 6,299 Other fixed income 13,633 1,486 Total investments with maturity date 1,154,705 351,343 95,724 429,070 278,568 Investments with undetermined maturity date Money market funds 440,312 440,312 External investment pools 204,238 204,238 Venture capital 2,750 2,750 Mutual funds 2,238 2,238 Real estate 1,105 1,105 All other 170,665 170,665 Total investments with undetermined maturity date 821,308 821,308 **Total** \$ 1,976,013 \$ 917,032 \$ 429,070 \$ 278,568 \$ 351,343

#### CREDIT RISK

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The weighted average credit quality of each portfolio of university operating funds investments must be at least 'AA-/Aa3' for Defensive Managers; 'A/A2' for Core Plus Managers, or as specified in each manager's guidelines.

At June 30, 2013 and 2012, university investments had debt securities with associated credit ratings as shown below:

(dollar amounts pre	sented in	thousands)
---------------------	-----------	------------

Credit Quality Rating	Fair Value June 30, 2013	Percentage of Total Pool	Fair Value June 30, 2012	Percentage of Total Pool
AAA	\$ 296,587	15.34%	\$ 271,937	13.76%
AA	522,507	27.02%	447,172	22.63%
A	174,998	9.05%	162,315	8.21%
BBB	219,757	11.36%	202,314	10.24%
BB	99,318	5.14%	81,791	4.14%
В	47,881	2.48%	41,044	2.08%
CCC	19,961	1.03%	12,127	0.61%
CC	6,154	0.32%	3,971	0.20%
C	343	0.02%	_	_
D	1,039	0.05%	2,164	0.11%
Not Rated	545,311	28.19%	751,178	38.02%
Total	\$ 1,933,856	100.00%	\$ 1,976,013	100.00%

#### CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The university's investment policy requires that investments are to be diversified to the extent that the securities of any single issuer shall be limited to 3.5% of the market value in a particular manager's portfolio. U.S. Government and U.S. governmental agency securities are exempt from this policy requirement.

#### FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of a government's investments and deposits. The university's policy for controlling exposure to foreign currency risk is to constrain investments in non-U.S. dollar denominated debt to 25% of an individual manager's portfolio, or as specified in each manager's guidelines. Minimal foreign currency exposure could occur if one of the university's investment managers purchases non-U.S. dollar holdings and does not hedge the currency. As of June 30, 2013, and June 30, 2012, unrealized losses on foreign currency translation amounted to \$97,000 and \$974,000, respectively.

At June 30, 2013 and 2012, the university had investments exposed to foreign currency risk stated in U.S. Dollar equivalents as shown below:

#### (dollar amounts presented in thousands)

Currency	2013	2012
Mexican peso	\$13,018	\$11,071
Malaysian ringgit	2,623	1,961
Philippine peso	1,890	900
Chilean peso	1,203	_
All other	(10,435)	(5,206)
Total	\$ 8,299	\$ 8,726

The negative values in All other are a result of investments in foreign currency derivatives which have a negative market value and from large pending foreign exchange sales.

#### **ENDOWMENTS**

Endowment funds are managed pursuant to an Investment Agency Agreement between the Trustees of Indiana University (trustees) and the IU Foundation, which delegates investment management responsibilities to the IU Foundation. Indiana Code 30-2-12, *Uniform Management of Institutional Funds*, sets forth the provisions governing

the investment of endowment assets and the expenditure of endowment fund appreciation. The code requires that the trustees and their agents act in good faith and with the care a prudent person acting in a like position would use under similar circumstances, with respect to the investment of endowment assets. The code also sets forth provisions governing the expenditure of endowment fund appreciation, under which the trustees may authorize expenditure, consistent with donor intent. The trustees may, at their discretion, direct all or a portion of the university's endowment funds to other investments, exclusive of the IU Foundation's investment funds. The spending policy of the trustees is to distribute 4.834% of the twelve quarter rolling average of pooled fund values. This rate will be reduced at the rate of 0.083% per year over the next four years resulting in a 4.5% distribution rate in fiscal year 2016-2017. Funds held by endowments managed by the IU Foundation are used to acquire pooled shares.

Endowment funds have a perpetual investment horizon and, as appropriate, may be invested in asset classes with longer term risk/return characteristics, including, but not limited to stocks, bonds, real estate, private placements, and alternative investments. The Indiana University Endowments (endowments) are managed pursuant to an Investment Agency Agreement between the trustees and the IU Foundation dated November 14, 2005, which delegated investment management responsibilities to the IU Foundation, subject to the university's management agreement with the IU Foundation. Endowment assets may be invested in pooled funds or in direct investments, or a combination of the two. Assets will typically be diversified among high quality stocks and bonds. Additional asset classes, such as absolute return, private equity, and real asset investments, may be included when it is reasonable to expect these investments will either increase return or reduce risk, or both. Participation in the pooled investments is achieved by owning units of the Pooled Long-Term Fund and considered an external investment pool to the university. At June 30, 2013, all endowments held with the IU Foundation were invested in pooled funds. The Pooled Long-Term portfolio is diversified based on manager selection, investment style, and asset type to avoid any disproportionate risk related to any one industry or security.

#### Pooled Short Term Fund (PSTF)

Spending policy distributions from the Endowment funds are held in the PSTF until utilized by the university. The IU Foundation's PSTF Investment Policy Statement governs investment of PSTF assets. Objectives of the PSTF include providing for the preservation of capital for account holders and maintenance of adequate liquidity to meet spending requirements.

The PSTF investments are managed to address appropriate diversification, specifically to mitigate interest rate risk and protect the fund against a concentration of credit risk. The IU Foundation's PSTF policy limits commercial paper, Certificates of Deposit, Bankers' Acceptances, and Repurchase Agreements to \$10,000,000 per issuer and money market funds and short term bond funds to \$50,000,000 per fund, with the exception of U.S. Treasuries and Agencies, or accounts collateralized by Treasuries or Agencies.

#### **DERIVATIVES**

A derivative is a unique and often complex financial arrangement between the university and another party. The value of a derivative or the cash it provides is based on changes in market prices, such as interest rates or commodity prices, in a separate transaction or agreement.

Derivatives are entered into for at least four reasons:

- As an investment
- As a hedge to reduce a specific financial risk
- To lower borrowing costs
- To manage cash flows

The university holds derivative instruments, such as futures, forwards, options, and swaps in its portfolio for investment purposes only. The fair value of derivatives held by the university was \$1,124,000 and (\$113,000) at June 30, 2013 and 2012, respectively. The notional market value was \$78,804,000 and (\$51,587,000) at June 30, 2013 and 2012, respectively. The change in fair value was (\$270,000) and \$544,000 in fiscal years 2013 and 2012, respectively.

## CREDIT RISK, INTEREST RATE RISK AND FOREIGN CURRENCY RISK

Derivative transactions involve, to varying degrees, credit risk, interest rate risk, and foreign currency risk. Credit risk is the possibility that a loss may occur because a party to a transaction fails to perform according to terms. Interest rate risk is the possibility that a change in interest rates will cause the value of a financial instrument to decrease or become more costly to settle. Foreign currency risk is the possibility that changes in exchange rates will adversely affect the cash flows or fair value of a transaction. The credit risk, interest rate risk, and foreign currency risk associated with derivatives, the prices of which are constantly fluctuating, are regulated by imposing strict limits as to the types, amounts, and degree of risk that investment managers may undertake.

## **Note 3—Accounts Receivable**

Accounts receivable consisted of the following at June 30, 2013 and 2012:

(dollar amounts presented in thousands)		
	June 30, 2013	June 30, 2012
Student accounts	\$ 37,174	\$ 36,193
Auxiliary enterprises and other operating activities	74,958	57,870
State appropriations	-	_
Federal, state, and other grants and contracts	16,881	21,771
Capital appropriations and gifts	2,241	327
Other	10,103	10,447
Current accounts receivable, gross	141,357	126,608
Less allowance for uncollectible accounts	(8,868)	(9,962)
Current accounts receivable, net	\$ 132,489	\$ 116,646
Noncurrent accounts receivable	\$ 10,634	\$ 10,640

Certain reclassifications have been made to the prior year for comparative purposes and do not constitute a restatement of prior periods.

### Note 7 — Bonds and Notes Payable

The university is authorized by acts of the Indiana General Assembly to issue bonds, notes, and other forms of indebt-edness for the purpose of financing construction of facilities that include academic and administrative facilities, research facilities on the Bloomington and Indianapolis campuses, athletic facilities, parking facilities, student housing, student union buildings, and energy savings projects. At June 30, 2013 and 2012, the university had serial bonds, term bonds, and capital appreciation bonds outstanding with maturities that extend to June 1, 2038. The university has both tax-exempt and taxable bonds outstanding.

The total outstanding bonds and notes payable at June 30,

2013 and 2012, was \$966,881,000 and \$981,065,000, respectively. This indebtedness included principal outstanding at June 30, 2013 and 2012, for bonds issued under Indiana Code (IC) 21-34-6 (Student Fee debt) of \$448,520,000 and \$463,056,000, respectively, and for bonds issued under IC 21-35-3 (Revenue debt) of \$410,895,000 and \$428,840,000, respectively. Total bonds and notes payable at June 30, 2013 and 2012, include an additional accreted value of outstanding Student Fee bonds issued as capital appreciation bonds of \$13,936,000 and \$17,017,000, respectively. The calculation of total bonds and notes payable at June 30, 2013 and 2012, includes the addition of bond premium outstanding of \$60,476,000 and \$52,786,000, respectively, and the subtraction of deferred charges of \$16,850,000 and \$9,536,000, respectively. As of June 30, 2013, debt service payments to

maturity total \$1,337,285,000, of which \$508,053,000 is from bonds eligible for fee replacement appropriations.

On a biennial basis, the Indiana General Assembly authorizes a specific state appropriation to the university for the purpose of reimbursing a portion of the debt service payments on bonds issued under IC 21-34-6 for certain academic facilities. Such academic facilities include classrooms, libraries, laboratories, and other academic support facilities as designated by the Indiana General Assembly. These specific state appropriations are referred to as "fee replacement" appropriations, and are received from the State of Indiana on a semi-annual basis. This appropriation is renewed and supplemented on a biennial basis because state statutes prohibit a sitting General Assembly from binding subsequent General Assemblies with respect to future appropriation of funds. The State of Indiana has fully funded all fee replacement obligations established by prior General Assemblies since the State began authorizing fee replacement appropriations over 40 years ago. The outstanding principal balances which are eligible for fee replacement appropriations, as of June 30, 2013 and 2012, are \$386,207,000 and \$411,423,000, respectively.

In addition to serial and term bonds, the university has issued capital appreciation bonds (CABs). A CAB is a long-term municipal security on which the investment return on an initial principal amount is reinvested at a stated compounded rate until maturity. At maturity, the

investor receives both the initial principal amount and the total investment return. CABs typically are sold at a deeply discounted price and are distinct from traditional zero coupon bonds because the investment return is considered to be in the form of compounded interest rather than accreted original issue discount. Total debt service payments to maturity, as of June 30, 2013 and 2012, include CAB payments of \$22,305,000 and \$28,690,000, respectively, of which \$3,525,000 and \$6,150,000 are eligible for fee replacement appropriations, respectively.

Consolidated Revenue Bonds are unsecured obligations of the university that carry a promise of repayment that will come first from net income generated from certain designated housing facilities, parking facilities and other auxiliary facilities along with certain research revenues and athletic revenues, and secondly, from other legally available funds of the university.

The Indiana University Building Corporation (IUBC) is an affiliated single-purpose Indiana not-for-profit corporation that was formed by the Trustees of Indiana University in 2008. The sole purpose of this entity is to assist the university in the financing and development of university facilities by owning and leasing such facilities to the university on a lease purchase basis. Certificates of Participation in lease payments between the university as lessee and IUBC as lessor are included in the outstanding indebtedness table under IC 21-33-3-5 and are classified as notes payable.

As of June 30, 2013 and 2012, outstanding indebtedness from bonds and notes is summarized as follows:

(dollar amounts presented in thousands)				
Bonding Authority	Interest Rates	Final Maturity Year Ended	Principal Outstanding At June 30, 2013	Principal Outstanding At June 30, 2012
Indiana Code 21-34-6 (Bonds: Student Fee Bonds)	0.30 to 6.40%	2033	\$ 448,520	\$ 463,056
Indiana Code 21-35-3 (Bonds: Consolidated Revenue Bonds)	2.00 to 5.64%	2038	410,895	428,840
Indiana Code 21-34-10-7 (Bonds: Energy Savings Student Fee Bonds)	_	_	-	2,649
Indiana Code 21-33-3-5 (Notes: Certificates of Participation)	2.00 to 5.95%	2037	63,840	43,270
Subtotal bonds and notes payable			923,255	937,815
Add unamortized bond premium			60,476	52,786
Less deferred charges			(16,850)	(9,536)
Total bonds and notes payable			\$ 966,881	\$ 981,065

As of June 30, 2013, the university does not have any variable rate bonds, notes, or commercial paper outstanding. The principal and interest requirements to maturity for bonds and notes payable are as follows:

(dollar	amounte	nrocontod	in t	thousands)
(uoiiur	umounis	presenteu	un i	riousurius)

Fiscal Year Ended June 30	Bond Principal	Note Principal	Total Principal	Bond Interest	Note Interest	Total Interest	Total Debt Service Payments

Total	\$ 859,415	\$ 63,840	\$ 923,255	\$ 384,558	\$ 29,472	\$ 414,030	\$1,337,285

Bond and note interest shown above are reported gross of (before) any federal interest subsidy scheduled to be received on taxable Build America Bonds.

In prior years, the university has defeased several bond issues either with cash or by issuing new debt. United States Treasury obligations or federal agency securities have been purchased in amounts sufficient to pay principal and interest payments when due, through the maturity or call dates of the defeased bonds. These securities have been deposited in irrevocable trusts as required to defease the bonds. The defeased bonds and the related trusts balances are not reflected on the university's books.

As of June 30, 2013, the previously defeased bonds held in escrow have the following amounts of principal outstanding:

(dollar amounts presented in thousands)			
	P1	rincipal	
Defeased Bonds (Refunded)	Out	tstanding	Call Date
Student Fee Bonds, Series O	\$	41,710	8/1/2013
Student Fee Bonds, Series P		71,215	8/1/2014
Student Fee Bonds, Series Q		20,270	8/1/2016
Student Fee Bonds, Series R		15,780	8/1/2016
Facility Revenue Bonds, Series 2004		9,705	11/15/2014
Student Residence System Bonds, Series 2004B		16,400	11/1/2014
<b>Total Defeased Bonds</b>	\$	175,080	

In February 2009, the United States Congress enacted the American Recovery and Reinvestment Act of 2009 (ARRA). ARRA allowed certain tax advantages to state and local governmental entities when such entities issued qualifying taxable obligations, referred to as Build America Bonds (BABs). While the BAB provisions in ARRA expired as of January 1, 2011, the obligation of the U.S. Treasury to make subsidy payments on BABs will remain in effect through the final maturity date of BABs. Although issuers of BABs were eligible to receive subsidy payments from the U.S. Treasury equal to 35 percent of the corresponding interest payable on the related BABs, subsidies that paid after February 28, 2013, were cut by 8.7% due to the federal sequestration. Total federal interest subsidies that were originally scheduled to be received over the life of the BABs debt outstanding as of June 30, 2013, were \$32,354,000. However, through June 30, 2013, BABs subsidies for Consolidated Revenue Bonds, Series 2010B and the Certificates of Participation, Series 2009B were reduced by \$73,000. Subsequent to the financial reporting date, the BABs subsidy for Student Fee Bonds, Series T-2 was reduced by \$42,000. BABs subsidies paid between October 1, 2013, and September 30, 2014, are scheduled to be reduced by 7.2% due to the federal sequestration. For fiscal year ending June 30, 2014, the total expected subsidy reductions due to the sequestration is \$197,000, which is subject to changes enacted by Congress at subsequent dates.

On October 26, 2012, the university issued natural fixed rate Student Fee Bonds, Series V-1 (Tax-Exempt) and Series V-2 (Taxable) with par amounts of \$60,265,000 and \$47,485,000, respectively. This included refunding bonds of \$48,390,000 and \$47,485,000, respectively, and new money bonds of \$11,875,000 and \$0, respectively. The Series V-1 proceeds were used to refund a portion of Student Fee Bonds Series P, Q, and R; finance qualified energy savings projects on the Indianapolis and South Bend campuses; and refund Qualified Energy Savings Notes, Series 2005, 2007, and 2008. The Series V-2 proceeds were used to refund a portion of Student Fee Bonds Series P. Bond proceeds were also used to pay costs to issue the bonds, including underwriters' discount. At issuance, the all-in true interest cost for Series V-1 was 1.98% and for Series V-2 was 1.79%. The refunding bonds produced a net present value savings of \$4,320,000 and \$3,641,000, respectively, which was 8.31% and 8.45% of refunded par bonds, respectively.

On March 8, 2013, the university issued natural fixed rate Certificates of Participation, Series 2013A with a par amount of \$22,515,000. The proceeds financed the construction of the Global and International Studies Building on the Bloomington campus and costs to issue the bonds, including underwriters' discount. At issuance, the true interest cost for the certificates was 2.86%.

### Note 8—Lease Obligations

The university leases certain facilities. The majority of the facility leases include renewal options and some provide for escalation of rent based on changes in operating costs. Some leases are in substance lease-purchases and, as such, are recorded as capital lease obligations.

Scheduled lease payments for the years ending June 30 are as follows:

Capital	Operating
\$ 1,341	\$ 14,962
650	9,459
343	8,533
136	5,121
34	2,933
_	12,110
_	2,969
-	13
2,504	\$ 56,100
(152)	
\$ 2,352	
	\$ 1,341 650 343 136 34 - - - 2,504 (152)

### Note 9—Federal Obligations Under Student Loan Programs

Campus based student loans are funded by new allocations received from the federal government, as well as principal and interest collected from previous student loan recipients. The federal government advanced \$144,000 and \$214,000 for health professions and nursing loan programs for fiscal years ended June 30, 2013 and 2012, respectively.

Liabilities at June 30, 2013 and 2012, for loan programs were as follows:

(dollar amounts presented in thousands)		
	June 30, 2013	June 30, 2012
Current portion of assets held in custody for others	\$ 524	\$ 401
Noncurrent liabilities:		
Federal share of interest	41,740	40,286
Perkins loans	17,028	17,942
Health professions loans	15,938	16,204
Nursing loans	1,971	1,951
Total noncurrent portion of assets held in custody		
for others	76,677	76,383
Total assets held in		
custody for others	\$ 77,201	\$ 76,784

## Note 10—Risk Management

The university is exposed to various risks of loss, including torts, theft, damage or destruction of assets, errors or omissions, job-related illnesses or injuries to employees, and health care claims on behalf of employees and their dependents. The university manages these risks through a combination of risk retention and commercial insurance, including coverage from internally maintained funds as well as from a wholly-owned captive insurance company, Old Crescent Insurance Company (OCIC). The university is self-funded for damage to buildings and building contents for the first \$100,000 per occurrence with an additional \$400,000 per occurrence covered by OCIC, with commercial excess property coverage above this amount. The university is self-funded for comprehensive general liability and automobile liability for the first \$100,000 per occurrence with an additional \$900,000 per occurrence covered by OCIC and with supplementary commercial liability umbrella policies. The university has a malpractice and professional liability policy in the amount of \$250,000 for each claim and \$750,000 annually in aggregate provided by OCIC. The university is self-funded for the first \$850,000 of any workers' compensation claim. Workers' compensation claims above \$850,000 are covered by commercial insurance and are subject to

statutory limits. The university is self-funded for the first \$850,000 for employer liability claims with an additional \$1,000,000 coverage through commercial insurances.

The university has four health care plans for full-time appointed employees, one of which is also available to retirees not eligible for Medicare. All of the employee plans are self-funded. The university records a liability for incurred but unpaid claims for university-sponsored, self-funded health care plans. This liability is estimated to be no more than 15% of the paid self-funded claims during the fiscal year, and totals \$25,133,000 and \$26,990,000 at June 30, 2013 and 2012, respectively. In addition, a potential claims fluctuation liability of \$9,876,000 has been recorded at June 30, 2013 and 2012.

Separate funds have been established to account for the liability of incurred but unpaid health care claims, as well as any unusual catastrophic claims fluctuation experience. All organizational units of the university are charged fees based on estimates of the amounts necessary to pay health care coverage costs, including premiums and claims.

#### **Note 11—Retirement Plans**

The university provided retirement plan coverage to 18,494 and 18,441 active employees, as of June 30, 2013 and 2012, respectively, in addition to contributing to the Federal Insurance Contributions Act (FICA) as required by law.

#### Indiana Public Employees' Retirement Fund

The university contributes to the Indiana Public Employees' Retirement Fund (PERF), a defined benefit pension plan with an annuity savings account provision. Indiana Public Retirement System (INPRS) administers the multipleemployer public employee retirement plans, which provide retirement benefits to plan members and beneficiaries. All support, technical, and service employees with at least a 50% full-time equivalent (FTE) appointment participate in the PERF plan. There were 6,267 and 6,352 active university employees covered by this retirement plan as of June 30, 2013 and 2012, respectively. State statutes authorize the university to contribute to the plan and govern most requirements of the system. The PERF retirement benefit consists of the pension and an annuity savings account, both of which are funded by employer contributions. The annuity savings account consists of contributions set by state statute at three percent of compensation plus the earnings credited to members' accounts. The university has elected to make the contributions on behalf of the members. PERF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. This report may be obtained by writing the Public Employees Retirement Fund, One North Capitol, Suite 001, Indianapolis, IN 46204, by

calling 1-888-526-1687, or by reviewing the Annual Report online at www.in.gov/inprs/annualreports.htm.

Contributions made by the university totaled \$25,785,000 and \$23,972,000 for fiscal years ended June 30, 2013 and 2012, respectively. This represented a 9.7% and 8.6% university pension benefit contribution for fiscal years ended June 30, 2013 and 2012, respectively, and a 3% university contribution for the annuity savings account provisions each year.

#### PERF Funding Policy and Annual Pension Cost

The contribution requirements of plan members for PERF are established by the Board of Trustees of PERF. The university's annual pension cost and related information, as provided by the actuary, is presented below.

The employer contributions required by the funding policy at actuarial determined rates are sufficient to fund the pension benefits when they become due. The amortization method and period are level dollar closed over 30 years. The actuarial cost method is entry age normal cost. The employer required contribution is determined using an asset smoothing method. The actuarial valuation date is June 30, 2012.

Actuarial assumptions include: (a) an investment rate of return of 6.75%, (b) projected salary increases of 3.25%-4.5%, and (c) a 1% cost of living increase granted in each future year, applying to current and future retirees.

<sup>2</sup>Does not reflect costs attributable to the university's 3% defined contribution benefit. See Indiana Public Employees' Retirement Fund above.

#### ACADEMIC AND PROFESSIONAL STAFF EMPLOYEES

Appointed academic and professional staff employees with at least 50% FTE are covered by the IU Retirement Plan. This is a defined contribution plan under IRC 403(b) with four contribution levels. The university contributed \$61,118,000 during fiscal year ended June 30, 2013, and \$62,833,000 during fiscal year ended June 30, 2012, to TIAA-CREF for the IU Retirement Plan. The university contributed \$28,669,000 during fiscal year ended June 30, 2013, and \$26,854,000, during fiscal year ended June 30, 2012, to Fidelity Investments for the IU Retirement Plan. Under this plan, 7,743 and 8,081 employees directed university contributions to TIAA-CREF as of June 30, 2013 and 2012, respectively. In addition, 5,185 and 4,711 employees directed university contributions to Fidelity Investments as of June 30, 2013 and 2012, respectively.

In addition to the above, the university provides early retirement benefits to full-time appointed academic and professional staff employees who were in positions Grade 16 and above on or before June 30, 1999. There were 1,057 and 1,093 active employees on June 30, 2013 and 2012, respectively, covered by the IU Supplemental Early Retirement Plan (IUSERP), a defined contribution plan in compliance with IRC 401(a), with participant accounts at TIAA-CREF and Fidelity Investments. The university contributed \$2,553,000 and \$2,336,000 to IUSERP during fiscal years ended June 30, 2013 and 2012, respectively. The same class of employees covered by the IU Retirement Plan 15% Level of Contributions on or before July 14, 1988, is covered by the IU 18/20 Retirement Plan, a combination of IRC Section 457(f) and Section 403(b) provisions. The IU 18/20 Retirement Plan allows this group of employees to retire as early as age 64, provided the individual has at least 18 years of participation in the IU Retirement Plan and at least 20 years of continuous university service. During the fiscal year ended June 30, 2013, the university made total payments of \$32,027,000 to 361 individuals receiving IU 18/20 Retirement Plan payments. During the fiscal year ended June 30, 2012, the university made total payments of \$33,601,000 to 405 individuals receiving IU 18/20 Retirement Plan payments.

TIAA-CREF issues an annual financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. This report may be obtained by writing the Teachers Insurance and Annuity Association/College Retirement Equities Fund, 8500 Andrew Carnegie Blvd, Charlotte, NC 28262, by calling 1-800-842-2252, or by reviewing the annual report online at www.tiaa-cref.org/public/about/governance/corporate/annual-reports.

Fidelity Investments issues an annual financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. This report may be obtained by writing Fidelity Investments, 82 Devonshire Street, Boston, MA 02109, or by calling 1-800-343-0860.

# IU REPLACEMENT RETIREMENT PLAN FUNDING POLICY AND ANNUAL PENSION COST

The university has established an early retirement plan for eligible employees to accommodate IRS requirements and as authorized by the Trustees of Indiana University. This plan is called the IU Replacement Retirement Plan. It is a single-employer plan and is qualified under IRC Section 401(a), with normal benefits payable for the participant's lifetime. Trust and recordkeeping activities are outsourced to the TIAA-CREF Trust Company. As of June 30, 2013 and 2012, 95 and 96 employees, respectively, were eligible to participate. University contributions related to this plan totaled \$1,611,000 and \$1,571,000, for fiscal years ended June 30, 2013 and 2012, respectively, with no employee contributions. These amounts represent 100% of the funding policy contribution.

The following schedule shows the funding policy contributions for the fiscal years indicated for the IU Replacement Retirement Plan as provided by the actuarial valuation report prepared as of July 1, 2012, for the fiscal year ended June 30, 2013, prepared as of July 1, 2011, for the fiscal year ended June 30, 2012, and prepared as of July 1, 2010, for the fiscal year ended June 30, 2011:

(dollar amounts presented in thousands)

	Fi June 30, 2013	iscal Year Ende June 30, 2012	ed June 30, 2011
Cost of benefits earned during the year Amortization of unfunded actuarial	\$ 796	\$ 811	\$ 808
accrued liabilities	716	664	767
Interest	98	96	102
Funding policy contribution	\$ 1,610	\$ 1,571	\$ 1,677

The funded status of the IU Replacement Retirement Plan as provided by the actuarial valuation reports for fiscal years ended June 30, 2013, 2012, and 2011, are as follows:

(dollar amounts presented in thousands)			
Actuarial Valuation Date	July 1, 2012	July 1, 2011	July 1, 2010
Actuarial accrued liability (AAL)	\$ 23,818	\$ 23,034	\$ 21,497
Less actuarial valuation of plan assets	(14,838)	(14,558)	(11,541)
Unfunded actuarial liability	8,980	8,476	9,956
Actuarial value of assets as a percentage of AAL (funded ratio)	62.3%	63.2%	53.7%
Annual covered payroll	\$ 8,445	\$ 8,679	\$ 8,643
Ratio of unfunded actuarial liability to annual covered payroll	106.3%	97.7%	115.2%

Actuarial assumptions include a 6.5% asset rate of return and future salary increases of 3% for the fiscal years ended June 30, 2013 and 2012. Liabilities are based on the projected unit credit method. The actuarial value of assets is equal to the fair market value on the valuation date adjusted for employer contributions receivable. Actuarial assumptions of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of future events including future employment and mortality, and are based on the substantive plan provisions.

Additional multiyear trend information regarding the funding progress of the IU Replacement Retirement Plan is provided immediately following the notes to the financial statements.

TIAA-CREF issues an annual financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. This report may be obtained by writing the Teachers Insurance and Annuity Association/College Retirement Equities Fund, 8500 Andrew Carnegie Blvd, Charlotte, NC 28262, by calling 1-800-842-2252, or by reviewing the annual report online at www.tiaa-cref.org/public/about/governance/corporate/annual-reports.

### Note 12 - Postemployment Benefits

#### PLAN DESCRIPTION

The university provides certain postemployment benefits for retired employees. The IU 18/20 Plan, Medical, and Life Insurance benefits are presented for financial statement purposes as a consolidated plan (the Plan) under the requirements for reporting Other Postemployment Benefit Plans (OPEB) required by GASB Statement No.45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The Plan is a single-employer defined benefit plan administered by Indiana University. The 18/20 Plan provides interim benefits to full-time

appointed academic and professional staff employees who meet the following eligibility requirements: 18 years of participation in the IU Retirement Plan 15% level, at least 20 years of continuous full-time university service, and at least 64 years of age. This group of employees is eligible to receive monthly payments based on a hypothetical monthly annuity amount at age 70, up to the amount of terminal base salary, calculated as the average budgeted base salary for the five 12-month periods immediately preceding retirement. The 18/20 Plan was adopted by the Trustees of Indiana University (trustees). The university provides medical care coverage to individuals with retiree status and their eligible dependents. The cost of the coverage is borne fully by the individual. However, retiree medical care coverage is implicitly more expensive than active-employee coverage, which creates an implicit rate subsidy. The university provides retiree life insurance benefits in the amount of \$6,000 to terminated employees with retiree status. The health and life insurance plans have been established and may be amended under the authority of the trustees. The Plan does not issue a stand-alone financial report. Reflected in this note are benefits related to an early retirement incentive plan, approved by executive management in fiscal year 2011, which includes five years of annual contributions to a health reimbursement account.

#### FUNDING POLICY

The contribution requirements of plan members and the university are established and may be amended by the trustees. The university contribution to the 18/20 Plan and retiree life insurance is based on pay-as-you-go financing requirements. Plan members do not make contributions. The medical plans are self-funded and each plan's premiums are updated annually based on actual claims. Retirees receiving medical benefits paid \$2,018,000 and \$1,330,000 in premiums in the fiscal years ended June 30, 2013 and 2012, respectively. The university contributed \$51,608,000 and \$53,851,000 to the consolidated OPEB Plan in fiscal years ended June 30, 2013 and 2012, respectively.

#### ANNUAL OPEB Cost and Net OPEB Obligation

The university's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize

any unfunded actuarial liabilities (or funding excess) over a period of twenty-five years.

The following table shows the university's annual OPEB cost for the year, the amount actually contributed to the plan, and the university's net OPEB obligation as provided by the actuarial results for the fiscal year ended June 30, 2013:

(	dol	lar	amounts	presented	in t	housand	(s)	
---	-----	-----	---------	-----------	------	---------	-----	--

	Fiscal Ye	ar Ended
	June 30, 2013	June 30, 2012
Annual OPEB cost	\$ 54,714	\$ 57,052
Less employer contributions	(51,608)	(53,851)
Increase in OPEB obligation	3,106	3,201
Net OPEB obligation, beginning of year	22,758	19,557
Net OPEB obligation, end of year	\$ 25,864	\$ 22,758
Percentage of annual OPEB cost contributed	94.32%	94.39%

#### Funded Status and Funding Progress

The funding progress of the plan as of the most recent and preceding valuation date are as follows:

(dollar amounts presented in thousands)

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded Actuarial Accrued Liability (UAAL) (b) - (a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as Percentage of Covered Payroll ((b-a) / c)
July 1, 2012	_	\$ 390,227	\$ 390,227	0.0%	\$ 1,013,726	38.5%
July 1, 2011	-	414,985	414,985	0.0%	984,200	42.2%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the university are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, represents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### ACTUARIAL METHODS AND ASSUMPTIONS

Projections of benefits for financial reporting purposes are

based on the substantive plan (the Plan as understood by the university and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the university and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The projected unit credit cost method was used in the June 30, 2013, actuarial valuation. The actuarial assumptions include a 4.5% investment rate of return, which is a blended rate of (1) the expected long-term investment returns on plan assets and (2) the university's investments which is calculated based on the funded level of the Plan at June 30, 2013; and an annual healthcare cost trend rate that ranges from 9.5% in fiscal year 2014 to 5.0% in fiscal year 2022. The rate includes a 3% inflation assumption. The Unfunded

Actuarial Accrued Liability is being amortized over 25 years using level dollar amounts on an open group basis.

### **Note 13—Related Organization**

The university is a major beneficiary of the Riley Children's

Foundation, of which a majority of the board of directors is appointed by, or serve by virtue of position with, Indiana University. Riley Children's Foundation net assets were \$314,401,000 and \$288,901,000 at June 30, 2013 and 2012, respectively. Riley Children's Foundation net assets are not included in the financial statements of the university.

## **Note 14—Functional Expenses**

The university's operating expenses by functional classification were as follows:

## **Note 15—Segment Information**

A segment is an identifiable activity reported as a standalone entity for which one or more bonds are outstanding, with a revenue stream pledged in support of the debt. The primary source of repayment of these bonds is pledged net income from certain parking and housing operations, including campuses for which bonds are no longer outstanding. Facilities Revenue Bonds carry a pledge of net income from the Parking System. Student Residence System Bonds carry a pledge of net income from the Student Residence

System. The university has Facilities Revenue Bonds and Student Residence System Bonds outstanding related to the following auxiliary enterprise activities:

- Parking operations on the IUPUI and South Bend campuses providing parking services to students, staff, faculty, and the general public.
- Housing operations on the IUPUI campus providing housing primarily to students.

Condensed financial statements for Parking and Housing Operations are as follows:

Total revenue-backed debt for capital financing of parking and housing auxiliary activities was outstanding in the amount of \$7,180,000 at June 30, 2013, with remaining terms of 1 year. Total revenue-backed debt for capital financing of parking and housing auxiliary activities was outstanding in the amount of \$10,625,000 at June 30, 2012, with remaining terms of 2 years. Revenues of the activities are sufficient to meet the principal and interest requirements for the debt.

#### **Note 16—Commitments and Loss Contingencies**

#### Construction Projects

The university had outstanding commitments for capital construction projects of \$58,580,000 and \$145,603,000 at June 30, 2013 and 2012, respectively.

### Note 17—Subsequent Event

In fiscal year 2014, executive management authorized the university to offer certain employees an Early Retirement

Incentive Plan (ERIP), intended to attain specific institutional objectives, including the following:

- Reduce salary/wage and benefit expenses
- Redirect positions to focus on higher priorities
- Avoid or minimize future involuntary reductions in personnel

Separation dates under the ERIP will be on December 31, 2013, and May 31, 2014. Separation agreements will be finalized by November 4, 2013, for employees separating on December 31, 2013, and by March 31, 2014, for employees separating on May 31, 2014.

The ERIP provides benefits not normally provided to separating employees, including an income replacement payment and contributions to a health reimbursement account.

#### Note 1 - Organization and Operations

The Indiana University Foundation, Inc. (Foundation) is a not-for-profit corporation organized under the laws of the State of Indiana. The corporate purposes of the Foundation are to raise, receive, hold, invest and administer property and to make expenditures to or for the benefit of Indiana University, including its regional campuses and associated entities (such as the Purdue University schools housed at the Indiana University-Purdue University Indianapolis campus, the Indiana University Building Corporation (IUBC), Riley Children's Foundation, the Indiana University Research & Technology Corporation, Indiana University Health, the Indiana University Alumni Association, and certain medical practice plans), herein referred to as the "University."

The mission of the Foundation is to inspire donors to invest in Indiana University's power to transform lives and better the state, nation and world. The Foundation was originally incorporated in 1936 and is empowered to perform a wide range of services and conduct a variety of activities that support the University as it carries out its missions of teaching, research, and public service. The Foundation conducts general and special purpose fundraising programs, receives and acknowledges gifts for the benefit of the University, administers those gifts to ensure that they are used as specified by the donor, invests those gifts, serves as trustee for certain types of planned gift arrangements, and provides other services for the benefit of the University as requested from time to time.

#### Note 4 - Investments

A summary of total investment income, including net gains (losses) net of outside management fees for the year ended June 30, 2013 and 2012 consist of the following:

	ş	2013		2012
Dividend, interest and other investment income	\$	9,767,463	\$	9,920,514
Net realized and unrealized gains (losses) on investments		155,663,461		(21,571,091)
Outside investment management fees		(5,520,204)		(4,710,704)
Total investment income, including net gains (losses), net of outside investment management fees	\$_	159,910,720	\$ _	(16,361,281)

The Foundation's investments recorded at fair value have been categorized based upon a fair value hierarchy in accordance with ASC 820. The following tables present information about the Foundation's investments by security type measured at fair value as of June 30, 2013 and 2012:

		2013						
		Level 1		Level 2		Level 3		Total
Domestic equities	\$	313,476,486	\$	68,537,378	\$	551,958	\$	382,565,822

There were no significant transfers between levels 1 and 2 for the years ended June 30, 2013 and 2012. Transfers into Level 3 for the year ended June 30, 2013 of \$187,852,124, were the result of a change in categorization from Level 2 to Level 3 for those funds valued using NAV per share (or its equivalent) based on redemption liquidity restrictions. Changes in Level 3 assets measured at fair value as of and for the years ended June 30, 2013 and 2012 follow.

		2013		2012
Beginning balance	\$	557,230,475	\$	562,292,724
Realized and unrealized gains (losses)		90,311,970		12,124,593
Purchases		126,893,978		99,083,787
Sales		(105,596,757)		(111,925,455)
Transfers in		187,852,124		138,000
Transfers out	_	-0-	_	(4,483,174)
Ending balance	\$	856,691,790	\$_	557,230,475

Included in the underlying US Government and agency debt instruments are futures and forwards that are considered derivative financial instruments. The carrying values of these derivative financial instruments are adjusted to net fair market value. Open positions as of June 30, 2013 and 2012 are summarized as follows:

			20	13		2012	
	-	Notional Par	s 2	Net Fair Market Value Asset (Liability)	 Notional Par	23 (c)	Net Fair Market Value Asset (Liability)
Futures:							
10 yr US	\$	(1,100,000)	\$	32,055	\$ 400,000	\$	4,375
Euro-Oat EUX 10 yr		(200,000)		5,253	-0-		-0-
Forwards:		(a) (a) (b)					
US Government Agencies	\$	10,900,000	\$	(181,113)	\$ 15,900,000	\$	34,399

The gross and net credit risk associated with the related counterparties on these open futures and forwards positions is insignificant. The market risk for these futures and forwards is directly linked with exchange rates or market interest rates as the underlying securities bear a fixed rate of interest. The futures instruments required \$977,000 and \$712,000 in cash, as of June 30, 2013 and 2012, respectively. The related net gains generated were \$1,022,231 and \$569,791 for the years ended June 30, 2013 and 2012, respectively.

The Foundation's alternative investments include investments in: (1) private equity such as venture capital and leveraged buyout funds; (2) absolute return/hedged equity strategies; and (3) inflation hedge strategies, including real estate and natural resources. These investments are valued at NAV per share or its equivalent. The Foundation's asset allocation policy allocates up to 51% in these types of investments. A summary of the alternative investments categorized by major security type, with a description of the investment managers' strategies, and the nature of any restrictions to redeem the investment value as of June 30, 2013 follows:

	-	1	2013	3		2012		
	_	Fair Value		Unfunded Commitments	_	Fair Value	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Hedged equity funds (a)	\$	114,708,557	\$	-0-	\$	75,785,776	monthly, quarterly, semi- annually, annually monthly, quarterly,	30-90 days
Absolute return funds (b)		254,714,708		4,491,054		223,450,603	semi-annually, annually	33-95 days

Total		852,290,776	\$	250,024,351	<b>S</b> _	742,310,747		

- (a) This category includes investments in hedge funds that invest globally in both long and short common stocks across all market capitalizations. Management of the hedge funds may opportunistically shift investments across sectors, geographies, and net market exposures. The fair values of the investments in this category are based on the net asset value per share of the investment.
- (b) This category includes investments in hedge funds that invest opportunistically across various strategies including long/short equity, fixed income, distressed credit, merger arbitrage, convertible arbitrage, etc. The fair values of the investments in this category are based on the net asset value per share of the investment. As of June 30, 2013, 51% of the total Marketable Alternative Investments (hedged equity and absolute return) could be redeemed in 0-6 months, an additional 21% could be redeemed between 7-12 months, another 21% could be redeemed between 13-24 months, and 2% could be redeemed between 25-36 months. The remaining 5% is designated as illiquid investments.

- (c) This category includes funds which invest primarily in early-stage companies in the technology and life science sectors. The nature of investments in this category is that money is distributed as underlying companies are exited via acquisition or IPO. Partnerships are typically structured to be fully liquidated after 10 years but may be extended. It is probable that the investments in this category will ultimately be sold at a value that is different from the net asset value of the Foundation's ownership interest as of June 30, 2013.
- (d) This category includes private equity funds that invest across sectors primarily in the United States, but also Asia and Europe. The nature of investments in this category is that money is distributed as underlying companies are recapitalized or exited via acquisition or IPO. Partnerships are typically structured to be fully liquidated after 10 years but may be extended. It is probable that the investments in this category will ultimately be sold at a value that is different from the net asset value of the Foundation's ownership interest as of June 30, 2013.
- (e) This category includes funds that are focused on distressed, mezzanine, or secondary investments, primarily in the United States. Partnerships are typically structured to be fully liquidated after 10 years but may be extended. It is probable that the investments in this category will ultimately be sold at a value that is different from the net asset value of the Foundation's ownership interest as of June 30, 2013.
- (f) This category includes funds that invest primarily in U.S. commercial real estate, but also include real estate funds focused on Europe and Asia. The real estate exposure can include both publicly traded REIT funds and private partnerships. Publicly traded REIT funds have daily liquidity. Partnerships are typically structured to be fully liquidated after 10 years but may be extended. It is probable that the investments in this category will ultimately be sold at a value that is different from the net asset value of the Foundation's ownership interest as of June 30, 2013.
- (g) This category includes funds that are focused on direct energy and timber. Partnerships are typically structured to be fully liquidated after 10 years but may be extended. Certain funds in this category will provide an income stream as the underlying commodity is harvested/sold. It is probable that the investments in this category will ultimately be sold at a value that is different from the net asset value of the Foundation's ownership interest as of June 30, 2013.
- (h) This category includes funds that invest in equity and equity-related securities, commodity derivatives, fixed income obligations, and derivatives related to equity, fixed income, and commodity securities.

### Note 8 - Restricted Net Assets

The income generated from restricted net assets is used in accordance with the donors' time or purpose restrictions. Foundation and University permanently restricted assets are held in perpetuity. A summary of restricted net assets and the related donor imposed restrictions as of June 30, 2013 and 2012 are as follows:

				201	13

**Indiana University Foundation** 

## Note 10 - Contingencies and Commitments

The Foundation has borrowed \$222,797,098 and \$125,016,119 of restricted cash and cash equivalents as displayed in its Foundation Unrestricted, Foundation Temporarily Restricted, and Permanently Restricted assets as of June 30, 2013 and 2012, respectively, and has reported this interfund borrowing as "due to (from)" on the Statement of Financial Position. The Foundation assumes all risk associated with the composition of assets related to the Foundation's reinvestment of the temporarily restricted University monies. These borrowings were used to (1) acquire property, plant and equipment for the benefit of the University, (2) purchase investment securities, and (3) support on-going Foundation operations. Repayment of the borrowings is primarily dependent on the Foundation's ability to (1) generate future appreciation and income from investment securities, (2) receive future revenue from existing property leases arrangements with the University and (3) receive future unrestricted gifts. Management has currently developed initiatives to reduce such borrowings in the future and maintain an appropriate composition of assets to comply with all donor restrictions.

Interfund financing of \$1,150,000 and \$1,900,000 as of June 30, 2013 and 2012, respectively, represents amounts financed by the Foundation unrestricted net assets to the agency and temporarily restricted University net assets. The carrying value of interfund financing approximates fair market value, as the borrowing rates currently available to the Foundation are similar to the terms on remaining maturities. Interest rates are from 4.0% to 4.95% as of June 30, 2013 and June 30, 2012.

## **Note 11 - Program Expenditures**

Program expenditures include support for Foundation and University programs. Foundation programs include: real estate, air services, Student Foundation, cultural center, women's programs and other miscellaneous programs. These University related program expenditures primarily support "Grants and aid to the University" and "Endowment and capital additions for the University." For the years ended June 30, 2013 and 2012, a summary of these expenditures follows:

2013

	72			Unrestricted		
Program expenditures:		Foundation		University*	_	Total
