#### **ORGANIZATION**

Vanderbilt University Medical Center ("VUMC") is a Tennessee not-for-profit corporation incorporated in March of 2015 to operate an academic medical center including a comprehensive research, teaching, and patient care health system (the "Medical Center"). Until April 29, 2016, the Medical Center operated as a unit within Vanderbilt University ("the University" or "VU"), as a part of the University's administrative structure, with the same governing board, legal, financial, and other shared services.

VUMC began operations effective April 30, 2016, following the closing of the sale of the Medical Center by the University (the "Acquisition"). VUMC owns and operates three hospitals primarily located on the main campus of the University in Nashville, Tennessee: Vanderbilt University Adult Hospital ("VUAH"), Monroe Carell Junior Children's Hospital at Vanderbilt ("MCJCHV"), and Vanderbilt Psychiatric Hospital ("VPH"). In addition, VUMC partially owns Vanderbilt Stallworth Rehabilitation Hospital ("VSRH"), also located on the main campus of the University, through a joint venture with HealthSouth Corp. in which VUMC holds a 50% interest, which includes a 1% interest held by Vanderbilt Health Services, LLC, ("VHS"), a VUMC wholly owned subsidiary. VUAH, MCJCHV, and VPH are licensed for 1,029 beds, and VSRH is licensed for 80 beds.

VUMC consists of two major operating divisions and an administrative overhead division. The operating divisions include the Clinical Enterprise and Academic Enterprise divisions. The administrative overhead division is referred to as Medical Center Administration ("MCA").

The Clinical Enterprise division includes the professional clinical practice revenues and related expenses of the Vanderbilt Medical Group ("VMG"), and technical revenues and associated expenses for the operation of VUMC's hospitals and clinic facilities, including VUAH, MCJCHV, and VPH. The Clinical Enterprise also includes VHS.

- VUAH is a quaternary care teaching hospital licensed for 670 acute care and specialty beds. VUAH, a Level I trauma center, provides advanced patient care and serves as a key site for medical education and clinical research conducted by physician faculty. VUAH includes a comprehensive burn center, the Vanderbilt Transplant Center, the Vanderbilt Heart and Vascular Institute, and the Vanderbilt Ingram Cancer Center.
- MCJCHV is a pediatric quaternary care teaching hospital licensed for 129 acute and specialty beds, 42 pediatric intensive care beds, and 96 neonatal intensive care beds. MCJCHV is the region's only full-service pediatric hospital, with over 30 pediatric specialties. MCJCHV serves as a site for medical education and clinical research conducted by pediatric physician faculty, houses the only Level IV neonatal intensive care center and the only Level 1 pediatric trauma center within the region, and is a regional referral center for extracorporeal membrane oxygenation (heart and lung failure).
- VPH is a psychiatric hospital licensed for 92 beds and provides both inpatient and outpatient partial hospitalization psychiatric services to both adult and adolescent patients. Also, VPH provides psychiatric assessment services and neuromodulation procedures through electroconvulsive therapy and transcranial magnetic stimulation.
- The VMG is the practice group of physicians and advanced practice clinicians employed by VUMC, most of whom have faculty appointments from the University, who perform billable professional medical services. The VMG is not a separate legal entity. The VMG has a board which consists of the VUMC clinical service chiefs, who also serve as clinical department chairs. Under the oversight of VUMC executive leadership, the VMG sets professional practice standards, bylaws, policies, and procedures. VUMC bills for services

rendered by the VMG clinicians in both inpatient and outpatient locations. Collected fees derive a component of each VMG clinician's compensation.

- The VMG includes nationally recognized physicians whose expertise spans the spectrum from primary care to the most specialized quaternary discipline. The entire clinical faculty is "board certified" or eligible for board certification. All staff members are re-credentialed every two years by the National Committee for Quality Assurance standards. All specialties and subspecialties currently recognized by the various national specialty boards are represented on the clinical faculty.
- VHS serves as a holding company for 15 health care related subsidiaries and joint ventures owned with various entities, including, but not limited to, VSRH and the Vanderbilt Health Affiliated Network ("VHAN"). VHS operations primarily consist of community physician practices, walk-in and retail health clinics, imaging services, outpatient surgery centers, radiation oncology centers, a home health care agency, a home infusion and respiratory service, an affiliated health network, accountable care organizations, and a rehabilitation hospital. These subsidiaries include clinics managed in multiple outpatient locations throughout middle Tennessee and southwestern Kentucky.
- A holding company that includes five limited liability subsidiaries which support various
  business to business health care activities in order to improve the quality, affordability and
  availability of health care services. These subsidiaries include business focused on
  pharmacy, supply chain, and consulting services.

The Academic Enterprise division includes all clinically-related research, research-support activities, and faculty endeavors supporting post-graduate training programs. A significant funding source for VUMC's research has historically been the federal government. Federal funding is received from the Department of Health and Human Services, the National Institutes of Health, the Department of Defense, NASA, and other federal agencies. Sponsored research awards, including multiple-year grants and contracts from government sources, foundations, associations, and corporations signify future research commitments. Also, core activities supporting research, including advanced computing and grant administration, are included in this division.

As mentioned above and throughout this document, VUMC acquired the Medical Center and its operations from the University in the Acquisition. For the purpose of funding the Acquisition, VUMC entered into certain debt agreements. Certain of these debt agreements contain required disclosures which outline annual and quarterly reporting requirements. In addition, certain of these debt agreements require notices of the occurrence of significant events which include but are not limited to delinquencies, bond calls, rating changes, bankruptcies, and mergers or acquisitions.

The VUMC fiscal year end is June 30. The information contained in this document represents the unaudited consolidated results of operations of VUMC as of and for the nine months ended March 31, 2018.

Certain amounts in the Fiscal 2017 financial statements and the summary of operating and utilization data have been reclassified to conform to their Fiscal 2018 presentation. We reclassified interest rate swap settlements from interest expense to non-operating revenues and expenses, as well as the minority interest elimination from operating expenses to excess of revenue over expense attributable to noncontrolling interest. These changes impacted the statement of operations, as well as relevant ratios. Certain other presentation reclassifications were made to the March 31, 2017 balance sheet, which impacted the days cash on hand ratio and are described on subsequent pages. We also reflected reclassifications in the statement of changes in net assets whose net impact on net asset balances as of March 31, 2017 was to decrease unrestricted net assets by \$22 million, increase temporarily restricted

net assets by \$20 million, and increase permanently restricted net assets by \$2 million. The reclassification resulted from donor-restricted pledges and other donor-restricted gifts totaling \$16 million and capital gifts totaling \$6 million, which were included in unrestricted net assets as of March 31, 2017. In addition, certain reclassifications were made on the statement of cash flows, including the presentation of purchases and sales of investments, the presentation of changes in restricted cash for property, plant and equipment and endowments, and certain other reclassifications within categories.

#### SUMMARY OF OPERATING AND UTILIZATION DATA

#### **Licensed Beds**

As of March 31, 2018 VUMC's facilities have 1,029 beds approved for operation, of which 1,018 were fully staffed, with 80 operating rooms. As of March 31, 2017 VUMC's facilities had 1,025 beds approved for operation, of which 1,018 were fully staffed, with 80 operating rooms. These beds are primarily located at VUAH, MCJCHV and VPH. A fourth hospital, VSRH, is operated within a separate joint venture entity, which is currently owned 50% by VUMC. Counting VSRH beds, managed beds at Williamson Medical Center Inpatient Children's Unit, and operated observation beds and bassinet beds, total beds as of March 31, 2018 and 2017, equates to 1,246 and 1,240, respectively.

#### **VUMC Research Revenues**

VUMC receives revenues from research grants which are both federally and non-federally sponsored. The Department of Health and Human Services, the National Institutes of Health, the Department of Defense, NASA, and other federal agencies supported over 74% and 72% of the research expenditures conducted by VUMC as of March 31, 2018 and 2017, respectively. The breakdown of direct research revenues is as follows for the nine months ended March 31, 2018 and 2017 (\$\frac{s}{in thousands}\$):

Source	2018	2017
Federal	\$ 199,628	\$ 160,735
Non-Federal	69,111	62,531
Total	\$ 268,739	\$ 223,266

#### **Capital Cash Flows**

Capital expenditures for the nine months ended March 31, 2018 and 2017, of \$155 million and \$101 million, respectively, primarily included construction in progress and internal use software costs.

#### Utilization

VUMC's overall functional occupancy rate was 92.9% and 93.4% during the nine months ended March 31, 2018 and 2017, respectively, (functional occupancy rate calculated as inpatient days plus observation days in inpatient units divided by total licensed beds, less research, labor & delivery, double rooms used as singles, and 11 and 7 beds that are currently out of service for those periods, respectively). The average number of inpatients in the hospital at midnight census was 912 and 882 at March 31, 2018 and 2017, respectively. Thus, VUMC has continued to operate at or above the theoretical optimal occupancy of 85% when total utilization of capacity is measured. Utilization statistics of the hospitals and clinics for the nine months ended March 31, 2018 and 2017, are as follows:

	2018	2017
Licensed beds <sup>(1)</sup>	1,029	1,025
Hospital inpatient days <sup>(2)</sup>	249,934	241,706

<sup>(2)</sup> Includes nursery and psychiatric hospital; does not include the observation patients.

<sup>(3)</sup> Average occupancy level calculated as inpatient days excluding observation patients divided by total licensed beds multiplied by the number of days in the period.

<sup>(4)</sup> Excludes surgical operations performed by VUMC- employed physicians at separate surgery centers that are partially owned by a VUMC subsidiary.

<sup>(5)</sup> Includes visits related to VHS joint ventures.

#### **VUMC Inpatient Acuity**

Across all inpatients, VUMC's inpatient acuity is measured by case mix index ("CMI"). VUMC's total CMI and CMI for Medicare patients for the nine months ended March 31, 2018 and 2017, are presented below:

	2018	2017	
Total CMI <sup>(1)</sup>	2.16	2.16	
Medicare CMI <sup>(1)</sup>	2.36	2.37	

#### (1) Excludes normal newborns.

During the nine months ended March 31, 2018 and 2017, ambulatory visits at the Medical Center totaled 1,518,414 and 1,523,346, respectively (excluding ambulatory visits from VHS joint ventures). While the majority of the VMG adult and children's ambulatory practice is located in VUAH on the main campus, VUMC health care services are offered outside the main campus, with approximately 49% and 48% of outpatient visits at off-campus locations during this same time period, respectively.

#### **VUMC Payor Mix**

The Medical Center received payment on behalf of most of its patients from a number of third parties, including Blue Cross and other private insurers, the federal government through Medicare, and the federal and state governments through Medicaid. TennCare, the State's managed care plan operating under a Section 1115 Medicaid demonstration waiver from the federal government, provides the majority of Medicaid revenues. The remaining Medicaid revenues are from Medicaid patients who live outside of the State. Blue Cross, one of VUMC's largest payors represented 20% and 23% of total gross patient service revenue (based on technical related revenue) for the nine months ended March 31, 2018 and 2017, respectively.

The revenues attributable to Blue Cross are presented in the commercial/managed care category in the following table, which sets forth the sources of gross amounts of patient service revenue as well as gross amounts of patient service revenue net of contractual allowances for the nine months ended March 31, 2018 and 2017:

(2)	03/31/18	03/31/18
Payor Mix <sup>(2)</sup>	Gross	Net
Commercial/Managed Care <sup>(1)</sup>	46.6%	63.8%
Medicare/Managed Medicare	32.0%	22.7%
Tenncare/Medicaid	16.8%	12.0%

Total	100.0%	100.0%

<sup>(1)</sup> Commercial includes commercial indemnity and other patient service programs provided under contractual arrangements.

<sup>(2)</sup> Percentages based on total net patient service revenue, including professional fee revenue.

	03/31/17	03/31/17
Payor Mix <sup>(2)</sup>	Gross	Net
Commercial/Managed Care <sup>(1)</sup>	47.0%	63.7%
Medicare/Managed Medicare	31.1%	22.6%
Tenncare/Medicaid	18.1%	12.2%

Total	100.0%	100.0%

- (1) Commercial includes commercial indemnity and other patient service programs provided under contractual arrangements.
- (2) Percentages based on total net patient service revenue, including professional fee revenue.

VUMC's major commercial managed care contracts are multi-year agreements, typically three to four years with automatic annual escalators. Commercial contracts reimburse the facility on case rates with stop loss provisions for inpatient medical/surgical services and fee schedules for outpatient services. VPH is reimbursed on per diems. VUMC has no agreements based on full risk or capitation reimbursement. Three major commercial contracts utilize performance on quality metrics as a basis for a portion of the annual escalators. One existing Medical Center commercial contract has two episode-based payment bundles effective July 1, 2015, with upside risk only. Over 82% of VUMC's payments for healthcare services are covered under contracted rates. Termination dates for the most material contracts are presented in the below table.

The following table details payments received from VUMC's largest commercial contracts as a percentage of total net patient revenue for the nine months ended March 31, 2018 and 2017, as well as the respective contract renewal date.

Medicare Advantage contracts represented approximately \$114 and \$103 million in net revenue or 7.0% and 6.5% of Hospital and Clinic net revenue for the nine months ended March 31, 2018 and 2017, respectively, and have termination dates ranging from October 31, 2018 through July 31, 2021.

If not renegotiated, contract automatically renews indefinitely.

#### SUMMARY OF FINANCIAL DATA

#### **Cash and Investments**

The VUMC Board of Directors (the "Board") approves the investment policy, while VUMC management is responsible for appointing and removing investment managers, monitoring asset allocation within the policy guidelines, and other ongoing oversight of the investment portfolio. VUMC utilizes external investment consultants to provide professional investment analysis and guidance to assist in evaluating the performance of the fund managers. As the risk profile of VUMC matures, VUMC management anticipates undertaking modest additional risk, through asset allocation adjustments, in order to improve long-term investment returns. The table below summarizes VUMC's investment allocation as of March 31, 2018, including working capital.

- (2) Total outstanding long-term debt divided by total EBIDA, which includes realized gains from sale of assets incurred in the normal course of operations, investment income (all gains), unrestricted gifts or restricted gifts released from restrictions (spent on the purpose), unrealized gain or loss on interest rate swap, and equity earnings in unconsolidated organizations.
- (3) Unrestricted cash and investments divided by long-term debt, which includes unrestricted cash and cash equivalents and unrestricted investments.
- (4) Certain amounts in the Fiscal 2017 financial statements have been reclassified to conform to their Fiscal 2018 presentation. We reclassified interest rate swap settlements from interest expense to non-operating revenues and expenses on the statement of operations, which impacted EBIDA presented in the calculation above by an immaterial amount. In addition, we adjusted unrestricted net assets for certain items previously discussed in this document, including pledges and certain capital gifts, for which the related net assets should be considered restricted.

#### **Interest Rate Exchange Agreements**

VUMC uses interest rate exchange agreements as part of its debt portfolio management strategy. These agreements do not include collateral pledging requirements. Information regarding the current interest rate exchange agreements, including mandatory termination provisions, is as follows (\$ in thousands):

## **Existing Lease Agreements**

VUMC leases certain property and equipment under leases with terms ranging from two to twenty years. In addition, VUMC is the lessor in a 99 year ground lease with Vanderbilt University. VUMC classifies these leases as operating leases. The follow schedule represents our annual commitments of minimum rentals on non-cancelable operating leases by fiscal year (\$ in thousands):

#### MANAGEMENT DISCUSSION AND ANALYSIS

During FY18, we planned for operating income reductions due to the implementation of our new electronic medical record (EMR) system. Our FY18 March YTD actual operating income of \$44 million compares favorably to FY18 March YTD budgeted operating income of \$39 million. However, FY18 March YTD actual operating income is \$66 million below FY17 March YTD operating income.

We successfully completed our EMR implementation in November and we anticipate the new system will yield future efficiencies. However, in the year of implementation increased operating expenses related to implementation caused a reduction in operating income. The EMR implementation put pressure on clinical volumes in the post-live period although we have achieved net patient services revenue in excess of our budget, the implementation has muted volumes.

FY18 YTD operating earnings before interest, depreciation and amortization (EBIDA) of \$167 million was \$48 million less than FY17 YTD operating EBIDA of \$215 million. The decline in EBIDA was driven by a \$239 million increase in operating expenses, excluding interest, depreciation and amortization, partially offset by a \$191 million increase in operating revenue. FY18 YTD operating results of \$44 million were \$66 million less than FY17 YTD operating results of \$110 million. The decrease in operating results is driven by the \$48 million decrease in operating EBIDA and an \$18 million increase in interest, depreciation and amortization. Interest, depreciation and amortization totaled \$123 million for the current fiscal year-to-date period compared to \$105 million in the prior year. Excess of revenues over expenses was \$78 million which is \$79 million less than FY17 YTD excess of revenues over expenses of \$157 million. The decrease is due to the decrease in operating income discussed above in addition to a decrease of \$13 million in non-operating income.

The primary drivers of the \$13 million decrease in non-operating income were decreased favorable mark to market adjustments of the interest rate exchange agreements' obligations, net of settlements, (\$16 million) and a decrease in gift income (\$2 million), partially offset by an increase in investment income (\$5 million). The decrease in the favorable mark to market adjustments of the interest rate exchange agreements obligation is due to the slowing of the increase in LIBOR compared to the prior year. The decrease in gift income is due to the recognition of gift income when donor restrictions are met and the relative timing of meeting such restrictions. The positive investment income variance was driven by realized and unrealized gains due to favorable market performance and an increase in the amount of funds invested compared to the prior period.

#### Revenues

FY18 YTD operating revenue increased approximately \$191 million, or 7%, to \$3,037 million, from \$2,846 million a year earlier. The primary driver of the increase in revenues was a \$115 million, or 5%, increase in net patient service revenue to \$2,580 million from \$2,465 million a year earlier. The remaining increase is primarily driven by \$55 million increase in Academic and research revenue. The increase in Academic and research revenue is driven by an increase in grant and contract revenue of \$45 million.

#### **Expenses**

FY18 YTD expense increased approximately \$257 million, or 9%, to \$2,993 million from \$2,736 million a year earlier. The primary drivers of this increase were increases in salaries, wages and benefits (\$100 million), services and other expense (\$79 million), drug costs (\$32 million), and medical supplies (\$10 million). The increase in salaries, wages and benefits is primarily due to increased staffing to meet additional demand associated with higher net patient service revenue, research contracts, and training costs for staff related to our EMR system implementation. Services and other expense increase is mainly due to increased consulting, management fees, and contract labor (\$34 million) primarily related to EMR implementation combined with an increase in sub-contracts expense (\$20 million), related to increased grant and contract revenue.

#### **Balance Sheet / Cash Flow**

FY18 YTD net assets increased by approximately \$102 million due to excess of revenues over expenses, restricted gifts in excess of expense, and additional endowments of approximately \$78 million, \$9 million and \$15 million, respectively. Cash decreased by approximately \$66 million which was primarily due to \$135 million of investment purchases, net of sales, \$60 million of cash received that is restricted for the construction of long lived assets, and \$155 million of construction of certain long lived assets. These decreases in cash are partially offset by a \$220 million debt issuance, net of repayments. The remaining changes in the balance sheet were primarily timing items such as increases in receivables due to the revenue-cycle components of the EMR implementation.

#### Conclusion

Although lower operating results were noted thus far in FY 18 compared to prior year, we expected and planned for this decrease in our budget in conjunction with the EMR system conversion. We continue to monitor volumes and net patient services receivable balances during the post implementation period.
