Brightline Passenger Rail Project

December 2018 Ridership and Revenue Results

For the month ended December 31, 2018, we carried a total of 98,076 passengers and generated total revenue of approximately \$2.2 million.

Brightline continued to demonstrate a strong increase in ridership and revenue during December. Ridership increased 22% over November as a result of growth across all customer segments as well as ridership on holiday season event trains. Excluding holiday season event trains in November and December, ridership increased approximately five percent month over month. Total revenue increased 47% over November due to ridership growth as well as growth in ancillary revenue.

Brightline is proud to have served south Florida with over 579 thousand rides in 2018 and we are grateful for the enthusiastic support from guests during our first year of service.
