Brightline Passenger Rail Project

January 2019 Ridership and Revenue Results

For the month ended January 31, 2019, we carried a total of 73,568 passengers and generated total revenue of approximately \$1.7 million. During the month, Virgin Trains continued to experience month-over-month growth in ridership excluding the impact of December's high number of holiday event-related trips, while also achieving growth in average paid fares as we continue to ramp up both ridership and effective pricing. We expect current trends to drive strong ridership and revenue growth in the year ahead.
