Emergency Planning, Prevention and On-Site Safety

Does your school have school security officers?

No.

Does your school utilize surveillance cameras or metal detectors?

We have surveillance cameras near restrooms. We do not use metal detectors.

Does your school conduct annual threat and safety training?

Yes.

Has the staff been trained in resolving student conflicts before they escalate to something more serious?

Yes, and the Crisis Response Team has more advanced training in de-escalation.

Does your school have behavioral/mental health supports?

Yes.

Does your school have an infectious disease response plan?

Yes

Financial Security

Have per pupil payments been interrupted for your charter school borrower?

No.

What is the amount of unbudgeted costs that you have related to school safety and security for the current year?

We have none.

Academic Operations Security

Has your State Department of Education granted a waiver on the number of school days required?

Not at this time, but we expect one. We do not need waivers, however. Our school board passed a resolution allowing us to count days off due to statewide closure as instructional days because of our advanced remote learning program.

Does your school have distance learning capability? If so, how do teachers track student progress?

Yes. We use a dedicated software platform to provide resources and a system for feedback on assignments. Teachers meet with students weekly on a dedicated schedule both asynchronously and in real time through video.

What percentage of students have internet access at home? Is your school or district taking any actions to ensure students will have access to internet at home?

I Less than 10% of our students do not have home internet access. We provide hotspots for students who do not.

What percentage of students have access to iPads or some other compatible device (i.e., Mac books, Chromebooks, a BYOD program?)

100%

Has the State Department of Education waived state testing requirements given extenuating circumstances?

They have but we are awaiting required action by the state legislature to complete this.
