

CENTRAL TEXAS TURNPIKE SYSTEM

Annual Continuing Disclosure Report

For the Fiscal Year Ended August 31, 2020

Filed on February 26, 2021

By the Texas Transportation Commission
Pursuant to Continuing Disclosure Undertakings
For Compliance with SEC Rule 15c2-12

Texas Transportation Commission Central Texas Turnpike System Annual Continuing Disclosure Report For the Fiscal Year Ended August 31, 2020

Filed by Texas Transportation Commission
Relating to Each Outstanding Issue with CUSIP Prefixes 88283K and 882762*

This annual report (this "Annual Report") is being provided by the Texas Transportation Commission (the "Commission"), the governing body of the Texas Department of Transportation (the "Department" or "TxDOT") in compliance with the contractual undertaking (an "Undertaking") to provide annual reports of financial information and operating data, as required by Rule 15c2-12 of the United States Securities and Exchange Commission (the "Rule"), regarding the municipal debt issues (each an "Issue") by the Commission for the Central Texas Turnpike System ("CTTS" or "System").

Pursuant to the rules of the Municipal Securities Rulemaking Board (the "MSRB") the participating underwriters for each Issue were required to file a copy of the Official Statements with the MSRB, copies of which are currently available on the internet page for the ["TEXAS TRANSPORTATION COMMISSION, CENTRAL TEXAS TURNPIKE SYSTEM REVENUE BONDS \(TX\)"](#) on the MSRB's Electronic Municipal Market Access ("EMMA") system (the "CTTS EMMA issuer homepage").

The Official Statements for each Issue (each an "Official Statement") should not be considered to speak as of any date other than the date indicated in such document. Capitalized terms used in this Annual Report and not otherwise defined herein shall have the meanings given in the Official Statements.

Information in this Annual Report regarding the Commission and the System have been compiled and provided by TxDOT, on behalf of the Commission, from TxDOT's records and other sources which are believed by TxDOT to be reliable and is provided in satisfaction of the Undertaking. This Annual Report contains information prescribed by the Rule and neither the Commission nor TxDOT makes any warranty concerning the usefulness of such information to a decision to invest in, hold, or sell bonds, notes, or other obligations payable, in whole or in part, from the sources pledged to the payment of the Issues. Information agreed to be provided by the Commission may be reported in full text herein, or may be incorporated by reference to certain other publicly available documents.

References to internet website addresses presented herein are for informational purposes only and may be in the form of a hyperlink solely for the reader's convenience. Unless specified otherwise, such websites and the information or links contained therein are not incorporated into, and are not part of, this Annual Report. All website links referenced in this Annual Report are also available at the end of this report in the Section entitled "III. Relevant Links and Contact Information" herein.

*All such debt currently "Outstanding" and payable from "Revenues" as such terms are defined in the Official Statement.

I. Update to Annual Financial Information and Operating Data Required by the Undertaking

This Annual Report contains the financial information and operating data with respect to the Commission and the System which the Commission has agreed to update pursuant to the Undertaking. The information provided herein or incorporated by reference speaks as of the date of such information and its incorporation in this Annual Report is not a representation that any of the information has been updated. In addition to this Annual Report, information can be obtained through the Official Statements that are on file with the MSRB's EMMA system.

The information to be updated includes all quantitative financial information and operating data with respect to the Commission and the System of the general type included in the Official Statement or offering document for each Issue, under the

headings "THE SYSTEM," "SYSTEM-RELATED FUNDING OBLIGATIONS OF COMMISSION" and "FUNDING OF COMMISSION OBLIGATIONS," and in "SCHEDULE II – DEBT SERVICE REQUIREMENTS" and "AUDITED FINANCIAL STATEMENTS OF THE SYSTEM". The Commission has also further agreed in the Undertaking to include (i) a table, based on the actual results for such fiscal year, setting forth for such fiscal year, but not including any projection for any future period, the information shown in the table titled "System Estimated Cash Flow and Debt Service Coverage Table," contained in the Official Statement; (ii) a copy of the General Engineering Consultant's annual report relating to its inspection of the System; and (iii) a copy of the toll rate schedule then in effect.

2040	-	-	-	51,500	9,000	124,439	184,939	74,731	259,670
2041	-	-	-	-	49,460	135,483	184,943	74,728	259,671
2042	-	-	-	-	191,922	-	191,922	74,734	266,655
Total	\$ 696,160	\$ 211,964	\$ 583,769	\$ 332,476	\$ 412,292	\$ 451,446	\$ 2,688,107	\$ 2,020,380	\$ 4,708,487

Note: Debt Service is shown on a cash basis, consistent with Debt Service Requirements as reported in CTTS Annual Financial Report for The Fiscal Year Ended August 31, 2020 - Note 5 table "Debt Service Requirements" (excluding unamortized Accretion and Premium).

- (1) The Series 2020-A Bonds, the Taxable Series 2020-B Bonds and the Taxable Series 2020-C Bonds were issued by the Commission on March 5, 2020 to refund outstanding obligations to achieve a debt service savings. Additional information regarding such refunding bonds may be obtained by viewing the Official Statement dated February 20, 2020 which has been filed with the MSRB through its EMMA system and is accessible by clicking [here](#). Such Official Statement speaks only as of its date or such other dates indicated in such document.
- (2) Debt service associated with the Taxable Series 2020-B Bonds after the end of the Multiannual Period (i.e., August 15, 2022) has been assumed at a constant 4.0% interest rate, with principal of the Taxable Series 2020-B Bonds paid at maturity.
- The Series 2015-C Bonds are Second Tier Obligations

ii. Table of Revenues, Expenses and Debt Service Coverage (In Thousands)

	Fiscal Years Ended August 31 ⁽¹⁾				
	2016	2017	2018	2019	2020
Revenues					
Toll Revenue	\$ 170,689	\$ 185,010	\$ 197,546	\$ 220,690	\$ 184,217
Fee Revenue	1,546	15,704	23,911 ⁽²⁾	32,760 ⁽³⁾	35,021
Interest & Other Revenue ⁽⁴⁾	6,670	7,388	9,571	12,097	9,601
Total Revenues	178,905	208,102	231,028	265,546	228,839
Debt Service ⁽⁵⁾					
First Tier Obligations	50,930	57,070	63,410	69,550	68,007
Second Tier Obligations	57,866	57,866	57,866	57,866	57,866
Total Debt Service	108,796	114,936	121,276	127,416	125,873
First Tier Debt Service Coverage Ratio	3.51x	3.65x	3.64x	3.82x	3.36x
Total Debt Service Coverage Ratio	1.64x	1.81x	1.90x	2.08x	1.82x
Revenues in Excess of Current Debt Service	70,109	93,166	109,752	138,130	102,966
Transfers (to)/from Commission for Expenses					
Transfers from the Commission to the System	45,587	5,191 ⁽²⁾	25,933 ⁽²⁾	4,144	5,855
Transfers (to) the Commission from the System ⁽⁶⁾	(43,520)	-	-	-	-
Net Transfers (to)/from Commission	2,067	5,191	25,933	4,144	5,855
Total Current Fiscal Year Available Revenues ⁽⁷⁾	\$ 72,176	\$ 98,357	\$ 135,685	\$ 142,274	\$ 108,821
System Operations, Maintenance, and Capital Expenditures ⁽⁸⁾	\$ 47,232	\$ 51,572	\$ 56,694	\$ 108,014	\$ 211,200

Note: Totals may not sum due to rounding.

- (1) Revenues and expenses are reported on the accrual basis of accounting.
- (2) Fiscal Year 2018 Fee Revenue excludes approximately \$22.6 million in non-roadway specific customer service center and interoperability Fee Revenue which was collected in Fiscal Year 2016 and Fiscal Year 2017 and was previously retained by TxDOT and held outside the Trust Estate. While the Fiscal Year 2016 and Fiscal Year 2017 funds transferred to the System are excluded for purposes of calculating debt service coverage and to facilitate comparison to prior years, the customer service center and interoperability fees are Pledged Revenues recognized in Fiscal Year 2018 and Fiscal Years thereafter.
- (3) Fiscal Year 2019 Fee Revenue also includes administrative Fee Revenue. Such administrative Fee Revenue was not applicable to Fee Revenue in years prior to Fiscal Year 2019, so comparison to prior years Fee Revenue will be impacted by this change.
- (4) Primarily consists of interest earnings on the First Tier Debt Service Reserve Fund but also includes earnings on the Second Tier Debt Service Reserve Fund, Rate Stabilization Fund and Revenue Fund. Interest income

excludes certain interest income which is not pledged for the payment of debt service.

- (5) The debt service presented is based on scheduled cash payments of outstanding debt. Differences in debt service with the System Annual Financial Report are based on GAAP rules applicable to enterprise funds.
- (6) In Fiscal Year 2016, transfers to the Commission represent payments by the System to reimburse the State Highway Fund for operations and maintenance expenses and capital expenditures. Transfers exclude certain transfers to Operating, Maintenance, and Reserve Maintenance Accounts held by the Commission outside of the Indenture which are required to be funded at two months of the ensuing year's budgeted amounts. Beginning in Fiscal Year 2017, System disbursements were made directly from the System Operating, Maintenance, and Reserve Maintenance Accounts and thus reimbursements to the State Highway Fund were not necessary.
- (7) Revenues of the System after payment of Debt Service plus Net Transfers (to)/from the Commission.
- (8) System Operations, Maintenance and Capital Expenditures shown do not reflect depreciation.

System Operating, Maintenance, and Reserve Maintenance Accounts (In Thousands)

As of 8/31/2020	Required	Funded
Operating Account	\$ 17,600	\$ 105,600
Maintenance Account	2,100	12,600
Reserve Maintenance Account	5,800	52,221
Total	\$ 25,500	\$170,421

iii. Payment Method for Tolls

General. The Department currently allows all drivers to pay Tolls for the use of the System in two ways: (i) using an electronic toll collection ("ETC") transponder in the vehicle to debit a pre-paid account or (ii) paying a bill for Tolls sent by mail ("Pay by Mail"). During Fiscal Year 2020, 66% of the total transactions processed for the System are attributable to ETC transponder accounts and 34% are attributable to image-based transactions, consisting of invoiced Pay by Mail transactions and not invoiced, unbillable transactions. The Fiscal Year 2020 overall collection rate for CTTS is 80% including both ETC and Pay by Mail transactions.

ETC Transponder Payment Method.

The ETC transponder payment method requires that drivers attach a transponder to the windshields of their vehicles which sends a signal to the electronic tolling equipment as the vehicle crosses a tolling point. The Department's ETC transponder is branded as a "TxTag". Each TxTag transponder is associated with a pre-paid customer account and funds are withdrawn by the Department from the account as tolls are incurred. A single toll account can have multiple TxTag transponders associated with the account.

As of August 31, 2020, there were 1,431,340 active toll accounts with 2,637,186 active TxTag transponders state-wide. As of August 31, 2020, the number of active TxTags increased approximately 6.4% over such number as of August 31, 2019.

Pay by Mail Payment Method.

For transactions that do not post to an ETC transponder account, a Pay by Mail invoice is mailed to the address registered to the license plate of the vehicle. Pay by Mail toll rates are 50% more than an ETC transponder toll rate, plus a per statement fee. During Fiscal Year 2020, approximately 12.1% of all image-based transactions on the System could not be invoiced, including but not limited to exempt vehicles such as government and emergency vehicles. Additionally, during Fiscal Year 2020, the collection rate on invoiced Pay by Mail transactions on the System was 48.6% and the collection rate for all image-based transactions (invoiced and non-invoiced) was 46%.

iv. Toll Escalation Policy & Toll Rate Schedule

In August 2012, pursuant to Minute Order 113244, the Commission approved an annual toll escalation policy (the "2012 Toll Escalation Policy") under which rate increases will be considered by the Commission every October and shall be automatically effective on January 1 of the calendar year (CY), unless the Commission votes prior to January 1 to change the escalation rate. The percentage of annual toll escalations is based on the Consumer Prices for All Urban Consumers (CPI-U) before seasonal adjustment, as published by the Bureau of Labor Statistics of the US Department of Labor. In October 2020, the CTTS toll rate escalation percentage was calculated to be 1.3% which took effect January 1, 2021. The table below sets forth the escalation rates applied per the 2012 Toll Escalation Policy.

October Approval	Annual Escalation Percent	Effective January 1
2016	1.1%	2017
2017	1.9%	2018
2018	2.7%	2019
2019	1.7%	2020
2020	1.3%	2021

The toll rates shown in the table below apply to ETC transactions for two-axle vehicles ("Auto"). The Full Length Toll Rates include mainline plaza rates multiplied by the number of mainline tolling points for each roadway and exclude entrance and exit ramp charges. Annual Toll Rates for all years shown were adjusted in accordance with the 2012 Toll Rate Escalation Policy. However, because of the percent of the escalation and rounding to the nearest penny, certain years do not show a change in the per mile Toll rates presented.

Auto Toll Rates by Calendar Year (In Nominal Dollars)

Element	Full Length Toll Rates			Per Mile Toll Rates		
	CY 2019	CY 2020	CY 2021	CY 2019	CY 2020	CY 2021
Loop 1 (4.0 miles)	\$1.12	\$1.14	\$1.15	\$0.28	\$0.29	\$0.29
SH 45N (12.8 miles)	\$2.24	\$2.28	\$2.30	\$0.18	\$0.18	\$0.18
SH 130 (49.0 miles)	\$7.40	\$7.52	\$7.60	\$0.15	\$0.15	\$0.16
SH 45SE (7.0 miles)	\$1.10	\$1.12	\$1.13	\$0.16	\$0.16	\$0.16

The [CTTS Toll rate schedule, effective January 1, 2021](#), may be found online at the CTTS EMMA issuer homepage and is incorporated by reference into and made a part of this Annual Report.

v. Toll Discounts

Veteran Toll Waiver Program. In compliance with the provisions of the Master Indenture and after receipt of the required certification by the Traffic Consultant, the Commission authorized free passage on the System for both TxTag and Pay by Mail customers who are disabled veterans or recipients of the Purple Heart, Congressional Medal of Honor, Air Force Cross, Distinguished Service Cross, Army Distinguished Service Cross or Navy Cross (Legion of Valor) effective December 24, 2012. To take advantage of this program, eligible veterans are required to register the license plates of their vehicles with the Texas Department of Motor Vehicles. The transactions for such registered license plates are invoiced to TxDOT and TxDOT pays the System for the transactions. TxDOT has a monitoring program to identify eligible transactions and the associated revenue to be reimbursed. The Department reimburses the appropriate Master Indenture account for the cost of tolls waived for customers with such eligible plates.

Since the program began, TxDOT reimbursed the System approximately \$37.3 million to pay for approximately 28.5 million eligible veteran transactions. In Fiscal Year 2020, the System was reimbursed approximately \$6.57 million on approximately 4.9 million transactions.

vi. Administrative and Customer Service Center Fees

In addition to the toll rates charged for the System, the Commission charges fees for various customer services related to utilizing the various toll facilities of the Department that are not attributable to a specific transaction or roadway. These fees are assessed to reimburse for specific TxTag services. Fee structure during Fiscal Year 2020 is set forth below.

Standard TxTag Fee - \$7.99, only applies to Accounts that are not enrolled in AutoPay.
Specialty TxTag Fee - \$45.00 for motorcycles and license plates; includes \$35.00 refundable deposit.
Mailed Monthly Statement or Mailed /Faxed On-Demand Statement Fee - \$1.15.
Returned Check Fee - \$30.00 per check.
Administrative (late) Fee - \$4.00

vii. Interoperability

General. The System's toll collection system is interoperable with other Texas, Oklahoma and Kansas ETC systems so that customers with TxTags and customers with transponder tags issued by other entities are not required to have multiple transponders in their vehicles.

Central Interoperability Agreement. In March 2017, an interoperability agreement was executed among TxDOT, and several other tolling entities within Texas (including the Harris County Toll Road Authority, the North Texas Tollway Authority, the CTRMA and the Fort Bend Grand Parkway Toll Road Authority), the Oklahoma Turnpike Authority and the Kansas Turnpike Authority, and is referred to as the Central US Interoperability Agreement (the "Central Interoperability Agreement"). The Central Interoperability Agreement provided for the use of any tolling entity's transponder on any other tolling entity's toll road or system and the processing by each agency of tolls for the transactions of their own customers' transponders occurring on toll roads owned by other agencies. TxDOT, the other Texas tolling entities and the Kansas Turnpike Authority implemented the terms of the Central Interoperability Agreement in May 2017, and the Oklahoma Turnpike Authority implemented the terms of such agreement in April 2019. The E-470 Public Highway Authority of Colorado (which is the toll operator of most toll roads in Colorado) is expected to join and implement the terms of the Central Interoperability Agreement in the future.

Pursuant to the terms of the Central Interoperability Agreement, in order to reimburse the costs to process these transactions and manage customer accounts, the Commission pays and receives from the transponder issuing agency a fee of 5 cents per transaction and 3% of the revenue generated for each interoperable transaction, with a minimum of 8

cents per transaction. Approximately 18% of Toll revenue of the System in Fiscal Year 2020 was from customers with transponder tags issued by other entities that used the System.

Additional Interoperability Agreements. TxDOT expects to enter into one or more additional interoperability agreements involving other states in order to comply with the federal Moving Ahead for Progress in the 21st Century Act, which requires that all toll facilities on federal-aid highways implement technologies or business practices that provide for the interoperability of ETC programs, meaning that all transponders can be read on all facilities and all facilities can read all transponders to provide a seamless process to all patrons on all facilities. In October 2017, TxDOT entered into a separate interoperability agreement with the same entities that are parties to the Central Interoperability Agreement as well as the Florida Turnpike Enterprise, related to the interoperability of their respective ETC programs through the use of the Central US Interoperability Hub and the Southeast US Interoperability Hub. The Southeast US Interoperability Hub is owned, operated and maintained by the Florida Turnpike Enterprise and provides for interoperability of transponders on multiple facilities in the states of Florida, North Carolina, South Carolina, Georgia and Alabama. TxDOT is currently reviewing an agreement with the Western HUB (WEIOP) with plans to become interoperable in the future.

viii. Annual Financial Report

[The CTTS Fiscal Year 2020 Audited Annual Financial Report \("CTTS AFR"\)](#) may be found online at the CTTS EMMA issuer homepage and is incorporated by reference into and made a part of this Annual Report.

ix. Annual Inspection Report

The General Engineering Consultant's [CTTS Fiscal Year 2020 Annual Inspection Report](#) may be found online at the CTTS EMMA issuer homepage and is incorporated by reference into and made a part of this Annual Report.

B. SYSTEM RELATED FUNDING OBLIGATIONS OF THE COMMISSION (IN THOUSANDS) ⁽¹⁾

	2017 Actual	2018 Actual	2019 Actual	2020 Actual	2021 Budget ⁽⁴⁾
Operations ⁽²⁾	\$ 30,511	\$ 39,820	\$ 41,543	\$ 49,527	\$ 105,600
Maintenance ⁽²⁾	8,934	12,876	11,740	11,221	12,600
Operations and Maintenance	\$ 39,445	\$ 52,695	\$ 53,282	\$ 60,747	\$ 118,200
Reserve Maintenance ⁽³⁾	\$ 4,299	\$ 3,204	\$ 44,799	\$ 100,262	\$ 93,000
Total	\$ 43,744	\$ 55,899	\$ 98,081	\$ 161,009	\$ 211,200

Note: Totals may not sum due to rounding.

- (1) Table presentation has been updated to report cash expenditures from the referenced Indenture accounts rather than financial reporting amounts shown on an accrual basis. Differences in actuals provided in prior reports are primarily due to the difference in cash versus accrual basis of reporting.
- (2) Excludes depreciation expense and maintenance expense associated with Reserve Maintenance.
- (3) Includes maintenance expense associated with Reserve Maintenance and capital expenditures. The Commission budgets capital expenditures and unusual and extraordinary maintenance in the Reserve Maintenance Account for a rolling five-year period. Fiscal Year 2021 capital budget includes approximately \$30 million for SH 130 additional lanes and approximately \$28 million for the addition of the US 290 direct connector and related improvements payable from funds held in the System Capital Contribution Account within the Construction Fund. See "THE SYSTEM – Supplemental Information -Additions to the System." In addition, the Fiscal Year 2021 capital budget includes approximately \$15 million for back office development. Any budget for future Fiscal Years assuming use of TxDOT funds is subject to future legislative appropriation.
- (4) A majority of the increase in the FY 2021 Operating budget is related to expenditures associated with the development and implementation of the new back office system.

C. FUNDING OF COMMISSION OBLIGATIONS

i. State Highway Fund Information

The Commission has covenanted in the Master Indenture to (i) pay Operating Expenses to the extent of any deficiency in the Operating Account; (ii) pay all Maintenance Expenses when due, for which it may be reimbursed and (iii) fund the Reserve Maintenance Account, all subject to funds appropriated by the Legislature in a manner that would allow their use. This funding obligation of the Commission has historically been funded from the State Highway Fund ("SHF"), the primary source of funding for the construction, maintenance and operation of the Texas highway system. Since Fiscal Year 2013, the System has been self-supporting for all operation, maintenance and capital expenses. For administrative ease prior to Fiscal Year 2017, the Commission paid all operations, maintenance and capital expenses on behalf of the System, and the System periodically reimbursed the Commission from available revenues in excess of debt service from and to the extent of funds available in the General Reserve Fund. Beginning in Fiscal Year 2017, System expenses were paid directly from the System Operating, Maintenance and Reserve Maintenance accounts and reimbursements to the SHF were not necessary. For further information regarding the Department and the SHF, reference is made to the SHF disclosures which are available online at the [SHF EMMA issuer homepage](#).

The SHF Annual Continuing Disclosure Report for the Fiscal Year Ended August 31, 2020 may be found online at the Commission SHF EMMA issuer homepage for CUSIP prefix 88283L and is incorporated by reference into and made a part of this Annual Report.

ii. TxDOT Comprehensive Annual Financial Report

[The TxDOT Comprehensive Annual Financial Report \("CAFR"\)](#) for the Fiscal Year Ended August 31, 2020 may be found online at the SHF EMMA issuer homepage for CUSIP prefix 88283L and is incorporated by reference into and made a part of this Annual Report.

II. Supplemental Information

A. Additions to the System

SH 130 Expansion Project Update

The Commission adopted Minute Order 114813 on January 26, 2017 authorizing TxDOT to proceed with the SH 130 expansion project to add an additional toll lane in each direction from SH 45N to SH 71, payable from the capital contribution account of the construction fund created under the CTTS indenture for that purpose. This project was divided into the following two separate construction contracts for letting:

Segment 2 (SH 45N to US 290):

The project was let by TxDOT on December 6, 2017. Contract awarded to OHL USA, Inc. in April 2018. The System disbursed a total of \$30 million project-to-date disbursements as of August 31, 2020. Remaining construction costs of approximately \$11 million are anticipated and construction is scheduled to be complete in Spring 2021.

Segment 3 (US 290 to SH 71):

The project was let by TxDOT on October 3, 2018. Contract awarded to OHL USA, Inc. in December 2018. The System disbursed a total of \$45 million project-to-date disbursements as of August 31, 2020. Remaining construction costs of approximately \$13 million are anticipated and construction is scheduled to be complete in Spring 2021.

SH 130 and US 290 Direct Connector Update:

The Commission adopted Minute Order 114958 on June 29, 2017, authorizing construction and funding for a direct connector between SH 130 and the Central Texas Regional Mobility Authority's (CTRMA) US 290 toll project (290 Toll). Two additional direct connectors between SH 130 and 290 Toll were authorized and will be part of the CTRMA system. The SH 130 direct connector and related improvements that will be part of the SH 130 element of the CTTS will connect eastbound 290 Toll to southbound SH 130. On June 18, 2018, TxDOT and CTRMA executed agreements for the construction and delivery of the direct connectors. Pursuant to these agreements, CTRMA is responsible for construction of all direct connectors and related improvements and TxDOT is responsible, through available funds of CTTS, for the costs of constructing the SH 130 director connector and related remaining improvements which total cost is currently estimated at approximately \$28 million. Construction began December 2018 and is anticipated to be opened to traffic in January 2021. The System disbursed a total of nearly \$13 million project-to-date disbursements as of August 31, 2020.

B. Impact of COVID-19

On March 13, 2020, the President of the United States declared the COVID-19 pandemic a national emergency and the Texas Governor declared COVID-19 an imminent threat of disaster for all counties in Texas. The situation continues to evolve; for additional information on these events in Texas, reference is made to the website of the Governor at <https://gov.texas.gov/> and the quarterly Bond Appendix and any supplements thereto as prepared by the Texas Comptroller of Public Accounts which are on file with the Municipal Securities Rulemaking Board's Electronic Municipal Market Access System (EMMA). The Texas Transportation Commission and the Department continue to monitor the spread of COVID-19 and are working with local, state, and national agencies to address the potential impact of COVID-19.

The information contained in this report is provided as of the respective dates and for the periods specified herein, and the filing of this report does not, under any circumstances, imply that there has been no change in the affairs of the CTTS or TxDOT since the specified date or dates as of which such information is provided. The full impact of the COVID-19 pandemic and the scope of any adverse impact on the CTTS, revenues of the System, and TxDOT cannot be fully determined at this time. The pandemic has adversely affected travel, commerce and financial markets globally and is expected to adversely affect economic output worldwide and in Texas, including within the counties traversed by the CTTS. These effects have reduced, and are expected to slow the growth of future toll transactions occurring on the System and the collection of toll revenues, may reduce and slow the growth of certain assets of CTTS, and may increase System expenses, to an extent that cannot currently be predicted, and could be material. Accordingly, the historical information set forth in this report may not be indicative of future results or performance due to these and other factors.

C. Changes in Administration

Executive Director of the Department:

James M Bass, Executive Director, has announced his retirement from the Department effective May 31, 2021.

Chief Financial Officer of the Department:

Effective February 1, 2021, Lanny Wadle was named Interim Chief Financial Officer, following the retirement of Brian Ragland at the end of January 2021.

Reappointments to the Commission:

On February 23, 2021, Texas Governor Greg Abbott announced the reappointment of J. Bruce Bugg Jr. and Alvin New to the Commission, for terms set to expire February 1, 2027. Mr. Bugg will continue to serve as Chairman. The appointments are subject to confirmation by the Texas Senate.
