Total liabilities and net assets	\$ 41	,818,727	s	44,075,780

<sup>\*</sup>Consists of variable rate demand bonds with put options that may be exercised at the option of the bondholders, with stated repayment installments through 2047, as well as certain serial mode bonds with scheduled remarketing/mandatory tender dates occurring prior to March 31, 2024. In the event that bonds are not remarketed upon the exercise of put options for the variable bonds or scheduled mandatory tender bonds, management would utilize other sources to access the necessary liquidity. Potential sources include a drawdown on the System's line of credit, issuing commercial paper, and liquidating investments.

### Notes to Consolidated Financial Statements (unaudited) (Dollars in Thousands)

#### 1. Organization and Mission

#### **Organizational Structure**

Ascension Health Alliance, d/b/a Ascension (Ascension), is a Missouri nonprofit corporation formed on September 13, 2011. Ascension is a Catholic national health system consisting primarily of nonprofit corporations that own and operate local healthcare facilities, or Ministry Markets, located in 19 states and the District of Columbia. Ascension also serves as the direct or indirect member or shareholder of various subsidiaries including, but not limited to:

- Ascension Care Management
- Ascension Risk Services
- Ascension Foundation
- Ascension Global Mission
- Ascension Healthcare
- Ascension Holdings
- Ascension Leadership Academy
- Ascension Technologies
- Ascension Capital
  - o Ascension Investment Management (AIM)
  - o Ascension Ventures (AV)
  - o AV Holding Company
- The Resource Group
- SmartHealth Solutions

Ascension is also the majority investor in Ascension Alpha Fund, LLC (Alpha Fund), a limited liability company organized in the state of Delaware, as well as the majority limited partner of various venture capital funds (the Venture Funds), as further discussed in the Investment Funds note. The Alpha Fund and the Venture Funds are collectively referred to as Investment Funds. Ascension and its member organizations are hereafter referred to collectively as the System.

#### **Sponsorship**

Ascension is sponsored by the Ascension Sponsor, a Public Juridic Person. The Participating Entities of the Ascension Sponsor include the Daughters of Charity of St. Vincent de Paul, St. Louise Province; the Congregation of St. Joseph; the Congregation of the Sisters of St. Joseph of Carondelet; the Congregation of Alexian Brothers of the Immaculate Conception Province, Inc. – American Province; and the Sisters of the Sorrowful Mother of the Third Order of St. Francis of Assisi – US/Caribbean Province.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 1. Organization and Mission (continued)

#### Mission

The System directs its governance and management activities toward strong, vibrant, Catholic Ministries united in service and healing, and dedicates its resources to spiritually centered care which sustains and improves the health of the individuals and communities it serves. In accordance with the System's mission of service to those persons living in poverty and other vulnerable persons, each Ministry Market accepts patients regardless of their ability to pay. The System uses four categories to identify the resources utilized for the care of persons living in poverty and community benefit programs:

- Traditional charity care includes the cost of services provided to persons who cannot afford healthcare because of inadequate resources and/or who are uninsured or underinsured.
- Unpaid cost of public programs, excluding Medicare, represents the unpaid cost of services provided to persons covered by public programs for persons living in poverty and other vulnerable persons.
- Cost of other programs for persons living in poverty and other persons who are vulnerable.
- Unreimbursed costs of community benefit programs and services for the broader community, not solely for the persons living in poverty, including health promotion and education, health clinics and screenings, and medical research.

Discounts are provided to all uninsured and underinsured patients, including those with the means to pay. Discounts provided to those patients who did not qualify for financial assistance are not included in the cost of providing care for persons living in poverty and other community benefit programs. The cost of providing care for persons living in poverty and other community benefit programs is estimated by reducing charges forgone by a factor derived from the ratio of each entity's total operating expenses to the entity's billed charges for patient care. Certain costs such as graduate medical education and certain other activities are excluded from total operating expenses for purposes of this computation.

The amount of traditional charity care provided, determined on the basis of cost, was \$388,469 and \$395,693 for the nine months ended March 31, 2023 and 2022, respectively. The amount of unpaid cost of public programs, cost of other programs for persons living in poverty and other vulnerable persons, and community benefit cost is reported in the accompanying supplementary information.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 2. Significant Accounting Policies

#### **Principles of Consolidation**

The System consolidates all entities for which operating control is exercised by the System or one of its member entities, and all significant inter-entity transactions have been eliminated in consolidation. Excluding investments where the fair value option is elected, investments in entities where the System does not have operating control are recorded under the equity method of accounting, and results of operations are included in other operating revenue.

#### **Use of Estimates**

Management has made estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues, and expenses. Actual results could differ from those estimates.

#### Fair Value of Financial Instruments

Carrying values of financial instruments classified as current assets and current liabilities approximate fair value. The fair values of financial instruments measured at fair value are disclosed in the Fair Value Measurements note.

#### **Cash and Cash Equivalents**

Cash and cash equivalents consist of cash and interest-bearing deposits with original maturities of three months or less.

#### **Short-Term Investments**

Short-term investments consist of investments with original maturities exceeding three months and up to one year.

#### **Inventories**

Inventories, consisting primarily of medical supplies and pharmaceuticals, are stated at the lower of cost or market value using first-in, first-out (FIFO) or a methodology that closely approximates FIFO.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 2. Significant Accounting Policies (continued)

#### **Long-Term Investments and Investment Return**

Long-term investments are primarily comprised of the Investment Funds, which are consolidated by the System. The System's investments, including the Investment Funds, are measured at fair value or net asset value. Further information about long-term investments and investment return are discussed in the Investment Funds, Cash and Investments, and Fair Value Measurements notes.

Long-term investments include assets limited as to use of \$1,644,683 and \$1,492,774 at March 31, 2023 and June 30, 2022, respectively. Assets limited as to use are primarily investments with donor restrictions, including restricted cash and cash equivalents, and assets placed in trust or held by captive insurance companies for the payment of self-insured claims.

Purchases and sales of investments are accounted for on a trade-date basis. Investment returns consist of dividends, interest, and gains and losses. The cost of substantially all securities sold is based on the FIFO method. Investment returns, excluding returns of self-insurance trust funds and restricted investment returns, are reported as nonoperating gains (losses) in the Consolidated Statements of Operations and Changes in Net Assets. Investment returns of self-insurance trust funds are reported as a separate component of income from operations in the Consolidated Statements of Operations and Changes in Net Assets.

#### **Property and Equipment**

Property and equipment are stated at cost or, if donated, at fair market value at the date of the gift. Depreciation is determined on a straight-line basis over the estimated useful lives of the related assets. The range of estimated useful lives used in computing depreciation is as follows: buildings and leasehold improvements, 2 to 40 years; and equipment, 2 to 20 years. Depreciation expense for the three months ended March 31, 2023 and 2022 was approximately \$281,000 and \$280,000, respectively. Depreciation expense for the nine months ended March 31, 2023 and 2022 was approximately \$837,000 and \$836,000, respectively.

# Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 2. Significant Accounting Policies (continued)

A summary of property and equipment is as follows:

	March 31, 2023	June 30, 2022
Land and improvements	\$ 1,504,528	\$ 1,458,294
Buildings and equipment	21,843,602	22,143,058
	23,348,130	23,601,352
Less accumulated depreciation	13,303,896	13,105,544
	10,044,234	10,495,808
Construction in progress	741,403	928,253
Total property and equipment, net	\$ 10,785,637	\$ 11,424,061

Several capital projects have remaining construction and related equipment purchase commitments of approximately \$791,000 as of March 31, 2023.

#### **Intangible Assets**

Intangible assets primarily consist of goodwill and capitalized computer software costs, including internally developed software. Costs incurred in the development and installation of internal use software are expensed or capitalized depending on whether they are incurred in the preliminary project stage, application development stage, or post-implementation stage, and the nature of the costs. Intangible assets are included in the Consolidated Balance Sheets as presented in the table that follows.

### Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 2. Significant Accounting Policies (continued)

Capitalized software costs in the following table include software in progress of \$152,148 and \$129,165 at March 31, 2023 and June 30, 2022, respectively:

	March 31, 2023		June 30, 2022
Capitalized software costs	\$	2,735,083	\$ 2,619,142
Less accumulated amortization		2,192,081	2,118,595
Capitalized software costs, net		543,002	500,547
Goodwill		525,208	497,503
Other, net		43,278	45,072
Intangible assets included in other assets		568,486	542,575
Total intangible assets, net	\$	1,111,488	\$ 1,043,122

Intangible assets whose lives are indefinite, primarily goodwill, are not amortized and are evaluated for impairment at least annually or when circumstances indicate a possible impairment may exist. Intangible assets with definite lives, primarily capitalized computer software costs, are amortized on a straight line basis over their expected useful lives. Amortization expense for these intangible assets for the three months ended March 31, 2023 and 2022 was approximately \$45,000 and \$55,000, respectively. Amortization expense for these intangible assets for the nine months ended March 31, 2023 and 2022 was approximately \$144,000 and \$163,000, respectively.

#### **Noncontrolling Interests**

The Consolidated Financial Statements include all assets, liabilities, revenues, and expenses of entities that are controlled and consolidated by the System. Noncontrolling interests in the Consolidated Balance Sheets represent the portion of net assets owned by entities outside the System, for those entities in which the System's ownership interest is less than 100%.

### Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 2. Significant Accounting Policies (continued)

#### **Net Assets**

Net Assets Without Donor Restrictions

Net assets without donor restrictions are those whose use by the System has not been limited by donors and are available for general operating use.

Net Assets With Donor Restrictions

Net assets with donor restrictions include those whose use by the System has been limited by donors for a specific time period or purpose, primarily for patient care, operations, and property and equipment.

This category also includes net assets restricted by donors to be maintained in perpetuity. The income generated from these restricted investments is primarily used to purchase equipment and to provide charity care and other health and educational services. Contributions with donor-imposed restrictions that are met in the same reporting period are reported as net assets without donor restrictions.

#### **Performance Indicator**

The performance indicator is the excess of revenues and gains over expenses and losses. Pension and other postretirement liability adjustments, transfers to or from sponsors and other affiliates, net assets released from restrictions for property acquisitions, and changes in unconsolidated entities' net assets are not included in the performance indicator.

#### **Operating and Nonoperating Activities**

The System's primary mission is to meet the healthcare needs in its communities served through a broad range of general and specialized healthcare services, including inpatient acute care, outpatient services, long-term care, and other healthcare services. Activities directly associated with the furtherance of this purpose are classified as operating activities, while activities resulting in gains or losses peripheral to the System's primary mission are classified as nonoperating.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 2. Significant Accounting Policies (continued)

#### **Net Patient Service Revenue and Accounts Receivable**

Net patient service revenue relates to contracts with patients, and in most cases involve a third-party payor (Medicare, Medicaid, commercial and other managed care insurance companies) in which the System's performance obligations are to provide health care services. Net patient service revenues are recorded at expected collectible amounts over the time in which obligations to provide health care services are satisfied. Revenue is accrued to estimate the amount of revenue earned to date for patients who have not been discharged and whose care services are not complete as of the reporting period. Substantially all the System's performance obligations are satisfied in one year.

The transaction price is determined based on gross charges for services provided, reduced by contractual adjustments provided to third-party payers, discounts provided to uninsured patients in accordance with the System's charity care policy, and implicit price concessions provided primarily to uninsured patients. Patients who have health care insurance may also have discounts applied related to their copayment or deductible. Implicit price concessions are recorded as a direct reduction to net patient service revenue and are based primarily on historical collection experience.

Estimates of contractual adjustments and discounts are determined by major payor classes for inpatient and outpatient revenues based on contractual agreements, discount policies and historical experience. Management regularly reviews the contractual estimation process to consider and incorporate updates to laws and regulations and frequent changes in commercial and managed care contractual terms resulting from contract renegotiations and renewals.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Adjustments to revenue related to prior periods increased net patient service revenue by \$132,635 and \$152,526 for the nine months ended March 31, 2023 and 2022, respectively.

Settlements with third-party payers for retroactive revenue adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. Such estimates are determined through either a probability-weighted estimate or an estimate of the most likely amount, depending on the circumstances related to a given estimated settlement item.

# Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 2. Significant Accounting Policies (continued)

These settlements are estimated based on the terms of the payment agreement with the payer, correspondence from the payer and historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known, or as years are settled or are no longer subject to such audits, reviews and investigations.

Net patient service revenue earned for the three months ended March 31, 2023 and 2022, is as follows:

	The three months ended March 31,				
		2023		2022	
Inpatient care	\$	2,883,478	\$	2,936,707	
Ambulatory care		2,617,618		2,398,792	
Physician practices		726,658		704,002	
Long-term care		106,355		96,104	
Total net patient service revenue	\$	6,334,109	\$	6,135,605	

Net patient service revenue earned for the nine months ended March 31, 2023 and 2022, is as follows:

	The nine months ended March 31,				
	2023			2022	
Inpatient care	\$	8,727,723	\$	9,007,525	
Ambulatory care		7,903,729		7,497,936	
Physician practices		2,241,449		2,203,995	
Long-term care		320,251		294,414	
Total net patient service revenue	\$	19,193,152	\$	19,003,870	

### Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 2. Significant Accounting Policies (continued)

The System grants credit without collateral to its patients. Net patient service revenues earned by payor and significant concentrations of accounts receivable are as follows:

	Net Patient Service Revenue		Accou	nts	
	The nine months ended		Receiv	vable	
	March	31,	March 31,	June 30,	
	2023	2022	2023	2022	
Medicare - traditional and managed	36.0 %	35.8 %	30.0 %	30.0 %	
Medicaid - traditional and managed	15.4	14.5	11.6	11.8	
Other commercial and managed care	41.9	43.0	44.3	44.5	
Self-Pay and other	6.7	6.7	14.1	13.7	
	100.0 %	100.0 %	100.0 %	100.0 %	

Deductibles, copayments, and coinsurance under third-party payment programs which are the patient's responsibility are included within the primary payor category in the preceding table.

The primary collection risks relate to uninsured patient accounts, including patient accounts for which the primary insurance carrier has paid the amounts covered by the applicable agreement, but patient deductibles and copayments remain outstanding. Accounts are written off when all reasonable internal and external collection efforts have been performed.

Implicit price concessions relate primarily to amounts due directly from patients. Estimated implicit price concessions are recorded for all uninsured accounts, regardless of the aging of those accounts. The estimates for implicit price concessions are based upon management's assessment of historical write-offs and expected net collections, business and economic conditions, trends in federal, state and private employer health care coverage and other collection indicators.

Management relies on the results of detailed reviews of historical write-offs and collections of revenues and accounts receivable as a primary source of information in estimating the collectability of accounts receivable. Management updates the hindsight analysis at least quarterly, using primarily a rolling twelve-month collection history and write-off data. These routine, quarterly changes in estimates have not resulted in material adjustments to the valuations of accounts receivable or period-to-period comparisons of results of operations.

# Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 2. Significant Accounting Policies (continued)

#### **Other Operating Revenue**

Other operating revenues are recorded at amounts the System expects to collect in exchange for providing goods or services not directly associated with patient care and recorded over the time in which obligations to provide goods or services are satisfied. The amounts recognized reflect consideration due from customers, third party payors, and others.

Components of other operating revenue are included in the following tables for the three and nine months ended March 31, 2023 and 2022, respectively:

	The three months ended March 31,			
	2023			2022
Cafeteria and vending	\$	19,582	\$	16,495
COVID-19 funding (see Note 3)		9,578		77,052
Contracted services		63,582		61,157
Donations and grants		23,159		29,306
Gains on asset sales		1,505		5,229
Insurance plans		78,625		33,540
Joint venture income		68,368		47,135
Lab services		14,874		21,062
Lease and rental income		23,513		22,559
Retail pharmacy		211,902		154,061
Supplemental care programs		56,286		38,432
Other		37,437		48,183
Total other revenue	\$	608,411	\$	554,211

1,884,020

Supplemental care is revenue related to expansion and improvement of care through programs including accountable care organizations, shared savings, and other similar arrangements. Contracted services primarily include revenue from services provided under third party arrangements.

S

#### Impairment and Nonrecurring Gains (Losses), Net

Supplemental care programs

Total other revenue

Other

Long-lived assets are reviewed for impairment whenever events or business conditions indicate the carrying amount of such assets may not be fully recoverable. Initial assessments of recoverability are based on estimates of undiscounted future net cash flows associated with an asset or group of assets. Where impairment is indicated, the carrying amount of an asset or group of assets is reduced to fair value based on income and market approaches, which may include discounted estimates of future net cash flows, market comparables for similar assets, and appraisals.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 2. Significant Accounting Policies (continued)

Ascension has determined that estimated future net cash flows for certain System entities will not support their recoverability. As such, an impairment charge of approximately \$714,454 was recognized for the three months ended March 31, 2023, included in Impairment and Nonrecurring gains (losses), net in the Consolidated Statement of Operations and Changes in Net Assets.

Nonrecurring gains (losses) are primarily related to natural disaster losses and related insurance proceeds and other recoveries.

#### Amortization

Bond issuance costs, discounts, and premiums are amortized over the term of the bonds or the fixed interest period, if applicable, primarily using a method approximating the effective interest method

#### **Income Taxes**

The member healthcare entities of the System are primarily tax-exempt organizations under Internal Revenue Code Section 501(c)(3) or Section 501(c)(2), and their related income is exempt from federal income tax under Section 501(a). The System accounts for uncertainty in income tax positions by applying a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The System has determined that no material unrecognized tax benefits or liabilities exist as of March 31, 2023.

#### **Contingencies**

Regulatory and legal contingencies are evaluated for risk of loss, and accruals are made when such losses are deemed probable and can be reasonably estimated. Liabilities accrued for professional liability claims include amounts covered by excess insurance, and as such, the Company records a receivable for the expected reimbursement of losses covered by excess insurance at the time liabilities are accrued.

#### Reclassifications

Certain reclassifications were made to prior periods' Consolidated Financial Statements to conform to the March 31, 2023 presentation.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 2. Significant Accounting Policies (continued)

#### **Subsequent Events**

The System evaluates the impact of subsequent events, which are events that occur after the Consolidated Balance Sheet date, but before the Consolidated Financial Statements are issued, for potential recognition or disclosure in the Consolidated Financial Statements as of the Consolidated Balance Sheet date. For the nine months ended March 31, 2023 the System evaluated subsequent events through May 26, 2023, representing the date the Consolidated Financial Statements were issued.

In April 2023, Gulf Coast Health System (GCHS), a wholly owned subsidiary of Ascension, and University of South Alabama Health Care Authority (USAHCA) entered into an agreement whereby GCHS will sell substantially all assets and operations, as well as related clinical and other business associated with, Providence Hospital in Mobile, Alabama to USAHCA This transition is expected to be finalized after all necessary approvals are obtained.

#### 3. COVID-19

Other operating revenue includes amounts the System has recognized associated with U.S. Government COVID-19 legislation funding, for which management continues to monitor compliance of associated terms and conditions. If unable to attest to or comply with current or future terms and conditions, the System's ability to retain some or all of the distributions received may be impacted.

Ascension was advanced approximately \$2,000,000 through the Centers for Medicare and Medicaid Services' Accelerated and Advanced Payment Program in April 2020. All funds have been recouped as of March 31, 2023. At June 30, 2022, \$522,045 was not yet recouped, and was recorded as a current liability.

#### 4. Organizational Changes

#### **Divestitures**

During the nine months ended March 31, 2023 and 2022, Ascension, including certain of its wholly owned subsidiaries, completed the sale of, or undertook actions to sell or transfer ownership of, certain assets and liabilities as follows.

### Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 4. Organizational Changes (continued)

Assets Held for Sale / Sold

Effective September 30, 2022, Ascension completed the sale of certain assets of its outreach laboratory business and transitioned management of hospital-based laboratories in certain markets to Laboratory Corporation of America Holdings. Assets held for sale of approximately \$62,000 were included in other current assets in the Consolidated Balance Sheet at June 30, 2022.

Effective August 1, 2021, Ministry Health Care, Inc., a wholly owned subsidiary of Ascension, completed the transition of its sole membership interest in seven hospitals and related clinical and other business representing substantially all operations in the Northern and Central Wisconsin markets to Aspirus, Inc.

#### Other

Effective April 1, 2022, Ascension and Adventist Health System Sunbelt Healthcare Corporation (AdventHealth), disaffiliated from AMITA Health, the joint operating company which served the healthcare needs of the greater Chicago area from 2015 through March 31, 2022. Beginning April 1, 2022, Ascension operates and continues to consolidate its 15 hospitals and related healthcare facilities in the Chicagoland area separately from AdventHealth.

#### 5. Investment Funds

A significant portion of the System's investments are held within the Investment Funds, with additional investments held by the Ministry Markets and their consolidated foundations outside of the Investment Funds.

#### Alpha Fund

The Alpha Fund is consolidated by the System, and includes the investment interests of the System and noncontrolling Alpha Fund investors.

AIM, a wholly owned subsidiary of the System, serves as the manager and primary investment advisor of the Alpha Fund, overseeing the investment strategies offered to the Alpha Fund's investors. AIM provides expertise in the areas of asset allocation, selection and monitoring of outside investment managers, and risk management.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 5. Investment Funds (continued)

Ascension and the Alpha Fund invest in certain alternative investment funds which include contractual commitments to provide capital contributions during the investment period, which is typically five years and can extend to the end of the fund term. During these contractual periods, investment managers may require capital contributions in accordance with the terms of the agreement.

Commitments not funded during the investment period will expire and remain unfunded. As of March 31, 2023, contractual agreements expire between April 2023 and February 2029. The remaining unfunded capital commitments total approximately \$1,690,000 for 282 individual funds as of March 31, 2023. Due to the uncertainty surrounding whether the contractual commitments will require funding during the contractual period, future minimum payments to meet these commitments cannot be reasonably estimated. These committed amounts are expected to be primarily satisfied by the liquidation of existing investments in the Alpha Fund.

In the normal course of business, the Alpha Fund enters into derivative contracts (derivatives) for trading purposes, following Alpha Fund guidelines. Advisors selected by AIM to manage the Alpha Fund's assets may actively trade futures contracts, options, swaps, forward settling mortgage-backed securities, index-based instruments, and foreign currency forward contracts.

AIM may direct these advisors to execute derivative transactions. These transactions are used to hedge against changes in the interest rates, security prices, currency fluctuations, and other market developments to manage risk or for the purposes of earning additional income. Derivatives are either exchange-traded or over the counter contracts. Exchange-traded derivatives are standard contracts traded on a regulated exchange. Over the counter contracts are private contracts negotiated with counterparties.

At March 31, 2023 and June 30, 2022, the gross notional value of Alpha Fund derivatives outstanding was approximately \$6,250,000 and \$13,344,000, respectively. See the Fair Value Measurements note for discussion of the Alpha Fund derivatives' fair value determination.

The fair value of Alpha Fund derivatives in an asset position was \$114,255 and \$130,625 at March 31, 2023 and June 30, 2022, respectively, while the fair value of Alpha Fund derivatives in a liability position was \$111,085 and \$548,073 at March 31, 2023 and June 30, 2022, respectively. These derivatives are included in long-term investments in the Consolidated Balance Sheets.

### Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 5. Investment Funds (continued)

Due from brokers and due to brokers on the Consolidated Balance Sheets represent the Alpha Fund's positions and amounts due from or to various brokers, primarily for security transactions not yet settled.

#### **Venture Funds**

The Venture Funds are consolidated by the System, and include the investment interests of the System and other noncontrolling limited partners. The general partners of the Venture Funds are wholly owned subsidiaries of AV Holding Company. The Venture Funds invest primarily in equity securities of privately held domestic entities, and are reported at fair value.

#### 6. Cash and Investments

The System's cash and investments are reported in the Consolidated Balance Sheets as presented in the table that follows. Total cash and investments, net, includes the net assets of Investment Funds. Other assets (liabilities), net of the Investment Funds are primarily amounts due from and to brokers. System unrestricted cash and investments, net, represent the System's cash and investments excluding assets limited as to use and the noncontrolling interests of Investment Funds.

	1	March 31, 2023	June 30, 2022			
Cash and cash equivalents	S	757,659	\$ 747,084			
Short-term investments		57,965	70,284			
Long-term investments		20,191,641	22,058,171			
Subtotal		21,007,265	22,875,539			
Investment Funds' other assets (liabilities), net		(8,782)	86,150

Total assets limited as to use		1,644,683	1,492,774			
System unrestricted cash and investments, net	\$	17,044,788	\$ 19,456,279			

# Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 6. Cash and Investments (continued)

The System's composition of cash and cash equivalents, short-term investments and long-term investments, which include certain assets limited as to use, is summarized as follows.

	March 31, 2023	•	June 30, 2022
Cash and cash equivalents and short-term investments	\$ 894,2	48 \$	911,686
Pooled short-term investment funds	492,8	69	917,281
U.S. government, state, municipal and agency obligations	3,476,9	59	4,358,500
Corporate and foreign fixed income securities	1,295,8	67	1,909,257
Asset-backed securities	2,331,5	79	3,129,401
Equity securities	5,549,9	15	4,328,562
Alternative investments and other investments:			
Private equity and real estate funds	4,500,1	76	4,811,569
Private credit and energy funds	1,562,3	27	1,600,318
Hedge funds	717,9	70	835,556
Other investments	185,3	55	73,409
Total alternative investments and other investments	6,965,8	28	7,320,852
Total cash and cash equivalents, short-term investments,			-
and long-term investments	\$ 21,007,2	65 \$	22,875,539

Total investment return includes the System's return on Investment Funds and on certain investments held and managed outside the Investment Funds. System investment return is net of the investment return earned by the noncontrolling interests of the Investment Funds. Investment return recognized by the System for the three months ended March 31, 2023 and 2022, is summarized in the following table.

The three months ended

	The three months chaca					
	March 31,					
		2023		2022		
Interest and dividends	S	126,299	\$	85,487		
Net gains (losses) on investments reported at fair value		605,875		(433,556)		
Restricted investment return and unrealized gains (losses), net		1,583		(9,210)		
Total investment return, net		733,757		(357,279)		
Less Investment Funds' noncontrolling interest return, net		33,442		(46,932)		
System investment return, net	S	700,315	\$	(310,347)		

# Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 6. Cash and Investments (continued)

Investment return recognized by the System for the nine months ended March 31, 2023 and 2022, is summarized in the following table.

	The nine months ended					
		Marcl	31	,		
		2023		2022		
Interest and dividends	\$	308,150	\$	217,918		
Net gains (losses) on investments reported at fair value		(378,377)		501,391		
Restricted investment return and unrealized gains (losses), net		(1,556)		(712)		
Total investment return, net		(71,783)		718,597		
Less Investment Funds' noncontrolling interest return, net		(12,001)		37,999		
System investment return, net	S	(59,782)	\$	680,598		

Total and system investment returns are net of external and direct internal investment expenses.

#### 7. Financial Assets and Liquidity Resources

As of March 31, 2023 and June 30, 2022, respectively, financial assets and liquidity resources available within one year for general expenditure, such as operating expenses, principal payments on debt, and capital expenditures not financed with debt, are as follows:

# Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 7. Financial Assets and Liquidity Resources (continued)

Financial assets:	March 31, 2023	June 30, 2022
Cash and cash equivalents	\$ 757,659	\$ 747,084
Short-term investments	57,965	70,284
Accounts receivable	3,415,271	3,435,376
Due from brokers	112,955	142,075
Other current assets	1,159,304	940,170
Long-term investments	20,191,641	22,058,171
Total financial assets	25,694,795	27,393,160
Less:		
Assets limited as to use and internally designated funds	(1,726,760)	(1,529,771)
Noncontrolling interests of Investment Funds	(2,309,012)	(2,012,636)
Investments with liquidity more than one year	(5,259,702)	(5,511,336)
Total financial assets available within one year	16,399,321	18,339,417
Liquidity resources:	1 000 000	
Unused line(s) of credit	1,000,000	1,000,000
Total financial assets and liquidity resources available		
within one year	\$ 17,399,321	\$ 19,339,417

As part of the System's investment policy, highly liquid investments are held to enhance the System's ability to satisfy liquidity requirements.

#### 8. Fair Value Measurements

The System measures the fair value of assets and liabilities in accordance with FASB ASC 820, Fair Value Measurement. Under ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability at the measurement date. Assets and liabilities reported at fair value are classified and disclosed in one of the following four categories:

Level 1 – Quoted prices (unadjusted) that are readily available in active markets/exchanges for identical assets or liabilities.

### Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 8. Fair Value Measurements (continued)

Level 2 – Pricing inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 pricing inputs include prices quoted for similar assets and liabilities in active markets/exchanges or prices quoted for identical or similar assets and liabilities in markets that are not active. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Significant pricing inputs that are unobservable for the asset or liability, including assets or liabilities for which there is little, if any, market activity for such asset or liability. Inputs to determine the fair value of Level 3 assets and liabilities require management judgment and estimation.

Net Asset Value – Values are based on the calculated net asset value. The calculated net asset values for underlying investments are fair value estimates determined by an external fund manager and other sources based on quoted market prices, operating results, balance sheet stability, growth, and other business and market sector factors.

The System categorizes, for disclosure purposes, assets and liabilities measured at fair value in the Consolidated Financial Statements based upon whether the inputs used to determine their fair values are observable or unobservable. Observable inputs are inputs that are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about pricing the asset or liability based on the best information available in the circumstances.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset's or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement of the asset or liability. The System's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

As of March 31, 2023, and June 30, 2022, the assets and liabilities listed in the fair value hierarchy tables below use the following valuation techniques and inputs:

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 8. Fair Value Measurements (continued)

Cash and Cash Equivalents and Short-Term Investments

Cash and cash equivalents and certain short-term investments include certificates of deposit, whose fair value is based on cost plus accrued interest. Significant observable inputs include security cost, maturity, and relevant short-term interest rates.

Other short-term investments designated as Level 2 investments primarily consist of commercial paper, whose fair value is based on the income approach. Significant observable inputs include security cost, maturity, credit rating, interest rate, and par value.

Pooled Short-Term Investment Funds

The pooled short-term investment fund is a short-term exchange traded money market fund primarily invested in treasury securities.

U. S. Government, State, Municipal, and Agency Obligations

The fair value of investments in U.S. government, state, municipal, and agency obligations is primarily determined using techniques consistent with the income approach. Significant observable inputs include benchmark yields, reported trades, observable broker/dealer quotes, and issuer spreads.

Corporate and Foreign Fixed Income Securities

The fair value of investments in U.S. and international corporate bonds and foreign government bonds is primarily determined using techniques that are consistent with the market approach. Significant observable inputs include benchmark yields, reported trades, observable broker/dealer quotes, issuer spreads, and security-specific characteristics (e.g., such as early redemption options).

Asset-backed Securities

The fair value of U.S. agency, mortgage, and other asset-backed securities is primarily determined using techniques that are consistent with the income approach. Significant observable inputs include prepayment speeds and spreads, benchmark yield curves, volatility measures, and observable broker/dealer quotes.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 8. Fair Value Measurements (continued)

Equity Securities

The fair value of investments in U.S. and international equity securities is primarily determined using techniques that are consistent with the market and income approaches. The values for underlying investments are based on readily available quoted market prices or represent fair value estimates based on market prices, operating results, balance sheet stability, growth, dividend, dividend yield, and other business and market sector fundamentals.

#### Alternative Investments and Other Investments

Alternative investments consist of private equity and other investments. The fair value of private equity is primarily determined using techniques consistent with both the market and income approaches, based on the System's estimates and assumptions in the absence of observable market data. The market approach considers comparable company, comparable transaction, and company-specific information, including but not limited to restrictions on disposition, subsequent purchases of the same or similar securities by other investors, pending mergers or acquisitions, and current financial position and operating results. The income approach considers the projected operating performance of the portfolio company. Other investments include primarily exchange traded commodities and derivative assets and derivative liabilities of the Alpha Fund. Fair values of derivatives are primarily determined using techniques consistent with the market approach. Significant observable inputs to valuation models include the time value of money, counterparty credit risk, interest rates, Treasury yields, volatilities, credit spreads, maturity date, recovery rates, and the current market and contractual prices of the underlying financial instruments

The fair value of hedge funds, private equity funds, private credit and energy funds, and real estate partnerships is primarily determined using net asset values, which approximate fair value, as determined by an external fund manager based on quoted market prices, operating results, balance sheet stability, growth, and other business and market sector fundamentals.

#### Benefit Plan Assets

The fair value of benefit plan assets is based on original investment into a guaranteed fund, plus guaranteed, annuity contract-based interest rates. Significant unobservable inputs to the guaranteed rate include the fair value and average duration of the portfolio of investments underlying annuity contract, the contract value, and the annualized weighted-average yield to maturity of the underlying investment portfolio.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

#### 8. Fair Value Measurements (continued)

Interest Rate Swap Assets and Liabilities

The fair value of interest rate swaps is primarily determined using techniques consistent with the income method. Under the income method, fair values are calculated based on present value of expected future cash flows using discount rates appropriate with risks involved.

Significant observable inputs to valuation models include interest rates, Treasury yields, volatilities, credit spreads, maturity, and recovery rates.

Investments Sold, Not Yet Purchased

The fair value of investments sold, not yet purchased is primarily determined using techniques consistent with the income approach. Significant observable inputs to the income approach include data points for benchmark, constant maturity curves, and spreads.

The following table summarizes fair value measurements, by level, at March 31, 2023, for all financial assets and liabilities measured at fair value on a recurring basis in the System's Consolidated Financial Statements:

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

### 9. Derivative Instruments

As provided for in the System's Master Trust Indenture, the System uses interest rate swap agreements to manage interest rate risk associated with its outstanding debt. These swaps have historically been used to effectively convert interest rates on variable rate bonds to fixed rates and rates on fixed rate bonds to variable rates. At March 31, 2023 and June 30, 2022, the notional values of outstanding interest rate swaps were \$755,040 and \$826,215, respectively.

The System recognizes the fair value of its interest rate swaps in the Consolidated Balance Sheets as assets, recorded in other noncurrent assets, or liabilities, recorded in other noncurrent liabilities, as appropriate. The System does not offset fair value amounts recognized for derivative instruments. The fair value of interest rate swaps in a liability position was \$37,516 and \$57,911 at March 31, 2023 and June 30, 2022, respectively.

The System's interest rate swap agreements include collateral requirements based on specified criteria. No collateral was posted as of March 31, 2023 and June 30, 2022.

The System does not designate its interest rate swaps as hedges, and accordingly, all changes in the fair value of interest rate swaps are recognized in nonoperating gains (losses) in the Consolidated Statements of Operations and Changes in Net Assets.

### 10. Leases

The System is a party to primarily real estate and medical and information technology equipment leases as a lessee and real estate leases as a lessor. Rental escalation clauses or renewal options are factored into the determination of lease payments when appropriate. To determine the present value of lease payments, the System utilizes its incremental borrowing rate at lease commencement when an implicit rate is not available for operating leases. In addition, the System does not separate lease and non-lease components.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

### 10. Leases (continued)

All components of total lease cost are recognized in other operating expenses, excluding interest on finance lease liabilities, which is recognized in interest. The following table provides the total lease cost included in the Consolidated Statement of Operations and Changes in Net Assets:

	Th	The three months ended March 31,				The nine months ended March 31,				
		2023		2022			2023		2022	
Operating lease cost	\$	87,079	\$	84,458	•	\$	260,471	\$	259,417	
Finance lease cost:										
Interest on lease liabilities		713		749			2,147	\$	2,199	
Amortization of right-of-use-asset		710		710			2,129	\$	2,130	
Variable lease cost		15,507		17,559			47,011	\$	48,912	
Total lease cost	\$	104,009	\$	103,476		\$	311,758	\$	312,658	

The weighted average remaining lease terms and the weighted average discount rates at March 31, 2023 and 2022 were as follows:

	March 3	31, 2023	March 31, 2022		
	Operating	Finance	Operating	Finance	
	Leases	Leases	Leases	Leases	
Weighted-average remaining lease term	8.3 years	26.8 years	8.2 years	27.8 years	
Weighted-average discount rate	2.6%	3.3%	2.4%	3.3%	

The following table provides the cash paid for amounts included in the measurement of lease obligations:

	The three months ended March 31,			The	nine months	hs ended March 31,				
		2023		2022		2023		2022		
Operating leases	\$	84,270	\$	83,459	\$	250,103	\$	256,819		
Finance leases		1,038		1,044		3,077		3,051		
Total cash paid	\$	85,308	\$	84,503	\$	253,180	\$	259,870		

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

### 10. Leases (continued)

The following table reconciles undiscounted future operating and finance lease obligations for each of the next five years and thereafter, as of March 31, 2023, to lease obligations recorded on the Consolidated Balance Sheets at March 31, 2023.

	Operating		Finance		
Twelve months ending March 31:		Leases	Leases		Total
2024	\$	279,486	\$	4,188	\$ 283,674
2025		225,534		3,979	229,513
2026		187,484		4,036	191,520
2027		147,592		4,108	151,700
2028		108,650		4,182	112,832
Thereafter		400,987		107,970	508,957
Total future undiscounted lease obligations		1,349,733		128,463	1,478,196
Less: amount of lease payments representing interest		(78,625)		(46,808)	(125,433)
Present value of future lease obligations		1,271,108		81,655	1,352,763
Less: current portion of lease obligations		(264,991)		(1,351)	(266,342)
Long-term lease obligations	\$	1,006,117	\$	80,304	\$ 1,086,421

For leases where the System is a lessor, future minimum noncancelable receipts on operating leases for each of the next five years and thereafter, as of March 31, 2023, are as follows:

	Operating				
Twelve months ending March 31:	I	Leases			
2024	\$	67,462			
2025		53,799			
2026		39,764			
2027		30,633			
2028		24,748			
Thereafter		359,718			
Total	\$	576,124			

Lease income was approximately \$21,000 for both the three months ended March 31, 2023 and 2022. For the nine months ended March 31, 2023 and 2022, lease income was approximately \$65,000 and \$62,000, respectively.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

### 11. Retirement Plans

Certain System entities participate in defined-benefit pension plans (the System Plans), which are noncontributory, defined-benefit pension plans. Certain of these plans are cash balance plans. Benefits are based on each participant's years of service and compensation. Primarily all of the System Plans' assets are invested in the Master Pension Trust (the Trust).

Contributions to the System Plans are based on actuarially determined amounts sufficient to meet the benefits to be paid to participants. As of December 31, 2019, all System Plans were frozen.

The assets of the System Plans are available to pay the benefits of eligible employees and retirees of all participating entities, and consist primarily of short term investments, U.S. government, state, municipal and agency obligations, corporate and foreign fixed income securities, asset-backed securities, equity securities, and alternative investments including private equity funds, real estate funds and hedge funds. In the event entities participating in the System Plans are unable to fulfill their financial obligations under the System Plans, the other participating entities are obligated to do so.

The following table provides the components of net periodic benefit gain for the System included in Other non-operating gains (losses) in the Consolidated Statements of Operations and Changes in Net Assets.

	The three months ended March 31,			-	The nine months ended March 31,			
		2023		2022		2023		2022
Components of net periodic benefit gain:								
Expected return on plan assets	\$	159,790	\$	171,431	\$	479,369	\$	514,294
Interest cost		(100,072)		(73,865)		(300,233)		(221,602)

Amortization of actuarial loss		(23,009)		(37,834)		(69,017)		(113,501)
Net periodic benefit gain	\$	36,706	\$	59,659	\$	110,111	\$	178,972

### 12. Self Insurance Program

Ascension entities are self-insured through a grantor trust and Ascension Health Insurance, LTD. (AHIL), which provides professional liability coverage on a claims-made basis. AHIL provides coverage in excess of a self-insured retention per medical incident/occurrence with no aggregate limit. The grantor trust provides funding for claims within the self-insured retention. The excess coverage provided by AHIL is reinsured by commercial carriers.

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

### 13. Contingencies and Commitments

Ascension, like other healthcare organizations, periodically undergoes investigations or audits by federal, state and local agencies involving compliance with a variety of laws and regulations arising in the ordinary course of business. These investigations generally seek to determine compliance with, among other things, laws and regulations relating to Medicare and Medicaid reimbursement, including billing practice for certain services. To support compliance with these laws and regulations, Ascension maintains a compliance program designed to prevent, proactively detect, and correct potential violations of laws and regulations. Also, the System is periodically involved in litigation arising in the ordinary course of business. In the opinion of management, these investigations and litigation matters are expected to be resolved without a material adverse effect to Ascension's financial position or liquidity.

The System enters into agreements with non-employed physicians that include minimum revenue guarantees. The terms of the guarantees vary. The maximum amount of future payments that the System could be required to make under these guarantees is approximately \$6,900.

The System has entered into Master Service Agreements for information technology services provided by third parties, under which future committed payments of approximately \$685,900 will be made over the next 2 to 5 years.

Guarantees and other commitments represent contingent commitments issued by Ascension Health Alliance Senior and Subordinate Credit Groups, generally to guarantee the performance of an affiliate to a third party in borrowing arrangements such as commercial paper issuances, bond financing, and other transactions. The terms of guarantees are equal to the terms of the related debt, which can be as long as 16 years.

The following represents the remaining guarantees and other commitments of the Senior and Subordinate Credit Groups at March 31, 2023:

St. Vincent de Paul Series 2000 A debt guarantee	\$ 28,300
Other guarantees and commitments	82,089

## Notes to Consolidated Financial Statements (unaudited) (continued) (Dollars in Thousands)

### 14. Functional Expenses

Ascension provides healthcare services, including inpatient, outpatient, ambulatory, long-term care and community-based services. Management support services include administration, finance and accounting, revenue cycle, information technology, public relations, human resources, legal, supply chain, risk management, compliance and other functions. Expenses are allocated to healthcare services and management support services based on the functional department for which they are incurred. Departmental expenses may include various allocations of costs based on direct assignment, expenses or other methods.

Expenses by functional classification for the three months ended March 31, 2023 consist of the following:

	Health care			
	services	services services		
Salaries, wages, and employee benefits	\$ 3,220,515	\$	282,950	\$ 3,503,465

### Notes to Credit Group Financial Statements (unaudited)

(Dollars in Thousands)

### 1. Credit Group Financial Statements

Ascension's Credit Group Financial Statements (CGFS), presented above as of and for the nine months ended March 31, 2023, were prepared in accordance with Section 3.10(b)(2)(c) of the Master Trust Indenture (MTI), which provides that the CGFS (1) shall include all Material Credit Group Members, which represent obligated group members and designated affiliates whose total net assets were equal to or greater than 90% of the consolidated net assets of the Credit Group; (2) at the option of Ascension, as Credit Group Representative, may include one or more Immaterial Affiliates, which are entities whose total net assets were less than 10% of the consolidated net assets of the Credit Group as shown on the CGFS; (3) at the option of Ascension, as Credit Group Representative, may exclude one or more Credit Group Members that are not Material Credit Group Members, as defined above; and (4) shall exclude all entities that are neither Credit Group Members nor Immaterial Affiliates. Consistent with these terms, the CGFS as of and for the nine months ended March 31, 2023 include the results of all Material Credit Group Members and certain Immaterial Affiliates, and exclude the results of certain entities which are not Material Credit Group members as well as entities that are not Credit Group Members, such as Ascension risk entities which oversee Ascension's self-insurance programs, or Immaterial Affiliates.

Ascension's CGFS are not representative of the consolidated results of Ascension.

### 2. Affiliate Transactions

Amounts due to and from affiliates as presented in the Balance Sheet of the CGFS represent intercompany transactions between 1) Material Credit Group Members and Immaterial Affiliates (CGFS Entities) and 2) other entities that are included within the Ascension Consolidated Financial Statements whose results have been excluded from the CGFS (Non CGFS Entities), in accordance with Section 3.10(b)(2)(c) of the MTI as described in Note 1. These transactions are primarily related to centralized cash and debt functions within Ascension. Current Due from and to affiliates on the CGFS Balance Sheet and Transfers (to) from affiliates, net in the CGFS Statement of Operations and Changes in Net Assets primarily relate to payments made by or received from CGFS Entities on behalf of Non CGFS Entities, as well as transfers of certain restricted assets to Non CGFS Entities. Non-current Due from affiliates primarily represents the Non CGFS Entities' portion of Ascension's long-term debt, based on internal centralized debt agreements. These transactions are eliminated in consolidation within the Ascension Consolidated Financial Statements, but separately presented within the CGFS.

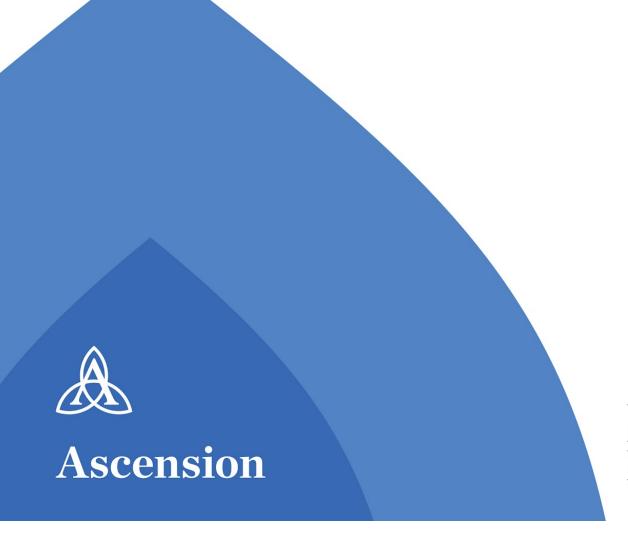

## Notes to Credit Group Financial Statements (unaudited) (continued) (Dollars in Thousands)

### 2. Affiliate Transactions (continued)

Revenue and expense activities, not transacted at arms length, between CGFS Entities and Non CGFS Entities were both \$1,464,000 for the nine months ended March 31, 2023. These transactions include services provided between CGFS Entities and Non CGFS Entities, including, but not limited to, shared service functions, participation in employee and dependent health insurance programs, participation in other risk management programs, participation in a centralized debt management program and other insurance services, and are included in Other Operating Revenue and various expense categories within the Statement of Operations of the CGFS.

# Management's Discussion and Analysis of Financial Condition and Results of Operations for Ascension

As of and for the nine months ended March 31, 2023 and 2022

The following information should be read in conjunction with Ascension's consolidated financial statements and related notes to the consolidated financial statements.

## **Introduction to Management's Discussion and Analysis**

The purpose of Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is to provide a narrative explanation of the financial position and operations of Ascension (the System).

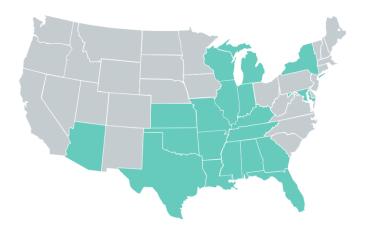

The MD&A includes the following sections:

- Organization and Mission
- Executive Overview
- Organizational Changes
- Select Financial Information

### **Organization and Mission**

Ascension is one of the nation's leading non-profit and Catholic health systems, with a Mission of delivering compassionate, personalized care to all, with special attention to persons living in poverty and those most vulnerable. As of March 31, 2023, the System included approximately 134,000 associates and 34,000 aligned providers, approximately 2,600 sites of care – including 140 hospitals and 39 senior living facilities – in 19 states and the District of Columbia, while providing a variety of healthcare-related services.

The System continues to deliver compassionate, personalized care to all, with special attention to persons living in poverty and those most vulnerable, despite the continued economic challenges experienced during the nine months ended March 31, 2023.

### **Executive Overview**

Similar to other U.S. healthcare providers, Ascension's operations and volumes are stabilizing from the volatility and operational disruptions of the prolonged novel coronavirus (COVID-19) pandemic amidst broader inflationary and recessionary pressures within the U.S. economy. These disruptions have contributed to higher operating costs coupled with sustained revenue challenges. For the nine months ended March 31, 2023 (Q3 FY23 YTD), recurring operating EBIDA was positive despite the continuing challenges. During the three months ended March 31, 2023 (Q3 FY23), Ascension recognized significant one-time non-cash impairment losses that further impacted overall operating performance.

### **Organizational Changes**

Ascension continues to make strategic and purposeful decisions to improve the health of individuals and communities served, engage with consumers in where, when and how they need care, and support the shift to expanded ambulatory and telehealth presence. During the quarter, Ascension created the new role of President and strengthened its operational leadership at both the national and market levels to strengthen hospital operations and ensure sustainability for the future. Additionally, the organization's changes to its portfolio are as follows:

In April 2023, subsequent to March 31, 2023, Gulf Coast Health System (GCHS), a wholly owned subsidiary of Ascension, entered into an agreement to sell substantially all assets and operations, including related clinical and other business associated with Providence Hospital in Mobile, Alabama to the University of South Alabama Health Care Authority. The transition is expected to be finalized once all necessary approvals are obtained.

Effective September 30, 2022, Ascension completed the sale of certain assets of its outreach laboratory business and transitioned management of hospital-based laboratories in certain markets to Laboratory Corporation of America Holdings. This transition supports expansion of laboratory services and implementation of advanced technology, providing for an enhanced consumer experience.

Effective April 1, 2022, Ascension and AdventHealth disaffiliated from AMITA Health, the joint operating company that had served the healthcare needs of the greater Chicago area from 2015 through March 31, 2022. The Ascension Illinois facilities and providers continue to serve healthcare needs in the greater Chicago area.

Effective August 1, 2021, Ministry Health Care, Inc., a wholly owned subsidiary of Ascension, transitioned its sole membership interest in seven hospitals and related clinical and other business, representing substantially all operations in the Northern and Central Wisconsin markets, to Aspirus, Inc.

In addition to optimizing our acute care assets focused on patients with more complex needs, we have and will continue to invest in accelerating growth through our ancillary services and ambulatory networks. One example is the formation of Ascension Rx, building upon our existing retail pharmacies through growth of specialty pharmacy and a nationwide mail order distribution center. Additional investments are also being made in our ambulatory surgery centers, imaging and outpatient physical therapy sites that enhance Ascension's footprint of service offerings and provide greater convenience to consumers.

## **Select Financial Information** (dollars in millions)

### **Consolidated Operations**

Gains (Losses), net

**Operating Margin** 

Income (loss) from Operations

The following table reflects selected financial information on a consolidated basis for the nine months ended March 31, 2023 and 2022.

### Nine months ended March 31,

(716)

\$ (1,772)

(8.3%)

Income (loss) from Recurring Operations	\$ (883)	\$ (959)
Recurring Operating Margin	(4.2%)	(4.7%)
Recurring Operating EBIDA Margin	1.3%	1.0%

Non-GAAP Financial Measures - Ascension has presented its consolidated interim financial statements and supplementary information for quarters ended March 31, 2023 and 2022 in accordance with accounting principles generally accepted in the United States of America (GAAP). Certain financial measures presented herein as part of the operating results have been presented on a non-GAAP basis (e.g., normalized operating performance metrics). Any non-GAAP financial measures are in addition to, not a substitute for, measures of financial performance prepared in accordance with GAAP. Ascension believes the presentation of non-GAAP financial measures provides useful supplementary information to enhance the overall understanding of financial performance.

While the System continues to see measured improvement in volumes across both inpatient and outpatient settings, the reduction in COVID-19 Funding negatively impacted revenue in the current year. Additionally, challenges to expenses continue to persist resulting from the inflationary environment. Ascension remains extremely focused on stewardship consistent with our Mission through the implementation of various economic improvement plans. Despite these industry-wide headwinds, Ascension remains dedicated to

improving the health and well-being of the communities we serve.

### Impairment and Nonrecurring Gains / (Losses), Net

Due to the ongoing industry-wide challenges impacting healthcare providers, business conditions have indicated the carrying value of certain assets within Ascension's Markets may not be fully recoverable. During the nine months ended March 31, 2023, Ascension recognized impairment losses of \$716 million. The FY23 YTD non-cash write-downs are attributable to impairment of long-lived assets within a few of Ascension's Markets.

### **Volume Trends**

For the nine months ended March 31, 2023, the System experienced an increase in overall volume over the prior year, representing the continuing measured recovery of volumes through the stabilization from the pandemic. Ascension's volume improvement was most notable in both total surgical visits, primarily outpatient surgeries, and emergency room visits. Inpatient admissions decreased 2.3% partially attributable to reduced COVID-19 inpatient volumes.

The following table reflects certain key patient volume information, on a consolidated basis, for the nine months ended March 31, 2023 and 2022.

### Nine months ended March 31,

Volume Metrics	2023	2022	Inc/(Dec)
Equivalent Discharges	1,184,479	1,158,202	2.3%
Total Admissions	537,593	550,327	(2.3%)
Surgery Visits (IP)	121,128	119,661	1.2%
Surgery Visits (OP)	325,738	309,737	5.2%
Observation Days	207,077	206,235	0.4%
Emergency Room Visits	2,308,616	2,233,686	3.4%
Urgent Care Visits	274,998	409,617	(32.9%)
Physician Office and Clinic Visits	12,145,736	12,021,994	1.0%

Consistent with industry trends, the System is experiencing a shift from inpatient to outpatient procedures that was accelerated in part during the pandemic. However, for Q3 FY23 YTD, Ascension

experienced moderate increases in several volume metrics over the same period in the prior year as shown in the preceding table. For Q3 FY23 YTD, virtual provider office (VPO) visits were approximately 677,000, representing approximately 6% of physician and clinic visits in the current year, as compared to 7.3% for the comparable period of the prior year.

Urgent care visits decreased 32.9% influenced by lower and less severe COVID-19 infections along with continued greater availability of at-home tests than in the prior year.

Ascension experienced more significant volume growth when comparing Q3 FY23 to the same three month period in the prior year, most notably in outpatient volume categories including outpatient surgeries, physician and clinic visits and emergency room visits. The following table presents key volume statistics, on a consolidated basis, for the three months ended March 31, 2023 and 2022.

### Three months ended March 31,

Volume Metrics	2023	2022	Inc/(Dec)
Equivalent Discharges	386,597	367,002	5.3%
Total Admissions	175,284	174,769	0.3%
Surgery Visits (IP)	39,492	38,984	1.3%
Surgery Visits (OP)	108,663	100,439	8.2%
Observation Days	67,327	67,411	(0.1%)
Emergency Room Visits	730,362	701,001	4.2%
Urgent Care Visits	80,580	118,949	(32.3%)
Physician Office and Clinic Visits	4,065,007	3,953,938	2.8%

### **Total Operating Revenue**

Total operating revenue increased by \$367 million or 1.8% for the nine months ended March 31, 2023 as compared to the same period in the prior year.

For Q3 FY23 YTD, the System's net patient service revenue (NPSR) increased moderately (1.0% overall increase or 1.4% increase on a same facility basis) from Q3 FY22 YTD. NPSR per equivalent discharge decreased 1.2% primarily due to a continued shift to outpatient services as outpatient gross revenue increased to 54.4% for Q3 FY23 YTD as compared to 52.3% for the corresponding nine months in the prior year.

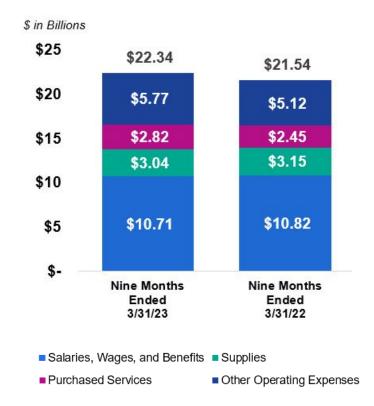

Aside from the previously mentioned overall volume changes and shift to outpatient services, NPSR was impacted by a slight shift in payor mix from commercial and self-pay payors to governmental payors along with reduced inpatient acuity. The System's acute case mix index of 1.83 for Q3 FY23 YTD has declined approximately 1.4% from 1.86 for the comparable period in the prior year as the COVID-19 inpatient census also decreased. Additionally, commercial rates have not kept pace with inflation and have only provided limited relief in mitigating escalating cost pressures.

As part of Ascension's economic improvement plans focused on service line growth, we continue to focus on building service line volumes along with our strategies to strengthen ancillary services and our ambulatory footprint with our Markets. These plans have contributed to the

overall 3.2% increase in NPSR for the quarter ended March 31, 2023 compared to the same quarter in the prior year.

Total other operating revenue increased by \$178 million or 9.4% during the nine months ended March 31, 2023, as compared to the prior year due primarily to gains on sale, net. Other contributors to the increase in other operating revenue were the maturation of our specialty and mail order pharmacy services and insurance plan revenue. Partially offsetting growth in other operating revenue, COVID-19 Funding reported for the nine months ended March 31, 2023 decreased \$288 million from the comparable period in the prior year.

### **Total Operating Expenses**

Total operating expenses increased \$804 million, or 3.7% during the nine months ended March 31, 2023, as compared to the same period in the prior year. Consistent with the overall healthcare provider industry, sustained inflationary pressures have contributed to expense growth in recent periods.

The System experienced a 1.4% increase in cost per equivalent discharge during the nine months ended March 31, 2023 as compared to the nine months ended March 31, 2022, primarily due to inflationary pressures impacting several expense categories.

To counter these pressures, Ascension's economic improvement plans are focused on additional operating

efficiencies and reducing the rate of expense growth to further align with total operating revenue.

Total salaries, wages and benefits decreased \$103 million, or 1.0%, for the nine months ended March 31, 2023. compared to the same period in the prior year. Factors contributing to the decrease included the outsourcing of lab services which began in Q2 FY23. Additionally, since the height of the staffing and labor challenges experienced in FY22, the System's implementation of certain economic improvement plans have focused on stabilization of the workforce and have also contributed to a reduction of agency staffing rates and utilization. The System's average length of stay for Q3 FY23 YTD has also improved 4.0% from the same period in the prior year. Partially offsetting these items, the average hourly wage rate has increased during the nine months ended March 31, 2023 driven by market and other wage adjustments, especially for clinical roles. Additionally, benefits expense increased, reflective of higher health insurance costs for the System's associates and dependents. Ascension remains committed to: 1) attracting, rewarding and retaining the best talent, 2) providing career growth and development, 3) ensuring a culture of inclusion, flexibility and transparency and 4) supporting the transformation of care delivery models for the future.

Supply expenses decreased \$104 million, or 3.3%, during the nine months ended March 31, 2023, as compared to the prior year due primarily to lower pharmaceutical supplies with a lower COVID-19 inpatient census and a decrease in lab supplies with the transition to outsourced lab services beginning in Q2 FY23. Partially offsetting these decreases, the System experienced an increase in surgical and implant supplies associated with increased overall surgeries along with inflationary pricing pressures from vendors due to rising labor, raw material and shipping costs. The overall decrease in supplies is also influenced by Ascension's economic improvement plan initiatives and efforts from The Resource Group to mitigate supply chain disruptions and backorders along with inflationary pressures in the current environment. Additionally for Q3 FY23 YTD, the System experienced increases in purchased services and other operating

increases in purchased services and other operating expenses. Purchased services increased \$369 million, or 15.1%, for the nine months ended March 31, 2023, as compared to the same period in the prior year driven primarily by the transition to outsourced lab services beginning in Q2 FY23 along with the outsourcing of certain IT services that began in the prior year. Other operating expenses (including professional fees, insurance, provider tax, other operating expenses, and depreciation, amortization and interest) increased \$642 million, or 12.5%, for Q3 FY23 YTD as compared to prior year due primarily to an increase in cost of goods sold associated with the increased pharmacy revenue discussed above, along with increases in physician

contracted service fees, insurance expense, provider tax expense, claims expense associated with the increased insurance revenue discussed above, software licenses and maintenance and utility costs.

### **Investment Return**

Substantially all the System's cash and investments are invested in a broadly diversified portfolio that is managed by Ascension Investment Management (AIM), a wholly owned subsidiary of Ascension.

Ascension's total net investment losses reported within Non-operating losses for the nine months ended March 31, 2023 were \$98 million; Ascension's comparable prior year investment income was \$736 million.

Additionally, for Q3 FY23 YTD, Ascension also recognized \$28 million of investment gains associated with the Self-insurance trust fund, reported within Income (loss) from Operations as compared to \$17 million of investment losses for Q3 FY22 YTD.

### **Financial Position**

Ascension's balance sheet and liquidity levels remain strong with sufficient liquidity to continue to provide care for patients, despite the economic challenges resulting from the recent economic conditions including investment market volatility. The following table reflects selected financial information on a consolidated basis.

	3/31/2023	6/30/2022
Current Assets	\$6,221	\$ 6,066
Long-Term Investments*	20,192	22,058
Property and Equipment	10,786	11,424
Other Assets	4,621	4,528
Total Assets	\$ 41,819	\$ 44,076

<sup>\*</sup>Includes assets limited as to use and the noncontrolling interests of Investment Funds.

	3/31/2023	6/30/2022
Current Liabilities	\$ 6,143	\$ 6,727
Long-Term Liabilities	10,035	10,223
Total Liabilities	16,178	16,950
Net Assets	25,641	27,126
Total Liabilities and Net Assets	\$ 41,819	\$ 44,076

### **Financial Assets and Liquidity Resources**

The System's cash and investment position remains appropriate and includes highly liquid investments. Net unrestricted cash and investments were \$17.0 billion at March 31, 2023, which is approximately 41% of the System's total assets. The System's days cash on hand were 219 days as of March 31, 2023, as further discussed in this section.

Additionally, Ascension maintains one line of credit, totalling \$1 billion. As of March 31, 2023, there were no borrowings under the line of credit. The line is committed through November 18, 2024. The System also has access to a \$1.0 billion taxable commercial paper program.

During fiscal year 2020, Ascension applied for and received approximately \$2.0 billion of Medicare Advance Payments. As of December 31, 2022, all Medicare Advance Payments have been repaid. These payments were recorded within long-term investments and current liabilities on the System's Consolidated Balance Sheets as of June 30, 2022. Medicare Advance Payments represented approximately 7 days cash as of June 30, 2022.

In addition, as of June 30, 2022, Ascension had deferred employer payroll tax payments pursuant to the Paycheck Protection Program and Health Care Enhancement Act that represented approximately 2.5 days of cash. These deferred payments have been fully repaid.

### **Balance Sheet Ratios**

	3/31/2023	6/30/2022
Days Cash on Hand	219	259
Net Days in Accounts Receivable	48.4	50.3
Cash-to-Debt	237.8%	267.4%
Total Debt to Capitalization	24.4%	23.2%

Net days in accounts receivable decreased approximately 2 days from 50.3 days at June 30, 2022, to 48.4 days at March 31, 2023 largely attributable to a decrease in certain aged acute and physician accounts receivable balances with increased balances collected along with greater growth in net patient service revenue than accounts receivable.

### Care of Persons Living in Poverty and Community Benefit

Despite our operational challenges, Ascension provided over \$1.6 billion in Care of Persons Living in Poverty and Other Community Benefit Programs for the nine months ended March 31, 2023, supported by our financial position. Through programs, donations, health education, trauma programs, free care and more, the organization's uncompensated care and other community benefits fulfill unmet needs in the communities we serve.

### Care of Persons Living in Poverty and Community Benefit

\$ in millions

The nine months ended The nine months ended March 31, 2023 March 31, 2022

- Traditional Charity Care (I)
- Unpaid Cost of Public Programs (II)
- Other Programs for Persons Living in Poverty (III)
- Other Programs for the General Community (IV)
- Categories I IV as a % of Total Operating Expense

The System experienced a decrease in the unpaid cost of public programs (Category II) as a result of additional reimbursement from changes to state programs in a few Markets, partially offset by higher Medicaid gross charges in certain Markets.

### Consolidated Statistical Information
