DESCRIPTION OF THE BONDS

Authority and Purpose

The Bonds are being issued by the District pursuant to a Resolution to be adopted by the School Board (the “Resolution”) on May 12, 2020, and are authorized to and in full conformity with the Constitution and laws of the State of North Dakota, Sections 21-03-07(7) and Chapter 57-15-16 of the North Dakota Century Code. The District is issuing the Bonds for the purpose of (i) providing funds to remodel and construct an addition to the elementary school and remodel the middle school; and to otherwise improve the school facilities and property.

Security and Source of Payment

The Bonds are valid and binding limited obligations of the District payable solely from the School Building Fund Levy, which may be levied upon all taxable property located in the District at the rate of 20.0 mills. The District’s taxable valuation for taxes payable in 2020 is \$19,391,172 (See “PROPERTY VALUATIONS AND TAXES – Property Valuations”). A 20.0-mill levy based upon this valuation, if collected in full, would produce \$387,823 annually. The projected maximum annual debt service payable from the School Building Fund Levy in the period during which the Bonds will be outstanding including all outstanding debt payable from the School Building Fund Levy is \$186,485 in 2029. Thus the lowest projected debt service coverage under these assumptions is 2.07X. The School Building Fund Levy may not be repealed or discontinued so long as the Bonds or other debt payable from the proceeds of the School Building Fund Levy are outstanding.

North Dakota School District Credit Enhancement Program

The District has elected to participate in the North Dakota School District Credit Enhancement Program (the “Program”). Under the Program, if a school district is unable to make a bond payment, upon receipt of a notice of potential default, the State of North Dakota (the “State”) will make the payment three days prior to the bond payment date from funds due, or payable, or appropriated to the school district under Chapter 15.1-27 of the North Dakota Century Code. To participate in the Program, the District’s school board must adopt a resolution (the “Resolution”) wherein the school district elects to participate in the Program, obligates the school district to be bound by the provisions of Section 6-09.4-23 and authorizes the withholding of state funds as required by the Program. The Resolution must further provide that the election to participate in the Program is irrevocable so long as the evidence of indebtedness enhanced by the Program remains outstanding and unpaid. The Resolution also must require the school district to deposit a bond payment with the paying agent five days before the payment date to the bondholders; certify that the state funds available to the school district under NDCC Chapter 15.1-27 are at least 2 times the maximum annual debt service on the bonds; and provide for an additional bonds test requiring at least 2 times coverage of the maximum annual debt service for all outstanding bonds and subsequent bonds issued under the Program. The maximum annual debt service for all outstanding issues in the credit enhancement program is \$186,485 in the year maturing August 1, 2037. The total state aid due to the District for the 2019-20 school year is \$5,631,454. The state aid provides 30.19 times coverage for the maximum annual debt service of all outstanding bonds in the Program.

Bond Terms

The Bonds are dated May 28, 2020 as the date of original issue. Principal is due on August 1 of the years 2020 through 2039 as presented in the cover of this official statement. Interest on the Bonds is payable semiannually on each February 1 and August 1, commencing August 1, 2020. It will be computed on a 360-day year, 30-day month basis, to the owners of record as of the close of business on the fifteenth day (whether or not a business day) of the immediately preceding month.

Bondholder's Risks

An investment in the Bonds is subject to certain risks. No person should purchase the Bonds unless such person understands the risks described below and is willing to bear those risks. There may be other risks not listed below which may adversely affect the value of the Bonds. In order to identify risk factors and make an informed investment decision, potential investors should be thoroughly familiar with this entire Preliminary Official Statement (including the Appendices hereto) in order to make a judgment as to whether the Bonds are an appropriate investment.

Global Health Emergency Risk: On March 11, 2020, the World Health Organization proclaimed the Coronavirus (COVID-19) to be a pandemic. In an effort to lessen the risk of transmission of COVID-19, the United States government, state governments, local governments and private industries have taken measures to limit social interactions in an effort to limit the spread of COVID-19, affecting business activities and impacting global, state and local commerce and financial markets. The emergence of COVID-19 and the spread thereof is an emerging and evolving issue. As the federal, state, and local governments, including the District, continue efforts to contain and limit the spread COVID-19 disease, future tax and other revenue collections may deviate from historical or anticipated collections and may have an adverse impact on the financial position and operations of the District and its ability to fund debt obligations, including the Bonds in accordance with its terms. The District is not able to predict and makes no representations as to the economic impact of the COVID-19 pandemic on the District or its financial position.

Book-Entry Only System

The information contained in the following paragraphs of this subsection "Book-Entry Only System" has been extracted from a schedule prepared by Depository Trust Company ("DTC") entitled "SAMPLE OFFERING DOCUMENT LANGUAGE DESCRIBING BOOK-ENTRY ONLY ISSUANCE." The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the District believes to be reliable, but the District takes no responsibility for the accuracy thereof.

The information contained in the following paragraphs of this subsection "Book-Entry-Only SYSTEM" has been extracted from a schedule prepared by Depository Trust Company ("DTC") entitled "SAMPLE OFFERING DOCUMENT LANGUAGE DESCRIBING DTC AND BOOK-ENTRY-ONLY ISSUANCE." The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the City believes to be reliable, but the City takes no responsibility for the accuracy thereof.

1. The Depository Trust Company ("DTC"), New York, NY, will act as securities depository for the securities (the "Bonds"). The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership

nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Security certificate will be issued for each of the Bonds, each in the aggregate principal amount of such issue, and will be deposited with DTC.

2. DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

3. Purchases of the Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

4. To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

5. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

6. Redemption notices shall be sent to DTC. If less than all of the Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

7. Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

8. Redemption proceeds, distributions, and dividend payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or Agent, on payable date in

accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, Agent, or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District or Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

9. DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the District or Agent. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

10. The District may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Security certificates will be printed and delivered to DTC.

11. The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that District believes to be reliable, but the District takes no responsibility for the accuracy thereof.

NEITHER THE DISTRICT NOR THE PAYING AGENT WILL HAVE ANY RESPONSIBILITY OR OBLIGATION TO DIRECT PARTICIPANTS, TO INDIRECT PARTICIPANTS, OR TO ANY BENEFICIAL OWNER WITH RESPECT TO (I) THE ACCURACY OF ANY RECORDS MAINTAINED BY DTC, ANY DIRECT PARTICIPANT, OR ANY INDIRECT PARTICIPANT; (II) ANY NOTICE THAT IS PERMITTED OR REQUIRED TO BE GIVEN TO THE OWNERS OF THE BONDS UNDER THE RESOLUTION; (III) THE SELECTION BY DTC OR BY ANY DIRECT PARTICIPANT OR INDIRECT PARTICIPANT OF ANY PERSON TO RECEIVE PAYMENT IN THE EVENT OF A PARTIAL REDEMPTION OF THE BONDS OF A SERIES; (IV) THE PAYMENT BY DTC OR ANY DIRECT PARTICIPANT OR INDIRECT PARTICIPANT OF ANY AMOUNT WITH RESPECT TO THE PRINCIPAL OR REDEMPTION PREMIUM, IF ANY, OR INTEREST DUE WITH RESPECT TO THE BONDS; (V) ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY DTC AS THE OWNER OF BONDS; OR (VI) ANY OTHER MATTER.

Continuing Disclosure

In order to assist the Underwriters in complying with SEC Rule 15c2-12 promulgated by the Securities and Exchange Commission, pursuant to the Securities Exchange Act of 1934 (the "Rule"), the District has agreed for the benefit of the holders and beneficial owners of the Bonds to provide certain financial information and operating data and financial statements relating to the District (the "Annual Report") by not later than 365 days after the end of the fiscal year, commencing with the report for the fiscal year ended June 30, 2020, and to provide notices of the occurrence of certain enumerated events, if material. The Annual Report is to be filed with the MSRB through its Electronic Municipal Market Access system (EMMA) at www.emma.msrb.org. The notices of material events are to be filed with the Municipal Securities Rulemaking Board. The details and terms of the Undertaking, as well as the information to be contained in the annual report or the notices of material events are set forth in the Continuing Disclosure Certificate to be executed and delivered by the District at the time the Bonds are delivered. Such Certificate will be in substantially the form attached hereto as Appendix C.

In the past five years, the District has not entered into any Continuing Disclosure Undertakings under the Rule. A failure by the District to comply with the Undertakings will not constitute an event of default on the Bonds (although holders will have any available remedy at law or in equity). Nevertheless, such a failure must be reported in accordance with the Rule and must be considered by any broker, dealer or municipal securities dealer before recommending the purchase or sale of the Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Bonds and their market price.

District Employees

The District employs 53 full-time equivalent teachers, 4 full-time equivalent administrative personnel, and 39 classified/other full-time equivalent personnel. Organized employees of the District are represented by the Lisbon Education Association.

Collective Bargaining Agreements

The licensed teachers of the school district are covered by the Lisbon School District Negotiated Agreement. This agreement expires on June 30, 2021. No other employee groups are covered by labor agreements.

Pension Plans

Substantially all employees of the District are members of the Teachers' Fund for Retirement ("TFFR") or the North Dakota Public Employees Retirement System ("NDPERS").

Teachers' Fund for Retirement

TFFR is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Member and employer contributions paid to TFFR are set by NDCC Section 15-39.1-09. Every eligible teacher in the State of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC Section 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches a 100% funded ratio on an actuarial basis.

North Dakota Public Employees Retirement System

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the plan is financed through the contributions and investment earnings of the plan.

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of covered compensation. Member contribution rates are 7% and employer contributions rates are 7.12% of covered compensation.

The following tables show the employer's share of net pension liability and contributions for the two pension plans for fiscal year 2017:

PROPERTY VALUATIONS AND TAXES

Property Valuations

The City Assessor's office establishes an estimated market value on all properties. The assessed value is computed at 50% of estimated market value. The taxable value is then computed in the following manner: on residential property the taxable value is 9% of the assessed value; on commercial property the taxable value is 10% of the assessed value. Table 13 shows the market, assessed and taxable values of taxable property in the District for assessment year 2019/collection year 2020. Tax Levies and Collections

After final equalization by assessing authorities in September of each year, the County Auditor calculates mill rates and spreads taxes. The resulting taxes are payable on the following January 1. Taxes are collected by the County in two semiannual installments, and the receipts are distributed by the County to the local government entities. A discount of five percent is given on the tax bill if the entire payment is made by February 15. Discounts given are subtracted from the levy amount by the County Auditor. If taxes are not paid by March 1, a three percent penalty is charged with the penalty being raised on May 1 to six percent, on July 1 to nine percent, and on October 15 to twelve percent.

North Dakota residents over 65 years of age whose income is less than \$42,000 receive a homestead property tax credit. The credit is subtracted from their tax bill. Local government entities are reimbursed by the state for all homestead credits. Therefore, the District, as well as other local government entities, has no loss in tax revenues from the credit.

RATING

Moody's Investors Services, Inc. ("Moody's") has assigned an enhanced rating of "Aa2" based upon the District's participation in the North Dakota School Credit Enhancement Program. A rating reflects only the view of the rating organization or explanations of the significance of such rating may be obtained from the rating agency furnishing the same. There is no assurance that such rating will continue for any given period of time or that it will not be revised downward or withdrawn entirely by such rating agency, if in the judgment of such rating agency circumstances so warrants. Any such downward revision or withdrawal of such rating may have an adverse effect on the market price of the Bonds.

TAX EXEMPTION

The interest on the Bonds is excluded from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals.

Noncompliance by the District following the issuance of the Bonds with its covenants in the resolution under which the Bonds are issued relating to certain continuing requirements of the Internal Revenue Code of 1986 (the "Code") may result in inclusion of interest to be paid on the Bonds in gross income of the recipient for United States income tax purposes.

Interest to be paid on the Bonds is also includable in the computation of alternative minimum taxable income for purposes of the environmental tax imposed by Section 59A of the Code on corporations. In the case of an insurance company subject to the tax imposed by Section 831 of the Code the amount which otherwise would be taken into account as losses incurred under Section 832(b)(5) of the Code must be reduced by an amount equal to fifteen percent of the interest to be paid on the Bonds that is received or accrued during the taxable year. Interest on the Bonds may additionally be included in the income of a foreign corporation for purposes of the branch profits tax imposed by Section 884 of the Code.

The foregoing is not intended to be an exhaustive discussion of collateral tax consequences arising from ownership or disposition of the Bonds or receipt of interest on the Bonds. Prospective purchasers or certificate holders should consult their tax advisors with respect to collateral tax consequences and applicable state and local tax rules in states other than North Dakota.

Bond Premium

The Serial Bonds maturing in the years 2020 through 2027 and the Term Bonds maturing in the years 2029, 2031, and 2033, are being sold at a price greater than the principal amount payable on such Bonds at maturity. Except in the case of dealers, which are subject to special rules, Bond holders who acquire Bonds at a premium, even Bonds that were not initially offered at a premium, must, from time to time, reduce their federal and North Dakota tax bases for the Bonds for purposes of determining gain or loss on the sale or payment of such Bonds. Premium generally is amortized for federal and North Dakota income tax purposes on the basis of a Bond holder's constant yield to maturity or to certain call dates with semiannual compounding. Accordingly, Bond holders who acquire Bonds at a premium might recognize taxable gain upon sale of the Bonds, even if such Bonds are sold for an amount equal to or less than their original cost. Amortized premium is not deductible for federal or North Dakota income tax purposes. Bond holders who acquire Bonds at a premium should consult their tax advisors concerning the calculation of Bond premium and the timing and rate of premium amortization, as well as the state and local tax consequences of owning and selling Bonds acquired at a premium.

QUALIFIED TAX-EXEMPT OBLIGATIONS

The District will designate the Bonds as "qualified tax-exempt obligations" for purposes of Section 265(b)(3) of the Code relating to the ability of financial institutions to deduct from income for federal income tax purposes a portion of the interest expense that is allocable to carrying and acquiring tax-exempt obligations. Sections 265(a)(2) and 291 of the Code impose additional limitations on the deductibility of such interest expense. The District will also represent and covenant that it does not reasonably expect that it or any subordinate entities to it will issue tax-exempt obligations (other than private activity bonds, treating qualified 501(c)(3) bonds as not being private activity bonds) in an aggregate amount greater than \$10,000,000 in 2020.

LEGAL MATTERS

Legal matters incident to the authorization and issuance of the Bonds are subject to the opinion of Arntson Stewart Wegner PC, Fargo, North Dakota, Bond Counsel, as to validity and tax exemption. Bond Counsel has not participated in the preparation of this Official Statement.

MUNICIPAL ADVISOR

The District has retained PFM Financial Advisors LLC, of Minneapolis, Minnesota, as Municipal Advisor (the "Municipal Advisor") in connection with the issuance of the Bonds. In preparing the Official Statement, the Municipal Advisor has relied upon governmental officials, and other sources, who have access to relevant data to provide accurate information for the Official Statement, and the Municipal Advisor has not been engaged, nor has it undertaken, to independently verify the accuracy of such information. The Municipal Advisor is not a public accounting firm and has not been engaged by the District to compile, review, examine or audit any information in the Official Statement in accordance with accounting standards. The Municipal Advisor is an independent advisory firm and is not engaged in the business of underwriting,

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lisbon Public School District No. 19, Lisbon, North Dakota, as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the Lisbon Public School District No. 19's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Lisbon Public School District No. 19, Libson, North Dakota, as of June 30, 2017 and 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the *management's discussion and analysis* that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the *budgetary comparison information, pension schedules and the notes to the required supplementary information* on pages 40-47 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 6, 2018 on our consideration of the Lisbon Public School District No. 19's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Lisbon Public School District No. 19's internal control over financial reporting and compliance.

Total *Fund Balances* for Governmental Funds \$ 2,728,153

Cost of Capital Assets	\$ 11,588,680	
Less Accumulated Depreciation	<u>(3,796,268)</u>	7,792,412

Property taxes receivable will be collected after year-end, but are not available soon enough to pay for the current period's expenditures and therefore are reported as deferred revenues in the funds. 69,817

RECONCILIATION OF GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2017

Net Change in Fund Balances - Total Governmental Funds \$ (479,599)

The change in net position reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay and capital contribution exceeded depreciation expense.

Current Year Capital Outlay	\$ 1,437,551	
Current Year Depreciation Expense	<u>(248,526)</u>	1,189,025

Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is amount of the repayment of debt.

General Obligation Bonds Payments	\$ 20,000	
Capital Lease Proceeds	(94,072)	
Capital Lease Payments	20,215	
State School Construction Loan Payments	<u>19,832</u>	(34,025)

Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in governmental funds.

Decrease in Retainage Payable	\$ 2,430	
Decrease in Compensated Absences Payable	5,075	
Increase in Interest Payable	<u>(115)</u>	7,390

The Net Pension Liability, and related Deferred Outflows of Resources and Deferred Inflows of Resources are reported in the government wide statements; however, activity related to these pension items do not involve current financial resources, and are not reported in the funds.

Increase Net Pension Liability	\$ (1,134,280)	
Increase in Deferred Outflows of Resources	780,294	
Decrease in Deferred Inflows of Resources	<u>77,109</u>	(276,877)

Some revenues reported on the statement of activities are not reported as revenues in the governmental funds since they do not represent available resources to pay current expenditures. This consists of the increase in taxes receivable.

RECONCILIATION OF GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2016

Net Change in Fund Balances - Total Governmental Funds \$ 827,447

The change in net position reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay and capital contribution exceeded depreciation expense.

Current Year Capital Outlay	\$ 180,437	
Capital Contribution	19,550	
Current Year Depreciation Expense	<u>(241,060)</u>	(41,073)

Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is amount of the repayment of debt.

General Obligation Bonds Payments	\$ 15,000	
State School Construction Loan Payments	<u>19,202</u>	34,202

Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in governmental funds.

Increase in Retainage Payable	\$ (2,430)	
Increase in Compensated Absences Payable	(8,708)	
Decrease in Interest Payable	<u>228</u>	(10,910)

The Net Pension Liability, and related Deferred Outflows of Resources and Deferred Inflows of Resources are reported in the government wide statements; however, activity related to these pension items do not involve current financial resources, and are not reported in the funds.

Increase Net Pension Liability	\$ (1,071,828)	
Increase in Deferred Outflows of Resources	767,499	
Decrease in Deferred Inflows of Resources	<u>311,202</u>	6,873

Some revenues reported on the statement of activities are not reported as revenues in the governmental funds since they do not represent available resources to pay current expenditures. This consists of the increase in taxes receivable.

LISBON PUBLIC SCHOOL DISTRICT NO. 19
Lisbon, North Dakota

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017 and 2016

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Lisbon Public School District No. 19, Lisbon, North Dakota, have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

A. Reporting Entity

The accompanying financial statements present the activities of Lisbon Public School District No. 19. The school district has considered all potential component units for which the school district is financially accountable and other organizations for which the nature and significance of their relationships with the school district such that exclusion would cause the school district's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. This criteria includes appointing a voting majority of an organization's governing body and (1) the ability of Lisbon Public School District No. 19 to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on Lisbon Public School District No. 19.

Based on these criteria, there are no component units to be included within the Lisbon Public School District No. 19 reporting entity.

B. Basis of Presentation, Basis of Accounting

Government-wide statements: The statement of net position and the statement of activities display information about the primary government (Lisbon Public School District No. 19). These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, fees and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes and unrestricted state grants operating contributions, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the school district's funds including its fiduciary funds. Separate statements for each fund category—*governmental* and *fiduciary* are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The School District reports the following major governmental funds:

General Fund. This is the school district's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Food Service Fund. This fund is used to account for financial activity related to School District's lunch and breakfast programs. Primary revenue source in this fund is committed federal and state reimbursements and charges for services from food sales.

Capital Projects Fund. This fund is used to account for financial resources to be used for acquisition or construction of major capital facilities.

Debt Service Fund. This fund is used to account for financial resources to be used for payment of long-term debt principal, interest and related costs.

The School District reports the following fiduciary fund types:

Agency Fund. This fund accounts for assets held by the School District in a custodial capacity as an agent on behalf of others. The School District's agency funds are used to account for various deposits of the student activity funds.

Private Purpose Trust Funds. These funds account for assets held by the School District received from private individuals used for scholarships and the school music and arts program.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide and Fiduciary Fund Financial Statements. The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. All revenues are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the School District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the School District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When both restricted and unrestricted resources are available for use, it is the School District's policy to use restricted resources first, then unrestricted resources, as they are needed.

D. Cash and Investments

Cash includes amounts in demand deposits and money market accounts, as well as certificates of deposit with a maturity of 3 months or less. Deposits must either be deposited with the Bank of North Dakota or in other financial institution situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the uninsured balance.

Investments consist of certificates of deposits stated at cost and U.S. government-backed securities stated at fair market value with maturities in excess of 3 months.

E. Capital Assets

Capital assets which include property, plant and equipment are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial, individual cost of \$5,000 or more. Such assets are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is not capitalized.

Capital assets are depreciated using the straight-line method and the following estimated useful lives:

Assets	Years
Permanent Buildings	50 Years
Temporary / Wood Structure Buildings	10 Years
Playground Equipment	20 Years
School Busses / Vehicles	15 Years
Servers / Computer Equipment	5 Years
Copiers	6 Years
Other Equipment	10 Years

F. Compensated Absences

Vested or accumulated sick leave for qualified employees is reported in the government-wide statement of net position. Upon termination of employment with the school district, compensation for unused sick leave earned and available is administered as follows:

Sick leave benefits are earned at the rate of 10 days per year for teachers. Unused sick leave may accumulate to a maximum of 120 days. Employees accumulating sick leave in excess of 120 days as of the end of the school year are reimbursed at a rate equivalent to \$40 per day for all days exceeding 120 days. Employees may carry over a maximum of 120 days of sick leave at each year-end. Upon retirement or resignation, the school district will pay \$30 per day for accumulated sick days for all teachers in good standing with 15 or more years of service to the Lisbon School District.

Sick leave for support staff is accrued at the rate of 10 days per year cumulative to 40 days. The Superintendent, Business Manager, custodians, and office staff accrue sick leave at the rate of 10 days per year cumulative to 120 days. Upon retirement or resignation, the school district will pay \$30 per day for accumulated sick days for all support staff and administrators in good standing with 25 or more years of service to the Lisbon School District.

G. Long-Term Obligations

In the government-wide financial statements, long term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums, discounts and issuance costs are deferred and amortized over the life of the bonds using the straight-line method. If amounts are not material, they are recognized in the current period.

In the fund financial statements, when applicable governmental fund types recognize bond premiums, discounts and issuance costs in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

H. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of the teachers' Fund for Retirement (TFFR) and the North Dakota Public Employees Retirement System (NDPERS), and additions to/deductions from TFFR's and NDPERS' fiduciary net position have been determined on the same basis as they are reported by TFFR and NDPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit term. Investments are reported at fair value.

I. Fund Balances & Net Position

Fund Balance

GASB Statement No. 54 established new fund balance classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints (restrictions or limitations) imposed upon the use of the resources reported in governmental funds.

Fund Balance Spending Policy

It is the policy of the Lisbon Public School District to spend restricted resources first, followed by unrestricted resources. It is also the policy of the Board to spend unrestricted resources of funds in the following order: committed, assigned and then unassigned.

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories listed below.

CLASSIFICATION	DEFINITION	EXAMPLES
Nonspendable	Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.	Inventories, prepaid amounts (expenses), long-term receivables, endowment funds.
Restricted	Fund balance is reported as restricted when constraints are placed on the use of resources that are either (a) Externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments. (b) Imposed by law through constitutional provisions or enabling legislation.	Funds restricted by State Statute, unspent bond proceeds, grants earned but not spent, debt covenants, taxes raised for a specific purpose.

TABLE CONTINUED ON NEXT PAGE....

CONTINUED....

CLASSIFICATION	DEFINITION	EXAMPLES
Committed	A committed fund balance includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the School Board. Formal action is required to be taken to establish, modify or rescind a fund balance commitment.	By board action, construction, claims and judgments, retirements of loans and notes payable, capital expenditures and self-insurance.
Assigned	Assigned fund balances are amounts that are constrained by the government's intent to be used for specific purposes, but are under the direction of the board and the business manager.	By board action, construction, claims and judgments, retirements of loans and notes payable, capital expenditures and self-insurance.
Unassigned	Unassigned fund balance is the lowest classification for the General Fund. This is fund balance that has not been reported in any other classification. (a) The General Fund is the only fund that can report a positive unassigned fund balance; (b) A negative unassigned fund balance may be reported in other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes;	Available for any remaining general fund expenditure.

Lisbon Public School District did not have any non-spendable balances reported in the balance sheet at June 30, 2017 or June 30, 2016.

Restricted Fund Balances – consist of the following items at June 30, 2017 and 2016

Building Fund (major fund – restricted by enabling legislation, tax levy & bond indenture:

- (a) Fund used for construction of building additions and renovation projects – restricted by specified tax levy.

Debt Service Funds (major fund - restricted by enabling legislation - levy)

- (a) Bond payments restricted by bond indenture and specified tax levies reported in the debt service funds – consists of general obligation bonds 1998 Series A, 1998 Series B, and state school construction loans payable.

Committed Fund Balance – consists of the following at June 30, 2017 and 2016:

Food Service Fund (major fund – committed by board action):

- a) Fund used only for Food Service purposes. The governing board committed funds to remain in this fund and used for food service purposes.

Unassigned Fund Balance – consists of the following item at June 30, 2017 and 2016:

General Fund (Major Fund) – Available for any legal purpose used to finance operating expenditures:

- (a) The unassigned fund balance is available to fund all other operating expenditures not already classified in other areas in accordance with governmental accounting standards as promulgated by the Governmental Accounting Standards Board.

Net Position

The Lisbon Public School District implemented the provisions of GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position during the years ended June 30, 2017 and June 30, 2016.

When both restricted and unrestricted resources are available for use, it is the School District's policy to use restricted resources first, then unrestricted resources as they are needed.

Net investment in capital assets is reported for capital assets less accumulated depreciation and any related debt used to construct them. The resources needed to repay this related debt must be provided from other sources, since capital assets are not used to liquidate these liabilities. These assets are not available for future spending.

Restrictions of net position, shown in the Statement of Net Position, are due to restricted tax levies and bond indenture capital construction requirements for capital projects and special purposes.

Unrestricted net position is primarily unrestricted amounts related to the general fund and any negative fund balances. The unrestricted net position is available to meet the district's ongoing obligations.

J. Interfund Transactions

In the governmental fund statements, transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed.

All other interfund transactions, except reimbursements, are reported as transfers.

In the government-wide financial statements, interfund transactions have been eliminated.

NOTE 2: DEPOSITS AND INVESTMENTS

In accordance with North Dakota Statutes, Lisbon Public School District maintains deposits at the depository banks designated by the governing board. All depositories are members of the Federal Reserve System.

Deposits must either be deposited with the Bank of North Dakota or in other financial institution situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the deposits not covered by insurance or bonds.

Authorized collateral includes bills, notes, or bonds issued by the United States government, its agencies or instrumentalities, all bonds and notes guaranteed by the United States government, Federal land bank bonds, bonds, notes, warrants, certificates of indebtedness, insured certificates of deposit, shares of investment companies registered under the Investment Companies Act of 1940, and all other forms of securities issued by the State of North Dakota, its boards, agencies or instrumentalities or by any county, city, township, school district, park district, or other political subdivision of the state of North Dakota. Whether payable from special revenues or supported by the full faith and credit of the issuing body and bonds issued by any other state of the United States or such other securities approved by the banking board.

At year ended June 30, 2017, the school district's carrying amount of deposits was \$2,745,610 and the bank balances were \$2,366,545. Of the bank balances, \$286,754 was covered by Federal Depository Insurance. The remaining bank balances totaling were collateralized with securities held by the pledging financial institution's agent in the government's name.

At year ended June 30, 2016, the school district's carrying amount of deposits was \$3,084,609 and the bank balances were \$3,037,847. Of the bank balances, \$288,856 was covered by Federal Depository. The remaining bank balances totaling were collateralized with securities held by the pledging financial institution's agent in the government's name.

Credit Risk

The school district may invest idle funds as authorized in North Dakota Statutes, as follows:

- (a) Bonds, treasury bills and notes, or other securities that are a direct obligation insured or guaranteed by, the treasury of the United States, or its agencies, instrumentalities, or organizations created by an act of congress.
- (b) Securities sold under agreements to repurchase written by a financial institution in which the underlying securities for the agreement to repurchase are the type listed above.
- (c) Certificates of Deposit fully insured by the federal deposit insurance corporation.
- (d) Obligations of the state.

The school district also had a stock market investment with Bank of New York Shareholder Services for RN Spolum Scholarship fund. As of June 30, 2017 and 2016, the market share of this investment was \$22,645 and \$21,842 respectively.

Interest Rate Risk

The School District does not have a formal deposit policy that limits maturities as a means of managing exposure to fair-value losses arising from increasing interest rates.

Concentration of Credit Risk

The school does not have a limit on the amount it may invest in any one issuer.

NOTE 3: INTERGOVERNMENTAL RECEIVABLE

Intergovernmental receivables consist of reimbursements due for expenses in the operation of various school programs. These amounts consist of a mix of State and Federal dollars.

NOTE 4: DUE FROM COUNTY

Due from county represents the amount of taxes collected prior to year-end by Ransom County that remain on hand at the county that are distributed to the school district shortly after June 30, 2017 and 2016.

NOTE 5: TAXES RECEIVABLE

The taxes receivable represents the past three years of uncollected current and delinquent taxes. No allowance has been established for uncollectible taxes receivable.

The county treasurer acts as an agent to collect property taxes levied in the county for all taxing authorities. Any material tax collections are distributed after the end of each month.

Property taxes are levied as of January 1. The property taxes attach as an enforceable lien on property on January 1 and may be paid in two installments. The first installment includes one-half of the real estate taxes and all the special assessments and the second installment is the balance of the real estate taxes. The first installment is due by March 1 and the second installment is due by October 15. A 5% discount on property taxes is allowed if all taxes and special assessments are paid by February 15. After the due dates, the bill becomes delinquent and penalties are assessed.

Most property owners choose to pay property taxes and special assessments in a single payment on or before February 15 and receive the discount on the property taxes.

NOTE 13: PENSION PLANS

North Dakota Teachers' Fund for Retirement TFFR

General Information about the TFFR Pension Plan

The following brief description of TFFR is provided for general information purposes only. Participants should refer to NDCC Chapter 15-39.1 for more complete information.

TFFR is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The TFFR Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contribution rates.

Pension Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathers members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

Tier 1 Grandfathered

A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or the sum of age and years of service credit equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 1 Non-grandfathered

A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 2

A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member’s designated beneficiary. If a member’s death occurs before retirement, the benefit options available are determined by the member’s vesting status prior to death. If a member’s death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting 12 months or more does not allow the continuation of teaching, (b) the member has accumulated five years of service credited service in North Dakota, and (c) the Board of trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC Section 15-39.1-10 without consideration of age and uses the member’s actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Member and Employer Contributions

Member and employer contributions paid to TFFR are set by NDCC Section 15-39.1-09. Every eligible teacher in the State of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC Section 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher’s salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches a 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% interest or defer payment until eligible for pension benefits. A non-vested member who terminates covered employment must claim a refund of contributions paid before age 70½. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstances, as defined by the NDCC.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Inflows of Resources Related to Pensions

At June 30, 2017 and 2016, the Lisbon Public School District reported a liability of \$7,849,272 and \$6,866,384, respectively, for its proportionate share of net pension liability. The net pension liability was measured as of July 1, 2016 for FY2017 and July 1, 2015 for FY2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The district’s proportion of the net pension liability was based on the district’s share of covered payroll in the pension plan relative to the covered payroll of all participating TFFR employers. At July 1, 2016 and 2015, the district’s proportion was 0.535765 percent and .525011 percent, respectively, an increase of .010754 percent.

For the year ended June 30, 2017 and 2016, the district recognized pension expense of \$700,680 and \$406,542 respectively. At June 30, 2017 and 2016, the district reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

June 30, 2017	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 37,072	\$ 37,164

District Contributions Subsequent to the Measurement Date	409,019	-
Total	\$ 1,224,991	\$ 371,155

\$413,371 reported as deferred outflows of resources related to pensions resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows.

2018	\$	211,116
2019		211,116
2020		370,553
2021		220,729
2022		95,605
Thereafter		11,735

Actuarial Assumptions

The total pension liability in the July 1, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary Increases	4.25% to 14.50%, varying by service, including inflation and productivity
Investment Rate of Return	7.75%, net of investment expenses
Cost-of-Living Adjustments	None

For active and inactive members, mortality rates were based on the RP-2014 Employee Mortality Table, projected generationally using scale MP-2014. For healthy retirees, mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table set back one year, multiplied by 50% for ages under 75 and grading up to 100% by age 80, projected generationally using scale MP-2014. For disabled retirees, mortality rates were based on the RP-2014 Disabled Mortality Table set forward four years.

The actuarial assumptions used were based on the results of an actuarial experience study dated April 30, 2015. They are the same as the assumptions used in the July 1, 2016 funding actuarial valuation for TFFR.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equities	58%	7.30%
Global Fixed Income	23%	.88%
Global Real Assets	18%	5.32%
Cash Equivalents	1%	0.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2016. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2016, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of June 30, 2016. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2016.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount rate.

The following presents the district's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the district's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate.

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
June 30, 2017			
District's Proportionate Share of the Net Pension Liability	\$ 10,181,095	\$ 7,849,272	\$ 5,907,083

	1% Decrease (7%)	Current Discount Rate (8%)	1% Increase (9%)

North Dakota Public Employees Retirement System (Main System)

General Information about the NDPERS Pension Plan

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDCC Chapter 54-52 for more complete information.

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the plan is financed through the contributions and investment earnings of the plan.

Responsibility for administration of the NDPERS defined benefit pension plan is assigned to a Board comprised of seven members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system; and one member elected by the retired public employees. Effective July 1, 2015, the board was expanded to include two members of the legislative assembly appointed by the chairman of the legislative management.

Pension Benefits

Benefits are set by statute. NDPERS has no provision or policies with respect to automatic and ad hoc post-retirement benefit increases. Members of the Main System are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016 the Rule of 85 will be replaced with the Rule of 90 with a minimum age of 60. The monthly pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 55-64 with three or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than three years of service for the Main System, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than three years of credited service for the Main System, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the member's accrued normal retirement benefit, or monthly payments in an amount equal to the member's accrued 100% Joint and Survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days of service, receive monthly disability equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition of disabled is set by the NDPERS in the North Dakota Administrative Code.

Refunds of Member Account Balance

Upon termination, if a member of the Main System is not vested (is not 65 or does not have three years of service), they will receive the accumulated member contributions and vested employer contributions, plus interest, or may elect to receive this amount at a later date. If the member has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated member contribution and is subsequently re-employed, they have the option of repurchasing their previous service.

Member and Employer Contributions

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of covered compensation. Member contribution rates are 7% and employer contributions rates are 7.12% of covered compensation.

The member's account balance includes the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. The minimum member contribution is \$25 and the maximum may not exceed the following:

1 to 12 months of service	Greater of one percent of monthly salary or \$25
13 to 24 months of service	Greater of two percent of monthly salary or \$25

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017 and 2016, the Lisbon Public School District reported a liability of \$612,291 and \$460,899, respectively, for its proportionate share of net pension liability. The net pension liability was measured as of July 1, 2016 and 2015 respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The district's proportion of the net pension liability was based on the district's share of covered payroll in the main system pension plan relative to the covered payroll of all participating main system employers. At July 1, 2016 and 2015, the district's proportion was 0.062825 percent and 0.067781 percent respectively, a decrease of .004956 percent.

For the year ended June 30, 2017 and 2016, the district recognized pension expense of \$72,443 and \$41,337 respectively. At June 30, 2017 and 2016, the district reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

June 30, 2017	Deferred Outflows of Resources	Deferred Inflows of Resources

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows.

2018	\$ 74,415

2021	30,532

Actuarial Assumptions

The total pension liability in the July 1, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.50%
Salary Increases	4.50% per annum
Investment Rate of Return	8.00%, net of investment expenses
Cost-of-Living Adjustments	None

For active members, inactive members and healthy retirees, mortality rates were based on the RP-2000 Combined Healthy Mortality Table with ages set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates are based on the RP-2000 Disabled Retiree Mortality Table set back one year for males (not setback for females) multiplied by 125%.

The actuarial assumptions used were based on the results of an actuarial experience study completed in 2015. They are the same as the assumptions used in the July 1, 2016 funding actuarial valuation for NDPERS.

As a result of the 2015 actuarial experience study, the NDPERS Board adopted several changes to the actuarial assumptions effective July 1, 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund’s target asset allocation are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	31%	6.90%
International Equity	21%	7.55%
Private Equity	5%	11.30%
Domestic Fixed Income	17%	1.52%
International Fixed Income	5%	.45%
Global Real Assets	20%	5.38%
Cash Equivalents	1%	0.00%

Discount Rate

The discount rate used to measure the total pension liability was 8 percent as of June 30, 2016 and 2015. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2016, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of June 30, 2016. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2016.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount rate.

The following presents the district’s proportionate share of the net pension liability calculated using the discount rate of 8 percent, as well as what the district’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7 percent) or 1-percentage-point higher (9 percent) than the current rate.

	1% Decrease (7%)	Current Discount Rate (8%)	1% Increase (9%)
June 30, 2017			
District’s Proportionate Share of the Net Pension Liability	\$ 868,523	\$ 612,291	\$ 396,402

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

School Board
Lisbon Public School District No. 19
Lisbon, North Dakota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lisbon Public School District No. 19, Lisbon, North Dakota, as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the Lisbon Public School District No. 19's basic financial statements, and have issued our report thereon dated February 6, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lisbon Public School District No. 19's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lisbon Public School District No. 19's internal control. Accordingly, we do not express an opinion on the effectiveness of Lisbon Public School District No. 19's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify one deficiency in internal control, described in the accompanying *schedule of findings and questioned costs* that we consider to be a significant deficiency [2017-001].

LISBON PUBLIC SCHOOL DISTRICT NO. 19

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* - Continued

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lisbon Public School District No. 19's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Lisbon Public School District's Response to Findings

Lisbon Public School District No. 19's response to the finding identified in our audit is described in the accompanying *schedule of findings and questioned costs*. Lisbon Public School District No. 19's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Section II - Financial Statement Findings

2017-001 – Lack of Segregation of Duties

Condition:

The Lisbon Public School District has one business manager responsible for the primary accounting functions. A lack of segregation of duties exists as one employee is responsible to collect monies, issue checks, send checks to vendors, record receipts and disbursements in journals, maintain the general ledger, perform bank reconciliations, and prepare financial statements.

Effect:

The lack of segregation of duties increases the risk of fraud and the risk of misstatement of the school district’s financial condition whether due to error of fraud.

Cause:

Due to the client’s size, complexity, organizational structure and the economic realities Lisbon Public School District faces, it is presently not economically feasible to have more than one person responsible for the accounting functions.

Criteria:

Proper internal control surrounding custody of assets, the recording of transactions, reconciling bank accounts and preparation of financial statements dictates that there should be sufficient accounting personnel so duties of employees are properly segregated. The segregation of duties would provide better control over the assets of the Lisbon Public School District.

Recommendation:

Due to the size, complexity and the economic realities of the Lisbon Public School District, it is presently not feasible to obtain proper separation of duties. We recommend that if it becomes feasible to segregate duties in the future, that duties are segregated to the extent possible to reduce the potential risk of loss.

Views of Responsible Officials:

We concur there is inadequate segregation of duties. Given the number of employees and the size of the school district, it would be difficult to further segregate duties.

Lisbon Public School District No. 19
Lisbon, North Dakota

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lisbon Public School District No. 19, Lisbon, North Dakota, as of and for the years ended June 30, 2017 and 2016, which collectively comprise the Lisbon Public School District No. 19's basic financial statements and have issued our report thereon dated February 6, 2018. Professional standards require that we provide you with the following information related to our audit.

OUR RESPONSIBILITY UNDER AUDITING STANDARDS GENERALLY ACCEPTED IN THE UNITED STATES OF AMERICA, GOVERNMENT AUDITING STANDARDS

As stated in our engagement letter dated January 8, 2018, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance about whether the financial statements are free of material misstatement. Because of the concept of reasonable assurance and because we did not perform a detailed examination of all transactions, there is a risk that material errors or fraud may exist and not be detected by us.

In planning and performing our audit, we considered the Lisbon Public School District No. 19's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting.

As part of obtaining reasonable assurance about whether Lisbon Public School District No. 19's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit.

SIGNIFICANT ACCOUNTING POLICIES/QUALITATIVE ASPECTS OF ACCOUNTING PRACTICES

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Lisbon Public School District No. 19 are described in Note 1 to the financial statements. Application of existing policies was not changed during the years ended June 30, 2017 and June 30, 2016. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements presented by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements is useful lives of capital assets.

CORRECTED AND UNCORRECTED MISSTATEMENTS

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and report them to the appropriate level of management. Management has corrected all such misstatements. The schedules below titled "Audit Adjustments" lists all misstatements detected as a result of audit procedures were corrected by management.

AUDIT ADJUSTMENTS

	<u>FY2017</u>	<u>FY2016</u>
Due From County	209,335	67,534
Commodities	25,558	30,897
Revenues	234,893	98,431
Expenditures	78,517	133,471
Payables	52,959	102,574
Commodities	25,558	30,897

DISAGREEMENTS WITH MANAGEMENT

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, or reporting matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

MANAGEMENT REPRESENTATIONS

We have requested certain representations from management that are included in the management representation letter dated February 6, 2018.

MANAGEMENT CONSULTATIONS WITH OTHER INDEPENDENT ACCOUNTANTS

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a second opinion on certain situations. If a consultation involves application of an accounting principle to the county's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

DIFFICULTIES ENCOUNTERED IN PERFORMING THE AUDIT

We encountered no significant difficulties in dealing with management in performing and completing our audit.

OTHER AUDIT FINDINGS OR ISSUES

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the Board of Education and management of the Lisbon Public School District No. 19, Lisbon, North Dakota and should not be used for any other purpose. However, this report is a matter of public record, and its distribution is not limited. We would be happy to meet with you and any member of your staff to discuss any of the items in this letter in more detail if you so desire.

Thank you and the employees of the Lisbon Public School District No. 19 for the courteous and friendly assistance we received during the course of our audit. It is a pleasure for us to be able to serve the Lisbon Public School District No. 19.

Limited Tax Building Fund Bonds
Series 2020

We have acted as Bond Counsel to Lisbon Public School District No. 19, Ransom County, North Dakota (the “Issuer”), in connection with the issuance of its \$3,000,000 Limited Tax Building Fund Bonds, Series 2020, dated the date hereof (the “Bonds”). We have examined the law and such certified proceedings and other papers as we deem necessary to render this opinion.

As to questions of fact material to our opinion, we have relied upon the certified proceedings and other certifications of public officials furnished to us without undertaking to verify such facts by independent investigation.

We have not been engaged or undertaken to review the accuracy, completeness, or sufficiency of the Official Statement or other offering material relating to the Bonds (except to the extent, if any, stated in the Official Statement) and we express no opinion relating thereto (excepting only the matters set forth as our opinion in the Official Statement).

Based on our examination, we are of the opinion, as of the date hereof and under existing law, as follows:

1. The Bonds are valid and binding obligations of the Issuer and have been designated by the Issuer as “qualified tax-exempt obligations” within the meaning of Section 265(b)(3) of the Internal Revenue Code of 1986, as amended.

Lisbon Public School District No. 19
Piper Sandler & Co.
May 28, 2020
Page 2

2. The Bonds, unless paid from other sources, are payable as to both principal and interest from the 2020 Limited Tax Building Fund Bonds Bond Fund to which the Issuer has irrevocably pledged that portion of the tax levies authorized by Section 57-15-16 of the North Dakota Century Code (School Building Fund Levy) necessary for such principal and interest payments. The Bonds are payable solely from the School Building Fund Levy.

3. The interest on the Bonds is excluded from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals. The opinion set forth in the preceding sentence is subject to the condition that the Issuer comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied subsequent to the issuance of the Bonds in order that interest thereon be, or continue to be, excluded from gross income for federal income tax purposes. The Issuer has covenanted to comply with each such requirement. Failure to comply with certain of such requirements may cause the inclusion of interest on the Bonds in gross income for federal income tax purposes to be retroactive to the date of issuance of the Bonds. We express no opinion regarding other federal tax consequences arising with respect to the Bonds.

4. The interest on the Bonds is excluded from gross income for State of North Dakota income tax purposes.

It is to be understood that the rights of the holders of the Bonds, and the enforceability thereof, may be subject to bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable and that their enforcement may be subject to the exercise of judicial discretion in appropriate cases.

Sincerely,

ARNTSON STEWART WEGNER PC
